

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

ELEVENTH ANNUAL REPORT
OF THE
State Corporation Commission

RICHMOND, VA., December 31, 1913.

To the Honorable WM. HODGES MANN,
Governor of Virginia.

SIR:

We have the honor to transmit herewith the eleventh annual report of the State Corporation Commission for the year 1913, together with the documents deemed pertinent thereto.

The report will be found to contain the rules of practice and procedure; certain formal orders and opinions; list of charters revoked and annulled and corporations dissolved during 1913; the Chief Bank Examiner's report for the year; list of charters, amendments, mergers and revivals of charters; foreign corporations authorized to do business in Virginia during the year; assessments of the property and franchises of the public service corporations; rules and regulations relating to storage, demurrage and car service in Virginia; regulations for the transportation of explosives; Virginia Classification No. 1 and exception sheets thereto; mileage class and commodity rates applicable to steam railroads in Virginia, which include both freight and passenger rates; tariffs, rules and classifications governing express companies; and rates of telegraph companies.

An appendix separately bound will contain the operating reports of railroad companies and statistical tables compiled therefrom.

The report of the Bureau of Insurance is also separately bound.

The authority of the Commission has been invoked in formal proceedings in various matters over which it has jurisdiction during the past year, and the orders and opinions in such proceedings may be found on pages five to ninety-five of this volume. As indicative of the variety of subjects considered by the Commission during the past year it will be seen that these formal proceedings refer to licenses to foreign corporations to do business in this State, railway stations and facilities, railway crossings, physical connections between railroads, side track facilities, freight and passenger rates, taxation of rolling stock of railways, condemnation of property of public service corporations, freight rates of steamship companies, service and physical connections between telephone companies, rules against corporations for failure to make reports required by law, receivers for banks, and supervision of the Banking Bureau and the Bureau of Insurance.

These formal proceedings by no means cover all of the work of the Commission. We continue to dispose of a very much larger number of complaints against railroads and other public service corporations by correspondence and conference between the complainants and the officials of the corporation complained of, and as we believe, have thereby, during the past year, accomplished beneficial results more speedily than is possible in formal proceedings, which require written pleadings, the taking of testimony in due form, the rendition of formal judgments and opinions subject to the necessary delays attendant upon such proceedings and to appeals to the Supreme Court of Appeals.

We believe that most of the public service corporations of the State are discharging their duties to the public with reasonable diligence, and that while complaints continue to be numerous not many of them are serious in character and general conditions are good.

RAILROADS.

Expenditures for Additions and Betterments.

We have compiled the following tables from the operating reports of the steam railroads, showing their expenditures in Virginia for additions and betterments during the year ending June 30, 1913:

INTRASTATE STEAM ROADS.

Cape Charles Railroad Company.....	\$ 828.31
Chesapeake Western Railway.....	10,916.77
Interstate Railroad Company.....	476,540.05
Marion and Rye Valley Railway Company.....	1,681.72
Nelson and Albemarle Railway Company.....	425.24
New River, Holston and Western Railroad Company.....	502.77
Norfolk and Portsmouth Belt Line Railroad Company.....	59,807.98
Richmond, Fredericksburg and Potomac Railroad Company..	357,520.56
Rosslyn Connecting Railroad Company.....	242.89
Tidewater and Western Railroad Company.....	5,549.69
Valley Railroad Company of Virginia.....	7,575.53
Virginia-Carolina Railway Company.....	872.62
Washington Southern Railway Company.....	150,202.52
Winchester and Strasburg Railroad Company.....	5,224.28

	\$9,352,537.60	\$38,611,611.41

MINERAL LANDS.

The assessment of mineral lands made under the authority of the Commission by Mr. James A. Stone, assessor, co-operating with the local commissioners of the revenue, continues to produce satisfactory results.

The gross amount of the assessments reported for 1913 being \$36,014,536, the lands being located in 68 counties.

The total increase over the 1912 assessment is \$1,291,618. The total assessment includes certain lands in litigation in Buchanan county assessed at \$4,200,000. When the true ownership of these lands and the disputed boundaries are determined the acreage assessed will be largely reduced, but at present each of the claimants is assessed with the acreage claimed in the litigation.

CHARTERS ISSUED AND AMENDED AND FOREIGN CORPORATIONS LICENSED.

Eight hundred and eighty-three charters were issued during the year 1912.

During the past year (1913) nine hundred and sixty-four charters were issued. In addition to the issuance of original charters the Commission has issued, during the year, two hundred and thirty-one amendments to charters of corporations already in existence. Six charters have been revived and there have been three mergers of corporations.

During the year licenses to do business in this State were issued by the Commission to seventy-eight foreign corporations complying with our statutes, and twenty amendments to charters of such corporations already authorized to do business in the State were filed with the Commission, as required by law.

There have been two hundred and five voluntary dissolutions of corporations during the year, and the charters of three hundred and eighty-nine domestic corporations and the licenses of twenty foreign corporations have been revoked for failure to pay annual registration fees for two successive years. During the year 1913, twenty-eight foreign corporations withdrew from the State.

In the documents accompanying this report it will be seen that charters issued during the year have been classified with reference to the general business to be conducted by the various corporations so as to furnish the information in this respect. Under an alphabetical list of the counties and cities, the number of charters issued having their principal office in the respective counties and cities is given.

The records of this department indicate that there are, on this date, 6,888 domestic and 660 foreign corporations authorized to transact business in the State, a net increase of 362 domestic and 39 foreign corporations during the year.

The total authorized maximum capital stock of new charters, revivals and amendments issued during the year, amounts to \$202,704,801.

ASSESSMENT OF TRANSPORTATION AND TRANSMISSION COMPANIES.

The total value of the physical properties, exclusive of the value of their franchises, of the canals and steam railroads in the State, as assessed by the Commission was \$115,480,123.00. Of this amount, the property of steam railroads amounted to \$115,231,201.00, and the property of canals amounted to \$248,922.00.

The State tax imposed by the revenue laws upon the total assessed value of canals and steam railroads amounted to \$404,180.27.

The franchise tax assessed against these two classes of companies amounted to \$631,136.62.

The total State tax, therefore, against these two classes of companies amounted to \$1,035,316.89. The total State tax assessed against these companies in 1912 was \$949,794.09, showing an increase for 1913 of \$85,522.80.

The total value of the physical property, exclusive of the value of their franchises, of electric railway companies operating in the State, as assessed by the Commission for the year 1913, was \$8,903,055.00.

The State property tax on this assessed value and the franchise tax amounted to \$81,001.67.

The total State tax assessed against electric railways for the year 1912 was \$72,061.76, an increase for 1913 of \$8,939.91.

The total tax derived by the State for the year 1912 from canal, steam and electric railway properties was \$1,021,855.85, the same tax for 1913 was \$1,116,318.56, an increase of \$94,462.71.

The total aggregate value of the properties of telegraph, telephone, steamboat, express and sleeping car companies operating in the State, as assessed by the Commission for the year 1913 was \$5,267,900.67.

The aggregate of the *ad valorem*, license and income tax due the State upon this valuation was \$108,076.70.

The aggregate of the same tax for 1912 was \$100,473.28; an increase for 1913 of \$7,603.42.

Under the act approved February 26, 1910, the values of the property of light, heat, power, gas and water companies operating in the State have been assessed for taxation by the Commission.

For the year 1913 this assessment amounted to \$9,749,846.00. The property tax on this assessed value, together with the franchise tax of one-

half of one per centum of the gross receipts of such corporations, amounted to \$55,787.57, an increase over 1912 of \$9,471.79.

The gross transportation receipts of the steam and electric railroads in the State for the year 1913 amounted to \$68,121,264.89, as against \$60,642,-418.14 for 1912.

The total miles in Virginia of single, second, third and fourth tracks and yard tracks and sidings of steam railroads for the year 1912 was 6,852.10. The total miles of track as compiled from the operating reports of the steam railroads for the year ending June 30, 1913, was 6,856.56, an increase during the year of 4.46 miles.

The total mileage of electric railways for 1913 was 639.98, an increase of 135.95 miles over 1912. Of this amount however, approximately 126 miles was included in reports of steam railroads for the year ending June 30, 1912.

REGISTRATION FEE AND FRANCHISE TAX.

The aggregate of these assessments made by the Commission for the year 1913 is as follows:

Registration fees assessed.....	\$ 78,470.00
Franchise tax assessed.....	196,910.00
	<hr/>
	\$275,380.00

AGGREGATE OF ASSESSMENTS FOR TAXATION MADE BY THE COMMISSION.

The following figures will show the amounts assessed by the Commission, for the year 1913:

Registration fees and general franchise tax.....	\$275,380.00
Franchise tax assessed against canals and railroads.....	680,977.66
Franchise tax assessed against water companies, light, heat and power companies and gas companies.....	21,663.26
	<hr/>
	\$978,020.92

The aggregate amount of these taxes assessed by the Commission for the year 1912 was \$864,629.18.

During the year there was paid into the State treasury for charter fees for the issuing and amending of domestic charters the sum of \$32,823.00; and there was paid charter fees from foreign charters on issuance of licenses to them, by the Commission, the sum of \$18,795.50, the total amount received by the State for charter fees from the domestic and foreign corporations in connection with the charter work of the Commission was \$51,618.50.

The following shows the aggregate for the year 1913 of all State taxes assessed by the Commission, and of the amounts paid into the treasury in connection with the work of the Commission, viz:

Property taxes and franchise taxes assessed against steam railroads and canals.....	\$1,035,316.89
Property taxes and franchise taxes assessed against electric railway companies.....	81,001.67

Property taxes and franchise taxes assessed against steamship companies.....	\$ 10,189.59
Property taxes and franchise taxes assessed against water, heat, light and power companies.....	55,787.57
Property taxes and license taxes assessed against telephone and telegraph companies.....	65,537.12
Property taxes and license taxes assessed against express companies.....	26,823.21
License tax assessed against sleeping, parlor and dining car companies.....	5,526.78
Registration fees and general franchise taxes.....	275,380.00
Paid into the treasury as charter fees upon issuing domestic charters.....	32,823.00
Paid into treasury as charter fees on issuing licenses to foreign corporations.....	18,795.50
Clerical fees, tax on seal, fines, etc., collected and turned into treasury by clerk.....	7,552.32
	<hr/>
	\$1,614,733.65

An increase of \$145,616.89 over 1912.

There has been no change in the personnel of the Commission during the past year.

Respectfully submitted,

ROBERT R. PRENTIS, *Chairman.*

WM. F. RHEA,

J. RICHARD WINGFIELD,

Commissioners.

COMMONWEALTH OF VIRGINIA

STATE CORPORATION COMMISSION

Rules of Practice and Procedure

IN

Cases and Proceedings before the Commission

AMENDED TO JULY 8, 1913

PUBLIC SESSIONS.

1. The regular public sessions of the Commission, sitting as a court, for the hearing of contested cases and matters properly coming before it, will be held at its offices, in the city of Richmond, on the second Monday in January, April, June, September and November in each year. These sessions may be adjourned from time to time, and shall last so long as the business before the Commission and the public interests may require. These sessions may be adjourned, during their respective terms, to any other place in the State, upon order of the Commission, that the public necessity or the convenience of the parties require an adjournment.

Special judicial sessions of the Commission may be held at any time upon order of the Commission, or a majority of its members, in the city of Richmond, or elsewhere in the State, for the hearing of all matters over which the Commission has jurisdiction.

PARTIES.

2. All complaints, proceedings, contests, or controversies before the Commission, shall be instituted in the name of the Commonwealth, as complainant, and the party against whom the complaint is preferred, or the proceeding instituted, shall be the defendant; in all proceedings instituted by the Commission, of its own motion, the complainant shall be, "The Commonwealth at the relation of the State Corporation Commission"; in all other complaints and proceedings instituted by parties, the complainant shall be styled "The Commonwealth at the relation of———."

Any person, firm, corporation or association, or any commercial body, may institute a complaint before the Commission. When instituted by an unincorporated association or mercantile body, the complaint must be in

the name of a committee of not less than two persons on behalf of such association or body.

When the complaint concerns anything done, or omitted to be done, by a single carrier or other corporation, no other need be made a party, but if it relates to joint tariffs, or questions in which two or more carriers or other corporations are interested, all such must be made parties. A complaint may embrace several carriers, or lines of carriers, operated separately, in the same proceeding, when the subject matter of the complaint involves substantially the same violation of the law, or of the rules and regulations of the Commission, by the several carriers or lines. Persons or carriers not originally parties may apply, in any pending case or proceeding, for leave to intervene, and to be heard upon the questions involved. Such application must be by petition, verified by oath, which must set forth the petitioners' interest in the proceeding.

PETITIONS AND COMPLAINTS.

(As amended by order entered July 8, 1913.)

3. All complaints for the redress of alleged grievances or violation of law by the defendant must be in writing and addressed to the Commission. Such petition or complaint must distinctly and plainly set forth the grounds of complaint, the items being numbered, and the petition or complaint must be verified by affidavit. The name of the corporation, or other parties complained against, must be stated in full, and the address of the complainant, with the name and address of his attorney or counsel, if any, must appear upon the petition, when the complaint is made otherwise than on the motion of the Commission. Two copies of such complaint or petition shall be filed therewith, and if there be more than one defendant named therein two additional copies shall be filed for each such additional defendant.

NOTICE.

4. The petition or complaint may be filed before the Commission, or with its clerk, and, thereupon, a notice, in the form of a writ, shall be issued, according to law, by the Clerk, directed to the Bailiff of the Commission or other proper officer, summoning the defendant or defendants to appear before the Commission on the day named therein, which shall be not less than ten days from the filing of the complaint. The said writ and notice and a copy of the complaint shall be served upon the defendant or defendants, and return made according to law.

ANSWERS.

(As amended by order entered July 8, 1913.)

5. Upon the day named in the writ, or notice, the defendant or defendants shall file before the Commission an answer in writing, with two additional copies thereof, specifically admitting, or denying, by items, the material allegations of the complaint, and setting forth the facts which will be relied upon to support any such denial. The answer shall be verified by affidavit, and be signed by the attorney or counsel, if there be such. If

the parties are ready, upon the filing of the answer, the Commission may proceed at once to hear the matter of contest. If either party be not prepared for the hearing, then an adjournment may be had and the day for the hearing fixed, upon the application of either party, in the discretion of the Commission.

Instead of answering the complaint, defendant or defendants may demur to the same, filing a demurrer in writing on the return day together with two additional copies thereof.

AMENDMENTS.

6. Upon the application of any party, amendments to any complaint or answer in any proceeding or investigation may be allowed by the Commission, in its discretion.

STIPULATIONS OR AGREED FACTS.

7. The parties to any complaint or proceeding before the Commission may, by stipulation in writing, filed with the Commission, agree upon the facts, or any portion thereof involved in the controversy, which stipulation shall be recorded and used as evidence on the hearing. It is desired that the facts be thus agreed upon whenever practicable.

HEARINGS.

8. Upon the filing of the answer, the hearing will proceed at once, or the Commission will assign the time and place for the same. Witnesses will be examined orally before the Commission, unless testimony or facts are agreed upon, as otherwise provided in these rules. The petitioner or complainant must prove the existence of the facts complained of unless they are admitted, or the defendants be in default by failing to answer. Facts alleged in the answer must be proved by the defendant or defendants unless admitted by complainant. In cases of failure to answer, the Commission will take such proof of the charge as may be deemed reasonable and proper, and make such order thereon as the circumstances of the case may require.

DEPOSITIONS AND WITNESSES.

9. The testimony of any witness may be taken by deposition, at the instance of a party, in any proceeding or investigation before the Commission after the same is at issue by the filing of the answer. Such depositions must be after notice, and before the officer required and allowed by the statutes of Virginia. Any party, complainant or defendant, shall be entitled to process to compel the attendance of witnesses or the production of books and papers before the Commission. Such process will be issued, for proper service and return, by the Clerk of the Commission, upon application of any party to the proceeding. When depositions are taken they must be returned to the Clerk of the Commission as depositions are required by law to be returned to the clerk of a court of chancery.

ARGUMENT.

10. Whenever requested by the proper authorities, the Attorney-General of the State may represent the complainant in any proceeding.

Arguments may be made orally before the Commission, or written or printed briefs may be filed in any case within such time as may be prescribed by the Commission in such case. For convenience in reading and filing, it is requested that, whenever practicable, in cases of importance, arguments be printed.

SPECIAL MATTERS.

11. In the performance of special functions of a judicial nature, imposed upon it directly by law, and not instituted by any complainant, such as the assessment of property of corporations and other like matters, such notices will be given and proceedings be had as are required by the statutes under which the Commission acts in the performance of such duties.

GENERAL BUSINESS.

(As amended by order entered June 26, 1907.)

12. The offices of the Commission, on the third floor of the capitol building, Richmond, will be opened for the transaction of business on week days from 8 o'clock in the morning until 3 o'clock in the afternoon between the first day of April and the first day of November, and from 9 o'clock in the morning until 3 o'clock in the afternoon, during the rest of the year, Sundays and legal holidays excepted. When the Commission is not in session, applications for charters and all papers to be presented to the Commission, or filed in its offices, may be left with the Clerk. Official communications by mail should be addressed to the "State Corporation Commission," and not to the chairman or any member of the Commission individually.

LEADING MATTERS DISPOSED OF BY FORMAL ORDERS

CASE No. 281.

(See Report 1911, p. 38.)

Commonwealth of Virginia, at the relation of the Attorney General of Virginia,
vs.
American Book Company.

ORDER OF APRIL 23, 1913.

This day came again the parties by their attorneys, and the Commission having maturely considered the evidence and the argument of counsel and being of the opinion, for the reasons stated in writing and filed with the record, that the American Book Company is not doing business in this State in violation of Section 1104 of the Code of Virginia, Pollard's edition, 1904:

Therefore, it is considered by the Commission that the rule heretofore awarded in this proceeding be, and the same is, hereby discharged, and the proceeding ordered to be removed from the docket.

OPINION—PRENTIS, CHAIRMAN.

Upon the motion of the Attorney General of Virginia, who suggested that the American Book Company, a New York corporation, is doing business in this State in violation of sections 1104-5 of the Code, a rule was awarded requiring that company to show cause, if any it could, why it should not be fined for failing to comply with the statutes governing foreign corporations transacting business in this State.

Section 1104, among other things, provides that:

"Every incorporated company doing business in this State shall have an office in the State, at which all claims against the Company due residents of the State may be audited, settled and paid. Every such company incorporated under a jurisdiction beyond the limits of this State (and hereinafter designated as a foreign corporation) shall, before doing business in this State, present to the State Corporation Commission (a) a written power of attorney executed in duplicate, appointing some person residing in this State its agent, upon whom all legal process against the corporation may be served, and who shall be authorized to enter an appearance in its behalf; (b) two duly authenti-

ated copies of the charter of the corporation; and (c) a certificate of the Auditor of Public Accounts, showing the payment into the treasury of the fee required by law to be paid by such corporation, and shall obtain from said Corporation Commission a certificate of authority to transact business in the State. If it shall be made to appear to the State Corporation Commission that said corporation has complied with the law relative to the obtaining of a certificate of authority for foreign corporations of the character of the applicant corporation, then said Corporation Commission shall issue to said corporation a certificate of authority to transact business in the State."

Section 1105, among other things, provides that:

"If any foreign corporation shall transact business in this State without first obtaining such certificate of authority provided for in the preceding section, it shall be fined not less than ten dollars, nor more than one thousand dollars, such fine to be imposed by the State Corporation Commission, whose duty it shall be to see that the provisions of the preceding section are complied with."

The defendant company, on the 9th day of September, 1910, entered into a contract with the Virginia State Board of Education to furnish certain school books at agreed prices for use in the public schools of the Commonwealth.

It is contended for the Commonwealth that this contract is a Virginia contract, and that inasmuch as it provides that the books and publications embraced therein shall be placed and kept by the American Book Company "upon sale and for exchange at points convenient and accessible to the public, in each of the school divisions, counties and cities of the Commonwealth, so that the pupils in all the public high schools in said school divisions, counties and cities may be promptly supplied with said books whenever they may desire to obtain the same," that, therefore, the company must be conclusively presumed to be doing business in this State, that is to say, doing an intrastate business, and hence subject to the laws governing foreign corporations doing business in Virginia.

The issue involved here is whether or not the company, because of this contract, has been doing business in this State which is not protected by the commerce clause of the United States Constitution. We cannot accede to the proposition that there is a conclusive presumption that the defendant is doing business in this State because the contract, has not been so construed by the parties and the contention cannot be sustained, because it appears that section 8 of the contract is as follows:

"8. The party of the second part agrees to observe and comply with the existing laws of this State and the existing regulations adopted by the State Board of Education governing and concerning the use, uniformity and introduction of text books into the public high schools of the State of Virginia."

and section 5 of the "regulations" referred to in that section 8 reads thus:

"5. The several publishing houses having contracts with this Board for the sale and supply of text-books to the public free schools shall keep *or cause to be kept* in each school division of the State a sufficient supply of their publications which have been adopted so that the pupils thereof may conveniently and promptly obtain said books at the retail and exchange prices agreed on between the State Board of Education and said publishing houses."

So that this section 5 of the regulations must be construed to be as effectively a part of the contract between the State Board of Education and the American Book Company as if its express language were embodied therein.

A fair construction of this section 5 makes it plain that the American Book Company may discharge its obligations under that contract if it *causes the books* to be kept in the State so that the pupils may conveniently and promptly obtain them at the prices agreed upon. The contract of 1910 does not differ from the preceding contract of 1908 between the same contracting parties, and it appears that for many years the parties, that is, the State Board of Education and the American Book Company, have construed similar contracts to be fully complied with if the books were sold to and kept by the retail dealers of the State at convenient places in each school district.

We understand it to be admitted that the negotiations of a foreign corporation with the State Board of Education resulting in a contract to buy and supply the school text books do not constitute "doing business" within the State by such corporation within the meaning of the statutes referred to, and this appears to be settled by the following cases:

State v. American Book Company and others, 76 Pac. Rep. p. 411;
Hogan v. City of St. Louis, 176 Missouri, 149.

The defendant company, denying that it has violated the statutes referred to, alleges and proves the following facts: That its course of business has been to enter into contracts with dealers in various localities all over the State by which it agrees to sell to such dealers, and the dealers agree to buy from the defendant and to keep constantly on hand a sufficient supply of said text books for the pupils in the public schools in the respective communities in which said dealers have their places of business and carry on their business as merchants; the dealers agreeing to furnish and deliver such text books to the pupils in such schools as the same shall be required, promptly as needed, at the prices specified in the contract between the defendant and the State Board of Education, and that this method of complying with the contract has never been questioned until questioned by the Attorney General, after the bid of the defendant had been accepted and before the contract of 1910 had been executed. That the books are sold to and billed to said dealers from the place of business of the defendant in New York, at the prices stipulated in the contract between the dealer and the defendant. That the defendant company has neither officer or office, nor place of business, nor plant, nor stock of goods, nor capital invested in the State of Virginia. That on the 31st day of July, 1911, the American Book Company made a contract with the Virginia Book Company, of Richmond, Virginia, a corporation chartered under the laws of this State doing business in the city of Richmond, under

which it sells large quantities of books with view of performing its contract with the State Board of Education, and that the Virginia Company, from its place of business in Richmond, sells to local dealers throughout the State of Virginia the books required to be furnished to the pupils of the State at the retail prices fixed in the contract of the 9th day of September, 1910. This Virginia corporation pays its franchise tax and registration fee as well as a merchant's license tax, and the local dealers in the books are liable for all the taxes imposed by law.

Under these undisputed facts we are clearly of the opinion that the defendant company has not violated the statutes referred to, that it is not doing business in this State within the meaning of those statutes, and that all of its business is interstate commerce, and fully protected by the commerce clause of the Federal Constitution.

There have been many cases decided by the Supreme Court of the United States involving kindred questions, and as we understand and construe those cases, there can be no question as to the correctness of the defendant company's contention. The books are sold in the State of New York, transported in interstate commerce to the Virginia Book Company and other dealers and persons in the State of Virginia, and the title to the property passes from the American Book Company in New York to these dealers and persons in Virginia, the terms of sale being fully agreed upon before the property is brought into this State. If the American Book Company used these Virginia dealers merely as its agents and simply deposited its books with such dealers for sale, retaining title to the property until sold, then it would be perfectly clear that the defendant company would be doing business in Virginia, but as above stated, this is not the method of distributing these books. The method adopted has been described, and corresponds precisely with the great mass of interstate commercial transactions in this country whereby foreign corporations sell their goods, part with title thereto and transport them to their customers in interstate commerce.

It is certainly in the power of the State Board of Education to require all foreign corporations wishing to furnish books for use in the public schools to comply with the law governing foreign corporations as a condition precedent to granting such privilege. So far, however, the State Board of Education has imposed no such conditions upon these corporations, and indeed, have declined to impose such a condition, and have approved the method of distribution adopted by the foreign book companies. Their reason doubtless is that if the State should exact the fees required of foreign corporations doing business in this State the prices of the school books to the school children would be correspondingly increased by the foreign companies furnishing the books. Without undertaking to analyze the cases we refer to the following as sustaining the conclusions here given:

Robbins vs. Shelby County Taxing District, 120 U. S. 480.

Asher vs. Texas, 128 U. S. 129.

We will, therefore, enter the proper order discharging the rule.

Commissioners RHEA and WINGFIELD CONCUR.

CASE No. 290.

Contract between the Commonwealth and its political sub-divisions and the Richmond, Fredericksburg and Potomac Railroad Company.

ORDER OF MARCH 6, 1913.

An original contract dated March 3, 1913, executed in accordance with and by authority of the act entitled, "An Act to provide for the compromise and settlement of certain contentions and differences between the Commonwealth and its political sub-divisions, upon the one part, and the Richmond, Fredericksburg & Potomac Railroad Company, on the other part," approved March 14, 1912, was this day filed to be permanently preserved as a public record and as part of the official archives of the State Corporation Commission.

CASE No. 317.

(See Report 1911, p. 76.)

Commonwealth of Virginia, at the relation of W. P. Parrish, Mayor of the Town of Chatham, Virginia,
vs.

Southern Railway Company.

Station facilities at Chatham.

ORDER OF NOVEMBER 5, 1913.

It appearing to the Commission that the station facilities at Chatham have been enlarged and improved in accordance with the directions of the Commission, and that the object of this proceeding has been accomplished, it is ordered to be removed from the docket.

CASE No. 318.

(See Report 1912, p. 22.)

Commonwealth of Virginia, at the relation of the City of Charlottesville, Virginia,
vs.
Southern Railway Company, and
The Chesapeake and Ohio Railway Company.

Improvement of Station Buildings and Premises at Union Station in Charlottesville.

ORDER OF JANUARY 14, 1913.

The Chesapeake and Ohio Railway Company having been duly summoned according to law, is hereby made a party defendant in this proceeding.

This day came the defendant companies and submitted plans for the enlargement and repair of the present passenger station at Union Station, Charlottesville, and for the re-arrangement of the facilities at and near such station and the paving of the driveways adjacent to such station, for the promotion of the public safety and convenience, which plans are substantially indicated by three blueprints, accompanied by an estimate of the cost of such improvements, all marked "F." Whereupon such plans, which are to include a paved driveway adjacent to such station, are, in general terms, approved; and it is hereby ordered that the defendant companies proceed within thirty (30) days from this date to commence the work of executing the same, and that all of such improvements be completed on or before the first day of June, 1913, subject, however, to the further approval of the Commission as to details during the progress of the work, and to final approval thereof when completed.

All other questions involved in this proceeding are reserved.

ORDER OF JULY 8, 1913.

It being suggested that the defendant companies have failed to obey the order entered in this proceeding on the fourteenth day of January, 1913, requiring the enlargement and repair of the present passenger station at Union Station, Charlottesville, and for the rearrangement of the facilities at and near such station, and to pave the driveways adjacent thereto, it is therefore ordered that rules be, and are, hereby awarded against the Southern Railway Company and The Chesapeake and Ohio Railway Company, returnable at the court room of the Commission in the city of Richmond, at ten o'clock A. M., on Tuesday, July 22nd, 1913, requiring them and each of them to show cause, if any, they, or either of them, can show, why they should not be jointly and severally fined for such their alleged failure to obey such order.

ORDER OF JULY 16, 1913.

This day came The Chesapeake and Ohio Railway Company and filed its answer to the rule issued on the eighth day of July, 1913.

ORDER OF JULY 18, 1913.

This day came Southern Railway Company and filed its answer to the rule issued on the eighth day of July, 1913.

CASE No. 330.

(See Report 1912, p. 34.)

Commonwealth of Virginia, at the relation of D. A. Langhorne, of Albemarle County,

vs.

*Scottsville Telephone Company, a Corporation, and
Albemarle Telephone Company, a Corporation.*

ORDER OF JANUARY 15, 1913.

This day came the parties, plaintiff and defendants, by counsel, and reported to the Commission that matters in controversy, which were the subject of complaint filed in this cause, have been satisfactorily adjusted, and that the schedule of rates and charges filed by both companies meet the grounds of said complaint, and no further hearing appearing to be necessary this cause is ordered dismissed, each party to pay his own costs.

CASE No. 342.

(See Report 1912, p. 41.)

Commonwealth of Virginia, at the relation of J. B. Dowden,

vs.

*Richmond and Rappahannock River Railway Company,
Virginia Railway and Power Company.*

ORDER OF APRIL 1, 1913.

The Commission having considered the evidence and the argument of counsel is of the opinion, for the reasons stated in writing and filed with the record, that the prayer of the petition should be denied.

Therefore, it is considered by the Commission that the petition be, and is, hereby dismissed, and the proceeding is ordered to be removed from the docket.

OPINION—PRENTIS, CHAIRMAN.

For many years the predecessors in title of the Richmond and Rappahannock River Railway Company and the Virginia Railway and Power Company have been issuing transfers to passengers traveling in either direction at Twenty-ninth and P Streets, in the city of Richmond. These transfers entitled the passenger, if coming into the city, to travel upon the cars of the Virginia Railway and Power Company to any point on its line in the city, and if traveling in the other direction to travel to the end of what is now the Richmond and Rappahannock River Railway Company's line about seven miles to Seven Pines.

This controversy arises from the fact that these transfer privileges were withdrawn by the two companies on July 1st, 1912. While thus operating, in January, 1904, the company then owning the entire line gave notice that on and after the first day of February, 1904, no transfers would be issued to passengers traveling to or from the Seven Pines line, that is, the part of the line running from Twenty-ninth and P Streets to Seven Pines. Whereupon a few months thereafter a proceeding was instituted in the name of the Commonwealth, at the relation of William E. Oakley against the railroad companies, the object of which was to prevent the withdrawal of such transfer privileges. The decision of the Commission granting the prayer of the petition is reported under the name of Commonwealth, at the relation of William E. Oakley, against the Virginia Passenger and Power Company, etc., 1904, Part I, page 95.

This decision of the Commission was appealed from by the railway companies and affirmed by the Supreme Court of Appeals.

Virginia Passenger and Power Company, etc., against Commonwealth, 103 Va. 645.

The ground for the decision of the Commission is in the paragraph marked 3 in the decision and order and thus stated:

"3. That by the provisions of the said ordinance of the city of Richmond of December 23, 1899, it was provided in subsection 5 of section 2, among other things, that the Richmond Passenger and Power Company should sell to all passengers, between the hours of 6 A. M. and 7 A. M., tickets at the rate of two for five cents, to be used only between the hours of 6 and 7 A. M., from Monday to Saturday, inclusive, said tickets being commonly known as "Labor Tickets"; and it is further provided in said subsection of said section that each passenger having paid his fare may demand and receive from the conductor of the car upon which he first took passage a transfer ticket, without additional charge, which fare and transfer ticket should entitle such passenger to ride upon such car upon which he has taken passage to the point where the said line intersects with the line to which said passenger desires to be transferred, and after arriving at said point of intersection such passenger may take passage on the line indicated on the said transfer ticket, and on the surrender thereof to the conductor of such car shall be permitted to ride to the end of the last-mentioned line. And it seems to the Commission that *these provisions of the said ordinance constitute a contract binding upon the said company, and with which it is obliged to comply.*"

The Supreme Court of Appeals (Keith, President) in affirming the decision, quoted the entire opinion of the Commission with approval, and used this language by way of supplement thereto:

"It thus appears that, in the view of the Corporation Commission, the railroad companies had assumed contractual obligations with respect to the sale of labor tickets and the giving of transfers in controversy. We think that the construction placed by the Corporation Commission upon the ordinances of the city is a reasonable and proper one, and

this conclusion is greatly strengthened by the fact that it is the construction acted upon by the appellants, commencing a short time after the passage of the ordinances by the city and continuing for about four years, when the railroad companies discontinued the sale of labor tickets and the giving of transfers, which led to the institution of the proceedings before the Corporation Commission."

These proceedings clearly show that the court as well as the Commission refused to permit the withdrawal of the transfer privilege in 1904, because of the opinion that the ordinance of the city of Richmond of December 23rd, 1899, granting the use of its streets to the railway companies and requiring such transfers, constituted a contract between the companies and the city, under which contract it was the duty of the companies to issue such transfers.

Since that time, namely, on February 17th, 1912, and on May 8th, 1912, the councils of the city of Richmond have amended the ordinance of December 23rd, 1899, whereby they undertake to relieve the company from the obligation of the contract above referred to so far as it requires such transfers good for transportation between the city limits and Seven Pines, and plainly intended so to do. The reasons actuating the authorities of the city of Richmond are plainly indicated in these proceedings and are matters of common knowledge in the community. The chief reason actuating the council was the desire to secure the construction of a new line of railroad from Richmond to Urbanna, a distance of about fifty-eight miles, by utilizing such portion of the existing line as seemed proper. The consideration urged upon the council being that the proposed new line of railway would enlarge and increase the trade of Richmond with the people in the town of Urbanna and the intermediate territory.

The question then is whether the companies have been relieved by the 1912 ordinances from the obligations of the contract imposed by the ordinance of December 23rd, 1899.

It is contended on behalf of the petitioner:

"First—That under section 1033-f of the Code of 1904, it was necessary to the validity of the ordinance of February 17th, 1912, that it shall have been preceded by an advertisement once a week for four successive weeks and that the rights thereby granted should have been exposed by the city council to public bidding."

Clause (1) of section 1033-f provides that

"Before granting any franchise, privilege, lease or right of any kind to use any public property, or easement of any description, except in the case of and for a trunk railway, it shall be the duty of the city or town proposing to make the grant to advertise the ordinance proposing to make the grant, after its term shall have been approved by the mayor, or the ordinance passed over the mayor's veto, as in the case of other ordinances, once a week for four successive weeks in a newspaper published in said city or town."

The statute requires also that bids for such franchise shall be invited and considered.

It is admitted that this statute was not complied with, but it is claimed

by the defendant companies that compliance was not necessary because the council, by the ordinances of February 17th and May 3rd, 1912, did not grant any franchise, privilege, lease or right to use public property, or easements of any description.

In this latter contention we fully agree. We think this clear and indisputable from the language of the statute just quoted, as applied to the facts of this case. The ordinances of February 17th and May 3rd, 1912, changed the contract so as to relieve the companies from the obligation of issuing and honoring transfers to and from points on the Seven Pines line outside of the city. They do not grant any franchise or privilege to use the streets of Richmond. The granting of this privilege was contained in the ordinance of December 23rd, 1899, and has continued unimpaired to this time. We think it a mis-use of language to say that the amending ordinances of 1912 contain any grant, but if they do it is a grant to discontinue the use of these transfers upon the cars of these companies at Twenty-ninth and P Streets. We are of opinion not only that it was not necessary to advertise for bids under the ordinances of 1912, but that it would have been impossible to grant to any other person than the defendant companies the privilege of issuing or refusing transfers to passengers traveling on the lines of these companies. If granted to any other person or corporation such a privilege would be absolutely without value, for it could only be exercised by the two companies here involved.

Clause (5) of section 1033-f provides that

"No amendment or extension of any such franchise, right, or privilege that now exists, or that may hereafter be authorized, which extends or enlarges such franchise, right, or privilege, either as to the time during which it is to last or as to the territory in which it is to be enjoyed, shall be granted by any city or town until the provisions of this act shall have been complied with."

It is earnestly contended that the action in 1912 constituted an amendment and an extension of the franchise within the meaning of the clause just quoted. This contention is based upon the idea that the contract as to transfers is an essential part of the easement to occupy the streets. We think that a fair consideration of the subject and a fair construction of the language demonstrate the unsoundness of this view. The thing granted by the city is the right to use the public streets in a manner not permitted to the general public. The conditions under which it may be used certainly may be such as to greatly increase or greatly diminish the value of the easement, but the precise conditions imposed depend upon the will of the grantor, the city. When and if imposed they are incidents of the grant, not essential parts of it.

The language of the statute just quoted seems to us absolutely decisive. The city may not, without first advertising for bids, amend or extend any such franchise, right or privilege either as to the *"time during which it is to last, or as to the territory in which it is to be enjoyed,"* but by plain inference the city councils may amend such franchise, right or privilege in every other respect. The statute, however, does not simply leave the power of the municipal authorities to such plain inference, for immediately after this inhibition as to amendments or extensions this language follows:

"And no amendment that releases the grantee or his assignee from the performance of any duty required by the ordinance granting the franchise, or that authorizes an increase in the charges to be made by such grantee or assignee, for the use by the public of the benefits of such franchise, shall be granted unless and until notice of such proposed amendment shall be given to the public by advertising the proposed amendment for ten days in some newspaper published in the city or town."

Therefore, it seems to us perfectly clear that unless in conflict with some superior law, this statute (which was strictly followed before the amendments of 1912, releasing the companies from the obligation to issue such transfers, were adopted), authorizes any amendment that releases the railway companies from the performance of any duty required by the ordinance granting the franchise or that authorizes an increase in its charges.

It is further contended, however:

"Second—That under section 1294-c of the Code, application should have been made to the Commission, after ten days' publication, for leave to advance the fares on the Seven Pines line and that leave formally obtained." The clause referred to reads as follows:

" '(6) No advance shall be made in the rates, fares and charges which have been established and published as aforesaid, until the same are submitted to and approved by the State Corporation Commission; and when so advanced ten days' public notice thereof shall be given, which shall plainly state the changes made in the schedule then in force, and the time when the increased rates and fares and charges will go into effect; and the proposed changes shall be shown by printing new schedules, or shall be plainly indicated upon the schedules in force at the time, and kept open to public inspection.' "

This statute, however, must be construed in connection with the proviso contained in section 156-b of the Constitution. This is the section which gives this Commission the power and charges it with the duty of supervising and controlling transportation companies in this State, with authority to fix their rates, rules and regulations. This proviso reads as follows:

"Provided, however, that nothing in this section shall impair the right which has heretofore been, or may hereafter be, conferred by law upon the authorities of any city, town or county to prescribe rules, regulations or rates of charge to be observed by any public service corporation in connection with any services performed by it under a municipal or county franchise granted by such city, town or county, so far as such services may be wholly within the limits of the city, town or county granting the franchise."

If there be any conflict between this constitutional provision and the statute, 1294-c (6), of course the constitutional provision is the superior law and must prevail.

We do not, however, think that such a conflict exists. The statute must

be construed to apply to rates which are not lawfully and definitely fixed by contract and which need the approval of this Commission, whereas the rates and transfer privileges here involved are fixed by a municipal ordinance, embodying a definite contract. The matter involved is the exchange of transfers in the city of Richmond, at Twenty-ninth and P Streets, that being the point of connection between the two railway lines. We have here then a contract legally entered into and lawfully modified by the municipal authorities of the city of Richmond, and while the privileges of persons traveling from Seven Pines into the city are thereby curtailed, still these privileges were originally derived from the ordinance of December 23rd, 1899, and without that ordinance could never have been demanded. The ordinance, having been thus amended, the privilege no longer exists.

This Commission has no jurisdiction or power to supervise or annul the action of the city authorities under the circumstances developed in this case. The city councils are by the Constitution vested with legislative discretion when prescribing rules, regulations or rates of charge to be observed by these companies in connection with services performed under the franchise to use the streets of the city granted by the councils, so far as such services are wholly within the limits of the city. The service of the Virginia Railway and Power Company, so far as it relates to the transfers referred to, is performed entirely within the city of Richmond. So far as the service of the Richmond and Rappahannock River Railway Company with reference thereto between the city limits and Seven Pines is concerned, it is undoubtedly true that this Commission has full and complete jurisdiction. This service, however, is so dependent upon the corresponding service of the Virginia Railway and Power Company within the limits of the city that it would be unjust and inequitable to require the Richmond and Rappahannock River Railway Company to accept and honor transfers held by travelers leaving the city when the city council has relieved the Virginia Railway and Power Company from the obligation to accept transfers from travelers entering the city.

Our conclusion, therefore, is that neither contention of the petitioner can be sustained, and that the petition should be dismissed.

In view of the dissenting opinion of our associate we expressly disclaim any purpose to reverse the case of the Commonwealth at the relation of Oakley, against the Virginia Passenger and Power Company, etc., hereinbefore referred to, or to impair its authority in the slightest degree as a precedent. We also expressly disclaim any intent to impair the force of the statute, or to change the practice of the Commission requiring advances in rates by transportation companies to be first submitted to and approved by this Commission.

RHEA, Commissioner, concurs.

WINGFIELD, Commissioner, dissents.

DISSENTING OPINION—COMMISSIONER J. R. WINGFIELD.

Having carefully considered all the papers in evidence before the Commission in this proceeding, and also the case of the Virginia Passenger and Power Company and another against the Commonwealth (Va. Reports 103,

p. 644) and the record and exhibits in said case, I am constrained to dissent from the opinion of my associates, Judges Prentis and Rhea.

The Richmond Railway and Power Company and its predecessor in title had put into effect and maintained for a long time prior to July 1st, 1912, certain rates and fares for passenger travel on the routes mentioned in this proceeding, well understood by their patrons and established for the use of the traveling public.

Sections 6, 7 and 8 of Chapter III of an act entitled, "An Act concerning public service corporations, approved January 18th, 1904," provides that no transportation company shall advance its rates, fares and charges until the same have been submitted to and approved by the State Corporation Commission.

The defendant companies violated this law by advancing the rates, fares and charges as set out in the complaint of the petitioners, and by putting said advances into effect on the first day of July, 1912, without having first obtained the approval of this Commission.

Defendants deny the jurisdiction and authority of the Commission in the premises and in justification attempt to maintain:

First—The jurisdiction and authority of the Commission as asserted in the case referred to (Va. Rep. 103) was derived from the contract made by the Richmond Passenger and Power Company with the council of the city of Richmond and embodied in what is known as the Ordinance of the twenty-third of December, 1899, and that they have since been released by the council of the city of Richmond from the obligations of said contract so far as the same applied to that portion of the Seven Pines Line beyond the corporate limits of the city of Richmond.

It is to be observed that the authority and jurisdiction of this Commission over transportation companies as to rates and charges is conferred by the Constitution of Virginia (see Sec. 156, Clauses (a) and (b)), and by statutes of the State enacted in pursuance of said Constitution. In no sense can it be said to rest upon "contracts" which are enforceable in the ordinary courts of law.

It is true that upon petition by a transportation company to be allowed to advance its rates, if a legal contract executed by said company binding it to maintain a certain rate be set up, the Commission would consider such a circumstance and would hold the Company estopped thereby. It follows, therefore, that the release of the companies from their obligations as to rates and charges imposed by said contract, whether such release be in whole or in part, does not deprive this Commission of its authority and jurisdiction conferred by the Constitution and laws of the State.

Second—Defendants deny the jurisdiction and authority of the Commission on another ground, that under the provisions of the Constitution the council of the city of Richmond has exclusive jurisdiction in the matter of their rates, and rely upon the provisions of the Constitution, Sec. 156 (b) which reads as follows:

"The authority of the Commission to prescribe rates, charges and classifications of traffic for transportation and transmission companies shall be paramount; but its authority to prescribe any other rules, regulations or requirements for corporations or other persons shall be

subject to the superior authority of the General Assembly to legislate thereon by general laws; provided, however, that nothing in this section shall impair the right which has heretofore been or may hereafter be, conferred by law upon the authorities of any city, town or county to prescribe rules, regulations or rates of charge to be observed by any public service corporation in connection with any service performed by it under a municipal or county franchise granted by such city, town or county, so far as such service may be wholly within the limits of the city, town or county granting the franchise."

It will be observed that two exceptions are made to the "paramount" authority of the Commission, both dependent upon legislative action. There is reserved to the General Assembly the power to establish other rules, regulations or requirements for corporations or other persons. Under this reservation the Legislature enacted the law which governs this Commission that "no transportation company shall advance its rates, fares and charges until the same have been submitted to and approved by the State Corporation Commission."

The second exception relates to the right conferred by law upon the authorities of any city, or county to prescribe rules, regulations or rates of charge to be observed by the public service corporations referred to. The expression "right conferred by law" necessarily means some act of the General Assembly, because all city charters and grants of power to municipal authorities must be by act of the General Assembly. In order to avail themselves of this last exception the defendant companies must show two things:

First—That they and their predecessors in title have operated and performed their services under a municipal or county franchise;

Second—That the services performed are wholly within the limits of the city or county granting the franchise.

As a matter of fact the defendant companies and their predecessors in title have operated under State charters granted either by the General Assembly or by this Commission;

The Richmond and Rappahannock River Railway Company under charter of this Commission, granted second of April, 1912;

The Virginia Railway and Power Company by charter dated June 29th, 1909.

The Virginia Passenger and Power Company was formed by consolidation on the thirtieth of December, 1901, of the Southside Railway and Development Company, which was chartered by the General Assembly March 3rd, 1898, and the Virginia Internal Improvement Company, by act of General Assembly approved February 9th, 1901:

The Richmond Passenger and Power Company was chartered by act of the General Assembly approved March 2nd, 1900.

All of these companies, with the exception of the Virginia Passenger and Power Company, performed a continuous service, in two political subdivisions, to-wit: Richmond city and the county of Henrico, which, for want of a better expression, may be designed as an interurban service.

Said companies located their lines in the streets of the city of Richmond and in the public highways of the county of Henrico under contracts allowing them to do so obtained from the council of the city of Richmond and the county court of Henrico.

More detailed statement is needed in regard to the Richmond Passenger and Power Company. The ordinance, approved twenty-third of December, 1899, of the council of the city of Richmond, referred to in these proceedings, was an open proposition and could not become effective and binding as a contract until the same was accepted by the Richmond Passenger and Power Company and until the conditions and stipulations therein should be performed by the said Company, and as a matter of fact did not become an executed contract until the sixteenth of August, 1900. The common council in said ordinance proposed to act under the act of the General Assembly passed March 20, 1860, entitled "An Act to authorize the Common Council of Richmond to authorize persons to construct railroads in the streets of said city"; but said act of March 20, 1860, in its fourth section provided that "the capital stock of any such company shall not be more than \$300,000." Said ordinance of twenty-third of December, 1899, authorized the said Company to operate a street railway within the limits of the city of Richmond along certain designated routes over the city streets. The Richmond Passenger and Power Company obtained from the General Assembly "An Act to incorporate and enlarge the powers of the Richmond Passenger and Power Company, approved March 2, 1900," and the said ordinance of December 23, 1899, was recognized as a contract right insofar as the same may have become or may become operative. Sections 3 and 4 of said act of March 2nd, 1900, authorized the said company to establish and maintain the business of a general railway and electric company in the cities of Richmond and Manchester, and in the counties of Henrico and Chesterfield.

Section 5 of said act provided that the capital stock of the said Company shall not be less than \$20,000.00 nor more than three millions of dollars. Section 4 of said act provided that the councils of said cities and the judges of the county courts of said counties respectively, and the boards of supervisors thereof, who are hereby vested with authority so to do, shall first consent for the location of the said railways on the streets and highways and through the country within their respective limits or jurisdiction. It is clear, therefore, that the said Richmond Passenger and Power Company did not organize under the act of March 20th, 1860, but did organize and operate under the act of March 2nd, 1900; that it and its successors in title have operated as an interurban company and availed itself long after the passage of said charter of the second of March, 1900, of the ordinance approved December 23, 1899, only as a contract by which it could locate its lines upon the streets of the city of Richmond. (It is to be noted that as to the Seven Pines Line they have operated on the county roads of Henrico under the charter of February 3, 1888, and under the order of the county court allowing the Seven Pines Railway to locate on the county roads, but have not complied with the requirement of the act of March 2nd, 1900, that they should obtain permission from both county court and the board of supervisors.)

Soon after executing the contract for the use of the city streets on the sixteenth of August, 1900, the Richmond Passenger and Power Company began operations and established its schedule on the basis on which it obtained said contract from the city council and on which it obtained the said charter from the General Assembly of March 2nd, 1900, to-wit; to transport passengers to or from any part of its lines and connecting or intersecting lines at a maximum charge for the whole ride of five cents for each ticket and six tickets

to be sold for not more than twenty-five cents, and with reduced rates for labor tickets, provided the trip should be continuous in the same general direction. This schedule of charges was put into effect on the Seven Pines division on the 26th day of October, 1900.

The method of making rates for long distance travel over steam roads is so much per mile; for the main lines in Virginia two and one-half cents per mile. But the methods for electric street railway lines, from the difference in the nature of the operation of such lines, are either the single-fare charge for a trip over the whole system in the same direction, or by zones. The zone system is adopted where the volume of business is small; the single fare system is adopted where the volume of business is great, and while some passengers may ride a considerable distance (five or ten miles) the general average would not be more than two miles. This Company voluntarily adopted and put into effect the single-fare basis for the operation of their interurban system and no complaint has been made that it has not been remunerative. This schedule was continued from said date in 1900 until the first of February, 1904, on which date the rates and fares were advanced, without the consent of the Commission, by the Richmond Passenger and Power Company and the Virginia Passenger and Power Company, to which latter Company that part of the Seven Pines Line from the city limits to Seven Pines had previously been conveyed. The attention of the Commission being called to said advance of rates, on the twenty-fifth day of March, 1904, the Commission (Commissioners Crump, Stuart and Fairfax), in the case of the Commonwealth of Virginia, at the relation of *Wm. E. Oakley v. The Virginia Passenger and Power Company and the Richmond Passenger and Power Company*, required said companies to withdraw all said advances made on the first day of February, 1904, and restore the rates in effect prior to that date, with leave to apply to the Commission for any advances in the rates, fares and charges ordered to be restored. The said companies did restore said rates and filed their petition for leave to advance their rates, which petition was disallowed. An appeal was taken to the Supreme Court of Virginia and the decision of the Commission was affirmed by the Supreme Court and the views of the Commission in full adopted as the opinion of the Court. In these proceedings the Commission asserted its jurisdiction over the said defendant companies, which was not contested by the companies. It impliedly held that the Virginia Passenger and Power Company was bound by the obligations of its predecessors in title, and in said opinion adopted by the Supreme Court, after giving in four paragraphs a recital of facts, in which recital, in paragraph 3, occurs this sentence: "It seems to the Commission that these provisions of the said ordinance (ordinance of December 23, 1899) constitute a contract binding upon the said Company, and with which it is bound to comply," gives its opinion as follows:

"Under the foregoing facts now found by the Commission, and with all the testimony before it bearing upon these facts, the Commission is of opinion that the council of the city of Richmond, in using the word 'line' in the section of the ordinance above mentioned, employed that word in its popular signification, and with reference to the circumstances out of which the granting of the said ordinance grew, and with reference to the urban and suburban street railroad

conditions in and around the city of Richmond at that time, and that the line then known, and since known, as the Seven Pines line, was an intersecting line; and, considering the question before the Commission in all its aspects, the Commission is of opinion that it should not permit the two defendant companies to change the system of transfers and labor tickets which have been in effect for several years, and with reference to which the patronage of the defendant lines in the city of Richmond and in the growing section of Henrico county, adjacent to the city, along which the Seven Pines line runs, has been acquired."

A study of the above opinion of the Commission, approved and adopted by the Supreme Court as its opinion, and of the opinion of the Commission of March 25th, 1904 (see Report of the State Corporation Commission, 1904, Part I, page 94) establishes as *res adjudicata* the following propositions:

First—That the Commission has authority and jurisdiction over such companies as the defendants and their predecessors in title, notwithstanding such companies operate their lines over city streets and county roads under contracts obtained from the proper city or county authorities.

Second—That where a railway company operates a line or system not confined to one political sub-division, it cannot by a transfer of a part of its line escape from its legal obligations; but that the vendee of a part of the line takes it subject to all the legal obligations of its predecessor, and that the two companies must maintain the rates previously in force until they have obtained the consent of this Commission to advance such rates and charges.

Third—That when a transportation company in violation of law advances its rates without the consent of the Commission, the Commission must require said transportation company to conform to the law by re-establishing its former schedule of rates before it will be heard upon a petition to be allowed to advance its rates.

As to the contention that the services performed by the defendant companies are wholly within the city or county within the meaning of the Constitution, it is to be observed that the service of transportation rendered by said companies and by their predecessors in title was and is in both city and county. The right to a through trip accrued when the passenger purchased his ticket and he could demand a transfer from the conductor of one division or intersecting line to enable him to complete his trip on the next division of the system. The mere physical transfer from one car to another is not the same thing as the transfer right provided for in the established schedule of rates of the company.

There is no conflict between the act of January 18th, 1904, requiring the railroad to obtain the consent of the Commission before advancing rates, and the Constitution. If there be any conflict between said act and an ordinance of a city council the general law must prevail. Chapter 2, section 5, under the head "Rules of Construction", the fifteenth rule reads:

"Where the council or authorities of any city or town, or any corporation court, or number of persons are authorized to make ordinances, by-laws, rules, regulations or orders, it shall be understood that the same must not be inconsistent with the Constitution and laws of the United States or of this State."

The Constitution does not vest city councils with legislative discretion in the matter of prescribing rates of charge to be observed by interurban transportation companies. City councils can only act under authority granted them by the General Assembly as to intraurban service.

It is the standing rule of this Commission that when a transportation company wishes to advance its rates, it shall file its petition so to do, and upon a formal hearing all parties in interest shall have an opportunity to be heard. I can see no reason why this rule should not be enforced in this case.

In the case of Oakley, above referred to, the transportation companies were required to conform to this rule. I can see no reason why the decision of the Commission of the twenty-fifth of March, 1904, should be reversed in this case.

The proposition to build a railroad from the city of Richmond to some point on the Rappahannock River is undoubtedly a worthy one. So far as it appears in this proceeding this is a railroad not yet constructed or operated. When it becomes a railroad in fact and the Richmond and Rappahannock River Railway Company files its schedule of rates and charges they will be considered by this Commission, and approved, if reasonable. At present the Richmond and Rappahannock River Railway Company appears only as the vendee of the Virginia Railway and Power Company, operating the Seven Pines Line, and it takes said division of the former Company subject to all the legal obligations of its predecessors.

It is suggested in the pleadings that the city council of Richmond acts from the standpoint of the interests of the city of Richmond and considers that the interests of said city will be promoted by the construction of a railroad to the Rappahannock River. This may be true, but they should show their interest in the construction of said Railway otherwise than at the expense of the citizens of the adjacent county of Henrico. The very fact that said city council acts from this standpoint of interest disqualifies it from acting with authority in a matter involving the interests of other political sub-divisions.

ORDER OF MAY 26, 1913.

This day came J. B. Dowden, of Henrico County, as principal, and George Bryan, of Richmond, Virginia, as surety, and executed an appeal bond in the sum of four hundred dollars (\$400.00), which bond is ordered to be recorded.

CASE No. 343.

(See Report 1912, p. 42.)

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs.

Carolina, Clinchfield and Ohio Railway, and
Virginia and Southwestern Railway Company.

Station Facilities at Speers Ferry.

ORDER OF NOVEMBER 13, 1913.

It appearing that, in accordance with the suggestions of the Commission, a union passenger station has been erected at Speers Ferry, Virginia, by the defendant companies, it is ordered that this proceeding be removed from the docket.

CASE No. 344.

(See Report 1912, p. 43.)

Western Union Telegraph Company,

vs.

Louisville and Nashville Railroad Company.

Petition for leave to condemn land in the counties of Lee and Wise.

ORDER OF JANUARY 8, 1913.

By consent of the petitioner the time within which the defendant, Louisville and Nashville Railroad Company, may file its answer is extended for ten (10) days from the tenth day of January, 1913. Such answer, when filed, to be of the same force and effect as if filed on or before that date.

All other questions are reserved.

ORDER OF JANUARY 21, 1913.

This day came the defendant, the Louisville and Nashville Railroad Company, and filed its answer to the petition.

CASE No. 349.

(See Report 1912, p. 45.)

*Commonwealth of Virginia, at the relation of James Bellwood, A. W. Bensley,
Peter C. Warwick, Jr., and W. B. Davie,*

vs.

*Seaboard Air Line Railway, and
Virginia Railway and Power Company.*

ORDER OF JANUARY 14, 1913.

This day came the Virginia Railway and Power Company and filed its motion to dismiss the complaint, its demurrer to such complaint, and its answer thereto.

ORDER OF JANUARY 15, 1913.

This day came the defendant corporations, Seaboard Air Line Railway and Virginia Railway and Power Company, and filed their answers to the petition.

ORDER OF MARCH 25, 1913.

This day came the Commonwealth of Virginia, by her Attorney General, and by leave of the Commission filed her petition, and on his motion the Commonwealth is made a party plaintiff to this cause.

ORDER OF MARCH 25, 1913.

This day came the parties by their attorneys, and the evidence having been partly heard the proceeding is continued until to-morrow.

ORDER OF MARCH 26, 1913.

This day came again the parties by their attorneys, and the evidence having been partly heard the proceeding is continued until to-morrow.

ORDER OF MARCH 27, 1913.

This day came again the parties by their attorneys, and the evidence having been fully heard, by consent of parties, and at their request, the proceeding is continued generally for argument to be heard at a future date.

ORDER OF MAY 15, 1913.

This day came the parties by their attorneys, and the case having been fully argued and submitted the Commission takes time to consider of its judgment and the order to be entered herein.

ORDER OF SEPTEMBER 24, 1913.

This day came again the parties by their attorneys, and the Commission having maturely considered the evidence and the argument of counsel, and for the reasons stated in the written opinion filed as a part of the record, is of opinion and doth decide as follows:

1. That the petition is sufficient in law, and therefore the demurrers are overruled, and the motions of the defendants to dismiss the petition upon the ground that the Commission is without jurisdiction are also overruled.

2. That the petitioners have failed to sustain the allegations of fact made in the petition.

Therefore, it is considered by the Commission that the petition be, and is, hereby dismissed, without prejudice, and the proceeding is ordered to be removed from the docket.

OPINION—PRENTIS, CHAIRMAN.

The petitioners allege and prove that they are the respective owners of several tracts of land in Chesterfield county between Kingsland creek and the city of Richmond, and that about twelve years ago the Seaboard Air Line Railway, hereafter called the Seaboard, or its predecessors in title, condemned a right of way through their land which is now being used by the railway company for the operation of its trains. That the Virginia Railway and Power Company, hereafter called the Power Company, has constructed an electrical transmission line for the distribution of light, power and heat,

from a point near the city of Petersburg to the city of Richmond by way of Centralia; that the said line approaches Centralia from the southwest on the the private right of way of the Power Company, and that between Centralia and Kingsland creek such line is located on the same right of way that carries the railway tracks of the Power Company. That by an agreement dated August 22nd, 1912, the Seaboard leased to the Power Company, for a term of twenty-five years, and thereafter from year to year, the right to locate and operate an electrical high power transmission line with iron towers, wires and other appurtenances to carry a current up to 110,000 volts on such right of way of the Seaboard in Chesterfield county between Kingsland Creek and the city of Richmond, including those towers on the right of way that passes through the petitioners' lands.

In support of their right to prosecute this proceeding they allege that they have occasion from time to time to use the Seaboard for passenger and freight traffic, and that in common with the general public have a direct interest in the safety of traffic on such railway, and that at certain points the right of way passes through farming and park lands of some of the petitioners and at other points it passes through lots which have been divided into building lots for suburban residences.

They claim to be entitled to relief because they allege that the electrical energy which the Power Company proposes to carry over said transmission line is of a highly dangerous character because the line is located on the right of way in close proximity to many large trees on the petitioners' land, and that said trees are liable at any time to be blown down and cross said line and to break the wires, which will carry the high current of electricity and subject the traffic on the Seaboard to the dangers of such current; that the location and operation of the transmission line on the right of way is liable to interfere seriously with the telephone and telegraph lines also on the right of way used for the dispatching of trains on the Seaboard by means of such telephone and telegraph wires; that in the location and operation of the transmission line on the right of way there will be constant danger that the iron towers will be struck by the derailed engines and cars of trains, breaking the wires carried by the towers and releasing the dangerous current of electricity, and that the location and operation of such transmission line on the railway right of way is inconsistent with the safe and efficient discharge of the duties which the Seaboard owes to the public; that the location and operation of the transmission line on the right of way is not in furtherance of any legitimate purpose, power, right or function of the Seaboard; that said company has no right either under its charter or under the general laws of the State of Virginia to engage in the business of transmitting electrical energy for light, heat, or power, or to lease its right of way or permit it to be used for that purpose, and that the making of the agreement of August 22, 1912, and the location and operation of the transmission line on the right of way constitutes a misuse and violation by the Seaboard of its charter and statutory powers; that for some years past the Seaboard and the Power Company have each been operating and are now operating distinct and competitive lines of railroad for the carriage of freight and passengers between the cities of Richmond and Petersburg, and that, therefore, the agreement of August 22nd is in violation of section 2 of Chapter II of the Act Concerning Public Service Corporations, (1105-b, clause 2, Pollard's Code). They claim that the statute which per-

mits a railroad company to maintain along its line a telephone and telegraph line for its own use and that of the public, by implication, forbids the operation thereon of such a transmission line as is complained of. That the right of way between Kingsland creek and Richmond crosses a number of public highways in Chesterfield county at grade, and that they, in common with the general public, are constant travelers on the highways at the points where they are crossed by the railway right of way and that they are vitally interested in the safety of the highway crossings and that the Power Company has located its said towers on said right of way in such manner as to require the stringing of its wires over the highways and highway crossings, and is operating the tower line over the same; that such location and operation of the transmission line over the highways and highway crossings is attended by great danger to the public, and that neither of the defendant companies has procured any authority from the board of supervisors for the location and operation of the transmission line, alleging that such authority from the board of supervisors is required by law, and they pray for relief.

The defendant companies filed their separate motions and demurrers, alleging that the Commission is without jurisdiction; that the complaint shows that the petitioners have no right to maintain this proceeding; that the contract, and the execution and the performance thereof, are fully authorized by law, and that to grant the relief prayed for in the petition would deprive the Seaboard of its property or enjoyment thereof without due process of law, in violation of the fourteenth amendment of the Constitution of the United States.

They have each filed separate answers, making similar allegations. They deny that the construction and the maintenance of the structures for such transmission line in accordance with the terms and conditions of the agreement of August 22nd, 1912, constitute any danger or menace to the petitioners, or to the traveling public, or in any way interferes with the safe and efficient discharge of the duties which the Seaboard owes to the public. The Seaboard claims that it is the owner in fee simple of all of the right of way which it has granted to the Railway and Power Company, and that as such owner it has the right to make the lease, inasmuch as it alleges that such use does not in any way interfere with the performance of its public duties, and they deny all the other violations of law alleged by the petitioners.

The Power Company alleges that the transmission line is of the "Suspension Insulator Type," and that it is the safest type of construction known to electrical science, and affords complete protection and safeguard from accident and injury.

We first consider the alleged violation by the Seaboard of specific statutes.

It is contended that the lease violates that part of clause 2 of section 2, of Chapter II of the "Act Concerning Corporations," which prohibits railroad companies which are competitive between points both of which are within this State, from selling, leasing, consolidating or merging their "works, property or franchises," whether such lines be operated by the same or different motive power. We cannot agree, however, that this provision of the statute is to receive such a narrow construction. If it should be so construed it would prevent ordinary traffic agreements between railroads by which trackage rights are granted and exercised. It would prohibit the erection of union stations or joint facilities if the contract therefor took the form of a

lease or sale. It would impede and discourage any joint use of property owned by competitive railroads. The true intent and meaning of the provision is, we think, to prohibit the sale and lease of all, or substantially all, of the works, property or franchises of a railroad company to a competitive company, or so large a part thereof as to destroy competition between the two companies. The manifest purpose of the statute is to preserve substantial competition, and it was never intended to prevent ordinary business contracts between railroad companies beneficial alike to the contracting parties and to the public.

Neither can we agree with the suggestion that the statute which permits a railroad company to maintain along its line a telephone or telegraph line (Act Concerning Public Service Corporations, Chapter IV, Section 9) for its own use, and that of the public, forbids, by implication, the operation thereon of such a transmission line as is here complained of. On the contrary we think that the very fact that telephone and telegraph lines are expressly so authorized by statute, plainly indicates that a similar use of the right of way of a railway company for the poles and wires of a power company is not necessarily inconsistent with the ordinary use by the railway company of its right of way. Indeed it is a fact within the common knowledge, observation and experience that the location of such poles on the railway right of way, if located a sufficient distance away from the tracks, does not interfere with the operation of the railway.

The suggestion that it is necessary to procure the authority of the board of supervisors of Chesterfield county for the location or operation of the transmission line over the highway crossings is required by law, is also, we think, untenable. On the contrary section 3, of Chapter II of the "Act Concerning Public Service Corporations," expressly provides that public service corporations may cross county roads provided such crossing is "so located, constructed and operated as not to impair, impede or obstruct" the same "in any material degree," and that the crossing is "supported by such permanent and proper structures and fixtures" and "controlled by such customary and approved appliances, methods and regulations as will best secure safe passage and transportation of persons and property along such crossing." The only clause in this particular section (which refers to crossings only) which requires consent from the board of supervisors of the county is in case the location of the county road is altered. As there is no suggestion here that the location of any county road has been altered that clause has no application.

The defendant companies have filed their demurrers and motions to dismiss the proceeding, alleging that the Commission is without jurisdiction, but they appear to have abandoned this contention in argument.

Inasmuch as the petition alleges that the construction and operation of the Power Company's line on the right of way of the Seaboard constitutes a danger to the public and that it interferes with the Seaboard in the performance of its duties to the public as a common carrier, it is manifest that the motions to dismiss and demurrers must be overruled, because Section 156 of the Constitution provides, among other things, that "The Commission shall have power, and be charged with the duty of supervising, regulating and controlling all transportation and transmission companies doing business in this State in all matters relating to the performance of their public duties

* * * * * and of correcting abuses therein by such companies." It must, therefore, be admitted that if the transmission line constitutes a danger to the public, or if its construction upon the right of way of the Seaboard interferes with the discharge by the latter company of its duties to the public, then there is an obligation upon this Commission to afford the relief prayed for by the petitioners, and in our opinion it is clear that the jurisdiction of the Commission to determine the controversy has been properly invoked. Therefore, the motions to dismiss for lack of jurisdiction, and the demurrers will be overruled.

This brings us to a consideration of the facts, and we must determine whether the construction and operation of the line of the Power Company upon the right of way of the Seaboard constitutes such a menace to the safety of the public as to require the removal of the line from the right of way.

The evidence is very voluminous, much of it is highly technical in character, and we will not undertake even to summarize all of this testimony. The dangers alleged have been herein recited. While the apprehensions of the petitioners in the present state of knowledge (or lack of knowledge) with reference to electricity are probably natural, we believe that they are unfounded in fact. It appears that the transmission line has been well constructed, and is of the "Suspension Insulator Type," and that every known precaution has been taken to avoid danger to the public. The current is transmitted by wires supported on steel towers varying in height from 60 feet 6 inches to 75 feet 6 inches above the ground, located at distances averaging 500 feet, and anchored to the ground by foot plates two feet long by one foot wide, placed from six to nine feet in the ground, with galvanized steel stobs coming up to the surface of the ground for attachment to the four legs of the tower—the foot plates being constructed so as to secure a good foothold and to resist strains to which the towers may be subjected. The entire structure is of steel, with all parts galvanized under special tests, and the bolts and nuts are sherriedized, which is said to afford the same protection against the elements as if galvanized. The wires and insulators are selected with the view of giving strength and safety to the construction. Automatic oil switches are provided at the stations in Petersburg, Richmond and Centuria to cut off the current on overload or short circuits. These switches are constructed to operate instantaneously, or in the fraction of a second. They are designed to cut off the current immediately in case of accident. In order to prevent the towers from becoming charged with electricity each tower is itself grounded, and there is a steel wire extending from tower to tower. It appears that even if any particular tower is not properly grounded that in case of accident that this steel wire connecting all the towers will immediately conduct the current to the earth from any tower on the line.

If the trees contiguous to the line should at any time fall and break the wires it is believed that the automatic oil switches will immediately cut off the current of electricity and thus the broken wire would be harmless. Even if the automatic oil switches for any reason fail to operate the fact that the towers are grounded in the way hereinbefore described will ground the current and make it harmless to the public.

We are therefore convinced by the evidence submitted that none of the dangers alleged by the petitioners in fact exist.

The owners of the telephone and telegraph lines on the right of way and

which are crossed by the high power transmission lines of the Power Company are satisfied with the construction, their service is now satisfactorily operated, and they do not anticipate any interruption of the telephone and telegraph service.

From consideration of all the testimony we are convinced that the only appreciable danger to human life would be encountered in case one climbed to the top of one of the towers and touched one of the high power transmission lines, and in this way completed the circuit and caused the current of electricity to pass through his body to the tower and into the ground. It is by making the human body the conductor of electricity between the positive and negative poles that accidents from electricity occur. The touching of these towers by either men or animals is not dangerous under normal conditions. Even under abnormal conditions if the current of electricity were passing through the tower at the precise moment of time a person standing on the ground touched it, the electricity would go through the tower by the most direct pathway which offered the least resistance to the ground through the grounded tower, and not through the body of the person touching the tower. Even if a derailed engine or car were to strike the tower with sufficient force to break the wires it would not release the dangerous current of electricity, but that current, by reason of the safety devices referred to, would be immediately cut off if the automatic oil switches should be operating, and if perchance they did not operate, would immediately and by the easiest way go through the wires and grounded towers to the earth and do no harm to persons or property.

It appears from the evidence that there are many high power transmission lines now in operation in the populous centers of the country in the public streets and in close proximity to lines of railroads, some of which are not as well constructed as the line here referred to, and that they are being operated without appreciable danger to the public. This well established fact should satisfy those complaining of this line that their fears are groundless.

For the reasons indicated we think the petitioners have failed to establish the allegation that the power line is a menace and danger to the public.

One other question of interest and importance remains to be considered and determined. It assumes a two-fold aspect. The first, whether the lease alienating a part of the right of way of the Seaboard for a term of twenty-five years is *ultra vires*, null and void; and secondly, if this question is answered in the affirmative whether, because of this invalidity, this Commission should require the removal of the Power Company's lines from such right of way.

It is, of course, well settled that a railway company while holding fee simple title to land which it has condemned for its right of way, holds that title charged with the primary duty of devoting it to the public use. This being true the company should not commit a breach of that duty by putting property which it has condemned for such public use beyond its control. The lease under consideration here undertakes irrevocably to devote twenty-four feet of its one hundred foot right of way, for a distance of about seven miles, to the use of the Power Company for the term of twenty-five years. It seems to us that the mere statement of this fact is sufficient to carry the conviction that such a lease is beyond the power of the Seaboard, and that it cannot confer the rights upon the Power Company which it thus attempts

to confer, and that every right sought to be conveyed and acquired under such a lease must be held subordinate to the continuing duty which the Seaboard owes to the public in connection with the performance of its public duties. We do not think it necessary to consider the well established doctrine relied upon by counsel for the petitioners to the effect that the Seaboard has no authority under its charter except that expressly conferred, and that, therefore, this lease is void under that doctrine. Our reason for this is that we do not understand that this Commission has original jurisdiction to declare such contracts void, similar to the jurisdiction exercised by the courts of equity. Our jurisdiction is limited to the control of public service corporations in connection with their public duties, and we have the authority to condemn such a lease so far, and so far only, as it interferes with the performance of such duties. The question as to the use to which the railway company may devote its real property not presently needed in the performance of its public duty has been carefully and fully considered and determined by our own Court of Appeals in the case of *Danville and Western Railway Company vs. Lybrook and others*, III. Va., page 623.

This decision collects the pertinent authorities, and this case and these authorities fully justify the conclusions now and here announced.

As we construe that decision a railway company, except so far as restrained by its duty to serve the public as a transportation company, may have great liberty in dealing with its real estate. Cardwell (Judge) in delivering the opinion in the case above referred to, stated the doctrine in those words:

"The principle controlling in the class of cases to which this belongs is that courts will only control public service and other corporations in the use of their property so far as may be necessary to secure the proper discharge of the duties which the corporations owe to individuals or to the public."

In that case the company was justified in allowing the construction and occupation of several buildings by private persons and for private uses upon its station grounds, all of which uses, however, were said to be for the promotion of the business of the company in providing better warehouse facilities for certain patrons of the road, and thereby relieving the company of the necessity of enlarging its own freight station facilities. Under this principle, however, railroad companies have been sustained in their right to allow buildings upon their property used for the conduct of a business which the railroad company is not authorized to carry on, and to receive by way of rental a share of the net profits.

Nye vs. Stover and others, 168 Mass. 53; 46 N. E. 402.

Warehouses for the conduct of private business have been frequently allowed; and hotels and eating houses conducted by individuals for their private profit are common, upon the ground that they are public conveniences. A lumber company has been allowed to erect buildings and conduct its business as a dealer in lumber and building materials upon land owned by a railway company.

Calcasia Lumber Company and others, vs. Harris, 77 Texas, 18; 13 S. W. 453.

A manufacturing company has been allowed to occupy a part of the right of way of a railway company with the view of furnishing facilities for furnishing freight to the company.

Michigan Central Railroad vs. Bullard, 120 Michigan, 416; 79 N. W. 635; approved in *Detroit vs. Little & Co.* 146 Michigan, 373; 109 N. W., 671.

All of the cases carefully guard and reserve the point that the property must be devoted to the public use to the full extent necessary for the public business intended to be accomplished by the construction and maintenance of the railroad as a highway. The vice of the lease of the Seaboard which is here involved is in the length of the term. Whatever may be the situation to-day it cannot be assumed that there will be no change in twenty-five years, and if at any time during that period any part of the right of way which is occupied by the structures of the Power Company should be needed by the Seaboard in order to enable it properly to discharge its public duties, it is its bounden duty to resume possession of the property, and it would become the duty of this Commission to require the Seaboard so to resume such possession.

It does not follow, however, that because we conceive the lease to be *ultra vires* and void by reason of the irrevocable alienation for twenty-five years which is thereby attempted, that we should grant the prayer of the petition. The construction and operation of the power line is a great and beneficent enterprise and it is likely to prove a great public benefit, and the Seaboard, within the limitations which we have indicated, has the legal right to use its property for its own benefit, and should be encouraged to devote it to beneficial uses so long as such use does not interfere with it in the performance of its public duty. So that we must inquire whether or not the location of the line of the Power Company upon its right of way does at this time constitute such a use thereof as to impair the public right. This inquiry leads us back to the evidence, and we scan it in vain to find any indication that, at this time, the Seaboard is in any way impeded in the due performance of its duties to the public as a transportation company. It is operating a single line of railway upon a one hundred foot right of way, and neither the petitioners nor any other individual has been denied any essential right by reason of the location and operation of the power line upon that part of the right of way of the Seaboard not occupied by any of its tracks or necessary structures.

The Company was allowed by law to condemn a right of way one hundred feet wide, because that width is reasonably necessary in order to prevent the erection of buildings too near to the tracks, to avoid setting out fires on adjoining property, to obtain in the interests of safety an unobstructed view along its tracks for great distances, and for other reasons. These may be said to constitute present needs, with which the present location of the lines of the Power Company upon that right of way do not now conflict. All of this width, however, will probably be necessary for the future needs of the Seaboard for the probable multiplication of main tracks, for additional side tracks, switches, connection tracks with other railways, and with such large manufacturing plants as may reasonably require additional facilities. With these probable future needs the location of the Power Company's line on the right of way of the Seaboard will probably conflict, and when that conflict arises the Power Company's lines must be promptly removed from the right of way of the railway company.

We think that as between the public and these companies the Power Company must be construed to be a tenant, not for the term of twenty-five years, but by sufferance, or at will, and liable to be ousted either by the Seaboard or by this Commission whenever the property is needed for the public use for which it was condemned.

Our conclusion therefore is, that the prayer of the petitioners must be denied and the proceeding dismissed, without prejudice, however, to their right to reinstate the proceeding whenever they may be so advised, and this judgment must not be construed as in the slightest degree impairing the jurisdiction, authority and duty of this Commission to require the removal of the lines of the Power Company from the right of way of the Seaboard, whenever the public interest may so require.

RHEA AND WINGFIELD, Commissioners, concur.

CASE No. 350.

Commonwealth of Virginia, at the relation of the Virginia State Farmers' Institute, Incorporated,

vs.

*Atlantic Coast Line Railroad Company,
The Baltimore and Ohio Railroad Company,
Louisville and Nashville Railroad Company,
Norfolk Southern Railroad Company,
New York, Philadelphia and Norfolk Railroad Company,
Southern Railway Company,
Danville and Western Railroad Company.*

ORDER OF JANUARY 6, 1913.

The petition of the Commonwealth of Virginia, at the relation of the Virginia State Farmers' Institute, Incorporated, against the Atlantic Coast Line Railroad Company, The Baltimore and Ohio Railroad Company, Louisville and Nashville Railroad Company, Norfolk Southern Railroad Company, New York, Philadelphia and Norfolk Railroad Company, Southern Railway Company and Danville and Western Railroad Company, having been this day filed, it is hereby ordered that the defendant corporations be summoned to appear and answer the same on or before ten o'clock A. M., on Wednesday, the fifth day of February, 1913, at the court room of the State Corporation Commission in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition, be forthwith served upon each of the said defendant corporations as a notice of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders and regulations as may be just, and also as a writ or summons, according to law.

ORDER OF JANUARY 27, 1913.

This day came the New York, Philadelphia and Norfolk Railroad Company and filed its answer to the petition.

ORDER OF JANUARY 30, 1913.

This day came the Louisville and Nashville Railroad Company and filed its answer to the petition.

ORDER OF FEBRUARY 3, 1913.

Upon motion of the Atlantic Coast Line Railroad Company leave is given it to file its answer in this proceeding on or before February 18th, 1913.

ORDER OF FEBRUARY 4, 1913.

This day came The Baltimore and Ohio Railroad Company and filed its answer to the petition.

ORDER OF FEBRUARY 5, 1913.

This day came the Norfolk Southern Railroad Company and filed its answer to the petition.

ORDER OF FEBRUARY 5, 1913.

This day came the Danville and Western Railway Company and filed its answer to the petition.

ORDER OF FEBRUARY 6, 1913.

This day came the Southern Railway Company and filed its answer to the petition.

ORDER OF FEBRUARY 13, 1913.

This day came the Atlantic Coast Line Railroad Company and filed its answer to the petition.

Commonwealth of Virginia, at the relation of the Virginia State Farmers' Institute, Incorporated,

vs.

Seaboard Air Line Railway.

ORDER OF FEBRUARY 7, 1913.

The petition of the Commonwealth of Virginia, at the relation of the Virginia State Farmers' Institute, Incorporated, against the Seaboard Air Line Railway, having been this day filed, it is hereby ordered that the defendant corporation be summoned to appear and answer the same on or before ten o'clock A. M., on Tuesday, the eighteenth day of February, 1913, at the court room of the State Corporation Commission in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition, be forthwith served upon the said defendant corporation as a notice of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders, and regulations as may be just, and also as a writ or summons, according to law.

Commonwealth of Virginia, at the relation of the Virginia State Farmers' Institute, Incorporated,

vs.

Seaboard Air Line Railway.

ORDER OF FEBRUARY 18, 1913.

This day came the defendant company and filed its answer.

Seaboard Air Line Railway.

ORDER OF FEBRUARY 18, 1913.

This day came the parties by their attorneys, and by consent it is ordered that these proceedings be heard together. Whereupon, the evidence being partly heard the proceedings are continued until to-morrow.

ORDER OF FEBRUARY 19, 1913.

This day came again the parties by their attorneys, and the evidence having been fully heard and the argument of counsel submitted, the Commission takes time to consider of its judgment and the order to be entered herein.

ORDER OF MAY 15, 1913.

The Commission having maturely considered the evidence and the argument of counsel, for the reasons stated in the written opinion, filed as part of the record, doth adjudge, prescribe and order as follows:

1. That from and after the first day of June, 1913, and after due publication according to law, the Louisville and Nashville Railroad Company, Norfolk Southern Railroad Company, New York, Philadelphia and Norfolk Railroad Company, Southern Railway Company, Danville and Western Railway Company and Seaboard Air Line Railway put into effect and observe the following commodity mileage rates on ground limestone, for acid soil treatment, carloads, minimum weight 60,000 pounds:

DISTANCES.	Rates Per Ton of 2,000 lbs.
30 miles and under.....	\$ 30
40 and over 30 miles.....	35
50 and over 40 miles.....	40
60 and over 50 miles.....	45
70 and over 60 miles.....	47
80 and over 70 miles.....	50
90 and over 80 miles.....	54
100 and over 90 miles.....	60
110 and over 100 miles.....	66
120 and over 110 miles.....	72
130 and over 120 miles.....	78
140 and over 130 miles.....	85
150 and over 140 miles.....	87½
160 and over 150 miles.....	90
170 and over 160 miles.....	92½
180 and over 170 miles.....	95
190 and over 180 miles.....	97½
200 and over 190 miles.....	1 00
205 and over 200 miles.....	1 02½
210 and over 205 miles.....	1 05
215 and over 210 miles.....	1 07½
220 and over 215 miles.....	1 10
225 and over 220 miles.....	1 12½
230 and over 225 miles.....	1 15
235 and over 230 miles.....	1 17½
240 and over 235 miles.....	1 20
245 and over 240 miles.....	1 22½
250 and over 245 miles.....	1 25
255 and over 250 miles.....	1 27½
260 and over 255 miles.....	1 30
265 and over 260 miles.....	1 32½
270 and over 265 miles.....	1 35
275 and over 270 miles.....	1 37½

295 and over 290 miles.....	1 47½
300 and over 295 miles.....	1 50
360 and over 300 miles.....	1 50
Over 360 miles.....	1 60

2. The proceeding is dismissed as to the Atlantic Coast Line Railroad Company, that company having already made similar rates effective.

3. All rates on this commodity now effective, either local or joint, which exceed the rates herein prescribed, must be reduced so as to correspond with the rates herein prescribed, and all rates on this commodity now effective, either local or joint, which are lower than the rates herein prescribed must be maintained, whether applied to a local movement between points on the same road, or to an inter-line movement by combining the prescribed rates on each road, except that a minimum rate of 30 cents per ton of 2,000 pounds may be maintained.

4. The proceeding is continued as to the Baltimore and Ohio Railroad Company, in order that its subsidiary lines, Winchester and Potomac Railroad Company and Winchester and Strasburg Railroad Company, may be made parties defendant to this proceeding.

OPINION—WINGFIELD, COMMISSIONER.

Having carefully considered all of the pleadings, the several exhibits filed with the pleadings, and, at the hearing, the testimony of witnesses and the arguments of counsel submitted in this proceeding, the Commission finds:

First—That there is a practically unanimous agreement of expert opinion that lime in some form will benefit much of the farming lands of Virginia, by correcting their acidity and improving their mechanical condition, and to some extent be beneficial in the growing of crops, by supplying the element calcium as a plant food. It seems the better opinion that under some conditions it is preferable to use finely ground limestone and under other conditions to use caustic or agricultural lime; that, for the most part, on worn-out lands in the first application of lime to correct acidity in the soil, caustic lime will be preferable; but that later, on the same land, after humus has been formed in the soil, ground limestone should be used. But whether these views be borne out by subsequent experiment or not, it is an undoubted fact that there is a general demand by the farmers of Virginia for transportation for ground limestone at a rate not prohibitive.

Second—It was shown that it was necessary to use of ground limestone a large amount per acre, probably one ton or more, in order to accomplish the desired result of making the farms of Virginia more productive, and particularly for the growing of leguminous plants; that ground limestone is a low grade article, costing at the factory about \$1.00 per ton, being in the class of gravel, sand, stone, and rubble, or iron ore, coke, coal, brick, mill cinder pyrites, nodulized iron and cement, which are all low grade commodities.

Third—Petitioners ask that rates corresponding with those fixed by Tariff No. 14932-C of the Norfolk and Western Railway, effective on the nineteenth day of August, 1912, be established by the several railroad companies defendant in this proceeding. This scale has been put into effect not only by the Norfolk and Western Railway, but by The Virginian Railway, the Carolina, Clinchfield and Ohio Railway, the Richmond, Fredericksburg and Potomac Railroad Company, The Chesapeake and Ohio Railway Company, the Washington Southern Railway Company and Washington and Old Dominion Railway Company, and, since the hearing of this case, by the Valley Railroad of Virginia and the Atlantic Coast Line Railway. This leaves the subsidiary lines operated by the Baltimore and Ohio Railway (with the exception of the Valley Railroad of Virginia), the Louisville and Nashville, the Norfolk Southern, the New York, Philadelphia and Norfolk Railroad Companies, the Southern Railway Company, the Danville and Western Railroad Company and the Seaboard Air Line Railway to be considered in this decision.

The Southern Railway and the Danville and Western Railway Companies expressly "admit that the use of ground limestone is profitable for the improving of the farm lands of the State." The other defendants last named neither admit nor deny this allegation. The Louisville and Nashville Railroad Company states that its intrastate business in Virginia is insignificant. The Southern Railway Company and all of said defendant railroads in substance insist that the rates adopted by the Norfolk and Western Railway Company if applied to their roads would not be fair and reasonable rates and would be unremunerative and confiscatory.

Petitioners contend that even though said rates on this particular article of ground limestone were below cost of transportation, it would be justified by the consideration that higher rates than the Norfolk and Western tariff would be prohibitive; that the production from the farms of Virginia would be greatly increased by the use of ground limestone and in the future the railroads would profit by transportation of such products carried on higher rates. Whether these contentions be true or not, it is not necessary for this Commission to decide the question at issue on any such ground, as will be shown later.

Fourth—The only question necessary to be considered is whether the rates named in the Norfolk and Western tariff if applied to said defendant railroad companies be reasonable and just. It is difficult, if not impossible, to ascertain the cost of transportation by any railroad of any one particular commodity. Railroads have made their rates largely as a result of experience in competition with other roads. Soon after this Commission was organized, our predecessors in office, upon a formal hearing, conducted a careful investigation of the railroad tariffs for freight rates then in effect in Virginia. After a hearing lasting about one year the existing tariffs were for the most part allowed to stand without change. The Virginia Classification adopted then by the Commission, modified by exception sheets, preserved substantially the rates in effect before said investigation was made.

Railroads are engaged in the business of transportation for profit, and it is to be presumed that in no case do they voluntarily transport commodities at a loss. If they did so, it would result in discrimination between shippers and localities, because they could only afford to do so by taxing unjustly other shippers or localities. .

We have made from the records of the Commission three tables, which are hereto attached and to be read as part of this opinion. The first paper, marked "Table A," shows that on the low grade commodities above named certain railroads of the State transport such commodities to meet competition at certain points on a basis of rates in all cases as low, and for the most part substantially lower than the rate per ton mile on ground limestone which has been put into effect by the Norfolk and Western Railway. This latter scale of rates approximates one-half cent (5 mills) per ton per mile. For short distances it is more than one-half cent per mile. Reference to said "Table A", comparing the rate per ton mile for equal distances, shows that the Seaboard Air Line Railway and Atlantic Coast Line Railroad carry stone, crushed rubble, twenty-three miles for 13.4 mills, same as the Norfolk and Western tariff on ground limestone; the Southern Railway, forty-six miles, carries iron ore at 4.85 mills per ton mile; The Richmond, Fredericksburg and Potomac and Washington Southern carry gravel fifty miles at 4 mills per ton mile, as against 8 mills under said Norfolk and Western tariff; the Virginia and Southwestern Railroad, coke, seventy-four miles, 6 mills, against 6.76 mills of said Norfolk and Western tariff; the Southern Railway, stone, crushed, eighty-two miles, 5.49 mills per ton mile, as against 6.59 per ton mile under said Norfolk and Western tariff; the Southern Railway, 140 miles, stone, crushed, 5.72 mills per ton mile, as against 6.07 mills per ton mile under said Norfolk and Western ground limestone rate, and so on through said "Table A," up to a distance of 200 miles and over. The Virginian Railway, stone, crushed, 3 mills per ton mile as against 5 mills on said Norfolk and Western ground

limestone rate; Southern Railway, brick, common, 225 miles, 4 mills per ton mile, against 5 mills per ton mile on said Norfolk and Western ground limestone rate.

The volume of business of the low grade commodities referred to is in some cases not very great. In other cases the volume is very large. The making of a low rate when the volume is small encourages the development of the business and an increase of volume. When the Norfolk and Western and the Chesapeake and Ohio Railways, (which now transport to Norfolk an immense quantity of coal, a distance of 375 miles, at 4 mills per ton per mile,) first began to haul coal the amount transported was comparatively small. With the fact admitted that the use of ground limestone is profitable for improving the farm lands of the State, and the further fact that ground limestone is now used in this State in appreciable quantities, there is reason for believing that in the near future the volume of business will be largely increased.

"Table B," hereto attached and to be read as a part of this opinion, is made up from the reports made by the several transportation companies to this Commission for the year ending June 30, 1912.

Comparing the Norfolk and Western Railway and the Chesapeake and Ohio Railway freight traffic with those of the Southern Railway, we find that the Norfolk and Western has 67.76% of the entire freight haul in its intrastate business products of mine and 9.58% products of forest, making of these two items 77.34%. The Chesapeake and Ohio 41.07% products of mines; 22.13% products of forest, making of these two items 63.20%. The Southern Railway carries products of mines 14.71%; products of forest 25.14%, making of these two items 39.85%. The gross earnings on freight by the Norfolk and Western on intrastate business is \$14,564 per mile of road, and net earnings \$6,620 per mile of road; gross earnings of Chesapeake and Ohio, \$11,858 per mile of road; net earnings \$6,079 per mile of road; Southern Railway gross earnings \$5,315 per mile of road; net earnings \$3,199 per mile of road. Comparing the same road on total earnings per mile, including passenger and miscellaneous business, we find Norfolk and Western gross earnings per mile \$17,716; C. and O. \$15,146; Southern Railway \$9,245; and net earnings, Norfolk and Western \$11,096; Chesapeake and Ohio \$9,067; Southern Railway \$6,046 per mile of road.

These figures clearly indicate that the roads which carry the largest percentage of low grade commodities, products of mines, at low rates, earn per mile, both of gross and net revenue, the largest amounts of money.

A comparison of the Norfolk and Western and Chesapeake and Ohio business with the business of the Atlantic Coast Line and Seaboard Air Line is not so instructive, because both the two latter roads carry products of the forest each 41.62% of their entire freight tonnage in Virginia. The rates for carrying products of the forest are higher relatively than the rates for transportation of products of mines.

Said reports from the several railroads do not separate operating expenses for passenger trains from the total operating expenses of the road, but it is well understood that on the Virginia lines there is no great margin of profit on passenger transportation.

The Danville and Western Railway carries of its entire intrastate business, products of mines 49.54%, and the Norfolk Southern carries of products of

the forest 49.34%, and New York, Philadelphia and Norfolk carries products of forest 57.47%.

"Table C" is a comparison of certain rates in effect on the Southern Railway in Virginia with the proposed rates on ground limestone. The comparisons are made of the average rates on agricultural lime from certain points at which kilns are located and mileage class rates on crushed granite, gravel and sand on the Washington, Danville and Richmond Divisions, and the mileage commodity rates in effect on the entire road in Virginia on building brick, common lumber and articles taking the same rates as common lumber.

It also estimates the earnings per car upon what seems to be a fair estimate of the average lading per car.

These tables "A," "B" and "C" have been made up with great care by our expert and embrace a greater variety of low grade commodities than the tables furnished at the hearing by the petitioners, and are therefore used in this opinion.

Upon the fair assumption that the rates voluntarily established by the railway companies upon the low grade commodities above referred to are fairly remunerative, we think it plainly appears from these comparisons that the proposed rates on ground limestone are neither confiscatory nor unreasonable, and, considering the case in all of its aspects, we are of the opinion that the proposed rates should be made effective, and the proper order making them effective will therefore be entered.

Commissioners PRENTIS and RHEA concur.

TABLE "A"

Comparison of Certain Rates (per ton and ton mile) on Low Grade Commodities, Carload, with Rates (per ton and ton mile) on Ground Limestone, Carload, on Norfolk and Western Railway and Other Lines as Shown Below.

The rates named on Ground Limestone for acid soil treatment have been adopted by Norfolk and Western Railway, The Virginian Railway, Carolina, Clinchfield and Ohio Railway, Valley Railroad Company of Virginia, and substantially by The Chesapeake and Ohio Railway; also on shipments from connecting lines by the Richmond, Fredericksburg and Potomac Railroad and Washington-Southern Railway, and the Washington and Old Dominion Railway.

*To stations on Southern Railway, Richmond Division, via Danville.

ORDER OF MAY 31, 1913.

This day came Southern Railway Company and filed its petition and motion for a rehearing in this proceeding. Whereupon it is considered that the said petitioner be, and is, hereby allowed fifteen days from this date in which to present such matters of law and fact arising under such petition and motion as it may be advised.

It is further ordered that as to Southern Railway Company the time for making the rates on ground limestone prescribed by the order of May 15, 1913, effective is hereby extended to June 15, 1913.

All other questions are reserved.

ORDER OF JUNE 3, 1913.

This day came Seaboard Air Line Railway and New York, Philadelphia and Norfolk Railroad Company and each filed its separate petition and motion for a rehearing in this proceeding. Whereupon it is considered that the said petitioners be, and they are, hereby allowed until the fifteenth day of June, 1913, to present such matters of law and fact arising under such petitions as they may be advised.

It is further ordered that as to the Seaboard Air Line Railway and the New York, Philadelphia and Norfolk Railroad Company the time for making the rates on ground limestone prescribed by the order of May 15, 1913, effective, is hereby extended to June 15, 1913.

All other questions are reserved.

ORDER OF JUNE 6, 1913.

This day came the Danville and Western Railway Company and filed its petition and motion for a rehearing in this proceeding. Whereupon it is considered that the petitioner be, and is, hereby allowed fifteen days from this date in which to present such matters of law and fact arising under such petition and motion as it may be advised.

It is further ordered that as to Danville and Western Railway Company the time for making the rates on ground limestone prescribed by the order of May 15, 1913, effective, is hereby extended to June 15, 1913.

All other questions are reserved.

ORDER OF JUNE 12, 1913.

This day came again the parties by their attorneys, and the evidence upon the issues raised by the separate petitions and motions for a rehearing in this proceeding filed by Southern Railway Company, Seaboard Air Line Railway, New York, Philadelphia and Norfolk Railroad Company and Danville and Western Railway Company, having been fully heard, and the arguments of counsel submitted, the Commission doth adjudge, prescribe and order as follows:

1. That the said motions for a rehearing be, and they are, hereby overruled, the prayers of the petitions are denied, and the said petitions for rehearing are dismissed.

2. That from and after the twelfth day of July, 1913, and after due publication according to law, the Southern Railway Company, Seaboard Air

Line Railway, New York, Philadelphia and Norfolk Railroad Company and the Danville and Western Railway Company each put into effect and observe the commodity mileage rates on ground limestone for acid soil treatment, carloads, minimum weight 60,000 pounds, prescribed by the order entered in this proceeding on the fifteenth day of May, 1913.

3. All other questions are reserved.

CASE No. 351.

Commonwealth of Virginia, at the relation of W. E. Wooldridge, J. R. Hamilton, E. F. Glover, E. E. Chism and W. L. Brown.

vs.

Norfolk and Western Railway Company.

Change of location of Evergreen station.

ORDER OF JANUARY 21, 1913. .

The petition of the Commonwealth of Virginia, at the relation of W. E. Wooldridge, J. R. Hamilton, E. F. Glover, E. E. Chism and W. L. Brown, against Norfolk and Western Railway Company, having been this day filed, it is hereby ordered that the defendant corporation be summoned to appear and answer the same on or before ten o'clock A. M., on Tuesday, the fourth day of February, 1913, at the court room of the State Corporation Commission in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition, be forthwith served upon the said defendant corporation as a notice of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders and regulations as may be just, and also as a writ or summons, according to law.

ORDER OF FEBRUARY 7, 1913.

This day came the Norfolk and Western Railway Company and filed its answer to the petition.

ORDER OF MARCH 7, 1913.

This day came the parties by their attorneys, and the Commission having heard the evidence and the argument of counsel is of the opinion, and doth therefore decide that the Norfolk and Western Railway Company be, and is, hereby authorized to change the location of its present station at Evergreen in accordance with the plans filed with the record, and the consent to such change of location is hereby given by the Commission. It is further considered by the Commission that the prayer of the petition be denied, that the same be dismissed, and that this proceeding be removed from the docket.

CASE No. 352.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs. (Rule)
Pennington Coal Company, Incorporated.

Failure to make annual report.

ORDER OF FEBRUARY 3, 1913.

It being suggested that Pennington Coal Company, Incorporated, has failed to make the report required by Section 39 of Chapter V, of the act entitled, "An Act Concerning Corporations," which became a law on May 21, 1903, as amended by the act approved February 15, 1906, therefore, a rule is hereby awarded against the said corporation, returnable at the court room of the State Corporation Commission at Richmond, Virginia, at ten o'clock A. M., on Tuesday, the twenty-fifth day of February, 1913, requiring it to show cause, if any it can, why it should not be fined under that section for such its alleged failure.

ORDER OF MARCH 5, 1913.

The defendant, upon whom process has been duly served, came not, and the evidence having been submitted it is considered by the Commission that the Pennington Coal Company, Incorporated, render unto the Commonwealth of Virginia a fine of twenty-five (\$25.00) dollars and costs incident to this proceeding, and unless the same shall be paid to the clerk of the Commission within sixty days from this date that execution of *fieri facias* issue therefor, according to law.

CASE No. 353.

Commonwealth of Virginia, at the relation of M. G. Sclater, C. B. Haden, J. E. Thomas and N. B. B. Hannah,
vs.

The Chesapeake and Ohio Railway Company, and Virginia Air Line Railway Company,

Side track facilities at Palmyra, Va.

ORDER OF FEBRUARY 3, 1913.

The petition of the Commonwealth of Virginia, at the relation of M. G. Sclater, C. B. Haden, J. E. Thomas and N. B. B. Hannah, against the Chesapeake and Ohio Railway Company and the Virginia Air Line Railway Company, having been this day filed, it is hereby ordered that the defendant corporations be summoned to appear and answer the same on or before ten o'clock A. M., on Wednesday, the nineteenth day of February, 1913, at the court room of the State Corporation Commission in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition be forthwith served upon each of the said defendant corporations as a notice.

of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders, and regulations as may be just, and also as a writ or summons, according to law.

ORDER OF MARCH 25, 1913.

This day came the respondents and filed their answer to the petition.

ORDER OF APRIL 8, 1913.

This day came the parties by their attorneys, and by consent this proceeding is continued generally.

CASE No. 354.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs.

Danville Furniture Company, Incorporated.

Failure to make annual report.

ORDER OF FEBRUARY 15, 1913.

It being suggested that Danville Furniture Company, Incorporated, has failed to make the report required by section 39 of chapter V, of the act entitled, "An Act Concerning Corporations," which became a law on May 21, 1903, as amended by the act approved February 15, 1906, therefore a rule is hereby awarded against the said corporation, returnable at the court room of the State Corporation Commission at Richmond, Virginia, at ten o'clock A. M., on Wednesday, the fifth day of March, 1913, requiring it to show cause, if any it can, why it should not be fined under that section for such its alleged failure.

ORDER OF MARCH 5, 1913.

This day came the defendant, upon whom process has been duly served, and filed its answer to the rule, and the evidence having been submitted it is considered by the Commission that the Danville Furniture Company, Incorporated, render unto the Commonwealth of Virginia a fine of twenty-five (\$25.00) dollars and costs incident to this proceeding, and unless the same shall be paid to the clerk of the Commission within sixty days from this date that execution of *fieri facias* issue therefor, according to law.

CASE No. 355.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs.

Southern Railway Company,
Washington-Southern Railway Company.

Telegraph Road Crossing, Fairfax county.

ORDER OF MARCH 12, 1913.

It being suggested that the crossing of the highway at grade in the county of Fairfax, at the place known as Telegraph Road Crossing, by the Southern Railway Company and the Washington-Southern Railway Company is improper, inconvenient and dangerous to the public, and that in order to remove such inconvenience and danger it is necessary and proper that the said railway companies should be required to construct, maintain and operate their tracks above such highway instead of at grade; therefore, it is hereby ordered that the Southern Railway Company and the Washington-Southern Railway Company appear before the State Corporation Commission at its court room, in the city of Richmond, at ten o'clock A. M., on Wednesday, the second day of April, 1913, at which time and place the matter above referred to will be investigated, according to law, to the end that justice may be done; and that copies of this order be forthwith served upon the said Southern Railway Company and the Washington-Southern Railway Company as a notice of the suggestions herein contained, and of the purpose of the Commission to consider the same and to enter such rules, orders and requirements as may be just, and also as a writ or summons, according to law.

ORDER OF APRIL 23, 1913.

This day came the Southern Railway Company and Washington-Southern Railway Company and each filed its separate answer and cross petition to the order and summons issued in this proceeding on the twelfth day of March, 1913, praying that the county of Fairfax, and R. R. Buckley, Chairman, Thomas A. Williams, Franklin Williams, F. Pierce Reid and John S. Pearson, constituting the board of supervisors of said county, as its legal representatives thereof, be made defendants in this proceeding:

Therefore, it is hereby ordered that the county of Fairfax, and R. R. Buckley, Chairman, Thomas A. Williams, Franklin Williams, F. Pierce Reid and John S. Pearson, constituting the board of supervisors of said county, be summoned to appear before the State Corporation Commission at its court room in the city of Richmond, at ten o'clock A. M. on Wednesday, the seventh day of May, 1913, to answer such cross petitions of Southern Railway Company and Washington-Southern Railway Company as they may be advised.

ORDER OF MAY 14, 1913.

This day came the parties by their attorneys and the evidence having been fully heard and the argument submitted, the Commission takes time to consider of its judgment and the order to be entered herein.

ORDER OF OCTOBER 27, 1913.

This day came the parties by their attorneys, and the evidence having been fully heard and the argument of counsel submitted, the Commission is of the opinion, and doth therefore decide:

First—That the authorities of Fairfax county be not required to answer the cross petitions of the defendant companies.

Second—That the defendant companies be, and they are, hereby re-

quired to proceed at once to eliminate Telegraph Road grade crossing by constructing and substituting therefor an undergrade crossing as provided by blue print filed in the record marked "No. 1004, Washington-Southern Railway Proposed Undergrade Bridge at Telegraph Road Crossing, Fairfax county, Va.," with the following additional specifications and requirements:

(a) That a suitable wire screen covering be placed on top of the ties, extending from inside to inside of guard rail (or about nine feet in width on each track for its entire length) to prevent clinkers, etc., from the ash pans of engines and leakage from defective cars falling into the underpass, and provide open skylights between the tracks for light and ventilation;

(b) That the roadway or underpass should be paved for its entire length between the concrete walls with some good material, and that four catch basins properly protected by removable iron gratings should be constructed, one on each side of the north or west entrance, and one on each side of the south or east entrance, just at the end of the abutments, connecting same with the thirty inch iron drain pipe leading from the underpass and emptying into the overflow race situated about eight hundred feet south of the tracks, as shown on the blueprint.

All other questions are reserved.

OPINION—RHEA, COMMISSIONER.

This is a proceeding instituted by the State Corporation Commission against the Washington-Southern Railway Company and the Southern Railway Company on complaint of the authorities and citizens of Fairfax county to investigate the alleged dangerous situation where what is known as the Telegraph Road crosses at grade the tracks of the defendant companies in Fairfax county.

This action was taken on the part of the Commission after long correspondence and repeated efforts upon the part of the Commission and the authorities of Fairfax county to induce the said railroad companies to take such action as might be necessary to relieve the situation at said crossing.

The said railroad companies appeared and made answer to the said proceeding instituted by the Commission and practically admitted the necessity for the elimination of said grade crossing in clause five of said answers as follows: "That the defendant companies are willing that the said Telegraph Road be carried under their tracks as contemplated in the said order issued by this Honorable body on March 12, 1913, provided the expense of the same be divided equally between the said railroad companies on the one part and the county of Fairfax on the other part, as contemplated by the laws of Virginia."

For the purpose of making the authorities of Fairfax county parties to the proceeding the said defendant companies asked that their answers be taken as cross petitions against the authorities of Fairfax county and that they be required to appear and make answer to said cross petitions. On the day set for hearing the board of supervisors of Fairfax county appeared before the Commission by counsel and objected to its being made a party and required to answer in said proceeding upon the ground that the State Corporation Commission had no jurisdiction as against the board of supervisors of Fairfax county and could not enforce any order or orders it might make in said proceedings against the board of supervisors of Fairfax county, but

could only enforce such order or orders against the defendant companies as being public service corporations.

We are of opinion that the objection of the board of supervisors of Fairfax county should be sustained and that said county should not be required to answer said cross petitions.

The evidence of a number of witnesses was taken at the hearing as to the dangerous character of said Telegraph Road Crossing.

It appears that the Telegraph Road, which is a highway between Richmond and Alexandria, has been in existence for more than one hundred years and was there before the tracks of either of the defendant companies were built across it just outside of the city limits and south of the city of Alexandria, Virginia.

There are now seven railroad tracks of the defendant companies crossing said road at grade at the point in question.

There are four main line tracks, two owned by the Washington-Southern Railway Company and two by the Southern Railway Company. The other three tracks are used for the standing of cars and for switching purposes.

It appears that there are from two hundred to two hundred and fifty passenger and freight trains passing this crossing every day.

This crossing is frequently traveled by persons going in and out of Alexandria and accidents have occurred and others been narrowly averted, although there has been a day watchman there for several years, and said companies were required several months ago to put a night watchman there also.

But notwithstanding this the dangerous character of the crossing has not been eliminated.

It appears from the record that the Commission made a personal inspection of this crossing and this was done in the presence of the representatives of the two defendant companies.

From the record in this case and all the evidence before the Commission, we are clearly of opinion that said grade crossing should be eliminated, and that as early as practicable, there should be substituted therefor an undergrade crossing such as is shown on the blueprint filed in the record marked "No. 1004, Washington-Southern Railway Proposed Undergrade Bridge at Telegraph Road Crossing, Fairfax county, Va." with the following additions recommended by Burton Marye, civil engineer, in his report of date June 25, 1912, addressed to a member of this Commission, as follows, to-wit:

First—That a wire screen covering be placed on top of the ties, extending from inside to inside of guard rail (or about nine feet in width on each track for its length) to prevent clinkers, etc. from the ash pans of engines, leakage from defective cars, falling into the underpass, and provide upon skylights between the tracks for light and ventilation.

Second—That the roadway or underpass should be paved for its entire length between the concrete walls with some good material and that four catch basins properly protected by removable iron gratings should be constructed, one on each side of the north or west entrance and one on each side of the south or east entrance, just at the end of the abutments, connecting same with the thirty inch iron drain pipe leading from the underpass and emptying into the overflow race, situated about eight hundred feet south of the tracks, as shown on the blueprint.

The defendant companies contend in their answers that under clause

39 of chapter IV. of an act approved January 18th, 1904, that the county of Fairfax should be required to pay one-half the expense of constructing an underpass at said crossing. Whatever rights the defendant companies may have against the county of Fairfax for any part of the cost of making this improvement can not be asserted before this tribunal, for as stated heretofore, this Commission has no jurisdiction over the authorities of Fairfax county.

In clause 38 of said chapter IV of the Act Concerning Public Service Corporations, the policy of this State is declared to be against grade crossings of railroads and county highways, and certainly in a case like this where the evidence, in the judgment of the Commission, shows conclusively the dangerous character of the crossing in question, and the Commission having ample power under the Constitution and laws of this State to remedy this condition, it is its duty to do so, and leave the defendants to assert whatever claims they have a right to assert against the county of Fairfax, in the proper courts of the Commonwealth. An order will therefore be entered directing and requiring the defendant companies to proceed forthwith to construct an under-grade crossing, in accordance with this opinion, where their line crosses the Telegraph Road as aforesaid.

All other questions are reserved.

Commissioners PRENTIS and WINGFIELD concur.

ORDER OF NOVEMBER 25, 1913.

Upon the motion of the Southern Railway Company, which intends to appeal from the judgment and order entered herein on the 27th day of October, 1913, it is ordered that execution of such order be suspended for sixty (60) days.

ORDER OF DECEMBER 18, 1913.

Upon the motion of the Southern Railway Company, which intends to appeal from the judgment and order entered herein on the 27th day of October 1913, it is ordered that execution of such order be further suspended for thirty (30) days from December 26, 1913.

CASE No. 356.

Ex parte Virginia Steamship Company.

Petition to increase certain class and commodity rates by the Virginia Steamship Company between West Point and landings on Mattaponi river.

ORDER OF MARCH 19, 1913.

This day came Virginia Steamship Company and filed its petition praying for permission to advance certain class and commodity rates between West Point and landings on the Mattaponi river.

ORDER OF APRIL 22, 1913.

This day came Geo. F. Brooks, Jno. T. Barfoot, L. H. Phippens, B. H. Walker, Addison Clarke, W. T. Hurley, T. B. Wilson, B. C. Garrett, L. C. Walker, P. P. Dillard, W. H. Walker, Geo. Miller, Wm. Geo. Pollard and Thos. Cummings by their attorneys, and asked leave to intervene, which leave was granted. Whereupon, the evidence having been fully introduced and the argument of counsel submitted, the Commission doth hereby adjudge, prescribe and order as follows:

1. That from and after the fifteenth day of May, 1913, and after due publication according to law, the Virginia Steamship Company may put into effect and observe the following class and commodity rates for the intrastate transportation of property in Virginia:

Class Rates.

	In Cents Per 100 Pounds.											Per bbl.	Per 100 lbs.

Potatoes, in bags..... Class rate.

Vehicles, viz.:

Buggies, knocked down, crated, each..... \$1 00

2. All other commodity rates heretofore in force shall remain effective except such of them as are in conflict with rule 16 of Virginia Classification.

On and after that date it shall be unlawful for the said the Virginia Steamship Company to charge and collect greater rates than are allowed or prescribed by this order, or than is hereafter allowed or prescribed by the State Corporation Commission.

CASE No. 357.

Directing suit in equity for the appointment of a receiver for

Tidewater Bank of Virginia, Incorporated, located at Reedville, Northumberland County, Va.

ORDER OF APRIL 3, 1913.

It appearing that the Tidewater Bank of Virginia, Incorporated, is failing to meet its obligations and the legal demands upon it in the ordinary course of business, and that in the judgment of the Commission it is necessary for the protection of the interests of the depositors and creditors of the said Tidewater Bank of Virginia, Incorporated, Reedville, Northumberland county, Virginia, and the Commission being of opinion that application should be made to the court having jurisdiction for the appointment of a receiver to take charge of the business affairs and assets of said institution, and to wind up its affairs; it is therefore ordered that C. Harding Walker, an attorney at law, proceed forthwith, in the name of the State Corporation Commission, to institute a suit in equity in the Circuit Court of Northumberland county for the appointment of such receiver, in accordance with the statute in such case made and provided.

CASE No. 358.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs.

*Seaboard Air Line Railway, and
Southern Railway Company.*

Physical connection at LaCrosse, Va.

ORDER OF APRIL 3, 1913.

It being suggested that in the public interest there should be a physical connection made between the tracks of the Seaboard Air Line Railway and of the Southern Railway Company at LaCrosse, Virginia; therefore, it is hereby ordered that the Seaboard Air Line Railway and the Southern Railway Company appear before the State Corporation Commission at its court room, in

the city of Richmond, Virginia, at ten (10:00) o'clock A. M., on Wednesday, the sixteenth day of April, 1913, at which time and place the matter above referred to will be investigated, according to law, to the end that justice may be done; and that copies of this order be forthwith served upon the said Seaboard Air Line Railway and Southern Railway Company as a notice of the suggestions herein contained, and of the purpose of the Commission to consider the same and to enter such rules, orders and requirements as may be just, and also as a writ or summons, according to law.

ORDER OF MAY 8, 1913.

This day came the parties by their attorneys, and thereupon the Seaboard Air Line Railway filed its separate motion to dismiss these proceedings and quash the notice heretofore served on it. Whereupon, the evidence having been fully heard and the argument of counsel submitted the Commission is of the opinion, and doth therefore decide, that, in order to afford reasonable, proper and equal facilities for the interchange of traffic between their respective lines, and for receiving, forwarding and delivering of passengers and property to and from their several lines, and those connecting therewith, the defendant companies should construct, maintain and operate a physical connection between their lines of railroad track at LaCrosse, in the county of Mecklenburg, Virginia, so as to enable them properly to discharge their public duties, under the laws of this Commonwealth. Therefore, it is considered by the Commission that said defendant companies do, within ten days from this date, submit to the Commission proper plans for the making of the physical connection between their lines of railway which is hereby ordered and required.

CASE No. 359.

In the matter of the appeal of Modern Workmen of the World from the Commissioner of Insurance.

ORDER OF APRIL 15, 1913.

This day came Modern Workmen of the World, by its attorneys, and filed its petition and appeal from the action of the Commissioner of Insurance in declining to license the said order or society as a fraternal beneficiary association, under section 7 of chapter V of the act creating the Bureau of Insurance, as amended by the act approved March 12, 1908. Whereupon, it is ordered that the Commissioner of Insurance answer the said petition within five days from this date.

ORDER OF APRIL 16, 1913.

This day came the Commissioner of Insurance and filed his answer to the petition and appeal.

ORDER OF APRIL 30, 1913.

This day came again the parties by their attorneys, and the evidence

having been fully heard and the argument of counsel submitted, the Commission takes time to consider of its judgment and the order to be entered herein.

ORDER OF MAY 13, 1913.

This day came again the parties by their attorneys, and the evidence having been fully heard and the argument of counsel submitted, the Commission is of the opinion and doth therefore decide that the Modern Workmen of the World is not a fraternal beneficial association, order or society having a representative form of government, within the true intent, purpose and meaning of section 1 of chapter V of the act entitled "An act concerning the Bureau of Insurance, and insurance, guaranty, trust, indemnity, fidelity, security, and fraternal benefit companies, associations, societies, and orders, and imposing penalties for its violation," approved March 9, 1906.

Therefore, it is considered by the Commission that the action of the Commissioner of Insurance in declining to license the said order as a fraternal beneficial association under section 7 of the said act is ratified, approved and confirmed, and such license is hereby refused, and the petition for appeal is dismissed.

CASE No. 360.

Commonwealth of Virginia, at the relation of H. J. Glass and Others,
vs.
The Virginian Railway Company.

Station Facilities at Melrose, Campbell County, Va.

ORDER OF APRIL 23, 1913.

The petition of the Commonwealth of Virginia, at the relation of H. J. Glass and others, against The Virginian Railway Company, having been this day filed, it is hereby ordered that the defendant corporation be summoned to appear and answer the same on or before ten o'clock A. M., on Wednesday, the seventh day of May, 1913, at the court room of the State Corporation Commission in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition, be forthwith served upon the said defendant corporation as a notice of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders and regulations as may be just, and also as a writ or summons, according to law.

ORDER OF MAY 6, 1913.

This day came The Virginian Railway Company and filed its answer to the petition.

ORDER OF JUNE 26, 1913.

This day came the parties by their attorneys, and the evidence having been fully heard and the argument of counsel submitted, the Commission is

of the opinion and doth therefore decide that in order to properly discharge its public duties and to afford reasonable and proper station facilities at Melrose, in Campbell county, Virginia, it is the duty of the defendant company to build a new freight and passenger station at that place. Therefore, it is considered by the Commission that the defendant company do, within twenty (20) days from this date, submit to the Commission for its approval, proper plans for such improvement of its freight and passenger facilities at Melrose Station.

All other questions are reserved.

CASE No. 361.

Commonwealth of Virginia, at the relation of Adams Bros. Paynes Company,
vs.
The Chesapeake and Ohio Railway Company.

Rate on cement, Fordwick, Va. to Lynchburg, Va.

ORDER OF APRIL 24, 1913.

The petition of the Commonwealth of Virginia, at the relation of Adams Bros. Paynes Company, against The Chesapeake and Ohio Railway Company, having been this day filed, it is hereby ordered that the defendant corporation be summoned to appear and answer the same on or before ten o'clock A. M., on Tuesday, the thirteenth day of May, 1913, at the court room of the State Corporation Commission in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition, be forthwith served upon the said defendant corporation as a notice of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders and regulations as may be just, and also as a writ or summons, according to law.

ORDER OF MAY, 13, 1913.

This day came The Chesapeake and Ohio Railway Company and filed its answer to the petition.

ORDER OF MAY 15, 1913.

Upon motion of the petitioner, by its attorneys, this proceeding is dismissed.

CASE No. 362.

Ex parte Norfolk-Southern Railroad Company.

In the matter of the application of the Norfolk-Southern Railroad Company to increase its passenger rates upon its electric division.

ORDER OF MAY 6, 1913.

This day came Norfolk-Southern Railroad Company and filed its petition in writing for leave to increase certain passenger rates over its electric division. Whereupon the town of Virginia Beach filed its petition and asked to be allowed to intervene and oppose such application, and, accordingly the town of Virginia Beach is hereby made a party to this proceeding. Thereupon, the evidence having been partly submitted the proceeding is continued, with leave to the Norfolk-Southern Railroad Company to file its answer to the petition of the town of Virginia Beach within four days from this date.

ORDER OF MAY 10, 1913.

This day came the Norfolk-Southern Railroad Company and filed its answer to the petition of the town of Virginia Beach.

ORDER OF MAY 20, 1913.

This day came again the parties by their attorneys, and the evidence having been fully heard and the argument of counsel submitted, the Commission takes time to consider of its judgment and the order to be entered herein.

ORDER OF JUNE 5, 1913.

The Commission having maturely considered the evidence and the argument of counsel doth adjudge, prescribe and order as follows:

1. That from and after the fifteenth day of June, 1913, and after due publication according to law, the Norfolk-Southern Railroad Company may put into effect for local travel upon its electric division a general passenger rate of five cents (5c) per passenger for each zone or part of a zone traveled.

Zones.

2. The division of the lines into zones shall be as follows:

South Route.

1st zone, from Norfolk to Ingleside, inclusive.....	4.7 miles
2nd zone, from Ingleside to Euclid, inclusive.....	4.3 "
3rd zone, from Euclid to Lynnhaven, inclusive.....	4.9 "
4th zone, from Lynnhaven to Casino, Virginia Beach, inclusive....	7.0 "

North Route.

1st zone, from Norfolk to Fox Hall, inclusive.....	4.3 miles.
2nd zone, from Fox Hall to Lake Smith, inclusive.....	4.1 "
3rd zone, from Lake Smith to Lynnhaven Inlet, inclusive.....	4.5 "
4th zone, from Lynnhaven Inlet to Life Saving Station No. 1 Cape Henry, inclusive.....	5.5 "
5th zone, from Life Saving Station No. 1 to Pavilion, Virginia Beach, inclusive.....	5.9 "

Commutation Tickets.

3. There shall be a commutation ticket containing two hundred (200) zone coupons, good over all the zones of either route for four months from the date of sale, which shall be sold for eight dollars (\$8.00). There shall also be a commutation ticket containing one hundred (100) zone coupons, good only over the first and second zones of both the North Route and South Route for four months from the date of sale, which shall be sold for four dollars (\$4.00), to be printed on paper or card board of a different color from the coupons of the eight dollar commutation ticket. Each of these commutation tickets to be issued under the following conditions:

In the name of one person, whose name shall be written in the cover of the book at the time of issuance. The coupons will be accepted on the trains for any number of persons, provided, however, that the coupons will not be thus accepted unless presented by the person in whose name the book is issued, and they must be detached by the conductor. If less than four-fifths (4-5ths) of the coupons are used within four months from the date of issuance the unused portion must be redeemed by the company, crediting the owner with the original cost of the book and charging him with the coupons used on the basis of five cents (5c) for each of the used coupons. If four-fifths (4-5ths) or more of the coupons have been used the book must be returned to the company after the expiration of such four months, and the coupons cancelled and shall have no redemption value.

Baggage.

4. Baggage may be charged for at twenty cents (20c) for each piece checked in addition to such regular fare. Single pieces weighing more than two hundred and fifty (250) pounds may be refused.

Special Car Rates.

5. The company may charge the following special car rates:

<i>Distance one way.</i>	<i>Charge for round-trip.</i>
10 miles and under.....	\$15.00
15 and over 10 miles.....	22.50
20 and over 15 miles.....	30.00
30 and over 20 miles.....	35.00

Cash Fares.

6. Whenever cash fares are paid on the car the rate shall be ten cents (10c) for each zone traveled. The conductor shall give the traveler one cash fare receipt for the total amount paid on any single trip, and the company shall redeem such receipt upon presentation of the same at any ticket office of the company by the payment of five cents (5c). Upon request of the passenger who has paid a cash zone fare a reasonable opportunity shall be afforded to purchase tickets at the first station at which the car is scheduled to stop, and this regulation shall be kept posted in each passenger car.

The "package rates" now in effect may be maintained.

School Tickets.

7. School tickets between Virginia Beach or Cape Henry and Norfolk, good for forty-six (46) trips, must be sold at three dollars and forty-five cents (\$3.45), upon the same terms and conditions as are now effective.

Interline Travel.

8. The present rate of two cents (2c) per mile per passenger for interline travel, carrying with it the privilege of checking baggage under the usual conditions, may be maintained.

CASE No. 363.

Commonwealth of Virginia, at the relation of the City of Richmond, a municipal corporation.

vs.

Atlantic Coast Line Railroad Company.

In the matter of the petition of the city of Richmond asking permission to condemn certain property of the Atlantic Coast Line Railroad Company.

ORDER OF MAY 19, 1913.

The petition of the Commonwealth of Virginia, at the relation of the city of Richmond, a municipal corporation, against the Atlantic Coast Line Railroad Company, having been this day filed, it is hereby ordered that the defendant corporation be summoned to appear and answer the same on or before ten o'clock A. M., on Wednesday, the fourth day of June, 1913, at the court room of the State Corporation Commission in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition be forthwith served upon the said defendant corporation as a notice of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders and regulations as may be just, and also as a writ or summons, according to law.

ORDER OF JUNE 4, 1913.

This day came the petitioner by its attorney, the defendant not appearing, and the case being submitted, the Commission is of the opinion and doth therefore decide, that the city of Richmond is not required by section 52, of chapter V, of the Act Concerning Corporations, (Pollard's Code, section 1105e, clause 52) as a condition precedent to the institution of condemnation proceedings to take the property of the defendant company for public use, to obtain from this Commission a certificate "that a public necessity or an essential public convenience shall so require," and this Commission has no jurisdiction to grant such certificate.

Therefore, it is considered by the Commission that the prayer of the petition be denied, and that the petition be, and is, hereby dismissed.

CASE No. 364.

CITY OF RICHMOND, May 20, 1913.

A rule is hereby awarded against

Hammitt Fire Proofing Company,

a corporation chartered under the laws of some other jurisdiction than of the Commonwealth of Virginia, and designated as a foreign corporation, returnable at the court room of the State Corporation Commission, in the Capitol Building in the city of Richmond, Virginia, at ten o'clock A. M., on Thursday, the fifth day of June, 1913, requiring it to show cause, if any it can, why it should not be fined under section 1105 of the Code of Virginia, as amended, for transacting business in this State without first obtaining the certificate of authority provided for in section 1104 of the Code of Virginia, as amended.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs. (Rule)
Hammitt Fire Proofing Company.

ORDER OF JUNE 5, 1913.

It is ordered that the rule awarded against Hammitt Fire Proofing Company on the twentieth day of May, 1913, be dismissed at the cost of the defendant.

CASE No. 365.

Commonwealth of Virginia, at the relation of the Town of South Boston,
vs.
Southern Railway Company.

Station facilities at South Boston.

ORDER OF JUNE 16, 1913.

The petition of the Commonwealth of Virginia, at the relation of the town of South Boston, against the Southern Railway Company, having been his day filed, it is hereby ordered that the defendant corporation be summoned to appear and answer the same on or before ten o'clock A. M., on Tuesday, the first day of July, 1913, at the court room of the State Corporation Commission in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition, be forthwith served upon the said defendant corporation as a notice of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders and regulations as may be just, and also as a writ or summons, according to law.

ORDER OF JULY 8, 1913.

This day came the Southern Railway Company and filed its answer to the petition.

ORDER OF JULY 15, 1913.

This day came the parties by their attorneys, and the evidence having been fully heard and the arguments of counsel submitted, the Commission takes time to consider of its judgment and the order to be entered in this proceeding.

CASE No. 366.

Commonwealth of Virginia, at the relation of Darby Coal Mining Company, a corporation; Old Virginia Coal Company, a corporation; Black Mountain Mining Company, Incorporated; Bondurant Coal and Coke Company, Incorporated, and C. W. Bondurant,

vs.

*Norfolk and Western Railway Company,
Virginia and Southwestern Railway Company.*

Rates on coal from mines on Virginia and Southwestern Railway to stations on Norfolk and Western Railway in Virginia via Bristol.

ORDER OF JULY 1, 1913.

The petition of the Commonwealth of Virginia, at the relation of Darby Coal Mining Company, a corporation, Old Virginia Coal Company, a corporation, Black Mountain Mining Company, Incorporated, Bondurant Coal and Coke Company, Incorporated, and C. W. Bondurant, against the Norfolk and Western Railway Company and the Virginia and Southwestern Railway Company, having been this day filed, it is hereby ordered that the defendant corporations be summoned to appear and answer the same on or before ten o'clock A. M., on Tuesday, the fifteenth day of July, 1913, at the court room of the State Corporation Commission in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition, be forthwith served upon each of the said defendant corporations as a notice of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders and regulations as may be just, and also as a writ or summons, according to law.

ORDER OF JULY 18, 1913.

This day came Norfolk and Western Railway Company and filed its answer to the petition.

ORDER OF JULY 18, 1913.

This day came Virginia and Southwestern Railway Company and filed its answer to the petition.

ORDER OF SEPTEMBER 25, 1913.

This day came again the parties by their attorneys, and the evidence having been fully submitted the proceeding is continued, with leave to the petitioners to file a brief of argument on or before October 15th, and to the defendants to reply thereto on or before November 1st next.

ORDER OF DECEMBER 24, 1913.

The Commission having maturely considered the evidence and the argument of counsel, doth adjudge, prescribe and order that from and after the fifteenth day of January, 1914, after due publication according to law, the Virginia and Southwestern Railway Company and the Norfolk and Western Railway Company put into effect and observe rates on coal, carload lots, from St. Charles to points on the Norfolk and Western Railway via Bristol in accordance with the following schedule:

Rates on coal, carload minimum weight 50,000 pounds, or actual weight when car is loaded to full visible capacity.

CASE No. 367.

CITY OF RICHMOND, June 26, 1913.

A rule is hereby awarded against

National Fire Proofing Company,

a corporation chartered under the laws of some other jurisdiction than of the Commonwealth of Virginia, and designated as a foreign corporation, returnable at the court room of the State Corporation Commission, in the Capitol Building in the city of Richmond, Virginia, at ten o'clock A. M., on Tuesday,

the eight day of July, 1913, requiring it to show cause, if any it can, why it should not be fined under section 1105 of the Code of Virginia, as amended, for transacting business in this State without first obtaining the certificate of authority provided for in section 1104 of the Code of Virginia, as amended.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs. (Rule)
National Fire Proofing Company.

ORDER OF JULY 8, 1913.

At the request of counsel for the defendant corporation this case is continued generally.

ORDER OF DECEMBER 13, 1913.

It is ordered that the rule awarded against National Fire Proofing Company on the 26th day of June, 1913, be dismissed at the cost of the defendant corporation.

CASE No. 368.

Ex parte Interstate Railroad Company.

In the matter of the application of the Interstate Railroad Company to increase certain rates on lumber.

ORDER OF JULY 2, 1913.

Upon the application of the Interstate Railroad Company, and for reasons deemed sufficient by the Commission, leave is hereby given it to increase its rates on lumber from Arno, Roda and Stonega to Crossbrook, and from Crossbrook to Appalachia from two dollars and fifty cents (\$2.50) to five dollars (\$5.00) per car.

CASE No. 369.

Ex parte Maryland, Delaware and Virginia Railway Company.

In the matter of the application of the Maryland, Delaware and Virginia Railway Company for leave to change location of wharf at Leedstown.

ORDER OF AUGUST 11, 1913.

Upon the application of the Maryland, Delaware and Virginia Railway Company leave is given it to change the location of its wharf at Leedstown and rebuild the same on the land now belonging to Mrs. T. L. Taylor, about fourteen hundred (1400) feet, more or less, below the present site.

CASE No. 370.

Directing suit in equity for the appointment of a receiver, for

Commonwealth Bank, Incorporated, located at Richmond, Va.

ORDER OF AUGUST 29, 1913.

It appearing from the report filed by C. C. Barksdale, Chief Examiner of Banks, of an examination of said bank by John A. Booker and Roger S. Warren, assistant examiners of banks, made by them August 2, 1913, and the further statement made this date by said C. C. Barksdale, Chief Examiner of Banks, as to the condition of Commonwealth Bank, Incorporated, and in pursuance of his request, and it appearing from said report and said statement that the banking laws of this State are not being fully observed; that irregularities are being practiced; that the capital of said bank has been, or is in danger of being impaired; and, therefore, in the judgment of the Commission it is necessary for the protection of the interests of the depositors and creditors of the said Commonwealth Bank, Incorporated, located at Richmond, Va., and the Commission being of opinion that application should be made to the court having jurisdiction for the appointment of a receiver to take charge of the business affairs and assets of said institution and to wind up its affairs;

It is therefore ordered that J. R. Tucker, Jr., an attorney at law, proceed forthwith, in the name of the State Corporation Commission, to institute a suit in equity in the chancery court of the city of Richmond, or in any court having jurisdiction in the premises, for the appointment of such receiver, in accordance with the statute in such case made and provided.

CASE No. 371.

CITY OF RICHMOND, September 23, 1913.

A rule is hereby awarded against Cornett Light and Power Company, returnable at the court room of the State Corporation Commission in the Capitol Building, city of Richmond, Virginia, at ten o'clock A. M., on Wednesday, the fifth day of November, 1913, requiring it to show cause, if any it can, why it should not be fined under the act entitled, "An act to require all water companies, heat, light and power companies and gas companies to pay a franchise tax, a property tax, and to furnish certain reports to the State Corporation Commission," approved February 26, 1910, for failure to make the report required under the said act for the year ending June 30, 1913.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs. (Rule)
Cornett Light and Power Company.

ORDER OF NOVEMBER 5, 1913.

It appearing to the Commission that the charter of the Cornett Light and Power Company is about to be revoked and annulled it is ordered that the rule awarded against the said Cornett Light and Power Company on the twenty-third day of September, 1913, be dismissed.

CASE No. 373.

CITY OF RICHMOND, September 23, 1913.

A rule is hereby awarded against Pennington Light Company, Incorporated, returnable at the court room of the State Corporation Commission in the Capitol Building, city of Richmond, Virginia, at ten o'clock A. M., on Wednesday, the fifth day of November, 1913, requiring it to show cause, if any it can, why it should not be fined under the act entitled, "An act to require all water companies, heat, light and power companies and gas companies to pay a franchise tax, a property tax, and to furnish certain reports to the State Corporation Commission," approved February 26, 1910, for failure to make the report required under the said act for the year ending June 30, 1913.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs. (Rule)
Pennington Light Company, Incorporated.

ORDER OF NOVEMBER 5, 1913.

The defendant corporation, upon whom process has been duly served came not, and it appearing that the required report has not yet been filed therefore, it is considered by the Commission that the Pennington Light Company, Incorporated, render unto the Commonwealth of Virginia a fine of twenty-five (\$25.00) dollars and costs incident to this proceeding, and unless the same shall be paid to the clerk of the Commission within sixty (60) days from this date that execution of *fieri facias* issue therefor, according to law.

CASE No. 374.

CITY OF RICHMOND, September 23, 1913.

A rule is hereby awarded against Petersburg Aqueduct Company, returnable at the court room of the State Corporation Commission in the Capitol Building, city of Richmond, Virginia, at ten o'clock A. M., on Wednesday, the fifth day of November, 1913, requiring it to show cause, if any it can, why it should not be fined under the act entitled, "An act to require all water companies, heat, light and power companies and gas companies to pay a franchise tax, a property tax, and to furnish certain reports to the State Corporation Commission," approved February 26, 1910, for failure to make the report required under the said act for the year ending June 30, 1913.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs. (Rule)
Petersburg Aqueduct Company.

ORDER OF NOVEMBER 5, 1913.

It is ordered that the rule awarded against Petersburg Aqueduct Company on the twenty-third day of September, 1913, be dismissed at the cost of the defendant.

CASE No. 375.

CITY OF RICHMOND, September 23, 1913.

A rule is hereby awarded against St. Paul Water Company, returnable at the court room of the State Corporation Commission, in the Capitol Building, city of Richmond, Virginia, at ten o'clock A. M., on Wednesday the fifth day of November, 1913, requiring it to show cause, if any it can, why it should not be fined under the act entitled, "An act to require all water companies, heat, light and power companies and gas companies to pay a franchise tax, a property tax, and to furnish certain reports to the State Corporation Commission," approved February 26, 1910, for failure to make the report required under the said act for the year ending June 30, 1913.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs. (Rule)
Saint Paul Water Company.

ORDER OF NOVEMBER 5, 1913.

The defendant corporation, upon whom process has been duly served, came not, and it appearing that the required report has not yet been filed, therefore, it is considered by the Commission that the Saint Paul Water Company render unto the Commonwealth of Virginia a fine of twenty-five (\$25.00) dollars and costs incident to this proceeding, and unless the same shall be paid to the clerk of the Commission within sixty days from this date that execution of *fieri facias* issue therefor, according to law.

CASE No. 376.

CITY OF RICHMOND, September 23, 1913.

A rule is hereby awarded against Staunton Falls Company, returnable at the court room of the State Corporation Commission in the Capitol Building, city of Richmond, Virginia, at ten o'clock A. M., on Wednesday, the fifth day of November, 1913, requiring it to show cause, if any it can, why it should not be fined under the act entitled, "An act to require all water companies, heat, light and power companies and gas companies to pay a franchise tax, a property tax, and to furnish certain reports to the State Corporation Commission," approved February 26, 1910, for failure to make the report required under the said act for the year ending June 30, 1913.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs. (Rule)
Staunton Falls Company.

ORDER OF NOVEMBER 5, 1913.

It is ordered that the rule awarded against Staunton Falls Company on the twenty-third day of September, 1913, be dismissed at the cost of the defendant.

CASE No. 377.

CITY OF RICHMOND, September 23, 1913.

A rule is hereby awarded against West Point Water, Light and Power Company, returnable at the court room of the State Corporation Commission in the Capitol Building, city of Richmond, Virginia, at ten o'clock A. M., on Wednesday, the fifth day of November, 1913, requiring it to show cause, if any it can, why it should not be fined under the act entitled, "An act to require all water companies, heat, light and power companies to pay a franchise tax, a property tax, and to make certain reports to the State Corporation Commission," approved February 26, 1910, for failure to make the report required under the said act for the year ending June 30, 1913.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs. (Rule)
West Point Water, Light and Power Company.

ORDER OF NOVEMBER 5, 1913.

It is ordered that the rule awarded against West Point Water, Light and Power Company on the twenty-third day of September, 1913, be dismissed at the cost of the defendant.

CASE No. 378.

CITY OF RICHMOND, September 23, 1913.

A rule is hereby awarded against Holland Telephone Corporation, returnable at the court room of the State Corporation Commission, Capitol Building, city of Richmond, Virginia, at ten o'clock A. M., on Wednesday, the fifth day of November, 1913, requiring it to show cause, if any it can, why it should not be fined under section 144 of the act entitled, "An act to raise revenue for the support of the government and public free schools and to pay the interest on the public debt and to provide a special tax for pensions, as authorized by section 189 of the Constitution," approved April 16, 1903, for failure to make the report required under section 34 of the same act, as amended by an act approved March 16, 1910, for the year ending June 30th, 1913.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs. (Rule)
Holland Telephone Corporation.

ORDER OF NOVEMBER 5, 1913.

It is ordered that the rule awarded against Holland Telephone Corporation on the twenty-third day of September, 1913, be dismissed at the cost of the defendant.

CASE No. 380.

CITY OF RICHMOND, October 7, 1913.

A rule is hereby awarded against

Cumberland Express Company, Incorporated,

a corporation chartered under the laws of some other jurisdiction than of the Commonwealth of Virginia, and designated as a foreign corporation, returnable at the court room of the State Corporation Commission, in the Capitol Building, in the city of Richmond, Virginia, at ten o'clock A. M., on Wednesday, the twenty-second day of October, 1913, requiring it to show cause, if any it can, why it should not be fined under section 1105 of the Code of Virginia, as amended, for transacting business in this State without first obtaining the certificate of authority provided for in section 1104 of the Code of Virginia, as amended.

CASE No. 381.

CITY OF RICHMOND, October 7, 1913.

A rule is hereby awarded against

Twin City Tailoring Company, Incorporated.

a corporation chartered under the laws of some other jurisdiction than of the Commonwealth of Virginia, and designated as a foreign corporation, returnable at the court room of the State Corporation Commission, in the Capitol Building, in the city of Richmond, Virginia, at ten o'clock A. M., on Wednesday, the twenty-second day of October, 1913, requiring it to show cause, if any it can, why it should not be fined under section 1105 of the Code of Virginia, as amended, for transacting business in this State without first obtaining the certificate of authority provided for in section 1104 of the Code of Virginia, as amended.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs. (Rule)

Twin City Tailoring Company, Incorporated.

ORDER OF OCTOBER 22, 1913.

It is ordered that the rule awarded against Twin City Tailoring Company, Incorporated, on the seventh day of October, 1913, be dismissed.

CASE No. 382.

Commonwealth of Virginia, at the relation of the State Corporation Commission,
vs.

Southern Railway Company.

Station facilities at Granite, Virginia.

ORDER OF OCTOBER 7, 1913.

It being suggested to the Commission that the station building at Granite has been destroyed by fire and that the defendant company has failed for an unreasonable length of time to replace the same, it is hereby ordered that the defendant corporation be summoned to appear before the Commission at Richmond, Virginia, on or before ten o'clock A. M., on Wednesday, the twenty-second day of October, 1913, to answer such suggestion; and that a copy of this order be forthwith served upon said defendant corporation, as a notice of such suggestion, and of the purpose of the Commission to consider the same, and to enter such rules, orders, and regulations as may be just, and also as a writ or summons, according to law.

ORDER OF JANUARY 8, 1914.

It appearing that the station building at Granite has been completed it is ordered that this proceeding be removed from the docket.

CASE No. 383.

Commonwealth of Virginia, at the relation of the City of Petersburg,
vs.

Atlantic Coast Line Railroad Company, the City of Richmond; the Board of Supervisors of Chesterfield County, the School Board of Manchester District No. 1 of the County of Chesterfield, the School Board of Dale District No. 3 of the County of Chesterfield, the School Board of Bermuda District No. 1 of the County of Chesterfield, the School Board of Matoaca District No. 5 of the County of Chesterfield; the Board of Supervisors of Dinwiddie County, the School Board of Namozine District of the County of Dinwiddie, the School Board of Rowanty District of the County of Dinwiddie; the Board of Supervisors of Prince George County, the School Board of Templeton District of the County of Prince George;
The Board of Supervisors of Sussex County, the School Board of Stony Creek District of the County of Sussex, the School Board of Henry District of the County of Sussex; the Board of Supervisors of Greenville County, the School Board of Belfield District of the County of Greenville, the School Board of Zion District of the County of Greenville, the School Board of Hicksford District of Greenville County; the Board of Supervisors of Nansemond County, the School Board of Sleepy Hole District of the County of Nansemond, the School Board of Cypress District of the County of Nansemond;
The Board of Supervisors of Norfolk County, the School Board of Western Branch District of the County of Norfolk; the City of Norfolk, the City of Portsmouth, and the City of Suffolk.

In the matter of the taxation of rolling stock of the Atlantic Coast Line Railroad Company.

ORDER OF OCTOBER 13, 1912.

The petition of the Commonwealth of Virginia, at the relation of the city of Petersburg, against the Atlantic Coast Line Railroad Company and

others, having been this day filed, it is hereby ordered that the defendants be summoned to appear and answer the same on or before ten o'clock A. M., on Wednesday, the fifth day of November, 1913, at the court room of the State Corporation Commission, in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition, be forthwith served upon each of the said defendants as a notice of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders and regulations as may be just, and also as a writ or summons according to law.

ORDER OF NOVEMBER 5, 1913.

This day came the Atlantic Coast Line Railroad Company and filed its demurrer to the petition, in which demurrer the petitioner joined.

CASE No. 384.

Commonwealth of Virginia, at the relation of the City of Petersburg,
vs.

Seaboard Air Line Railway, the Board of Supervisors of Henrico County, the School Board of Brookland District of the County of Henrico, the city of Richmond; the Board of Supervisors of Chesterfield county, the School Board of Manchester District of the County of Chesterfield, the School Board of Bermuda District of the County of Chesterfield, the School Board of Dale District of the County of Chesterfield; the School Board of Matoaca District of the County of Chesterfield; the Board of Supervisors of Dinwiddie County, the School Board of Namozine District of the County of Dinwiddie, the School Board of Rowanty District of the County of Dinwiddie, the School Board of Sapony District of the County of Dinwiddie;

The Board of Supervisors of Brunswick County, the School Board of Red Oak District of the County of Brunswick; the School Board of Totaro District of the County of Brunswick, the School Board of Meherrin District of the County of Brunswick; the Board of Supervisors of Mecklenburg County, the School Board of South Hill District of the County of Mecklenburg, the School Board of Flat Creek District of the County of Mecklenburg, the School Board of Palmer's Spring District of the County of Mecklenburg; the City of Portsmouth; the Board of Supervisors of Norfolk County, the School Board of Western Branch District of the County of Norfolk, the School Board of Deep Creek District of the County of Norfolk;

In the matter of the taxation of rolling stock of the Seaboard Air Line Railway.

ORDER OF OCTOBER 13, 1913.

The petition of the Commonwealth of Virginia, at the relation of the city of Petersburg, against the Seaboard Air Line Railway and others, having been this day filed, it is hereby ordered that the defendants be summoned to appear and answer the same on or before ten o'clock A. M., on Wednesday, the fifth day of November, 1913, at the court room of the State Corporation Commission, in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition, be forthwith served upon each of the said defendants as a notice of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders and regulations as may be just, and also as a writ or summons according to law.

Commonwealth of Virginia, at the relation of the City of Roanoke, a Municipal Corporation organized under the Laws of Virginia,

vs.

Norfolk and Western Railway Company, and others.

In the matter of the taxation of the rolling stock of the Norfolk and Western Railway Company.

ORDER OF OCTOBER 18, 1913.

This day came the petitioner, by its attorneys, and asked leave to file their petition under the above title, which is hereby granted, and the same is ordered to be filed, and it appearing to the Commission from an inspection of the said petition, that the issues raised therein are matters of law, and the same issues are now presented in the case of the *Commonwealth of Virginia, at the relation of the city of Petersburg, a Municipal Corporation vs. the Seaboard Air Line Railway and others*, which said case is now depending before this Commission, upon motion of petitioner it is ordered that issuance of process against the defendants in this case, of the *Commonwealth of Virginia, at the relation of the city of Roanoke vs. the Norfolk and Western Railway Company, and others*, be suspended until the further order of the Commission, and permission is given the city of Roanoke upon compliance with Rule No. 2, to intervene in the case of the *Commonwealth of Virginia, at the relation of the city of Petersburg, vs. The Atlantic Coast Line Railroad Company, and others*, and to be heard upon the questions involved.

Commonwealth of Virginia, at the relation of the City of Petersburg,

vs.

Seaboard Air Line Railway, and others.

In the matter of the taxation of rolling stock of the Seaboard Air Line Railway.

ORDER OF OCTOBER 31, 1913.

This day came the city of Roanoke, a municipal corporation of the State of Virginia, and filed its petition, and moved the Commission, upon the ground that it has an interest in the results of the proceeding, to be allowed to intervene and become a party to this proceeding; which leave is hereby granted.

ORDER OF NOVEMBER 5, 1913.

This day came the Seaboard Air Line Railway and filed its separate answer to the petition, to which answer the petitioner replied generally.

(Cases 383 and 384 consolidated.)

CASE No. 384.

Commonwealth of Virginia, at the relation of the City of Petersburg,
vs.
Seaboard Air Line Railway, and others.

CASE No. 383.

Commonwealth of Virginia, at the relation of the City of Petersburg,
vs.
Atlantic Coast Line Railroad Company, and others.

In the matter of the taxation of rolling stock of the Seaboard Air Line Railway and the Atlantic Coast Line Railroad Company.

ORDER OF NOVEMBER 19, 1913.

This day came the parties by their attorneys, and by consent it is ordered that these proceedings be hereafter heard and determined together. Whereupon came the board of supervisors of Henrico county, the board of supervisors of Chesterfield county, the board of supervisors of Brunswick county, the board of supervisors of Mecklenburg county, the board of supervisors of Norfolk county, the board of supervisors of Nansemond county, the city of Suffolk, and the board of supervisors of Isle of Wight county, and filed their joint and several demurrer to the petition of the Commonwealth, at the relation of the city of Petersburg against the Seaboard Air Line Railway and others, in which demurrer the petitioner joined. Whereupon came also the board of supervisors of Chesterfield county, the board of supervisors of Norfolk county, the city of Suffolk, the board of supervisors of Prince George county, and the board of supervisors of Nansemond county and filed their joint and several demurrer to the petition of the Commonwealth, at the relation of the city of Petersburg, against the Atlantic Coast Line Railroad Company and others, in which demurrer the petitioner joined. Whereupon came also the Atlantic Coast Line Railroad Company and asked leave to withdraw its demurrer heretofore filed in this proceeding,

which leave being granted said demurrer is withdrawn. And thereupon the Atlantic Coast Line Railroad Company filed its answer to the petition of the Commonwealth, at the relation of the city of Petersburg, to which answer the petitioner replied generally. The evidence having been then introduced and the arguments of counsel partly heard, the proceedings are continued until to-morrow.

ORDER OF NOVEMBER 20, 1913.

This day came again the parties, by their attorneys, and the arguments of counsel having been fully submitted the Commission takes time to consider of its judgment and the order to be entered herein.

ORDER OF DECEMBER 9, 1913.

The Commission having maturely considered the evidence and the argument of counsel, and for the reasons stated in writing and filed with the record, is of the opinion and doth therefore decide that the prayers of the petitioner be, and are, hereby granted, and the clerk of the Commission is directed to proceed to furnish the council of the city of Petersburg certified copies of the assessments of the rolling stock of the Seaboard Air Line Railway and of the Atlantic Coast Line Railroad Company which have been made by this Commission for State taxation for the year 1913, definitely showing the character of such property, its value and location within the corporate limits of the city of Petersburg, for purposes of taxation by said city, so that its city and school levies may be laid upon the same for the exclusive benefit of the city of Petersburg according to law.

In order to enable the defendants to appeal from this order, it is ordered that execution thereof be suspended for thirty (30) days from this date.

All other questions are reserved.

OPINION—PRENTIS, CHAIRMAN.

The last General Assembly, in response to a well defined public sentiment demanding a change in the method of taxing the rolling stock of railway companies, adopted what is generally called the rolling stock act, which reads as follows:

“Chap. 139.—An ACT in relation to the assessment for local taxation of the rolling stock of railroad corporations.

Approved March 12, 1912.

1. Be it enacted by the General Assembly of Virginia, that such of the rolling stock of the various railroad corporations doing business in Virginia, except electric railways, as is taxable in this State, shall not be assessed for the purpose of local taxation, by the counties, cities, towns and school districts at the principal offices of the respective corporations, but for the purpose of deriving taxes from such rolling stock for the various counties, cities, towns and school districts in this State, in and through which said railroad companies, except electric railways, as is taxable in this State (whether such railroads be operated by steam or other motive power), as ascertained and

assessed for the purpose of State taxation, a tax based on the rate of taxation imposed on the property of natural persons for local purposes by the county, city or town in which the principal office of any such railroad corporation is located in this State, which taxes so levied shall be distributed among the various counties, cities, towns and school districts in this State, in and through which such railroad companies respectively operate and pass, in the following manner and proportion:

"To the counties, cities or towns in which the principal offices of such companies are respectively located, twenty-five per centum of the gross amount of taxes so levied on the rolling stock of such companies respectively, and the remaining seventy-five per centum of such taxes shall be divided and distributed among all the several counties, cities, towns and school districts in this State in or through which such railroads, or any part thereof, are located or pass, including the counties, cities and towns in which said principal offices are located in the ratio and proportion that the total assessed value of the right of way, road bed and track, and all other property of such railroad companies respectively (except rolling stock) located in any such county, city or town or school district, ascertained and assessed for the purpose of State taxation bears to the aggregate value of all of such property of such companies respectively (except rolling stock) in this State, as ascertained and assessed, as aforesaid, for the purpose of State taxation;

"Provided, That foreign railroad corporations doing business in this State shall be assessed and taxed on the average amount of rolling stock habitually used by them in this State; and the said Corporation Commission shall annually make an apportionment of the aggregate of such taxes so assessed on such rolling stock, for local purposes, among the various counties, cities, towns and school districts in and through which such companies respectively operate and pass, in the ratio and proportion hereinbefore provided for, which apportionment, when made, shall be certified by the State Corporation Commission to the various railroad companies, and to the boards of supervisors of the respective counties, and to the councils of the respective cities and towns, entitled to participate in such taxes as hereinbefore provided; and the several railroad companies, shall pay over to the treasurers of the respective counties, and to the collectors of the respective cities and towns, the proportionate parts of such taxes to which they shall be respectively entitled under such apportionment, as certified to them by the State Corporation Commission, at the same time and in the same manner as taxes levied on the other properties of such companies, for local purposes, are required to be paid;

"Provided, further, that electric railway companies shall be assessed and taxed for local purposes in the manner now provided by law, except that in cases where an electric railway company owns and operates, in whole or in part, the street railway system of some city or town other than the city or town in which its principal office is located, the State Corporation Commission shall assess, and assign to such city or town other than that in which such principal office is located, for purposes of local taxation by such other city or town.

that portion of the rolling stock of any such street railway company which is habitually used and located in said city or town other than that in which the principal office is located.

"As used in this act the term electric railway shall be construed to mean a railroad, the greater part of the mileage of which is operated by electricity.

"This act shall be in force from and after the twenty-fourth day of January, nineteen hundred and thirteen."

Heretofore the location of the principal office of each railway company in this State has been the *situs* for local taxation of such rolling stock. This because of the doctrine of the common law that the *situs* for the taxation of personal property is the domicile of the owner. The domicile of these companies being the places in which their principal offices are located such property has been taxed for local purposes by the local authorities at the principal offices of such companies.

Orange and Alexandria R. R. Co. against City Council of Alexandria, 17 Grattan, 176.

A. & D. Railroad Co. against Lyons, 101 Va., 1.

Board of Supervisors vs. Newport News, 106 Va. 764.

The validity and constitutionality of the rolling stock act have been vigorously attacked before this tribunal by the city of Petersburg and the city of Roanoke in this proceeding.

It is suggested that this Commission has no jurisdiction to pass upon the legal questions raised by the petitions because the duty which we are required to perform in connection with these assessments is ministerial in its nature and not judicial. We cannot assent to the soundness of this proposition, in view of the Constitution and laws of Virginia, conferring and defining the powers of this Commission.

A question quite similar in its nature has been previously considered by this Commission.

In the case of the *Commonwealth, at the relation of Brady & Son and others, vs. Southern Express Company and others*, Report of the Commission, 1908, page 39, in passing upon the validity of a municipal ordinance we had occasion to say this:

"The requirement of the Virginia Constitution that three judges of the Supreme Court of Appeals must concur in declaring a law unconstitutional does not confer that jurisdiction, but merely recognizes the power in that court as it exists, and regulates its exercise. Even the courts of general jurisdiction have no specific constitutional or statutory authority to declare an act of the General Assembly invalid. The power arises only as a necessary incident to the power and duty of every court to decide cases within its jurisdiction and properly pending in that forum. The duty of the court is to declare the law which governs the case to be decided, as it exists, and if there be a conflict between a statute or ordinance and the Constitution, then the Constitution governs and the statute in conflict therewith is not

the law, and the court must so declare. If it have jurisdiction of the case, its judgment binds the parties to the litigation. Having determined that this Commission has jurisdiction of this case, we have no doubt of our power and our duty to determine the validity of the ordinances involved, and to declare the law applicable to this case. Indeed the question may be regarded as settled by the case of the *Commonwealth against the Atlantic Coast Line Railroad Company*, 106 Va. 61, in which the Supreme Court of Appeals affirmed a decision of this Commission declaring an act of the General Assembly unconstitutional and void."

Judge Cooley announced the same doctrine in this language:

"It follows, therefore, that every department of the government and every official of every department may at any time, when a duty is to be performed, be required to pass upon a question of constitutional construction. Sometimes the case will be such that the decision when made must, from the nature of things, be conclusive and subject to no appeal or review, however erroneous it may be in the opinion of other departments or other officers; but in other cases the same question may be required to be passed upon again before the duty is completely performed." Cooley's Constitutional Limitations, 7th Edition, page 73.

The same principle is thus stated by Prof. Tucker, of the Boston University School of Law, in the *Encyclopedia of Law and Procedure*:

"From force of circumstances and conditions necessarily arising in the administration of the affairs of the government, both State and National, it is evident that those who are charged with official duties, whether executive, legislative or judicial, must necessarily construe the constitutions and laws in numerous instances. Every department of the government, invested with certain constitutional powers, must, in the first instance, but not exclusively, be the judge of its powers or it could not act; and this practical construction by persons or departments outside of the judiciary may or may not be final according to the circumstances and nature of each particular case." 8 Cyc. 726.

It is also pertinent to note and consider, (if there be any doubt about the question) that the Virginia statute, Pollard's Code, section 1313a, Clause 34, provides that "the Commonwealth, or any party aggrieved by any final finding, order, or judgment of the Commission shall have, of right, regardless of the amount involved, an appeal to the Supreme Court of Appeals," and that court "may award a writ of supersedeas in any such final finding, order, or judgment, and may review, affirm, reverse, or modify the same as justice may require, and enter therein such order as may be right and just." Such appeals are required to be taken and perfected, heard and determined, and the mandate of the Supreme Court of Appeals certified down to the Commission in the same manner as appeals in equity causes from the circuit or corpo-

ration courts of this Commonwealth to the Supreme Court of Appeals. So that inasmuch as the statute provides for an "appeal," which is a technical word, here used in its technical sense, well understood by those familiar with equity practice, it is difficult (we believe impossible) to differentiate this proceeding before the Commission from a case in a court of equity.

The parties are properly convened; the matter is one over which the Commission has jurisdiction; upon the application of any party desiring to appeal from the judgment or order here entered the Commission must certify the record as made in this tribunal to the Supreme Court of Appeals, and such appeal must be taken, perfected, heard and determined by that court in the same manner as appeals in equity causes from the circuit or corporation courts of the Commonwealth.

All of this being true we are of opinion that this Commission in this proceeding is vested with powers and duties similar to the powers and duties of a court of equity in an equity cause properly pending before it.

The proceeding at bar presents this crucial question for determination: Whether this Commission should proceed to compute and distribute the tax at varying rates upon the rolling stock of the railway companies among the various counties, cities, towns and school districts in which the lines of the companies are located, as directed by the rolling stock act, or whether it should certify the gross assessment of the rolling stock of each company to the local authorities of the city, town, or county in which the principal offices of the companies are located for local taxation by the local authorities, as required by section 27 of the revenue law, as re-enacted, acts 1912, p. 490.

This question must be determined by the Commission because it must decide which of these things it will do. In order to determine what is the legal duty of the Commission, it must determine what law controls.

If there be any conflict between the Constitution and the rolling stock act, the Constitution, which is the superior law, must prevail. This must be true, because, as has been well said by Harrison (Judge) in the case of *Campbell v. Bryant*, 104 Va. 509:

"The act being unconstitutional is not a law; it confers no rights; it imposes no duties; it affords no protection; it creates no office; it is, in legal contemplation as inoperative as though it had never been passed."

So long as this continues to be a "government of law and not of men," the inhibitions, imposed by the Constitution upon every citizen and every department of the government must be respected and enforced. All questions of policy within the jurisdiction of the Commonwealth must be determined by the legislature, which has plenary powers except so far as restrained by the Constitution. If the constitutional inhibitions are unwise or unduly restrictive the proper remedy is to change the Constitution, not to violate it.

Proceeding then to determine whether the rolling stock act is in violation of the Constitution of the State.

First—Does it violate section 50 of the Constitution?

That section, among other things, provides that "every law imposing, continuing or reviving a tax shall specifically state such tax, and no law shall

be construed as so stating such tax which requires a reference to any other law or any other tax."

This language is plain, definite and specific.

The rolling stock law nowhere states the amount of tax to be levied upon the rolling stock of steam railway companies. It prescribes a "tax based on the rate of taxation imposed on the property of natural persons for local purposes by the county, city, or town in which the principal office of any such railroad corporation is located." This is the only language in the act which determines the rate of taxation to be imposed upon the rolling stock for the benefit of the various localities in the State. The various local authorities are not under this act authorized to levy any tax upon this class of property, but the legislature itself in the act undertakes to prescribe the rate of taxation, varying in amount in different localities, and requires this Commission to compute it in accordance with these varying rates. Inasmuch as the rates are not named in the act, and as they can only be ascertained by reference to various other rates of taxation imposed by the various taxing authorities in different sections of the State, it seems perfectly plain that the rolling stock act violates section 50 of the Constitution.

A similar question has been determined by the Hon. John T. Goolrick, judge of the corporation court of the city of Fredericksburg, in the case of the *Commonwealth* against *Armstrong*, decided by him October 15, 1912.

In that case Judge Goolrick decided that the act entitled, "An act to regulate the sale of cider other than cider which is the pure juice of the apple, and mixtures, preparations and liquids containing alcohol in excess of one per cent. by volume, when sold to be used as a beverage, and to prescribe penalties," Acts 1912, p. 581, is unconstitutional, as violative of section 50 of the Constitution.

That act undertook to impose a license tax on dealers in beverages containing alcohol in excess of one per centum unless they first obtained a license for the sale thereof "which license shall be procured in the same manner as licenses to sell ardent spirits, and the same laws and licenses shall apply to the sale of such cider, mixtures and preparations or liquids as are applicable to the sale of ardent spirits under said act." The words "said act" refer to the general law with reference to licenses for the sale of intoxicating liquors. So that the act then under consideration required a reference to another law in order to ascertain the amount of tax to be imposed. In this case the Commonwealth presented its petition for a writ of error to the Supreme Court of Appeals, which refused the writ. Because of this refusal we must presume that the appellate court was of opinion that the decision of the corporation court of the city of Fredericksburg was "plainly right."

Second—Does the rolling stock act violate section 168 of the Constitution?

That section requires that "all property, except as hereinafter provided, shall be taxed; all taxes, whether State, local or municipal, shall be uniform upon the same class of subjects within the territorial limits of the authority levying the tax, and shall be levied and collected under general laws."

This section plainly provides that within the territorial limits of the authority levying the tax, taxes shall be uniform upon the same class of subjects.

It is at once apparent that the rolling stock act violates this inhibition of

the Constitution. Under it, if the legislature undertakes to levy the tax, as we think it plainly does, then the entire State constitutes the territorial limits of the authority levying the tax, and the rolling stock act violates the principle of uniformity prescribed by the Constitution, and levies as many different rates upon the same class of property as there are different rates prevailing in the various counties and cities of the State in which the principal offices of the several companies are located. It appears from the evidence in this proceeding that the local rate of taxation in Roanoke, where the principal office of the Norfolk and Western Railway Company, is located, is \$1.25, while the local rate in Petersburg, where the principal offices of the Atlantic Coast Line Railroad and the Seaboard Air Line Railway are located, is \$1.40, for local uses.

In *Day v. Roberts*, 101 Va. 248, 43 S. E. 362, 363, Buchanan, J., speaking for the court, said: "Constitutional provisions similar to the one now under consideration (section 1, Art. X, Constitution of 1869) have frequently been before the courts. The settled construction placed upon them is that uniform taxation requires uniformity, not only in the rate of taxation, and in the mode of assessment upon the taxable valuation, but the uniformity must be co-extensive with the territory to which it applies. If a tax is imposed by the State, it must be uniform over the whole State; if by a county, city, town or other subordinate district, the tax must be uniform throughout the territory to which it is applicable. *Knowles v. Board of Sup.* 9 Wis. 410, 420-1; *Bright v. McCullough*, 27 Ind. 223, 230; *Exchange Bank v. Hines*, 3 Ohio St., 15; *Sleight v. People*, 74 Ill. 47; *Dyar vs. Farmington*, 70 Maine 515; *Hutchinson v. Ozark Co.* 57, Ark. 554; 22 S. W. 173, 38 Am. St. Rep. 258; *Pine Grove, &c. v. Talcott*, 19 Wall. 678, 22 L. Ed. 227; *Cooley on Taxation* 2d Ed. 244, 141; *Cooley's Const. Lim.* (6th Ed.) 610; 1 *Desty on Tax*, sec. 35, p. 173; *Burroughs on Taxation*, 61, 62." See also *Robertson v. Preston*, 97 Va. 299.

The suggestion that these various local rates of taxation are levied not by the legislature but by the local authorities, is unsound, because the rolling stock act forbids the local taxation of rolling stock. Even if it were true, the city of Roanoke could not levy a tax upon the rolling stock of the Norfolk & Western for the benefit of the people of Petersburg, nor could the local authorities of the city of Petersburg levy a tax upon the rolling stock of the Seaboard Air Line for the benefit of the county of Brunswick.

If the situs of the rolling stock for taxation is unchanged by the act, and this certainly appears to be true, then the local authorities of each city or county in which the principal office of the railway companies are located may, indeed must, levy local taxes upon that property, but only for the benefit of such city or county. In *Robinson against Norfolk*, 102 Va. 14, Whittle, Judge, says: "For the purpose of taxation, the Constitution has divided the State into counties and magisterial districts, cities and towns. Each of these sub-divisions has its territorial limits fixed, each being distinct and separate from the other. What is meant by the words "territorial limits," in section 168 of the Constitution, is the actual boundaries of each of such sub-divisions, as the same are fixed by law. It would seem to be fundamental that one of these communities cannot, for its own benefit, tax one of the others which has no share in the benefit to be derived from such taxation."

It is actually fundamental, we believe, that one of these communities

cannot tax property the *situs* of which is within its own limits, for the benefit of other communities outside of its territorial limits. If, on the other hand, each locality through which the lines of the railway companies pass, are to be presumed to be taxing its due proportion of the rolling stock each for its own benefit, then we have the same taxing authorities levying different rates of taxation upon the same class of property within its own territorial limits, and the city of Petersburg collecting taxes on rolling stock at one rate from the Norfolk & Western and at a higher rate from the Atlantic Coast Line.

It seems to us impossible to sustain the validity of the act from any point of view.

The rolling stock act, so far as it refers to the property of the steam railroads, in our opinion, plainly violates section 168 of the Constitution.

Several other objections have been urged to the validity of the act, among them, that the rolling stock act, which was passed March 12, 1912, is repealed by the act which re-enacted section 27 of the revenue law, approved March 13, 1912; and that because of the plain omission of certain words intended to be incorporated in the rolling stock act, the act itself is without meaning.

We consider these objections serious in their nature, but do not determine them, because, we think it unnecessary to do so in this proceeding.

Under the limitations imposed upon us in determining the issues raised in this proceeding we have no right to consider questions of public policy. We have no right to consider whether the rolling stock act is wise or unwise. We are, however, required to determine what duties are by law required of the Commission with reference to the taxation of the rolling stock of railroads. In the performance of that duty we determine that by section 27 of the revenue law, re-enacted March 13, 1912, (Acts 1912, page 490) as heretofore construed, we are required to certify to the local authorities of each city or county in which the principal office of a steam railroad company is located the gross amount of the assessments of the rolling stock of each of such companies, so that local taxes may be levied thereon, in the same manner as such taxes have been heretofore levied.

Nothing we have said is to be construed as questioning the constitutionality of the act so far as it refers to the rolling stock of electric railways. The act does appear to change the *situs* for taxation of rolling stock of electric railways by providing for the apportionment of its assessment between the several cities and towns in which the companies operate, and requires the Commission to assess and assign to each city or town its proper proportion of the assessed value thereof, in order that the local authorities may each assess the proper local rate of taxation thereon.

This part of the act has not been questioned, and so far as we are advised there can be no doubt that the legislature has the power thus to deal with the subject.

RHEA, Commissioner, concurs.

WINGFIELD, Commissioner, dissents.

DISSENTING OPINION—WINGFIELD, COMMISSIONER.

It is well settled that the Corporation Commission, when acting in pursuance of Article XII of the Constitution, and particularly under section

156 (c) and exercising the powers and authority of a court of record, has passed and can pass upon questions involving the constitutionality of a statute of the General Assembly. All cases cited in this proceeding and others that might be cited, relate to the discharge of the duties of the Corporation Commission under Article XII of the Constitution.

In *Brady v. Southern Express Company* (Report of Corporation Commission 1908, p. 39), decided by Judge Prentis, the question arose upon the refusal of the Southern Express Company (a transportation company) to carry and deliver goods tendered by a shipper.

In the case of the *Commonwealth v. Atlantic Coast Line Railroad Company* (106 Va. 61) the question was as to the rate or charge per mile for mileage books.

In the case of *Winchester, &c., Railroad Co. v. the Commonwealth* (106 Va. 264) the question at issue was the refusal of the Railroad Company to perform a public duty and run their trains from Strasburg Junction into the town of Strasburg. In this last case the complex nature of the State Corporation Commission, being invested to a certain degree with executive, legislative and judicial powers, is discussed by Judge Harrison and Judge Keith at length. And so we could go through all of the decisions of the courts establishing the above proposition.

But the fact that the Corporation Commission "in matters pertaining to the public visitation, regulation or control of corporations, and, within the jurisdiction of the Commission, has the powers and authority of a court of record and in the exercise of such powers can pass upon constitutional questions," does not sustain the proposition that acting in a purely administrative function as it is called upon to do by the rolling stock bill of March 12, 1912, the Commission has jurisdiction to decide that the statute is unconstitutional and void. Counsel have not been able to produce any decision of the Supreme Court of Virginia, or in fact of any court, sustaining such a proposition. The quotation from Cooley's *Constitutional Limitations* (7th Ed., p. 73) when read in connection with the whole contest and with reference to the cases referred to does not establish, or tend to establish, the proposition. Judge Cooley says (p. 72), after referring to certain cases that might arise:

"In these and the like cases our constitutions have provided no tribunal for the specific duty of solving in *advance* the questions which arise."

In the next paragraph is the sentence:

"It follows, therefore, that every department of the government and every official of every department may at any time, when a duty is to be performed, be required to pass upon a question of constitutional construction."

Footnote 1, quoting from Parsons, Ch. J., in *Kendall v. Inhabitants of Kingston*, 5 Mass. 524, 533, shows the author's meaning:

"But every department of government, invested with certain

constitutional powers, must, in the first instance, but not exclusively, be the judge of its powers, or it could not act."

"The decision of a governor, having jurisdiction to decide in the first instance whether tax exemption is constitutional, must be obeyed by inferior executive officers. *State v. Buchanan*, 24, W. Va., 362."

"But a patent commissioner may not refuse to perform a ministerial act on the ground that the statute requiring it is unconstitutional. *United States v. Marble*, 3 Mackay, 32." "Notwithstanding a void proviso as to an officer's salary, it is his duty to give the act effect. *State v. Kelsey*, 44 N. J. L. 1."

Judge Cooley, continuing the discussion, on page 76 says:

"But setting aside now those cases to which we have referred, where from the nature of things, and perhaps from explicit terms of the Constitution, the judgment of the department or officer acting must be final, we shall find the general rule to be, that whenever action is taken which may become the subject of a suit or proceeding in court, any question of constitutional power or right that was involved in such action will be open for consideration in such suit or proceeding, and that as the courts must finally settle the particular controversy, so also will they finally determine the question of constitutional law."

And again on page 77:

"In any case of conflict the fundamental law must govern, and the act in conflict with it must be treated as of no legal validity. But no mode has yet been devised by which these questions of conflict are to be discussed and settled as abstract questions, and their determination is necessary or practicable only when public or private rights would be affected thereby. The courts have thus devolved upon them the duty to pass upon the constitutional validity, sometimes of legislative, and sometimes of executive acts."

So also the quotation from Professor Tucker, in the *Encyclopedia of Law and Procedure*, when read in its proper connection, has no bearing upon the question we are considering:

"From force of circumstances and conditions necessarily arising in the administration of the affairs of the government, both State and National, it is evident that those who are charged with official duties, whether executive, legislative, or judicial, must necessarily construe the constitutions and laws in numerous instances. Every department of the government, invested with certain constitutional powers, must, in the *first instance*, but not exclusively, be the judge of its powers or it could not act; &c." 8 Cyc. 726.

Note 29 illustrates the author's meaning:

"Mr. Jefferson claimed the right to construe the Federal Consti-

tution for himself, independent of the judiciary and in defiance of it. President Jackson denied the power of Congress, under the Constitution, to re-charter the United States Bank, after the original act of incorporation had been held constitutional by the Supreme Court of the United States; and President Lincoln denied the constitutionality of the fugitive slave law, notwithstanding the decision of the same court in the Dred Scott case. Two attempts by State executives to construe constitutional provisions to the exclusion of the judiciary are shown in American constitutional law, and in both cases it was held the courts could look behind the certificates issued and pass judgment upon the result of the election contrary to the canvass made by the executive."

On page 728, Prof. Tucker says:

"The right and duty of the judiciary to take jurisdiction and decide cases when constitutional questions are presented are both imperative and inseparable."

It has been decided by the Supreme Court of Virginia and the Supreme Court of the United States that the assessment of taxes is not a judicial act. In *Brander v. The Chesterfield Justices*, 5 Call 551, Judge Tucker says:

"Our Constitution Art. 13, 15, gives to county courts authority, and imposes duties foreign from those of a judicial nature. They are to lay our roads, build bridges, &c., and finally to impose a levy upon the tithables in their counties, for the purpose of defraying all expenses incurred by the court, under the authority of any law. These are the functions of commissioners of police, and not those of judicial court."

To the same effect is the decision of the Supreme Court of the United States, in the case of *Upshur County v. Rich*, 135, U. S. 467. Justice Bradley, delivering the opinion of the court, said:

"A proceeding, not in a court of justice, but carried on by executive officers in the exercise of their proper function, as in the valuation of property, for the just distribution of taxes, or assessments, is purely administrative in its character, and cannot in any just sense be called a suit."

The learned judge quoted, with approval, *Pittsburg, C. & St. L. R. Co. v. Board of Public Works*, 28 W. Va. 264, and says:

"They held that where the board of public works fixed the valuation of the property of a railroad company under the statutes, it simply acted as a county assessor does in assessing the property of individuals; and that the acts of both are merely ministerial, and not judicial in any proper sense of the term."

The State Corporation Commission is not a common law court. All its powers, both legislative and judicial, are conferred by the Constitution and by acts of the General Assembly giving effect thereto. Its powers and authority of a court of record (sec. 156 (c)) are confined to matters pertaining to the *public* visitation, regulation or control of corporations and within the jurisdiction of the Commission, and those powers are enumerated:

(1) To administer oaths; (2) To compel the attendance of witnesses and the production of papers; (3) To punish for contempt, &c.; (4) To enforce compliance with any of its lawful orders or requirements against the delinquent or offending company such fine or other penalties as may be prescribed or authorized by this Constitution or by law. The enumeration of its powers, acting as a court of record, necessarily excludes the grant of other powers. It is true that the Commission may be vested with additional powers and charged with other duties by act of the legislature, and that the legislature has, in carrying out the provisions of Art. XIII, on taxation and finance, sec. 176, authorized and directed the Commission to ascertain the value of the property and the gross transportation receipts of railway and canal corporations, and gives the right to such railway or canal corporation, which considers itself aggrieved by the assessment of the Commission to apply for relief to the circuit court of the city of Richmond, with right of appeal from said decision of the circuit court of the city of Richmond to the Supreme Court of Appeals. But it is to be noted that no railway corporation has objected to the assessment referred to in this proceeding, or applied for relief to the circuit court of the city of Richmond.

As above stated, the Corporation Commission derives all its powers of a court from Art. XII of the Constitution. It is not a common law court, such as provided for in Art. VI of the Constitution, under the head of judiciary department. The duties imposed and the powers conferred on the State Corporation Commission in regard to taxation are given by sec. 176, Art. XIII of the Constitution, where it is expressly stated that the Commission shall ascertain and assess, &c., and in the manner required of the board of public works by the law in force on January 1, 1902. The board of public works was always recognized as an administrative body, and was never authorized, and never attempted to exercise the powers of a court.

The legislature is not merely a body to determine "questions of policy." Art. IV of the Constitution says: "The legislative power of the State shall be vested in a General Assembly."

In *Va., Tenn., &c., Co. v. McClellan*, 98 Va. 424, Judge Harrison, quoting with approval the decision in *Reed v. Union Bank*, 29 Grat. 719, says:

"We invoke here for our guidance the same rule laid down in *Reed v. Bank*." "Upon the most familiar principles, repeatedly declared by the decisions of the Supreme Court of the United States and by the Supreme Court of all the states, and by none more emphatically than by this court, every statute is presumed to be constitutional, and it cannot be declared by the courts to be otherwise unless it be made clearly to so appear. The whole law making power is vested in the legislature, which is omnipotent, unless restricted by the express or implied provision of the State or National Constitution."

In *Campbell v. Bryan*, 104 Va. 509, Judge Harrison, after deciding that the act to incorporate the town of Madison Heights, in Amherst county, was repugnant to the Constitution, says:

"The act being unconstitutional, it is not a law. It confers no rights; it imposes no duties; it affords no protection; it creates no office; it is, in legal contemplation, inoperative as though it had never been passed."

But this act had first to be declared repugnant to the Constitution by the court before any citizen of the State could assume to disregard it as void and inoperative.

In *Va. & Tenn. R. R. Co. v. Washington County*, 30 Grat. 471, the court held:

"The Constitution of the State does not authorize the county authorities to assess property for taxation and levy taxes upon it, independent of the action of the legislature."

Judge Staples, in delivering the opinion of the court in this case, says:

"The legislature is invested with complete power over the subject of taxation, except so far as may be otherwise provided in the Constitution. On the other hand, the counties are mere auxiliaries of the government, established simply for the more effectual administration of justice; and the power of taxation as confided to them is a delegated trust, and is to be strictly construed. They act not by virtue of any inherent power, but as mere agencies of the State. *City of Richmond v. Daniel*, 14 Gratt. 385; 21 Gratt. 604, 617."

"The whole theory of our system of taxation is based upon the idea that it is prepared by the representatives of the people upon due deliberation and reflection, and when thus prepared for State purposes it may be safely applied to the counties and other local agencies of the Commonwealth. And any rule of construction and doctrine which would give to these agencies a power of taxation under the Constitution, independent of all legislative supervision and control, is in violation of the uniform policy of the State, and contrary to the true principles of the government. When, therefore, the Constitution gives the supervisors authority 'to fix the county levies,' it only means they shall ascertain and fix the amount of such levies and the amount thus ascertained is to be collected from such subjects of taxation as are prescribed by the legislature."

And in the same opinion, Judge Staples quotes with approval Cooley's *Constitutional Limitations*, p. 99, 100:

"Although all the provisions of a constitution are to be regarded as mandatory, there are none which from the nature of the case are as incapable of compulsory enforcement as are directory provisions in general. The reason is, that while the purpose may be to estab-

lish rights, or to impose duties, they do not in and of themselves constitute a sufficient rule by means of which such rights may be protected or such duties enforced. In such cases, before the constitutional provisions can be made effectual, supplementary legislation must be had, and the provision is in its nature mandatory to the legislature to enact the needful legislation, though back of it there lies no authority to enforce the command. Sometimes the constitution, in terms, requires the legislature to enact laws on a particular subject and here it is obvious that the requirement has only a moral force. The legislature ought to obey it, but the right intended to be given is only assured when the legislation is voluntarily enacted. Illustrations may be found in constitutional provisions requiring the legislature to provide, by law, uniform and just rules for the assessment and collection of taxes. These must lie dormant until the legislation is had."

I am clearly of the opinion, therefore, that this Commission has no jurisdiction to pass upon the constitutional questions raised in this proceeding, and that the petition should be dismissed. The remedy of the petitioners, if the act be unconstitutional, is to take steps to have the question decided in the regularly established courts of the Commonwealth.

As said by Mr. Justice Bradley, in *Upshur County v. Rich*, 135 U. S. 467:

"The legality and constitutionality of taxes and assessments may be subjected to judicial examination in various ways—by an action against the collecting officer, by a bill for injunction, by *certiorari* and by other modes or proceeding."

As, in my view, we have no jurisdiction to pass on the constitutional questions, it is not proper for me to enter into any discussion of these questions. Our duty is clear. We, like every other citizen of the State, every commissioner of the revenue of the State, every land assessor of the State, must respect the statute enacted by the legislature as the law until it has been passed upon and declared to be repugnant to the Constitution by the courts.

No one doubts or questions the intent and meaning of the act of March 12, 1912. It annulled the power formerly exercised by the city councils and county boards of supervisors to assess the rolling stock of a railroad at the place of its principal office. It directed this Commission to take the assessment of such rolling stock made for the purpose of State taxation and to take the local rate imposed on the property of natural persons for local purposes and "extend" the taxes just as any commissioner of the revenue would do, and to apportion said taxes among the various counties, cities, towns and school districts in and through which such railroad companies respectively operate and pass, which apportionment, when made, the Commission should certify to the various railroad companies and the boards of supervisors of the respective counties and to the councils of the respective cities and towns entitled to participate, as provided by the law. The Commission, after careful consideration, found this to be the true intent and mean-

ing of the act. It made the assessment of the rolling stock; it ascertained the local rates; it extended the taxes; it made the apportionment, and has done all except to certify such apportionment, as required by the law.

As to the point attempted to be made that the act of March 12, 1912, is repealed by the act of March 13, 1912, these two acts can be and should be construed so that force and effect can be given to both of them. The act of March 12 was passed to take effect on January 24, 1913. The act of March 13 is a re-enactment of section 27 of an act to raise levies for the support of the government, &c., approved April 16, 1903, and applied for the levying of the tax on rolling stock for the year 1912, and applies also for the levying of the taxes of 1913, as modified by the act of March 12, 1912, taking effect 24th of January, 1913.

It is a well settled rule of construction that a statute will not be repealed by implication.

In my view, therefore, the duty of the Commission is plain, to certify the apportionment already made, as required by law, and not to prejudice the claims of either of the contesting parties by the assumption of a power not conferred by the Constitution or by law.

CASE NO. 386.

Commonwealth of Virginia, at the relation of J. M. Ellison, Russell Bargamin, T. W. Woollen, Walter Whately and C. F. Ballard, representing the Village of Crozet,

vs.

The Chesapeake and Ohio Railway Company.

In the matter of the change of grade crossing of The Chesapeake and Ohio Railway Company by White Hall Road at Crozet.

ORDER OF NOVEMBER 12, 1913.

The petition of the Commonwealth of Virginia, at the relation of J. M. Ellison, Russell Bargamin, T. W. Woollen, Walter Whately and C. F. Ballard, representing the Village of Crozet, against The Chesapeake and Ohio Railway Company, having been this day filed, it is hereby ordered that the defendant corporation be summoned to appear and answer the same on or before ten o'clock, A. M., on Tuesday, the twenty-fifth (25th) day of November, 1913, at the court room of the State Corporation Commission in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition, be forthwith served upon the said defendant corporation as a notice of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders and regulations as may be just, and also as a writ or summons, according to law.

ORDER OF DECEMBER 16, 1913.

This day came the parties by their attorneys, and the evidence having been fully submitted, leave is given to counsel to file written briefs of argument herein.

CASE No. 388.

Commonwealth of Virginia, at the relation of Virginia Central Telephone Company,

vs.

Scottsville Telephone Company.

To require physical connection between the two lines at Norvell's Store.

ORDER OF NOVEMBER 26, 1913.

The petition of the Commonwealth of Virginia, at the relation of the Virginia Central Telephone Company, against the Scottsville Telephone Company, having been this day filed, it is hereby ordered that the defendant corporation be summoned to appear and answer the same on or before ten o'clock, A. M., on Wednesday, the seventeenth day of December, 1913, at the court room of the State Corporation Commission in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition, be forthwith served upon the said defendant corporation as a notice of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders, and regulations as may be just, and also as a writ or summons, according to law.

ORDER OF DECEMBER 17, 1913.

This day came the parties by their attorneys, and thereupon the Scottsville Telephone Company filed its separate demurrer and answer to the petition, in which demurrer the petitioner joined, and to which answer the petitioner replied generally, and by consent the proceeding is continued.

CASE No. 389.

CITY OF RICHMOND, December 19, 1913.

It being suggested that The McFadden Telephone Company, Incorporated, has failed to make the report required by section 39, chapter V, of the act entitled, "An Act Concerning Corporations," which became a law on May 21, 1903, therefore a rule is hereby awarded against the said corporation, returnable at the court room of the State Corporation Commission in the city of Richmond, Virginia, at ten o'clock, A. M., on Wednesday, the seventh day of January, 1914, requiring it to show cause, if any it can, why it should not be fined under that section for such its alleged failure.

CASE No. 390.

Commonwealth of Virginia, at the relation of W. F. Lewis, G. J. Smith, F. B. Lipscomb and C. L. Beadles,

vs.

Hanover Telephone Company.

Condition of line and service.

ORDER OF DECEMBER 23, 1913.

The petition of the Commonwealth of Virginia, at the relation of W. F. Lewis, G. J. Smith, F. B. Lipscomb and C. L. Beadles, against the Hanover Telephone Company, having been this day filed, it is hereby ordered that the defendant corporation be summoned to appear and answer the same on or before ten o'clock, A. M., on Wednesday, the seventh day of January, 1914, at the court room of the State Corporation Commission in the city of Richmond, Virginia, and that a copy of this order, together with a copy of said petition, be forthwith served upon the said defendant corporation as a notice of the allegations and complaints contained therein, and of the purpose of the Commission to consider the same and to enter such rules, orders and regulations as may be just, and also as a writ or summons, according to law.

CASE No. 393.

Commonwealth of Virginia, at the relation of the Commissioner of Insurance,
vs.
The Empire State Surety Company.

Authorizing Commissioner of Insurance to proceed against.

ORDER OF MAY 23, 1913.

This day came Joseph Button, the Commissioner of Insurance, and the Commonwealth of Virginia, and suggested to the Commission that The Empire State Surety Company, incorporated under the laws of the State of New York, is insolvent, and is now in the hands of a receiver in its home State. Therefore, it is ordered that permission be, and is, hereby given Joseph Button, the Commissioner of Insurance, to proceed against the said The Empire State Surety Company in the circuit court of the city of Richmond, in accordance with the provisions of an act entitled, "An act in relation to proceedings against and liquidation of delinquent insurance companies," approved February 29, 1912.

CASE No. 394.

Commonwealth of Virginia, at the relation of the Commissioner of Insurance,
vs.
The American Union Fire Insurance Company.

Authorizing Commissioner of Insurance to proceed against.

ORDER OF MARCH 11, 1913.

This day came Joseph Button, the Commissioner of Insurance, and the Commonwealth of Virginia, and suggested to the Commission that The American Union Fire Insurance Company, incorporated under the laws of the State of Pennsylvania, and duly licensed to do business in Virginia, is insolvent and in such financial condition as not to be able to pay its creditors in this State. Therefore, it is ordered that permission be, and is, hereby

given Joseph Button, the Commissioner of Insurance, to proceed against the said The American Union Fire Insurance Company in the circuit court of the city of Richmond, in accordance with the provisions of an act entitled, "An act in relation to proceedings against and liquidation of delinquent insurance companies," approved February 29, 1912.

Banking Division.—Resignations and Appointments.

ORDER OF APRIL 9, 1913.

The resignation of R. Logan Harris, as assistant examiner of banks, having been received, same is accepted to take effect on the first day of April, 1913.

ORDER OF APRIL 16, 1913.

By authority of the statute in such case made and provided, the Commission this day appoints Roger S. Warren assistant examiner of banks, to hold office during the pleasure of the Commission.

Thereupon the said Roger S. Warren took and subscribed the oaths required by the Constitution and laws of this State, and executed the proper bond in the penalty of five thousand dollars (\$5,000) together with the National Surety Company as surety, approved by the Commission, conditioned for the faithful performance of his duties as such assistant examiner of banks.

ORDER OF APRIL 18, 1913.

By authority of the statute in such case made and provided, the Commission this day appoints John A. Booker assistant examiner of banks, to hold office during the pleasure of the Commission.

Thereupon the said John A. Booker took and subscribed the oaths required by the Constitution and laws of this State, and executed the proper bond in the penalty of five thousand dollars (\$5,000) together with The United States Fidelity Company as surety, approved by the Commission, conditioned for the faithful performance of his duties as such assistant examiner of banks.

ORDER OF AUGUST 1, 1913.

The resignation of Chas. S. Hunter as assistant examiner of banks having been received, same is accepted to take effect on the first day of August, 1913.

ORDER OF AUGUST 12, 1913.

By authority of the statute in such cases made and provided, the Commission this day appoints W. D. Franklin assistant examiner of banks, the appointment to become effective on the 15th day of August, 1913, and the appointee to hold office during the pleasure of the Commission.

Thereupon, the said W. D. Franklin took and subscribed the oaths required by the Constitution and laws of this State, and executed the proper bond in the penalty of five thousand dollars (\$5,000) together with The United States Fidelity and Guaranty Company as surety, approved by the Commission, conditioned for the faithful performance of his duties as such assistant examiner of banks.

CHARTERS REVOKED AND ANNULLED.

CITY OF RICHMOND, August 22, 1913.

The following corporations having failed for two successive years to pay the annual registration fees due by such several corporations, after having been duly assessed therefor for the years 1911 and 1912, and such failure having continued for ninety days after the expiration of such two years, by operation of the Constitution and laws of the Commonwealth of Virginia, the charters of such domestic corporations and the certificates of authority to do business in Virginia of such foreign corporations, are revoked and annulled, and the fact of such revocation and annulment is by the State Corporation Commission hereby ordered to be published once a week for four consecutive weeks in a daily newspaper published in the city of Richmond, Virginia:

REPORT OF CHIEF BANK EXAMINER.

OFFICE OF THE STATE CORPORATION COMMISSION

BANKING DIVISION

CITY OF RICHMOND, December 31, 1913.

To the Honorable State Corporation Commission, Richmond, Virginia:

SIRS:

I have the honor to transmit herewith a report of the work done by the Banking Division of the State Corporation Commission from January 1, 1913, to December 31, 1913, and beg to attach hereto statements showing the aggregate resources and liabilities of State banks on November 26, 1912, February 4, 1913, on April 4, 1913, on June 4, 1913, on August 9, 1913, and on October 21, 1913; a statement giving a list of State banks in existence on October 21, 1913, together with the names of the president and cashier of each institution, the authorized maximum and authorized minimum capital stock provided for by their charters, and a statement showing certain miscellaneous statistics relating to State banks generally, as of October 21, 1913.

In pursuance of the requirements contained in section 1169 of the Code, the Banking Division has made, between January 1, 1913 and December 31, 1913, a total of 268 examinations, which number comprises the examination of 258 separate and distinct banking corporations, and ten branches.

NEW STATE BANKS.

During the year 1913, charters were issued to the following banks: and, after having been duly examined by me, as required by section 1155-d of the Code, and it having been ascertained that all the provisions of law had been complied with, and the amount of capital required by statute paid in, the State Corporation Commission issued to each a certificate authorizing the institution to commence the banking business:

State Bank of Remington, Incorporated.....	Remington
United Loan and Trust Company, Incorporated.....	Lynchburg
The Radford State Bank, Incorporated.....	Radford
Bank of Dungannon, Incorporated.....	Dungannon
Bank of Union Level, Incorporated.....	Union Level
The Farmers Exchange Bank of Nickelsville, Incorporated....	Nickelsville
The Bank of Big Island, Incorporated.....	Big Island
Bank of Brownsburg, Incorporated.....	Brownsburg
The Bank of New Hope, Incorporated.....	New Hope
South Richmond Bank, Incorporated.....	Richmond
The Peoples Bank of Montross, Virginia, Incorporated.....	Montross
Bank of Glasgow, Incorporated.....	Glasgow
The Bank of Millboro, Incorporated.....	Millboro

Bank of Alberta, Incorporated.....	Alberta
State Bank of West Point, Incorporated.....	West Point
The Bank of Cedar Bluff, Incorporated.....	Cedar Bluff
The Citizens Bank of Kinsale, Incorporated.....	Kinsale

A charter was issued to the Arlington Trust Company, Incorporated, Rosslyn, Va., late in the year of 1913, but the certificate to commence business was not issued until January 7, 1914.

BANKS CONSOLIDATED.

During the calendar year of 1913, the business of The Bank of Rural Retreat, Incorporated, located at Rural Retreat, was consolidated with the business of the First National Bank of Rural Retreat; the business of the Bank of Boykins, Incorporated, located at Boykins, was consolidated with the business of the Meherrin Valley Bank of Boykins, and the business of The First State Bank of Clarksville was consolidated with the business of the Planters Bank of Clarksville.

CHANGE OF NAME.

An amendment to the charter of the Blair Banking Company, Incorporated, located at Galax, was issued changing the name of the institution to The Peoples State Bank, Incorporated, of Galax, Va.

NUMBER OF BANKS AND RESOURCES AND LIABILITIES.

My report for the year 1912 showed at the end of that year that there were 250 incorporated State banks doing business in this State. The last call made on the banks during 1913, requiring statements of their condition on October 21, 1913, showed that there were 263 State banks doing business in Virginia, of which number seven were operated by colored persons.

The aggregate of all capital stock paid in, as shown by the statements of October 21, 1913, was \$13,711,917.95; the aggregate of the surplus funds was \$7,376,512.12; the aggregate amount reported as undivided profits, less amount paid for interest, taxes and current expenses, was \$2,274,171.45.

The aggregate of all the deposits of all the State banks in Virginia on that date was \$58,731,109.61; the aggregate of all loans and discounts was \$63,353,000.65; the aggregate of all stocks, bonds and mortgages owned by the banks was \$6,108,292.99; the aggregate value of all banking houses was \$2,243,119.49; the aggregate value of all other real estate owned by the banks was \$937,488.62; the total amount due from National banks was \$8,381,825.08; the total amount due from State banks was \$1,272,052.07; the total amount due to National banks was \$323,769.85; the total amount due to State banks was \$1,083,907.44, and the total amount of cash on hand was \$2,695,267.76.

GROWTH OF STATE BANKS.

The growth of the State banking institutions during the year 1913 has been quite satisfactory, and a comparison of the last statement of the year 1912—November 26—with the last statement of the year 1913—October 21—shows that the total deposits have increased \$1,385,225.81; capital stock paid in increased \$2,894,599.43; surplus increased \$1,658,796.94; undivided profits

increased \$107,546.43; total loans increased \$5,608,181.78, and total assets and liabilities increased \$6,346,990.12.

BANKS PLACED IN RECEIVERS HANDS.

There were two State banks placed in the hands of receivers at the request of this office during the past year; viz.: Tidewater Bank of Virginia, Incorporated, of Reedville, on April 8th, and the Commonwealth Bank, Incorporated, of Richmond, on August 30th. The cause of the closing of these banks cannot be made public by me, owing to the restrictions of section 1170 of the Code, which contains the following provisions: "All records, reports and information concerning any bank other than those required by law to be public shall be open only to such officers and employees of the State as may have occasion and authority to inspect them in the performance of their duties, and the imparting of such information by any employee or officer of the State may be sufficient cause for his removal from the position he occupies under the State government."

While the reason which actuated those who drafted the above referred to clause is perfectly patent and it is certainly most essential that the records of this office and the information gained by the Banking Division should be, in the strictest sense, confidential, yet, in my opinion, the public is entitled to some general statement as to the cause of any bank failure. Of course, such a statement should only be of a general nature and not divulge any of the confidential relations existing between the bank and any of its depositors, borrowers, stockholders or others. An amendment to the clause above referred to, giving the Banking Department discretion to make such a general statement, with certain very proper restrictions, in connection with any closed bank, is included in the general banking bill which is to be introduced before the coming session of the legislature.

METHODS OF BANKING DIVISION.

Much of the work of the Banking Division has gone on quietly and gradually through letters written from the office and based upon the analyses of the financial statements made five times a year by the banks, and by means of a series of circular letters issued from the office along such lines as we deemed necessary; and further by personal suggestions made by the examiner on his annual visit. We have found that the banks have almost invariably co-operated with us in our efforts along these lines, and have consulted freely with this office as to best methods. We have endeavored to build up a feeling among the banks that this office was established to assist them in their work, as well as to care for the depositors' interest, and we believe we have succeeded.

One of the main, if not the main effort of this Division, aside from proving the solvency of the banks under our supervision, has been an earnest endeavor to impress upon directors of banks the necessity of their actually directing the affairs of the institution with which they are connected. This, in my view of the matter, is the most important feature in connection with our work, for if this one thing is accomplished, any lesser shortcomings will disappear of themselves. In few cases where it has been necessary to close a bank, has it been found that the directors had that degree of intimacy with conditions in their own bank that a full and faithful performance of their implied duties

would have given them. As a means to this end, a circular letter was issued by this office containing most detailed and explicit instructions to aid directors in making examinations four times a year, as required by section 1160 of the Code; and another means of helping directors realize their duties, is the requirement of the Division that each examiner after making an examination shall leave one of our printed forms to be filled in by the directors, stating that they have each personally examined every note, every piece of collateral and every security owned by their bank on such a day, and that they believe them all to be good, with any exceptions they may choose to list. These forms are then forwarded to the banking division for our files.

In writing the detailed letters to the banks, after an examiner has made his report, we often require all the directors to sign the bank's reply. This not only thoroughly acquaints the cashier, but all the directors with any objectionable features the examiner may have reported.

This office has continued the endeavor, started by the Corporation Commission before the creation of the Banking Division, to eliminate overdrafts as much as possible and has issued a circular letter against this practice, quoting an opinion of the Supreme Court of the United States, which sets forth that such a practice is "a usage and practice to misapply the funds of the bank." We encourage the banks to furnish copies of this circular letter from this office to habitual overdrawers, and, for that purpose, upon a request from a bank, furnish them with a number of copies of this particular circular.

On September 30, 1912, this office issued a circular letter requesting every State bank to set aside at the end of each month a reserve for accrued interest on deposits and on certificates of deposit; also when interest on deposits and on certificates of deposit was paid, that the amount so paid, be deducted from the reserve. It was deemed advisable to take this action, as section 1168 of the Code seemed to imply it and also that a bank could, at the end of each month, be in a position to know its true financial condition with a greater degree of accuracy than is possible without the reserves being set aside monthly. On October 21, 1913, the 263 State banks had set aside for accrued interest on deposits \$264,917.70, and for accrued interest on certificates of deposit \$214,672.40.

We have recently had so many requests from the banks for our opinion as to the best form to be used in certain of their books, and finding it difficult to satisfactorily describe the form and ruling of such books by letter, we have had printed a small supply of sample sheets showing our recommendation for a General Ledger, Individual and Savings Ledgers, Cash Book, Teller's Cash Settlement Book and Daily Trial Balance Book, and upon a request from any bank, furnish it with these sample sheets. Of course we do not insist on the particular form furnished by this office, but merely recommend it. No objection is made to any form which provides for a complete record.

LEGISLATION RECOMMENDED.

As stated in my last two reports, I am of the opinion that the existing statutes regulating State banks and trust companies are, in many respects, inadequate. The requirements as to trust companies and savings banks contained in existing statutes are meagre in the extreme, and such references to trust companies and savings banks as are contained in the present laws are in many instances not clear and sometimes very confusing. The existing

aws do not clearly differentiate the powers of banks, from those of trust companies, nor do they make a clear distinction between ordinary commercial banks and savings banks. Though chapter 49 of the Code treats exclusively of savings banks, yet it does not define what is a savings bank, so that it is a matter of impossibility to come to a decision as to which banks in the State it was contemplated should come within the requirements of chapter 49 relating to savings banks. This however is not, at this time, of great importance, as the only provision of chapter 49, regulating savings banks, which differs from chapter 48, regulating banks of discount and deposit (and occasionally referring to trust companies and savings banks), is that chapter 49 permits savings banks to purchase real estate.

To remedy these and other shortcomings in the present laws, a general banking bill should be presented to the coming legislature, bringing into one co-ordinate act all of the separate statutes regulating banks, savings banks and trust companies. Such an act should contain a separate chapter for commercial banks, another for savings banks and another for trust companies, and the respective chapters should clearly define a commercial bank, a savings bank and a trust company, and also in unmistakable terms set forth the powers possessed by each of these classes of institutions, stating clearly just what classes of business may be engaged in by each class of institution, and what character of business may not be transacted. Each chapter should also contain regulations governing the class of banking institution to which the chapter refers.

In my opinion, the law should contain provisions, allowing under certain clearly set forth restrictions, a commercial bank to do a savings bank business, or, in cases of banks with a capital of two hundred thousand dollars or over, a trust company business; or both; and also permit a trust company under certain conditions, to do a banking business.

The general banking act should also, in my opinion, contain, among others, the provisions recommended in my two previous annual reports.

The Virginia Bankers Association has framed a banking bill to be presented to the legislature this winter. The Association appointed a committee to draft this bill, and the committee, before drawing up the measure, requested the Banking Division to furnish its recommendations, nearly all of which were included in some form in the tentative draft of the bill. At a later date, the committee, composed of Mr. W. B. Vest of Newport News, as chairman, Mr. Nelson S. Groome of Hampton, Mr. George Bryan of Richmond, Mr. C. Taylor Burke of Alexandria and Mr. Henry Preston of Tazewell, met at the Jefferson Hotel in Richmond, together with my assistant, Mr. Bertram Chesterman and myself and we spent the greater part of two days in formulating a banking bill. The committee's bill was afterwards reported to the Association, and with some slight changes endorsed by it. This is the banking bill which will be presented to the coming legislature.

The bill of the Virginia Bankers Association, thus formulated, is not what I regard as a perfect measure, as it contains some provisions which I would prefer not to see in the bill and omits other requirements which would have added to its effectiveness; nevertheless, all things taken into consideration, it is perhaps the best bill which we could hope to get at this time.

The members of the committee of the Bankers Association, as well as the entire body of the Association, displayed a fine spirit of compromise in

formulating the banking bill, and such a spirit actuated the recommendation and subsequent action of the Banking Division in connection with its co-operation in this work, believing more would be accomplished to benefit the public by such an attitude, than by taking an unyielding position on some points on which otherwise there would have been irreconcilable differences of opinion.

It gives me great pleasure to commend all those serving with me in the Banking Division for the constant and faithful performance of their duty and the energy and interest displayed by them in the work.

All of which is respectfully submitted.

C. C. BARKSDALE,
Chief Examiner.

LIST OF STATE BANKS

Showing Maximum and Minimum Capital Stock Authorized by Charter, and names of Presidents and Cashiers, as of October 21, 1913,
Arranged in Alphabetical Order According to the Location of the Bank.

NAME OF BANK	Location	Maximum Capital	Minimum Capital	President	Secretary or Cashier.

SUMMARY.

Showing Condition of the 263 State Banks Doing Business in Virginia as of October 21, 1913.

RESOURCES.

Loans and Discounts.....	\$ 63,353,000 65
Overdrafts.....	137,409 06
Bonds, Securities, etc., including Premium on same.....	6,108,292 99
Banking Houses.....	2,243,119 49
Other Real Estate.....	937,488 62
Furniture and Fixtures.....	550,442 43
Checks, other Cash Items and Exchanges for Clearing Houses....	583,879 95
Due from National Banks.....	8,381,825 08
Due from State Banks, Private Bankers and Trust Companies....	1,272,052 07
Actual Cash on Hand.....	2,695,267 76
Unpaid Subscriptions to Capital Stock.....	168,808 80
Bonds Guaranteed.....	599,000 00
All Other Items of Resource.....	167,862 64
Total Resources.....	\$ 87,198,449 54

LIABILITIES.

Capital Stock Paid in.....	\$ 13,711,917 95
Surplus Fund.....	7,376,512 12
Undivided Profits.....	2,274,171 45
Dividends Unpaid.....	63,489 33
Deposits Subject to Check.....	27,504,583 39
Savings Deposits.....	18,690,110 94
Demand Certificates of Deposit.....	3,628,782 36
Time Certificates of Deposit.....	8,620,600 63
Certified Checks.....	168,541 50
Cashiers' Checks Outstanding.....	118,490 79
Total Deposits.....	58,731,109 61
Due to National Banks.....	323,769 85
Due to State Banks, Private Bankers and Trust Companies....	1,083,907 44
Notes and Bills Rediscounted.....	758,021 00
Bills Payable, including Certificates of Deposit Representing Money Borrowed.....	1,149,624 07
Reserved for Accrued Interest on Deposits.....	264,917 70
Reserved for Accrued Interest on Certificates of Deposit.....	214,672 40
Reserved for Accrued Taxes.....	108,473 94
Stock Subscribed but not paid for.....	168,808 80
Bonds Guaranteed.....	599,000 00
All other Items of Liability.....	370,053 88
Total Liabilities.....	\$ 87,198,449 54

MISCELLANEOUS STATISTICS.

*Compiled from Reports of State Banks Showing Condition as of
October 21, 1913.*

Number of banks doing business on October 21, 1913.....	263
Number of banks conducted by colored persons	7
Number of banks reporting no overdrafts.....	30
Number of banks owning banking houses.....	194
Percentage of capital invested in stocks and bonds.....	44.54 per cent.
Percentage of capital invested in banking houses.....	16.35 per cent.
Percentage of capital invested in other real estate.....	6.83 per cent.
Percentage of capital invested in office furniture and fixtures.....	4.01 per cent.
Excess of loans over deposits.....	\$4,621,891.04
Surplus is.....	53.80 per cent. of capital
Undivided profits are.....	16.58 per cent. of capital
Surplus and undivided profits are.....	70.38 per cent. of capital
Net amount due from National Banks is.....	\$8,058,055.23
Of cash on hand, paper currency is.....	76.50 per cent.
Of cash on hand, specie and fractional paper currency is	23.50 per cent.

COMMONWEALTH OF VIRGINIA

Department of the State Corporation Commission

**Rules and Regulations Relating to Storage, Demurrage and
Car Service in Virginia.**

Prepared and Prescribed by the State Corporation Commission

As Amended January 29, 1908

In effect on and after the 15th day of March, 1908

PREAMBLE.

Legal and Saturday half-holidays excluded.

All storage, demurrage and car service charges, and all car detention charges, shall be as prescribed in these rules. Nothing in these rules shall apply to shipments of live stock and perishable freight, which shipments shall be governed by the statutes now in force, with such additional requirements as may be ordered by the commission from time to time. In all computation of time under these rules, Sundays and legal holidays are to be excluded; also, except where otherwise provided in the rules, the Saturday half-holiday of twelve hours, beginning at 12:00 o'clock noon.

Each rule to apply separately.

In computing time under these rules, each rule must be treated as separate and distinct, and the charges and penalties should be arrived at accordingly. For example: Although a shipment may have been carried in less than the maximum time allowed by Rule II., such circumstance will not warrant a carrier in applying the difference between such time and the said maximum time as a deduction from the time provided for in the operation of any other rule.

RULE I.

Ordering cars by shippers, and furnishing cars by railroads.

When a shipper makes verbal or written application to a railroad company through the agent in charge at point of shipment for a car or cars,

to be loaded with any kind of freight embraced in the tariffs of said company, stating in said application the station or siding at which such car or cars are to be placed, the character of the freight and its final destination, the railroad company, shall furnish same within four days from seven o'clock A. M., the day following such application.

Or when the shipper making such application specifies a future day on which he desires to make a shipment, giving not less than four days' notice thereof computing from seven o'clock A. M. the day following such application, the railroad company shall furnish such car or cars on the day specified in the application.

Record of orders for cars.

Railroad agents shall keep and preserve a daily record of such applications for cars, showing them in consecutive order and the dates on which received; which record shall always be open to public inspection during business hours.

Penalty for delay in furnishing cars ordered; claims for failure to furnish cars promptly.

For failure to comply with this rule, the company so offending shall forfeit and pay either to the shipper, or his assignee, in writing having a substantial interest, the sum of \$1.00 per car per day or fraction of a day, for delay after expiration of free time, upon demand in writing made within thirty days from the time the car is furnished, provided it be furnished within thirty days from the expiration of free time. If not so furnished within thirty days from the expiration of the free time, the claimant may file such demand in writing within sixty days from the expiration of the free time, and having so done, shall be entitled to recover of the carrier one dollar per car for each and every day such default may continue, counting from the expiration of the free time.

Grain doors to be supplied when necessary.

When for the safe transportation of carload shipments of grain, feed or similar property in bulk grain doors are necessary, railroad companies shall furnish such doors of sufficient quantity and strength for that purpose, or in lieu thereof, shall allow to shipper for furnishing suitable lumber and applying same to side door openings, not exceeding six in number for each car, at the rate of not less than forty cents each. When impossible to procure at the shipping point suitable material for grain doors, the railroad companies shall, upon receipt of reasonable evidence from shipper of that fact, arrange to supply sufficient suitable lumber, or grain doors, to meet the shipping requirements of such shipper so circumstanced, and the shipper shall account for and be responsible to the railroad companies for proper use thereof. This refers to side doors only, and any delay in loading occasioned by failure to comply promptly shall be added to the free time for loading.

Exception to Rule I.

This rule shall not apply to shipments of coal and coke from mines and ovens, ore and fluxing limestones; nor to delays arising from causes not within the power of the carrier to prevent, but delays arising from such

causes shall be added to and counted as additional free time. No failure of the carrier to provide the rolling stock reasonably necessary for the discharge of its public duties shall be construed to be a cause of delay not within the power of the carrier to prevent.

RULE II.

Time for transporting freight; penalties for failure to transport within time provided.

(a) When freight, in proper condition, either in carloads, or less is tendered to a railroad company for a point on its own road, or for a point beyond its road to which it forms part of a through route, and correct shipping instructions given, the railroad agent must immediately receive the same for shipment and issue bills of lading therefor. When so received, shipments must be carried forward over each road which handles them at the rate of not less than fifty (50) miles per day of twenty-four hours, computing from seven o'clock A. M. the day following receipt of shipment at point of origin; but, where the length of haul over any railroad is less than fifty miles, the allowance of time for movement over such railroad shall not be less than twenty-four hours. For failure to receive and transport such shipment, within the time prescribed, the railroad company or companies so offending shall forfeit and pay to the consignee, or his assignee, in writing having a substantial interest, for time during which delay continues, the sum of \$1.00 per car per day, or fraction thereof, on all carload freight, and one cent per hundred pounds per day, or fraction thereof, on freight in less than carloads, with minimum charge of five (5) cents for any one package, upon demand in writing by such claimant. In computing the time of freight in transit, there shall be allowed twenty-four hours at each junction point where transfer from one railroad to another is involved (said time to be equally divided between the roads affected); and twenty-four hours for the rehandling of freight at any other point from one car to another, where necessary. The Saturday half-holiday shall not be deducted under this rule.

When additional free time allowed for transporting.

The period during which the movement of freight is suspended on account of accident, or for necessary repairs at junction points where transfer from one railroad to another is involved, or any cause not within the power of the railroad company to prevent shall be added to the free time allowed in this rule, and counted as additional free time.

Filing Claims under Rule II.

(b) Claims for delays in shipments moving over more than one line shall be first filed within the terminal line, and, if that line denies responsibility for the delay or any part thereof, it shall report promptly to the claimant all the particulars of the movement over its own line; and, if it appears from such report that the delay or part thereof occurred on some other line or lines, the claimant may file separate claim or claims against such other line or lines apparently responsible for the delay, and may recover from the line or lines found to be responsible the amount or amounts due under these rules, or any of them.

RULE III.

Notice to consignee of arrival; information to be given in notice; penalties for failure to notify consignee within time provided.

(a) Railroad companies shall, within twenty-four hours after arrival of shipments, give notice by mail or otherwise, to consignee of the arrival of shipments, together with the weight and amount of freight charges due thereon, and where goods or freight in carload quantities arrive, such notice shall contain also identifying numbers, letters and initials of the car or cars, and if transferred in transit, the number and initials of the car in which originally shipped. Any railroad company failing to give such notice shall forfeit and pay, either to the consignee or his assignee in writing having a substantial interest, the sum of \$1.00 per car per day, or fraction of a day's delay, on all carload shipments, and one cent per hundred pounds per day, or fraction thereof, on freight in less than carloads, with minimum charge of five (5) cents for any one package, after the expiration of the said twenty-four hours; provided, that not more than one dollar per day be charged for any one consignment not in excess of a carload.

Where applicable to steamboat and steamship lines.

(b) This rule is applicable also to steamboat and steamship lines, but only in cases of shipments consigned to and arriving at the following cities, towns and places in Virginia, viz.:

Richmond,
Alexandria,
Fredericksburg,
Petersburg,
Norfolk,
Portsmouth,

Newport News,
Hampton,
Smithfield,
City Point,
West Point,
Suffolk;

Provided, that no wharfage, storage or demurrage charges are to be made on shipments arriving by water at other points than those mentioned.

RULE IV.

Time for delivery at depots or warehouses, or for placing loaded cars after arrival; placing freight for track delivery at local stations; penalty for delay in delivery.

(a) Railroad companies shall deliver freight at their depots, or warehouses, or, in case of shipments for track delivery on their own lines or private siding used in connection therewith, shall place loaded cars at an accessible place for unloading within twenty-four hours after the arrival, computing from seven o'clock A. M. the day following arrival of same, unless withheld for any reason for which the consignee may be responsible. Except that carload shipments for track delivery at local stations having not more than one team track, shall be placed at an accessible point for unloading by the conductor of the train on which the car arrives. The consignee, or his assignee in writing having a substantial interest, shall be paid \$1.00 per car per day, for each day, or fraction of a day, such delivery is so delayed.

Time for switching incoming loaded cars; switching of freight taking track delivery arriving in or on cars with defective air-brakes or without air-brakes.

(b) Carload freight, or freight taking track delivery, if delivered within yard limits of a carrier other than that over whose road such freight arrives, shall be switched to the road of such other carrier within twenty-four hours from the time so ordered after arrival at destination (settlement of charges and, when necessary, surrender of bill of lading having been accomplished); and such other carrier shall place such freight for unloading within twenty-four hours after receiving it. If switching by more than two carriers is involved twenty-four hours shall be allowed for each carrier participating. When such a car is refused by any carrier by which it is to be switched because out of order by reason of defective air-brakes or absence of air-brakes, then the carrier having possession thereof shall forthwith make the necessary repairs or transfer the lading to a proper car; and the time thus properly consumed, not exceeding forty-eight (48) hours, may be added to the time allowed for the movement.

Penalty for delay in switching incoming loaded cars.

For failure to comply with the terms of this section the offending carrier or carriers shall pay, either to the consignee or his assignee in writing having a substantial interest, the sum of \$1.00 per car per day, or fraction of a day, for such delay.

Additional free time for weighing on track scales at destination.

(c) Should a consignee request that a car containing a shipment be weighed on track scales after notice of arrival thereof is given, at place where there are such scales, the railroad company performing this service shall be allowed additional free time therefor of thirty-six hours, if that company has already placed the car for unloading, or twenty-four hours if it has not already so placed the car.

RULE V.

Freight on which demurrage or car service charges apply.

All carload freight, or freight carried at carload rates, and all freight in cars whether full carload or not, taking track delivery shall be subject to the demurrage, or car service charges prescribed in these rules.

RULE VI.

Free time for loading cars by shippers; charges for delay by shippers in loading cars.

(a) A shipper, on whose order a car or cars have been placed for loading, shall be allowed forty-eight hours for the loading of such car or cars, computing time from seven o'clock A. M., the day after such car or cars have been placed subject to the order of shipper, and thereafter a demurrage charge of not more than \$1.00 per car per day, or fraction of a day, may be assessed and collected on all such cars as have not been tendered to the railroad com-

pany with shipping instructions within said forty-eight hours; provided, however, that should the shipper fail to begin loading within forty-eight hours after the expiration of free time, the railroad company shall consider the car or cars released, and may assess and collect \$2.00 on each car, covering the demurrage then due.

Railroad companies shall not be compelled to furnish cars for future shipments to parties in default as to the payment of the demurrage charges herein last provided for, until such demurrage charges have been paid.

When additional free time to be allowed for loading.

If, after placing the car or cars required by this rule, the railroad company shall, during or after free time, temporarily remove all or any of them, or in any way prevent, obstruct or delay the loading of same, the shipper shall not be chargeable with the delay caused thereby.

When by reason of delay or irregularity on the part of the railroad company in filling orders, cars are bunched in excess of the ability of the shipper to load, as indicated in his applications, the shipper shall be allowed separate and distinct periods of free time within which to load the car or cars specified in each separate application.

Time for switching outgoing freight and freight moving entirely within local switching limits.

(b) When freight has been loaded into a car on any track within the switching limits of two or more carriers at and around a junction point, and is forwarded in the same car to a point within such switching limits on or reached by way of the road of any other carrier than that which places the car for loading, twenty-four hours must be allowed each carrier over whose road such freight is transported, computing from the time at which instructions for such movement are given to the first carrier. If destination is beyond such switching limits, Rule II. will govern the movement over the road by which the car passes out of the switching limits, beginning with the time at which it receives the car from its connecting road.

Penalty for delay in switching outgoing loaded cars and freight moving entirely within local switching limits.

If the car contains freight for various destinations beyond the switching limits of any one of the carriers and is re-handled at a depot of such carrier before forwarding beyond such limits, Rule II. is to be effective as to such carrier from the time that the goods are unloaded from the car in which received.

For failure to comply with the terms of this section the offending carrier or carriers shall pay, either to the shipper or his assignee in writing having a substantial interest, the sum of \$1.00 per car per day, or fraction of a day, for such delay.

RULE VII.

Charges for delay to cars at point of shipment caused by shippers; notice to shippers of imperfect or excessive loading.

A car or cars detained or held at point of shipment for want of proper shipping instructions, or by reason of imperfect or excessive loading, where

loading is done by shipper, shall be subject to a demurrage charge of \$1.00 per car per day, or fraction of a day, said car or cars are so detained or held. In cases of imperfect or excessive loading, the shipper shall be notified thereof as early as practicable after said car or cars have been received from him, in which case car service charges shall begin at the time of notification.

RULE VIII.

Legal notice; when free time begins after actual notice to consignee; constructive notice; additional free time when constructive notice only is given.

Legal notice, as referred to in these rules, may be either actual or constructive. Where the consignee or his agent is personally served with notice of the arrival of freight at or before six P. M. of any day, free time begins at seven o'clock A. M. on the day after such notice has been given, provided that in case of freight taking track delivery the car shall have been placed under the terms of Rule IV., or if held for any reason for which the consignee may be responsible, except that, if consignee accepts notice delivered after twelve o'clock noon on Saturday, it shall be construed as having been delivered on the following Monday prior to six P. M. Constructive notice referred to consists of posting notice by mail to consignee. Where this mode of giving notice is adopted, there shall be twenty-four hours additional free time; provided, however, that when in any case where notice of arrival is given by mail, the consignee shall make oath that neither he, his agents, nor employees, have received such notice, then he will be held *prima facie* not to have received legal notice by reason of posting of said notice by mail.

RULE IX.

Storage charges after expiration of free time.

(a) All incoming freight unloaded at destinations by railroad companies in their depots or warehouses which is not removed by the owners thereof from the custody of the railroad company within forty-eight hours, computing from seven o'clock A. M. of the day following legal notice of arrival, may be subject to the charge of storage for each day, or fraction of a day, it may remain in the custody of the railroad company as follows:

In less than carloads not more than one cent per hundred pounds per day, or fraction thereof; in carload quantities, not more than ten cents per ton of 2,000 pounds per day or fraction thereof, but not exceeding \$1.00 per car per day or fraction of a day; provided, that in no case shall the amount so collected for storage of a less than carload shipment exceed the amount authorized to be charged as storage or demurrage on a carload of similar freight for the same length of time when not unloaded from car, as provided by the demurrage rules.

Application to steamboat and steamship companies.

(b) This rule shall apply also to steamboat and steamship companies unloading package freight in their warehouses, except that seventy-two (72) hours of free time shall be allowed instead of forty-eight.

RULE X.

Free time for unloading certain articles; charge for delay in unloading cars; free time for unloading articles not specified; when unloading obstructed; free time for unloading cars bunched in transit.

(a) Loaded cars containing fertilizers, hay, straw, coal, coke, brick and lumber in covered cars, and the following articles in bulk: Meat, potatoes, grain and grain products, glass bottles, cotton seed and cotton-seed hulls, taking track delivery, which are to be unloaded by consignee, but are not unloaded within seventy-two hours, computed from seven o'clock A. M. the day following the day legal notice of arrival is given (having been placed at an accessible point for unloading, or held for any reason for which the consignee may be responsible), may be subject thereafter to charge for demurrage of \$1.00 per car for each day, or fraction of a day, that they remain loaded in possession of the railroad company. All other loaded cars, taking track delivery, to be unloaded by consignee, shall be limited to forty-eight hours of free time; provided, however, that if, after placing a car or cars, as required in this rule, the railroad company shall, during or after free time, temporarily remove any or all of them, or in any way obstruct the unloading of same, the consignee shall not be chargeable with the delay caused thereby.

Provided that when, on account of delay or irregularity in transportation, cars are bunched in transit and delivered to consignee in numbers beyond his reasonable ascertained ability to unload within the free time prescribed in these rules he shall be allowed by the carrier such additional time as may be necessary to unload the cars so in excess by the exercise of due and usual diligence on part of consignee.

Free time for ordering when cars are switched to a point beyond line over which arrived.

(b) When, after arrival at destination, a car containing freight is switched, upon order, for unloading to a point within the local switching limits, on or reached by way of, a road other than that over which it arrived, free time shall be allowed for such ordering not to exceed twenty-four (24) hours from seven A. M. of the day after giving actual notice, or forty-eight (48) hours from seven A. M. of the day after giving constructive notice of arrival; which is in addition to the full free time for unloading as provided in section (a) after being placed at the unloading point, such free time for unloading to begin when so placed.

RULE XI.

Additional free time account weather conditions.

Whenever the weather, during the period of free time, is so severe, inclement or rainy that it is impossible or impracticable to secure means of loading or unloading freight, or when, from the nature of the goods, loading or unloading would cause injury or damage, such time shall be added to the free period, and no demurrage charges shall be allowed for such additional free time. This rule applies to the state of the weather during business hours.

RULE XII.**Free time for distant consignee or consignor.**

A consignee or consignor five miles or more from the depot, and whose freight is destined to or from his place of business or residence so located, shall not be subject to storage or demurrage charges allowed in the foregoing rules until a sufficient time has elapsed after notice for said consignee or consignor to remove or load said goods by the exercise of ordinary diligence. But the time limit for loading or unloading shall not exceed five days.

RULE XIII.**Free time at port terminals for carload freight destined thereto when for further movement.**

On carload freight originating in Virginia, and shipped on local bills of lading to a terminal point at a port within this State, there shall be allowed ten days' free time, computing from seven o'clock A. M. the day after arrival of car or cars, before application of storage or demurrage charges; provided, the consignee, within forty-eight hours after the arrival of such car or cars, notifies the delivering line at such terminal point that it is intended for further movement.

RULE XIV.**Storing of incoming carload freight referred to in Rules XI and XII.**

Incoming carload freight, coming under the provisions of Rules XI and XII, may be stored by railroad companies in depots or warehouses at the expense of owner, if same is not removed before demurrage charges attach; provided, that daily storage charge on such freight shall not exceed the demurrage allowed under these rules.

RULE XV.**Unclaimed and refused shipments.**

If freight shall remain unclaimed at destination for six days after the expiration of free time; or, if a consignee shall refuse to accept freight tendered in pursuance of the bill of lading, the carrier charged with the duty of delivery shall, within reasonable time thereafter, give legal notice thereof to consignor through agent of carrier at point of shipment or otherwise. Agent at destination may also give notice to the consignor direct and if the consignor shall not within three days after receipt of the notice which first reaches him, give direction for the reshipment or unloading, or other disposition of such goods, he shall thenceforth become liable to such carrier for storage on such goods, or demurrage upon the car or cars in which they are stored, to the same extent, and at the same rates as such charges are now, under like circumstances, by the rules of this Commission, imposed upon consignees who neglect or refuse, after notice of arrival, to remove freight of like character from the depots or cars of a carrier. A consignee who has once refused to accept a consignment of goods shall not thereafter be entitled to receive the same, except upon payment of all charges for storage or demurrage which have accrued.

RULE XVI.**Goods shipped to consignors or "To Order."**

When consignors ship goods consigned to themselves or to order, and express in their bills of lading or shipping directions the name of a person at destination to be notified, it shall be the duty of the railroad, or other transportation company, to give legal notice to such person in the same way, and under the same rule, as if the shipment had been made direct to him. But when consignors do not so express the name of a person at destination to be notified, the delivering carrier shall give legal notice only to the consignee at delivery point, except that, for shipments of grain or hay, notice shall also be given to the local exchanges at destination points where such exchanges are established; and furthermore, not later than the expiration of six days after the free time, notice to consignor shall be given as provided in Rule XV, for unclaimed freight.

RULE XVII.**Discrimination prohibited.**

Railroads shall not discriminate between persons or places in storage or demurrage charges. No rebate, drawback, or other similar device will be allowed.

RULE XVIII.**Cars on private tracks.**

No demurrage shall be charged on private cars standing on private tracks, when both cars and tracks are owned by the same person. Where the cars are not owned by the owner of the tracks, no demurrage shall be charged; provided, the person owning the tracks shall furnish to the delivering railway satisfactory evidence that the owner of the cars releases both him and the delivering road from the payment of demurrage.

RULE XIX.**Contracts between railroad companies and shippers or consignees permissible.**

Nothing in the foregoing rules shall be construed to prohibit railroad companies from contracting with shippers and consignees on terms of mutual convenience in the matter of furnishing and discharging cars; provided, that such contracts shall be so drawn as to give to either party the right to cancel same on ten days' notice, and thereafter demand the application of these rules.

RULE XX.**When commission may suspend rules.**

The commission reserves the right on its own motion to suspend the operation of these rules, or any one or more of them, in whole or in part, whenever it shall appear that justice demands such action, and the commission will, upon complaint, hear and act upon applications for a like suspension.

When transportation companies subject to fines and penalties to be imposed by commission.

The commission further reserves all of its powers under the Constitution and laws of the State to impose fines and penalties upon transportation companies persistently disregarding these rules, or failing to furnish reasonable transportation facilities.

RULE XXI.

Settlement of claims against common carriers.

Common carriers, against which claims are filed under these rules, must receive and investigate such claims promptly; and, if the claims be found correct, must make settlement within sixty days from date of filing by claimant; or, if claimed to be incorrect, must report to the claimant the particulars in which claim is claimed to be incorrect, and must pay claimant the amount admitted to be due within the aforesaid time, but the acceptance by claimant of any amount less than the amount claimed shall not be construed as a waiver of the residue of his claim. Failure to observe this rule will render common carriers who disregard it liable to such fines and penalties as the commission may find it necessary to impose, as provided in Rule XX.

ROBERT R. PRENTIS,
Chairman.

HENRY C. STUART,
JOSEPH E. WILLARD,
Commissioners.

Attest:

R. T. WILSON, *Clerk.*

NOTICE.

Attention is called to the act of the General Assembly, approved May 16, 1903, relating to the subject matter of these rules, which provides that if a consignor or consignee claims and receives the penalties imposed upon railroad companies in the above rules for failure to comply therewith, such penalties or charges shall "when paid, be in full of any and all claims for damage growing out of such failure; provided, however, that the owner of the freight may, at his election, waive said charges, and elect to claim such actual damage as he may have sustained, instead of such charges."

The Foregoing Rules and Regulations Have Been, Since Their
Promulgation, Modified by the Following
Order of the Commission—Viz:

AS TO CERTAIN RAILROADS.

Order of March 11, 1908.

It is ordered, That the demurrage, storage and car service rules and regulations now or hereafter prescribed by the commission and put into effect, be, until the further order of the commission, suspended as to the Tidewater and Western Railroad Company and as to the Virginia-Carolina Railway Company, and as to the Potomac, Fredericksburg and Piedmont Railroad Company, so that none of the said rules and regulations shall affect the operation of any of the said railroads or the dealings of shippers, consignees or others on the said railroads. But this suspension order is entered upon the express stipulation and condition that neither of the said railroads shall charge, demand or collect from either shippers or consignees any demurrage, storage or similar charges or penalties under any circumstances.

A Copy—Teste:

R. T. WILSON, *Clerk*.

REGULATIONS

Governing Transportation of Explosives by Common Carriers (except Express Companies) Doing Business in Virginia, Prescribed and Promulgated by the State Corporation Commission
(For Rules Governing Express Companies, see page 315.)

CITY OF RICHMOND, *December 21, 1909.*

Regulations for the Transportation of Explosives.

It is hereby ordered that the Rules and Regulations for the Transportation of Explosives formulated by the State Corporation Commission on the 18th day of December, 1906, be, and they are, hereby rescinded, revoked and annulled.

In lieu thereof, the State Corporation Commission, by authority of section 20 of Chapter III, of the act approved January 18, 1904, entitled "An Act Concerning Public Service Corporations," hereby orders and prescribes that the regulations formulated by the Interstate Commerce Commission, according to law for the transportation of explosives by railroads engaged in interstate commerce, shall govern and be binding upon all common carriers engaged in intrastate commerce within the State of Virginia which transport explosives by land; and so far as the same can be made applicable thereto, shall govern and be binding upon all common carriers engaged in intrastate commerce within the State of Virginia which transport explosives by water; provided, that it shall be lawful for such common carrier to transport on any vessel or vehicle which is carrying passengers for hire, small arms ammunition in any quantity, and such fuses, torpedoes, rockets, or other signal devices as may be essential to promote safety in operation, and properly packed and marked samples of explosives for laboratory examination not exceeding a net weight of one-half pound each and not exceeding twenty samples at one time in a single vessel or vehicle; but said samples shall not be carried in that part of the vessel or vehicle which is intended for the transportation of passengers for hire; and, provided, further, that nothing in this order shall be construed to prevent the transportation of military or naval forces with their accompanying munitions of war on passenger equipment vessels or vehicles. Such regulations and this order shall be effective on the 27th day of January, 1910.

It is further ordered that the Clerk of the Commission, do certify the said regulations to the Superintendent of Public Printing for publication, according to law.

GENERAL NOTICE.

As the use of certain explosives is essential to various business activities throughout the country it is the duty of interstate railroad carriers to transport such explosives under proper regulations. It is also the duty of each such carrier to make the prescribed regulations effective and to thoroughly instruct its employes in relation thereto. It is the duty of express companies to transport under proper regulations samples of explosives for laboratory examination, as authorized by the above order. When the explosives specified in this section are lawfully carried in an express or baggage car in the presence of an employee of the company, it will not be necessary to placard this car as prescribed herein for a freight car containing similar lading.

The Commission will make further provisions as occasion may require for new explosives not included in or covered by the following regulations:

GENERAL RULES.

(a) Unless specifically authorized by these regulations, explosives must not be packed in the same outside package with each other or with other articles. Explosives, when offered for shipment by rail, must be in proper condition for transportation and must be packed, marked, loaded, stayed and handled while in transit in accordance with these regulations. All packages of less than carload shipments must also be plainly marked on the outer covering or boxing (outside package) with the name and address of consignee. Empty boxes previously used for high explosives are dangerous and must not be again used for shipments of any character. Empty boxes which have been used for the shipment of other explosives than high explosives must have the old marks thoroughly removed before being accepted for the shipment of other articles. Empty metal kegs which have been used for the shipment of black powder, not contained in an interior package must not be used for shipment of any explosives.

(b) Explosives, except such as are forbidden (see paragraphs 1501 and 1531 to 1536), must be received for transportation by railroads, provided the following regulations are complied with, and provided their method of manufacture and packing, so far as it affects safe transportation, is open to inspection by a duly authorized representative of the initial carrier or of the Bureau for the Safe Transportation of Explosives and Other Dangerous Articles, of The American Railway Association. Shipments of explosives that do not comply with these regulations will not be received. Shipments offered by the United States Government may be packed, including limitation of weights, as required by its regulations.

(e) Before any shipment of explosives destined to points beyond the lines of the initial carrier is accepted from the shipper, the initial carrier must ascertain that the shipment can go forward via the route designated, and that delivery can be made at destination. To avoid unnecessary delays, arrangements must be made to furnish this information promptly to initial carrier. Shipments offered by connecting lines must be received subject to these regulations.

TESTS FOR STRENGTH OF PACKAGE.

(d) Packages receive their greatest stresses in a direction parallel to the length of the car, and must, therefore, be loaded so as to offer their greatest resistance in this direction. Cleats or handles, when prescribed for packages, must be so placed as not to interfere with close packing lengthwise in the car.

(e) When explosive material of equal weight is substituted (sand for a granular explosive, dummy cartridges for high explosive cartridges), and the outside package is dropped on its end on to a foundation of solid brick or concrete from a height of four feet, the outside package must not open, nor rupture, nor must any portion of the contents escape therefrom.

(f) In addition to standing the test in paragraph (e), the design and construction of packages must be such as to prevent the occurrence in individual packages of defects that permit leakage of their contents under the ordinary conditions incident to transportation. The results of experience, gained by an examination of packages on arrival at destination, must be recorded by the Bureau of Explosives, to the end that further use of any particular kind of package, shown by experience to be inefficient, may be prohibited by the Commission, even if it should stand the drop test prescribed by paragraph (e).

(g) Violations of these regulations discovered in cars containing explosives, or in the loading or staying of packages, must be corrected before forwarding the car. A report of all serious violations, with a statement of apparent cause (such as defective packing, improper staying, rough treatment of car, etc.), must be made by the carrier to the chief inspector of the Bureau of Explosives.

GROUPING.

(h) For transportation purposes, all explosives are divided into the following groups:

1. Forbidden explosives.
2. Black powder.
3. High explosives.
4. Smokeless powders.
5. Fulminates.
6. Ammunition.
7. Fireworks.

Section I.—Information and Definitions.

Group 1.—Forbidden explosives. (See paragraphs 1531 to 1536.)

1501. The following are forbidden explosives:

- (a) **Liquid nitroglycerin.**
- (b) **Dynamite**, containing over 60 per cent. of nitroglycerin (except gelatine dynamite).
- (c) **Dynamite** having an unsatisfactory absorbent, or one that permits leakage of nitroglycerin under any conditions liable to exist during transportation or storage.
- (d) **Nitro-cellulose** in a dry condition, in quantity greater than ten (10) pounds in one exterior package. (See pars. 1557 to 1560.)

(e) **Fulminate of Mercury in Bulk** in a dry condition, and fulminates of all other metals in any condition.

(f) **Fireworks** that combine an explosive and a detonator or blasting cap. (See pars. 1515 and 1644.)

Group 2.—Black Powder. (See paragraphs 1541 to 1545.)

1502. Black (or brown) powder embraces all explosives having a composition similar to that of ordinary gun-powder, such as carbonaceous material, sulphur and a nitrate of sodium or potassium. This group includes rifle, sporting, blasting, cannon, and the prismatic powders.

Group 3.—High Explosives. (See paragraphs 1551 to 1560.)

1503. High explosives are all explosives more powerful than ordinary black powder, except smokeless powders and fulminates. Their distinguishing characteristic is their susceptibility to detonation by a commercial detonator, or blasting cap. Many high explosives are sensitive to percussion and to friction. Examples of high explosives are the dynamites, picric acid, picrates, chlorate powders, and nitrate of ammonia powders.

Group 4.—Smokeless Powders. (See paragraphs 1571 to 1579.)

1504. Smokeless powders are those explosives from which there is little or no smoke when fired. The group consists of smokeless powder for cannon and smokeless powder for small arms. Smokeless powder for cannon used in the United States at the present time consists of a nitro-cellulose colloid, and is safe to handle and transport. Smokeless powders for small arms may consist of nitro-cellulose, nitro-cellulose combined with nitroglycerin, picrate mixtures, or chlorate mixtures.

Group 5.—Fulminates. (See paragraphs 1591 to 1593.)

1505. This includes **Fulminates of Mercury** in bulk form—that is, not made up into percussion caps, detonators, blasting caps or exploders.

Group 6.—Ammunition. (See paragraphs 1601 to 1622.)

1506. **Small-arms Ammunition** consists usually of a paper or metallic shell, the primer, powder charge, and projectile, the materials necessary for one firing being all in one piece, such as is used in sporting or fowling pieces, or in rifle, pistol practice, etc.

1507. **Ammunition for Cannon** embraces all fixed or separate-loading ammunition packed in a single package in which the projectile weighs one pound or over, and is usually transported only for government use. When the component parts are packed in separate outside packages, such packages will be shipped as smokeless powder for cannon, explosive projectiles, empty projectiles, primers or fuses. Igniters composed of black powder may be attached to packages in shipments of smokeless powder.

1508. **Explosive Projectiles**, or loaded shells for use in cannon, are not liable to be exploded except by fire of considerable intensity, and the flying fragments would then be very dangerous.

1509. **Detonators** is the technical name for articles such as blasting caps, the use of which is to cause explosions of a high order, or "detonations." This means the instantaneous conversion of the entire explosive into gas

instead of the gradual conversion known as "combustion." Dynamite "detonates" and smokeless powder for cannon "burns."

1510. **Blasting Caps** contain from 5 to 50 grains of dry fulminate of mercury, or a similar substance, packed in a thin copper cup and fired by a slow-burning safety fuse. When a small "bridge" of fine wire is imbedded in the fulminate, held by a sulphur cast and arranged to fire the fulminate by heating the bridge by means of an electric current, the cap is called an "electric blasting cap," or "electric cap," or "electric exploder."

1511. **Detonating Fuses** are used to detonate the high explosive bursting charges of projectiles or torpedoes. In addition to a powerful detonator they may contain several ounces of a high explosive, such as picric acid or dry nitro-cellulose, all assembled in a heavy steel envelope, the flying fragments of which, in case of explosion, would be very dangerous. From their careful design, manufacture, and packing detonating fuses are not liable to be exploded in transportation except by fire of considerable intensity.

1512. **Primers, Percussion and Time Fuses** are devices used to ignite the black powder bursting charges of projectiles, or the powder charges of ammunition. For small-arms ammunition the primers are usually called "small-arms primers" or "percussion caps."

Group 7.—Fireworks. (See paragraphs 1641 to 1647.)

1513. **Fireworks** include everything that is designed and manufactured, primarily, for the production of pyrotechnic effects. They consist of common fireworks and special fireworks.

1514. **Common Fireworks** include all that depends principally upon nitrates to support combustion and not upon chlorates; that contain no phosphorus and no high explosive sensitive to shock and friction; that produce their effect through color display rather than by loud noises. If noise is the principal object, the units must be small and of such nature and manufacture that they will explode separately and harmlessly, if at all, when one unit is ignited in a package case. They must not be designed for ignition by shock or friction. Examples are Chinese fire-crackers, Roman candles, pin wheels, color fires, serpents, railway fuses, flash powders, etc.

1515. **Special Fireworks** include all that contain any quantity of red or white phosphorus, a fulminate, or other high explosive sensitive to shock or friction; or that contains units of such size that the explosion of one while being handled would produce a serious injury; or that require a special appliance or tool, mortar, holder, etc., for their safe use; or that may be exploded *en masse* in their packing cases; or that are intended for or may be ignited or exploded by shock or friction. Examples are giant firecrackers, bombs, salutes, toy torpedoes and caps, rockets, ammunition, pellets fired in a special holder, railway torpedoes, etc.

Section II.—Conditions of Acceptance and Shipment of Packages.

Group 1.—Forbidden and Condemned Explosives.

1531. Forbidden explosives as defined in paragraph 1501, and explosives condemned by the Bureau of Explosives, must not be accepted for shipment.

1532. Should any package of high explosives when offered for shipment show excessive dampness or be mouldy or show outward signs of any oily

stain or other indication that absorption of the liquid part of the explosive is not perfect or that the amount of the liquid part is greater than the absorbent can carry, the packages must be refused in every instance. The shipper must substantiate any claim that a stain is due to accidental contact with grease, oil, or similar substance. In case of doubt, the package must be rejected. A shipment of leaking dynamite is liable to cause a disaster in spite of careful handling; and storage, especially in warm and damp magazines, tends to cause leakage. Carriers must, for these reasons, examine with more than usual care all packages that have been stored or are offered for shipment during the summer months.

REPACKING OF DYNAMITE.

1533. Condemned dynamite must not be repacked and offered for shipment unless the repacking is done by a competent person in the presence and with the consent of a local inspector, or with the written authority of the chief inspector of the Bureau of Explosives.

DISPOSITION OF INJURED, CONDEMNED AND STRAY PACKAGES.

1534. Packages found injured or broken in transit may be recoopered when this is evidently practicable and not dangerous. A broken box of dynamite that cannot be recoopered should be reinforced by stout wrapping paper and twine, placed in another strong box, and surrounded by dry fine sawdust, or dry and clean cotton waste or elastic wads made from dry newspaper. A ruptured can or keg should be enclosed in a grain bag of good quality and boxed or crated. Injured packages thus protected and properly marked may be forwarded.

1535. Condemned packages of leaking dynamite should (1) be returned immediately to shipper if at point of shipment; or (2) disposed of to a dealer in dynamite or other person who is competent and willing to remove from railway property, if leakage is discovered while in transit; or (3) removed immediately by consignee if shipment is at destination.

When disposition cannot be made as above, the leaking boxes must be packed in other boxes large enough to permit it, and the leaking box must be surrounded by at least 2 inches of dry, fine sawdust or dry and clean cotton waste, and be stored in station magazine or other safe place, until arrival of the local inspector or other authorized person, to superintend the destruction of the condemned material.

1536. When name and address of consignee are known a stray shipment must be forwarded to its destination by the most practicable route, provided a careful inspection shows the package to be in proper condition for safe transportation. Revenue and card waybills must be prepared and on them must be written or stamped

"Stray shipment, inspected at _____ station, _____ railroad, _____-19____," except in cases where authority can be obtained by wire from the original forwarding station to stamp these waybills "Shippers' certificate file," etc. (See par. 1668.)

When a package in a stray shipment is not in proper condition for safe

transportation (see par. 1534), or when name and address of consignee are unknown, disposition will be made as prescribed by paragraph 1535.

Group 2.—Black Powder.

1541. **Packing.**—Packages containing less than twelve and a half ($12\frac{1}{2}$) pounds of rifle, sporting, blasting, or cannon powders must be enclosed in a tight box, so that the filling holes of the packages will be up, and the boxes must be marked on top, as prescribed by paragraph 1544.

1542. Twelve and a half ($12\frac{1}{2}$) pounds or over of black or brown powder must be packed in packages that comply with General Rules D, E and F. Kegs less than nine inches long must be boxed, as prescribed by paragraph 1541.

1543. **Weight.**—Packages must not weigh over 150 pounds gross.

1544. **Marking.**—Each outside package must be plainly marked, stamped, or stenciled to show the kind, "BLACK" or "BROWN," and the use, "BLASTING," "RIFLE," "CANNON," "MORTAR," etc., as "BLACK-BLASTING POWDER," "BLACK RIFLE POWDER," etc. Additional marks, trade names, etc., may appear if desired by shipper.

1545. **Car.**—A car containing shipments of black powder in any quantity must be certified and placarded as prescribed by paragraphs 1661 and 1666.

Group 3.—High Explosives.

1551. High explosives consisting of a liquid mixed with an absorbent material must have the absorbent (wood pulp or similar material) in sufficient quantity and of satisfactory quality, properly dried at the time of mixing; nitrate of soda must be dried at the time of mixing to less than 1 per cent. of moisture; and the ingredients must be uniformly mixed so that the liquid will remain thoroughly absorbed under the most unfavorable conditions incident to transportation.

1552. Explosives containing nitroglycerin must have uniformly mixed with the absorbent material a satisfactory antacid which must be in quantity sufficient to have the acid neutralizing power of an amount of magnesium carbonate equal to one per cent. of the nitroglycerin.

1553. **Packing.**—High explosives, containing more than 10 per cent. of nitroglycerin, must be made into cartridges not exceeding four inches in diameter, or eight inches in length (does not apply to gelatine dynamite), and must not be packed in bags or sacks. Bags or sacks of high explosives containing not more than 10 per cent. of nitroglycerin and not over $12\frac{1}{2}$ pounds each of explosive, will be accepted as cartridges, but these bags must be strong and must be placed in the box with filling ends up. The covering of all cartridges, consisting of paper or other material, must be strong and so treated that it will not absorb the liquid constituent of the explosive.

1554. All boxes in which cartridges containing nitroglycerin are packed must be lined with a suitable material that is impervious to liquid nitroglycerin. Cardboard cartons closed at the bottom and made of strong and flexible material that is impervious to nitroglycerin form a satisfactory lining. At least one-quarter of an inch of dry sawdust or similar material must be spread over the bottom of the box before inserting the cartridges, and all the vacant space in the top must be filled with this material. The cartridges, ex-

cept the bags or sacks authorized in paragraph 1553, must be so arranged in the boxes that when they are transported with the boxes top side up all cartridges will lie on their sides and never on their ends.

1555. The boxes must be strong (General Rules [d], [e], and [f].) the lumber throughout must be sound and free from loose knots and, when made with lock corners, must not be less than one-half inch in thickness. When nailed boxes are used, the ends must not be less than one inch, nor the sides, top, and bottom less than one-half inch in thickness. The limits for thickness refer to the finished box and not to the undressed lumber.

1556. High explosives, containing no explosive liquid ingredient, and not having, with their normal percentage of moisture, a sensitiveness to percussion greater than measured by the blow delivered by an eight-pound weight dropped from a height of five (5) inches on a compressed pellet of the explosive, three-hundredths of an inch in thickness and two-tenths of an inch in diameter, held rigidly between hard-steel surfaces, as in the standard impact testing apparatus of the Bureau of Explosives, will be accepted for shipment when securely packed in bulk in tight packages that comply with General Rules (d), (e) and (f). These explosives may also be packed in cartridges, and must be so packed when their sensitiveness is greater than the above limit.

1557. **Dry Nitro-cellulose.**—Inside packages containing not more than one pound each of dry nitro-cellulose, wrapped in strong paraffined paper, or other suitable spark-proof material, will be accepted for shipment if securely packed in an outside package that complies with General Rules (d), (e) and (f), and is marked as prescribed in paragraph 1559. Outside packages must not contain more than ten (10) pounds of dry nitro-cellulose.

1558. **Weights.**—High explosives containing an explosive liquid ingredient must not exceed sixty-five (65) pounds, gross weight, in one outside package.

High explosives containing no liquid explosive ingredient, as defined in paragraph 1556, must not exceed 125 pounds, gross weight, in one outside package.

The gross weight of an outside package containing dry nitro-cellulose packed as defined in paragraph 1557, must not exceed 35 pounds.

1559. **Marking.**—The boxes must be plainly marked on top and on one side or end "HIGH EXPLOSIVE—DANGEROUS." The top must be marked "THIS SIDE UP."

1560. **Car.**—For shipments of high explosives in any quantity, the car must be certified and placarded as prescribed by paragraphs 1661 and 1666.

Group 4.—Smokeless Powder.

SMOKELESS POWDER FOR CANNON.

1571. **Packing.**—Smokeless powder for cannon must be packed in tight boxes free from loose knots and cracks, or in kegs, that comply with General Rules (d), (e) and (f).

1572. **Weight.**—Packages must not weigh over 152 pounds gross.

1573. **Marking.**—Each package must be plainly marked on top "SMOKELESS POWDER FOR CANNON."

1574. **Car.**—Smokeless powder for cannon may be shipped in any box car in good condition. The car must be placarded "INFLAMMABLE" as prescribed by paragraph 1663.

SMOKELESS POWDER FOR SMALL-ARMS.

1575. **Packing.**—Packages of less than nine (9) pounds of smokeless powder for small arms must be enclosed in a tight box so that the filling hole of each inside package will be up, and the box must be marked on top as prescribed by paragraph 1578.

1576. Quantities of nine pounds or over must be placed in packages that comply with General Rules (d), (e) and (f). Kegs less than nine inches long must be boxed as prescribed by paragraph 1541.

1577. **Weight.**—Packages weighing over thirty-one pounds gross will not be received unless packed under the supervision of and shipped for the use of the United States Government.

Packages weighing not over thirty (30) pounds gross each may be enclosed in an outside package, in which case the gross weight must not exceed 150 pounds.

1578. **Marking.**—Each outside package must be plainly marked on top "SMOKELESS POWDER FOR SMALL ARMS."

1579. **Car.**—Shipments of smokeless powder for small arms in any quantity require a car to be certified and placarded, as prescribed by paragraphs 1661 and 1666.

Group 5.—Fulminate.

1591. **Packing.**—Fulminate of mercury in bulk must contain when packed not less than twenty-five (25) per cent. of water and must in this wet condition be placed in a bag made of heavy cotton cloth of close mesh equal in quality and weight to the cotton twill used for pockets in high-grade clothing. There must be placed inside the bag and over the fulminate a cap of the same cloth and of the diameter of the bag, and the bag must be tied securely and placed in a strong grain bag, which must in turn be tied securely and packed in the center of a cask or barrel in good condition and of the kind used for shipment of alcohol. The grain bag must not contain more than 150 pounds dry weight of fulminate, and it must be surrounded on all sides by tightly packed sawdust not less than six inches thick. The cask or barrel must be lined with a heavy close-fitting jute bag closed by secure sewing to prevent escape of sawdust. After the barrel is properly coopered it must be filled with water, the bung sealed; the barrel must be inspected carefully and all leaks stopped.

1592. **Marking.**—Each cask, or barrel, must be plainly marked "WET FULMINATE OF MERCURY—DANGEROUS."

1593. **Car.**—A car containing fulminate in any quantity must be certified and placarded as prescribed by paragraphs 1661 and 1666.

Group 6.—Ammunition.

SMALL-ARMS AMMUNITION.

1601. **Packing.**—Small-arms ammunition must be packed in pasteboard or other boxes, and these pasteboard or other boxes must be packed in strong outside boxes.

Small-arms ammunition, in pasteboard or other boxes and in quantity not exceeding a gross weight of seventy-five pounds, may be packed with non-explosive and non-inflammable articles, and with small-arms primers or percussion caps (see par. 1619), provided the shipment is certified (see par. 1668), and the outside package is marked as prescribed in paragraph 1602.

1602. Marking.—Each outside package or case must be plainly marked "SMALL-ARMS AMMUNITION."

1603. Car.—Small-arms ammunition may be shipped in any box car which is in good condition, without the placard prescribed by paragraph 1663.

AMMUNITION FOR CANNON.

1604. Packing.—Ammunition for cannon must be well packed and properly secured in strong boxes provided with cleats or handles.

1605. Marking.—Each outside package must be plainly marked "AMMUNITION FOR CANNON—EMPTY PROJECTILES," according as the projectiles do, or do not, contain a bursting charge.

1606. Car.—A car containing ammunition for cannon with explosive projectiles must be certified and placarded as prescribed by paragraphs 1661 and 1666. This is not required when projectiles are empty, but in this case cars must be protected by "INFLAMMABLE" placard, as prescribed by paragraph 1663.

EXPLOSIVE PROJECTILES.

1607. Packing.—Explosive projectiles must be packed in strong boxes and each projectile must be properly secured. When the gross weight does not exceed 150 pounds the box must be provided with cleats or handles.

1608. Weight.—The gross weight of a box containing more than one projectile must not exceed 150 pounds.

1609. Marking.—Each exterior package must be plainly marked "EXPLOSIVE PROJECTILE," or "EMPTY PROJECTILE." No restrictions, other than proper marking, are necessary for the shipment of empty projectiles.

1610. Car.—For explosive projectiles in any quantity the car must be certified and placarded as prescribed by paragraphs 1661 and 1666.

BLASTING CAPS.

1611. Packing.—Blasting caps contain such a sensitive and dangerous explosive that very efficient packing is necessary.

Blasting caps must be packed in strong tin receptacles in which they must fit snugly, and the caps must be closed securely by teats projecting from a plate of suitable elastic material placed inside the box and over the caps. Not more than one hundred blasting caps must be packed in a single tin box. All separate tin boxes must be packed snugly in paper or pasteboard cartons, and these must be packed in an inside box made of sound lumber not less than three-eighths of an inch in thickness (except in cases where it is made of hard wood with reinforced corners, and the lid securely fastened down with at least four strong wires bound around the box, in which

case the lumber must not be less than three-sixteenths of an inch in thickness). This inside wooden box must then be packed in an outside box made of sound lumber not less than 1 inch in thickness and free from loose knots and cracks. Tightly packed sawdust or excelsior, at least 1 inch thick at all points, must separate the inside from the outside wooden box. More than 20,000 blasting caps must not be placed in one outside package.

If the outside box is to contain not more than 5,000 caps, the inside box may be omitted, and the outside box may be made of $\frac{1}{2}$ -inch lumber; but in this case the tin boxes in pasteboard cartons must be separated from the outside box at all points by at least 1 inch of tightly packed sawdust or excelsior. One tin box containing not more than 100 caps may be packed with safety fuse. (Par. 1648.)

Electric blasting caps must be packed in pasteboard cartons containing not more than 50 caps each. These cartons must be packed in a wooden box made of lumber not less than one-half inch in thickness.

All boxes containing more than 5,000 blasting caps or weighing more than 50 pounds, gross weight, must be provided with cleats or handles, and all lids must be securely fastened.

1612. Weight.—The gross weight of an outside package containing blasting caps or electric blasting caps must not exceed 150 pounds.

1613. Marking.—Each outside package must be plainly marked "BLASTING CAPS—HANDLE CAREFULLY," or "ELECTRIC BLASTING CAPS—HANDLE CAREFULLY." In addition each box must bear the marking "DO NOT STORE OR LOAD WITH ANY HIGH EXPLOSIVE."

1614. Car.—Certificate and placard as prescribed by paragraphs 1661 and 1666 are required for shipments of blasting caps in any quantity, except that a shipment of not more than 100 blasting caps may be transported in a box car in good condition without car certificate or placard.

DETONATING FUSES.

1615. Packing.—Detonating fuses must be packed in strong, tight boxes provided with cleats or handles, and each fuse must be well secured.

1616. Weight.—The gross weight of one outside package must not exceed 150 pounds.

1617. Marking.—Each outside package must be plainly marked "DETONATING FUSES—HANDLE CAREFULLY."

1618. Car.—A car containing detonating fuses in any quantity must be certified and placarded as prescribed by paragraphs 1661 and 1666.

PRIMERS, PERCUSSION AND TIME FUSES.

1619. Packing.—Primers, percussion and time fuses must be packed in strong, tight boxes, with special provision for securing individual packages of primers and fuses against movement in the box.

Small-arms primers, containing anvils, must be packed in cellular packages with partitions separating the layers and columns of primers, so that the explosion of a portion of the primers in the completed shipping package will not cause the explosion of all of the primers.

Percussion caps may be packed in metal or other boxes containing not

more than 500 caps, but the construction of the caps, and the kind and quantity of the explosives in each, must be such that the explosion of a part of the caps in the completed shipping package will not cause the explosion of all of the caps.

Small-arms primers and percussion caps may form a part of the gross weight of 75 pounds of small-arms ammunition that may be packed with other articles as authorized by paragraph 1601.

1620. **Weight.**—The gross weight of one outside package must not exceed 150 pounds.

1621. **Marking.**—Each outside box must be plainly marked "SMALL-ARMS PRIMERS—HANDLE CAREFULLY," or "PERCUSSION CAPS—HANDLE CAREFULLY," or "CANNON PRIMERS—HANDLE CAREFULLY," or "COMBINATION PRIMERS—HANDLE CAREFULLY," or "PERCUSSION FUSES—HANDLE CAREFULLY," or "COMBINATION FUSES—HANDLE CAREFULLY," etc.

1622. **Car.**—Primers, percussion and time fuses may be shipped in a box car, which is in good condition, without the placard prescribed by paragraph 1663.

Group 7.—Fireworks.

COMMON FIREWORKS.

1641. **Packing.**—Common fireworks must be in a finished state, exclusive of mere ornamentation, as supplied to the retail trade, and must be securely packed in strong, tight, spark-proof boxes.

1642. **Marking.**—Each outside package must be plainly marked "COMMON FIREWORKS—KEEP FIRE AWAY."

1643. **Car.**—Common fireworks may be shipped in a box car which is in good condition (par. 1663), but they must not be loaded in the same car with explosives or with inflammable articles (par. 1680).

A car containing any quantity of common fireworks must be protected by the "INFLAMMABLE" placard. (See par. 1663.)

SPECIAL FIREWORKS.

1644. **Packing.**—Special fireworks must be in a finished state, exclusive of mere ornamentation, as supplied to the retail trade, and must not contain a blasting cap or detonator. (See par. 1501 [f].) They must be securely packed in strong, tight, spark-proof boxes that comply with General Rules (d), (e) and (f), provided with cleats or handles.

1645. **Weight.**—The gross weight of one outside package containing special fireworks must not exceed 200 pounds.

1646. **Marking.**—Each outside package, if it contains special or a mixture of common and special fireworks, must be plainly marked "SPECIAL FIREWORKS—HANDLE CAREFULLY—KEEP FIRE AWAY."

1647. **Car.**—Special fireworks may be shipped in any box car which is in good condition (par. 1663), but they must not be loaded in the same car with explosives or inflammable articles (par. 1680). A car containing any quantity of special or other fireworks must be protected by the "INFLAMMABLE" placard. (See par. 1663.)

SAFETY FUSE AND SAFETY SQUIBS.

1648. Safety fuse and safety squibs, when properly boxed or packed in barrels, may be accepted for shipment and loaded in any car with any other kind of an explosive or inflammable substance or with other freight. If blasting caps are packed with safety fuse the outside package must be marked as prescribed by paragraph 1613. (See par. 1611.)

Section III.—Selection and Preparation of Cars.

1661. The safe transportation of explosives depends very largely upon the kind and condition of the car in which they are loaded. For the transportation of—

Black or brown powder,
High explosives,
Smokeless powder for small arms,
Fulminates,
Blasting caps,
Electric blasting caps,
Ammunition for cannon—explosive projectiles,
Explosive projectiles, or
Detonating fuses,

only certified and placarded box cars may be used. (See paragraphs 1662 and 1666.)

1662. Certified cars must be inspected inside and outside and must conform to the following specifications:

(a) Not less than 60,000 pounds capacity. Steel under-frame box car or other box cars with friction draft gear should be used when available. On narrow-gauge and other railroads, all of whose freight cars are of less than 60,000 pounds capacity, explosives may be transported in cars of less than that capacity; provided the cars of greatest capacity and strength are used for this purpose.

(b) Must be equipped with air brakes and hand brakes in condition for service.

(c) Must have no loose boards or cracks in the roof, sides or ends.

(d) The door must be shut so closely that no sparks can get in at the joints, and, when necessary, they must be stripped. The stripping for flush doors should be on the inside and nailed to the door frame, where it will form a shoulder against which the closed door is pressed. The opening under the doors should be similarly closed.

(e) The journal boxes and trucks must be carefully examined and put in such condition as to reduce to a minimum the danger of hot boxes or other failure necessitating the setting off of the car before reaching destination. The lids or covers of journal boxes must be in place.

(f) The car must be carefully swept out before it is loaded. Holes in the floor or lining must be repaired and special care taken to have no projecting nails or bolts or exposed pieces of metal which may work loose or produce holes in packages of explosives during transit.

(g) When the car is to be fully loaded with explosives or when explosives are loaded over exposed draft bolts or king-bolts, these bolts must have short pieces of solid, sound wood (2-inch plank), spiked to the floor over

them to prevent possibility of their wearing into the packages of explosives.

(h) The roof of the car must be carefully inspected from the outside for decayed spots, especially under or near the running board, and such spots must be covered to prevent their holding fire from sparks. A car with a roof generally decayed, even if tight, must not be used.

(i) When explosives are to be carried in a "way car" one should be selected with flush doors in good condition or with doors fitting so tightly that stripping will not be necessary.

(k) The carrier must have car examined to see that it is properly prepared, and must have a "Car Certificate" signed in triplicate upon the prescribed form (paragraph 1665), before permitting the car to be loaded.

(l) Cars not in proper condition, as above specified, must not be furnished to the shipper or used for the transportation of explosives.

1663. Carload or less than carload lots of—

Small-arms ammunition,
Primers,
Percussion fuses,
Time or combination fuses,
Ammunition for cannon—empty projectiles,
Smokeless powder for cannon, or
Fireworks,

may be loaded in any box car which is in good condition, into which sparks cannot enter, and whose roof is not in danger of taking fire through unprotected decayed wood. These cars may be used without being certified and placarded as prescribed by paragraphs 1661 and 1666, but cars containing—

Ammunition for cannon—empty projectiles,
Smokeless powder for cannon, or
Fireworks,

must be protected by the "INFLAMMABLE" placard (see par. 1940) and the doors must be stripped when necessary.

PLACARDING OF CARS AND CERTIFICATION OF CONTENTS.

1664. Uniform practice is important, and prescribed forms of car certificates and placards must be used.

1665. Car Certificate.—The following certificate (prescribed by paragraph 1662k), printed on strong tag board, measuring 7x7 inches, must be duly executed in triplicate by the carrier, and by the shipper if he load the shipment. The original must be filed by the carrier at the forwarding station, and the other two must be attached to the outside of the car doors, one on each side, the lower edge of the certificate $4\frac{1}{2}$ feet above the floor level.

CAR CERTIFICATE.

..... Station, 19....

I hereby certify that I have this day personally examined car No., and that the roof and sides have no loose boards, holes or cracks, or unprotected decayed spots liable to hold sparks and start a fire; that the king-bolts or draft bolts are properly protected, and that there are no uncovered irons or nails projecting from the floor or sides of the car which might injure packages of explosives; also, that the floor is in good con-

dition and has this day been cleanly swept before the car was loaded; that I have examined all the axle boxes, and that they are properly covered, packed and oiled, and that the air brakes and hand brakes are in condition for service.

.....
Railway Employee Inspecting Car.

No. 2.

.....19....
I hereby certify that I have this day personally examined the above car, that the floor is in good condition and has been cleanly swept, and that the roof and sides have no loose boards, holes, cracks or unprotected decayed spots liable to hold sparks and start a fire; that the king-bolts and draft bolts are protected, and that there are no uncovered irons or nails projecting from the floor or sides of the car which might injure packages of explosives; that the explosives in this car have been loaded and stayed, and that the car has been placarded according to paragraphs 1661, 1666, and 1674 to 1683, inclusive, of the Regulations for the Transportation of Explosives prescribed by the Interstate Commerce Commission; that the doors fit so tightly or have been stripped so that sparks cannot get in at the joints or bottom.

.....
Shipper or Duly Authorized Agent.

.....
Railway Employee Inspecting, Loading and Staying.

Note.—Both certificates must be signed. Certificate No. 1 by the representative of the carrier. For all shipments loaded by the shipper, he, or his authorized agent, and the representative of the carrier, must sign certificate N. 2. When the car is not loaded by the shipper, certificate No. 2 must be signed only by the representative of the carrier. A shipper should decline to use a car not in proper condition.

1666. Placard.—Each car containing any of the explosives specified in paragraph 1661, and in any quantities, must be protected by attaching to the outside of the car on both sides and ends, the lower edge $4\frac{1}{2}$ feet above the car floor, a standard placard, 12x14 inches, on which will appear in conspicuous red and black printing, on strong tagboard, the following notice:

EXPLOSIVES

(To be printed in red.)

HANDLE CAREFULLY—KEEP FIRE AWAY.

(To be printed in red.)

.....Station,19..

Condensed Rules for Handling This Car.

1. This car must not be placed in a passenger train; nor in a mixed train, if avoidable.
2. Cars containing explosives must be near center of train and may be together if desired; must be at least fifteen cars from engine and ten cars from caboose when length of train will permit.
3. Cars containing explosives must be placed between box cars which

are not loaded with inflammable articles, charcoal, cotton, acid, lumber, iron, pipe or other articles liable to break through end of car from rough handling.

4. A steel underframe car containing explosives may be placed between steel hopper cars in train.

5. The air and hand brakes on this car must be in service.

6. In shifting have a car between this car and engine whenever possible, and do not cut this car off while in motion.

7. Avoid all shocks to this car and couple carefully.

8. Avoid placing it near a positive source of fire.

9. Engines on parallel tracks must not be allowed to stand opposite or near this car when it can be avoided.

Agents at destination and transfer stations, yardmasters and conductors are responsible that these cards are removed from car as soon as the explosives are unloaded.

1667. A car containing any of the explosives (as prescribed in paragraph 1661), must not be permitted to leave a station or siding without having the certificates and placard prescribed in paragraphs 1665 and 1666 securely and properly affixed.

1668. **Shippers' Certificate.**—Before any package containing one or more of the following articles:

- Black or brown powder,
- High explosives,
- Smokeless powder for cannon,
- Smokeless powder for small-arms,
- Fulminates,
- Small-arms ammunition,
- Ammunition for cannon—explosive projectiles,
- Ammunition for cannon—empty projectiles,
- Explosive projectiles,
- Empty projectiles,
- Detonating fuses,
- Blasting caps,
- Electric blasting caps,
- Primers (naming kinds),
- Percussion fuses,
- Time or combination fuses,
- Common or special fireworks,
- Safety fuse, or
- Safety squibs,

can be accepted, the shipper must prepare and deliver to the carrier a shipping order on which each article is entered under its proper name, as specified in this paragraph, and over the signature of shipper or his duly authorized agent, must be printed, written or stamped, and made part of the shipping order, the following certificate:

This is to certify that the above articles are properly described by name and are packed and marked and are in proper condition for transportation, according to the regulations prescribed by the Interstate Commerce Commission.

The carrier must see that the shipment is properly described, and that the correct gross weight is given on the revenue waybill. The carrier must

also cause to be written or stamped on the face of the card and revenue waybill:

"Shippers' Certificate on File with Initial Carrier."

The card waybill, for a car containing any quantity of the explosives named in paragraph 1661, must also have plainly stamped across the top the word "EXPLOSIVES."

1669. The carrier must see that the shipping order for explosives is kept at stations where the shipments originate on a separate file, together with all original car certificates that pertain to that station. The duplicate and triplicate car certificates taken from cars unloaded at any station may be destroyed if there are no violations of these regulations to report. (See paragraph (g), General Rules.)

SHIPMENTS FROM CONNECTING LINES.

1670. Cars containing explosives, as specified in paragraph 1661, which are offered by connecting lines, must be carefully inspected, without unnecessary disturbance of lading, by the receiving line, to see that these regulations have been complied with, and the car must not be forwarded until all discovered violations are corrected.

Shipments of explosives offered by connecting steamship lines must comply with these regulations, and revenue waybill must bear the endorsements prescribed by paragraph 1668.

HANDLING OF EXPLOSIVES.

1671. In handling packages of explosives at stations and in cars the greatest care must be taken to prevent their falling or getting shocks. They must not be thrown, dropped nor rolled.

1672. The carrier must choose careful men to handle explosives, must see that the platform and the feet of the men are as free as possible from grit, and must take all possible precautions against fire. Unauthorized persons must not be allowed to have access to explosives at any time while they are in the custody of the carrier. Suitable provision must be made, outside of the station, when practicable, for the safe storage of explosives, and every effort possible must be made to reduce the time of this storage. Prompt removal by consignee must be enforced, to avoid unnecessary danger.

1673. Shipments of high explosives and powder should not be unloaded at a non-agency station unless the consignee is there to receive them; or unless satisfactory storage facilities are provided at that point for their protection.

LOADING IN CAR:

1674. Boxes of explosives when loaded in the car must rest on their bottoms. A car must not contain more than 70,000 pounds gross weight of explosives. This limit does not apply to shipments of ammunition.

1675. Explosives packed in round kegs, except when boxed, must be loaded on their sides with heads towards ends of the car; and they must not be placed in the space opposite the doors unless the doorways are boarded on the inside as high as the lading.

Large casks, barrels or drums may be loaded on their sides or ends as will best suit the conditions.

1676. Packages containing any of the explosives for the transportation of which a certified and placarded car is prescribed (paragraph 1661), must be stayed (blocked and braced) by whoever loads the car, to prevent change of position by the ordinary shocks incident to transportation. Special care must be used to prevent them from falling to the floor or from having anything fall on them during transit. To prevent delays to way-freight trains, when there is more than one shipment of explosives loaded in a "peddle" or "way" car, each shipment should be stayed separately. If the staying is broken down to unload a shipment of explosives the remaining packages must be restayed.

1677. Detonating fuses or blasting caps, or electric blasting caps, must not be loaded in a car or stored with high explosives of any kind, including explosive projectiles, nor with wet nitro-cellulose, not with smokeless powder for small arms.

1678. Fulminates in bulk must not be loaded with any explosive or inflammable article.

1679. When necessary, detonating fuses may be assembled in explosive projectiles shipped by the United States Government.

1680. Fireworks must not be loaded in the same car with any other explosive or inflammable substance, except small-arms ammunition, primers, percussion fuses, time or combination fuses, safety fuse and safety squibs.

1682. (Amended—order March 18, 1910—effective April 22, 1910.) Explosives covered by these regulations, other than small-arms ammunition, primers, percussion fuses, safety fuses, and safety squibs, must not be transported in the same car with, nor stored on railway property near any one of the dangerous articles covered by the Regulations for the Transportation of Inflammable Articles and Acids approved by The American Railway Association and on file with the Interstate Commerce Commission.

When practicable, certain and separate days should be assigned for receiving from shippers less than carload lots of explosives.

1683. In a car containing explosives all packages of other freight must be so loaded and stayed as to prevent all injury of packages of explosives during transit. When it is possible, explosives should be loaded so as to avoid transfer stations.

HANDLING CARS CONTAINING EXPLOSIVES.

1684. Cars containing explosives must not be hauled in a passenger train; nor in a mixed train when this can be avoided. The phrase "cars containing explosives," as used in this and subsequent paragraphs, excepting paragraph 1697, refers to the explosives specified in paragraph 1661. This does not apply to explosives lawfully transported in a baggage or express car in a passenger train in accordance with the above order.

1685. **Expediting Shipments of Explosives.**—Every possible effort must be made to expedite the movement of cars containing explosives.

1686. **In Through Road Trains.**—Cars containing explosives must be placed near the center of the train, and two or more such cars may be placed together if desired. They must be at least fifteen (15) cars from the engine and ten (10) cars from the caboose when length of train will permit.

Such cars must be placed between box cars which are not loaded with inflammable articles, charcoal, cotton, acid, lumber, iron, pipe or other articles liable to break through end of car from rough handling.

When explosives are loaded in steel underframe cars, such cars may be placed in train between steel hopper cars. All cars containing explosives must have air and hand brakes in service.

1687. In Shifting and Local Freight Trains.—Cars containing explosives must be coupled in the air service and placed as near the center of the train as possible.

1688. Handling in Yards.—When handling cars containing explosives in yards or on sidings, they must, unless it is practically impossible, be coupled to the engine protected by a car between, and they must never be cut off while in motion.

They must be coupled carefully and all unnecessary shocks must be avoided. Other cars must not be allowed to strike a car containing explosives. They must be so placed in yards or on sidings that they will be subject to as little handling as possible, removed from all danger of fire, and, when avoidable, engines on parallel tracks must not be allowed to stand opposite or near them.

1689. Under no circumstances must a car known to require the "EXPLOSIVES" placard be taken from a station, including transfer stations, or a siding, unless it is properly carded as per paragraphs 1661 and 1666, nor unless the car is in proper condition.

1690. When a car containing explosives is in a train, the carrier must make proper provisions for notifying its train and engine employees of the presence and location of such car in the train before leaving the initial station.

1691. Such cars must be frequently inspected to see that the carding is intact. Whenever any of these cards become detached or lost in transit they must be replaced on arrival at the next division terminal yard.

1692. Unless otherwise arranged for, when a car containing explosives is to be transferred, unloaded or stored for any purpose, at a given junction, station or yard, the carrier must provide for due notice to such station, by wire, of the probable time of arrival and the number of cars (not car numbers), in order that proper provision may be made at that point for handling the same.

1693. At points where trains stop cars containing explosives and adjacent cars must be examined to see if they are in good condition and free from hot boxes or other defects liable to cause damage. If cars containing explosives are set out short of destination for any cause, the carrier must arrange that proper notice be given to prevent accident.

1694. Whenever a car containing explosives is opened for any purpose, inspection must be made of the packages of explosives to see that they are properly stowed and in good condition, and that no box of dynamite is standing on its end or side. Upon the discovery of leaking dynamite or loose powder the defective packages must be carefully removed to a safe place. Loose powder or other explosives must be swept up and carefully removed. If the floor is wet with nitroglycerin, the car is unsafe to use, and a local inspector of the Bureau of Explosives should be immediately called to superintend the thorough mopping and washing of the floor with a warm, saturated solution of concentrated lye or sodium carbonate. If necessary, the car must

be placed on an isolated siding and proper notice given. (See paragraphs 1534 and 1535.)

1695. The certificates and placards in paragraphs 1665 and 1666 must be removed from the car as soon as the explosives are unloaded.

1696. Carriers must see that all shippers of explosives in their territory are furnished with copies of these regulations.

IN CASE OF A WRECK.

1697. In case of a wreck involving a car containing explosives, the first and most important precaution is to prevent fire. Although most of the group, "high explosives," may burn in small amounts quietly and without causing a disastrous explosion, yet everything possible must be done to keep fire away. Before beginning to clear a wreck in which a car containing explosives is involved, all unbroken packages should be removed to a place of safety, and as much of the broken packages as possible gathered up and likewise removed, and the rest saturated with water. Many explosives are readily fired by a blow or by a spark produced when two pieces of metal or a piece of metal and a stone come violently together. In clearing a wreck, therefore, care must be taken not to strike fire with tools, and in using the crane or locomotive to tear the wreckage in pieces the possibility of producing sparks must be considered. With most explosives thorough wetting with water practically removes all danger of explosion by spark or blow; but with the dynamites wetting does not make them safe from blows. With all explosives mixing with wet earth renders them safer from either fire, spark or blow. In case "fulminate" has been scattered by a wreck, after the wreck has been cleared the top surface of the ground should be removed, and after saturating the area with oil, replaced by fresh earth. If this is not done, when the ground and fulminate become dry, small explosions may occur when mixed material is trodden on or struck.

1940. A white placard, of diamond shape, printed on strong tagboard, measuring 15 inches on each diagonal, and bearing in red and black letters the following inscription, "INFLAMMABLE — KEEP LIGHTS AND FIRES AWAY—HANDLE CAREFULLY," must be placed on each outside end and side of a car containing any quantity of smokeless powder for cannon, or ammunition for cannon with empty projectiles, or fireworks.

ROBERT R. PRENTIS,
Chairman.

JOS. E. WILLARD,
WM. F. RHEA,
Commissioners.

R. T. WILSON, *Clerk.*

Certified to Superintendent of Public Printing for publication according to law, first insertion to be made Wednesday, December 29, 1909, by order of the State Corporation Commission.

R. T. WILSON, *Clerk.*

December 23, 1909.

RULES AND REGULATIONS

for the Transportation of Explosives and Other Dangerous Articles by Express.

(For Regulations governing Transportation of Explosives other than by
Express, see page 295.)

CITY OF RICHMOND, *May 21, 1912.*

By authority of Section twenty of Chapter III of the act entitled "An Act Concerning Public Service Corporations," approved January 18, 1904, the Commission hereby orders and prescribes that the following rules and regulations shall govern and be binding upon all common carriers, whether incorporated or not incorporated, engaged in the transportation of explosives and other dangerous articles by express in intrastate commerce in Virginia.

Such rules and regulations and this order shall be effective on the first day of July, 1912.

It is further ordered that the Clerk of the Commission do certify such rules and regulations to the Superintendent of Public Printing for publication according to law.

GENERAL RULES.

1. Express carriers that are subject to the Act concerning Public Service Corporations must make the prescribed regulations effective, and must provide for the thorough instruction of their employes therein, and shippers must properly acquaint themselves therewith. Express carriers must not receive shipments of articles defined as dangerous by these regulations when the shipments are not packed, marked, labeled, described and certified as prescribed herein. Explosives and dangerous articles, the transportation of which by passenger trains is prohibited by law, must not be shipped. The method of manufacturing and packing of articles defined as dangerous by these regulations, so far as it affects safe transportation, must be open to inspection by a duly authorized representative of the initial carrier, or of the Bureau of Explosives of the American Railway Association, hereinafter called "Bureau of Explosives."

2. All shipments of articles defined as dangerous by these regulations, offered for transportation by express in intrastate commerce, must be properly described by the shipper, and the proper name of the dangerous article must be marked on the outside of the package, in addition to the labels required herein, except when the name of the dangerous article is shown on the label prescribed therefor. Articles for which detailed instructions for packing are not given herein must be securely packed in containers strong enough to stand without rupture or leakage of contents the shocks incident to reasonably careful handling during transit.

GROUPING.

3. For transportation by express, explosives and other dangerous articles are divided into the following groups: 1. Forbidden articles. 2. Permitted explosives. 3. Inflammable liquids. 4. Inflammable solids. 5. Oxidizing materials. 6. Acids and corrosive liquids. 7. Compressed gases.

Group 1.—Forbidden Articles.

4. The following articles must not be shipped by express, except as provided in "Group 2—Permitted Explosives."

- (a) Black powder.
- (b) High explosives, including nitroglycerin explosives, chlorate powders, nitrate of ammonia powders, dry picric acid, dry picrates, dry nitrocellulose (gun cotton, negative cotton), dry nitrostarch or dry tri-nitrotoluol.
- (c) Smokeless powder for cannon.
- (d) Smokeless powder for small arms, except in ammunition for small arms.
- (e) Fulminate of mercury or of any other metal, except in manufactured products not forbidden.
- (f) Blasting caps, including electric blasting caps.
- (g) Ammunition for cannon, with or without projectiles.
- (h) Detonating fuzes.
- (i) Explosive projectiles.
- (j) Liquid nitroglycerin.
- (k) Fireworks that combine an explosive and a detonator or blasting cap.
- (l) Fireworks containing a match tip or head, or similar igniting point or surface, unless each such individual tip head, igniting point or surface is entirely covered and securely protected from accidental contact or friction with any other surface.
- (m) Fireworks that ignite spontaneously when subjected for 48 consecutive hours in the presence of moisture to the temperature of boiling water.
- (n) Firecrackers whose dimensions exceed 5 inches in length or $\frac{3}{4}$ inch in diameter, or whose explosive charges exceed 45 grains each in weight.
- (o) Toy torpedoes or caps exceeding $1\frac{1}{4}$ inches in diameter or containing more than an average of 35-100 of a grain of explosive composition per cap.
- (p) Fireworks that can be exploded en masse by a commercial detonator placed in one of the units, or by impact of a rifle bullet, or otherwise.
- (q) Explosives or other dangerous articles properly condemned by the Bureau of Explosives.
- (r) Outside packages containing in the same compartment interior packages the mixtures of whose contents would be liable to cause a dangerous evolution of heat, gas or corrosive materials.
- (s) Cylinders containing gases capable of combining chemically.
- (t) Packages containing a dangerous article in a leaky condition, or in such an insecure condition as to make leakage probable during transit.
- (u) Cotton waste or cotton rags oily with linseed oil.
- (v) Boxes that have been previously used for high explosives must not be again used for shipments of any character.
- (w) Carbon bisulphide, celluloid scrap, charcoal screenings, and white or yellow phosphorous.

Group 2.—Permitted Explosives.

5. The following explosives may be accepted for transportation by express, when offered in compliance with these regulations:

(a) Samples of explosives for laboratory examination when properly packed and not exceeding a net weight of $\frac{1}{2}$ pound for each sample, and not exceeding 20 such samples at one time in a single vessel or vehicle. (See pars. 4, 6, and 14.)

(b) Small-arms ammunition.

(c) Small-arms primers.

(d) Cannon primers.

(e) Percussion fuses, including tracer fuses.

(f) Time or combination fuses.

(g) Safety fuse.

(h) Safety squibs.

(i) Common fireworks and special fireworks, except when forbidden. (See par. 4.)

DEFINITIONS OF PERMITTED EXPLOSIVES.

6. The only samples of explosives that can lawfully be shipped by express are those intended for examination in a chemical laboratory.

7. **Small-arms ammunition** (such as is used in sporting or fowling pieces, or in rifle, pistol practice, etc.), consists usually of a paper or metallic shell, the primer and powder charge—with or without shot or bullet—the materials necessary for one firing being all in one piece.

8. **Percussion and time fuses and primers** are devices used to ignite the black powder bursting charges of projectiles, or the powder charges of ammunition. For small arms ammunition the primers are usually called "small-arms primers" or "percussion caps." Percussion tracer fuses consist of a device which is attached to a projectile and contains a slow-burning composition, to show the flight of projectiles at night.

9. **Safety fuse** consists ordinarily of a core of mealed black powder, which is surrounded by yarn, tape, pitch, rubber, etc.

10. **Safety squibs** are small paper tubes containing a small quantity of black powder, one end of each tube being twisted and generally tipped with sulphur.

11. **Fireworks** include everything that is designed and manufactured primarily for the purpose of producing a visible or audible pyrotechnic effect by combustion or by explosion. They consist of common fireworks and special fireworks.

12. **Common fireworks** include all that depend principally upon nitrates to support combustion and not upon chlorates; that contain no phosphorus and no high explosive sensitive to shock or friction; that produce their effect through color display rather than by loud noises. If noise is the principal object, the units must be small and of such nature and manufacture that they will explode separately and harmlessly, if at all, when one unit is ignited in a packing case. They must not be designed for ignition by shock or friction. Examples are Chinese firecrackers, Roman candles, pin wheels, colored fires, rockets, serpents, railway fuses, flash powders, etc.

13. **Special fireworks** include all that contain any quantity of phosphorus, a fulminate or other high explosive sensitive to shock or friction; or

that contain units of such size that the explosion of one while being handled would produce a serious injury; or that require a special appliance or tool, mortar, holder, etc., for their safe use; or that are designed for ignition by shock or friction. Examples are giant firecrackers, bombs, and salutes not forbidden by paragraph 4, toy torpedoes and caps, ammunition pellets fired in a special holder, railway torpedoes, etc.

PACKING AND MARKING PERMITTED EXPLOSIVES.

Samples for Laboratory Examination.

14. **Packing.**—Samples of explosives for laboratory examination must be placed in well-secured metal cans or glass bottles or in strong waterproof paper or cardboard packages containing not more than one-half pound each, and the interior package must be placed in dry sawdust or similar cushioning material in a strong and tight wooden box, with ends not less than 1 inch thick, and top, bottom and sides not less than $\frac{1}{2}$ inch thick when a nailed box is used, or with ends, top, bottom and sides not less than $\frac{1}{2}$ inch thick when of lock-cornered construction.

15. **Weight.**—Not more than 20 half-pound samples of explosives for laboratory examination may be placed in one outside box or transported at one time.

16. **Marking.**—Each outside package containing samples of explosives for laboratory examination must have securely and conspicuously attached to it a square red certificate label measuring 4 inches on each side and bearing in black letters the following:

Red label for samples of explosives (reduced size.)

<p>EXPLOSIVE</p> <p>Sample for Laboratory Examination</p> <p>HANDLE CAREFULLY KEEP FIRE AWAY</p> <p>This is to certify that the above articles are properly described by name and are packed and marked and are in proper con- dition for transportation, according to the regulations prescribed by the Interstate Commerce Commission.</p> <p>..... (Shippers' Name.)</p>
--

Small-arms Ammunition, Primers, Fuzes, Safety Fuse, and Safety Squibs.

17. **Packing.**—Small-arms ammunition must be packed in pasteboard or other boxes, and these pasteboard or other boxes must be packed in

strong outside boxes. Small-arms ammunition, in pasteboard or other boxes and in quantity not exceeding a gross weight of 75 pounds, may be packed with non-explosive and non-inflammable articles, and with small-arms primers or percussion caps, provided the shipment is certified and the outside package is plainly marked "SMALL-ARMS AMMUNITION."

18. **Primers and percussion and time fuzes** must be packed in strong, tight, wooden boxes, with special provision for securing individual packages of primers and fuzes against movement in box.

19. **Small-arms primers** containing anvils must be packed in cellular packages with partitions separating the layers and columns of primers, so that the explosion of a portion of the primers in the completed shipping package will not cause the explosion of all of the primers.

20. **Percussion caps** may be packed in metal or other boxes containing not more than 500 caps, but the construction of the cap and the kind and quantity of explosives in each must be such that the explosion of a part of the caps in the completed shipping package will not cause the explosion of all of the caps.

21. **Small-arms primers and percussion caps** may form a part of the gross weight of 75 pounds of small-arms ammunition that may be packed with other articles as authorized by paragraph 17.

22. **Safety fuse and safety squibs** must be packed in strong, tight wooden boxes or barrels.

23. **Weight.**—The gross weight of one outside package containing small-arms ammunition, primers, percussion caps, or percussion or time fuzes must not exceed 150 pounds.

24. **Marking.**—Each outside box must be plainly marked "SMALL-ARMS AMMUNITION," or "SMALL-ARMS PRIMERS—HANDLE CAREFULLY," or "PERCUSSION CAPS—HANDLE CAREFULLY," or "CANNON PRIMERS—HANDLE CAREFULLY," or "COMBINATION PRIMERS—HANDLE CAREFULLY," or "PERCUSSION FUZES—HANDLE CAREFULLY," or "COMBINATION FUZES—HANDLE CAREFULLY," or "PERCUSSION TRACER FUZES—HANDLE CAREFULLY," or "SAFETY FUSE," or "SAFETY SQUIBS," etc.

25. (a) **Packing.**—**Common fireworks** must be in a finished state, exclusive of mere ornamentation, as supplied to the retail trade, and must be securely packed in strong, tight, spark-proof wooden boxes or barrels and each outside package must be plainly marked "COMMON FIREWORKS—KEEP FIRE AWAY."

(b) **Special fireworks** must be in a finished state, exclusive of mere ornamentation, as supplied to the retail trade, and must not contain forbidden explosives. (See par. 4.) They must be packed in strong, tight, spark-proof wooden boxes or barrels.

Lock-corner boxes must be made of sound lumber and the thickness must not be less than $\frac{3}{8}$ inch for a gross weight of 30 pounds or under; and for a gross weight exceeding 30 pounds and not exceeding 65 pounds the ends must not be less than 9-16 inch., with sides, tops, and bottom $\frac{3}{8}$ inch thick. When the gross weight exceeds 65 pounds the ends must be battened.

If nailed boxes are used of the same thickness of lumber specified for lock-corner boxes, horizontal and vertical cleats not less than $\frac{3}{4}$ of the thickness of the ends and not less than $1\frac{1}{8}$ inches wide must be used on the ends; or in

the absence of such cleats, the tops, sides, and bottoms must be thicker by 3-16 inch and the ends thicker by $\frac{1}{4}$ inch than specified for lock-corner boxes.

All boxes must be tongued and grooved.

26. **Weight.**—The gross weight of one outside package containing special fireworks must not exceed 100 pounds, and the gross weight of a package containing toy torpedoes must not exceed 65 pounds.

27. **Marking.**—All outside boxes or barrels containing special fireworks or a mixture of common and special fireworks must be spark-proof and must be plainly marked "SPECIAL FIREWORKS—HANDLE CAREFULLY—KEEP FIRE AWAY."

28. **Label.**—Each outside package containing common or special fireworks must have securely and conspicuously attached to it a square red certificate label measuring 4 inches on each side and bearing in black letters the following:

Red label for fireworks (reduced size.)

<p style="text-align: center;">FIREWORKS</p> <hr/> <p style="text-align: center;">HANDLE CAREFULLY KEEP FIRE AWAY DO NOT DROP NOR THROW</p> <hr/> <p style="text-align: center;">This package must not be loaded or stored near steam pipes or other source of heat</p> <hr/> <p style="text-align: center;">This is to certify that the above articles are properly described by name and are packed and marked and are in proper con- dition for transportation, according to the regulations prescribed by the Interstate Commerce Commission.</p> <hr/> <p style="text-align: center;">(Shipper's Name.)</p>
--

DEFINITIONS OF DANGEROUS ARTICLES OTHER THAN EXPLOSIVES.

Group 3.—Inflammable Liquids—Red Label.

29. This group includes any liquid or liquid mixture that gives off inflammable vapors (as determined by flash point from Tagliabue's open cup tester as used for test of burning oils) at or below a temperature of 80° F.

Group 4.—Inflammable Solids—Yellow Label.

30. This group includes all substances other than those classified as explosives that are liable under conditions incident to transportation to cause fires by self-ignition through friction, through concussion, through absorption of moisture, or through spontaneous chemical changes.

Group 5.—Oxidizing Materials—Yellow Label.

31. This group includes all substances such as chlorates, permanganates, peroxides, and nitrates, that yield oxygen readily to stimulate the combustion of organic matter.

Group 6.—Acids and Corrosive Liquids—White Label.

32. This group includes the strong mineral acids and other strongly corrosive liquids that are liable to cause fires when mixed with chemicals or with organic matter, or are liable, in case of leakage from their shipping containers, to damage other freight materially.

Group 7.—Compressed Gases—Red or Light Green (Gas) Label.

33. This group includes all inflammable or non-inflammable gases assembled for shipment under a pressure exceeding 25 pounds per square inch.

Other Dangerous Articles.

34. (a) The list following shows the names of well-known articles, other than explosives, that are dangerous, the kind of label required on outside packages, and the quantity that may be shipped in one outside package by express.

(b) When a shipment described by and marked with a name not in the following list is defined as a dangerous one by paragraphs 29, 30, 31, 32 and 33, the shipper must inform the express carrier of the fact by use of the proper label, and must give the certificate prescribed herein.

(c) When articles other than explosives that are not dangerous under the regulations are described by names in the following list marked with (*), the shipper must plainly mark or stencil on each outside package containing such articles the words "NOT DANGEROUS," or affix a white rectangular label measuring 2 by 4 inches, bearing in black letters the words "NOT DANGEROUS."

(d) When dangerous articles other than explosives requiring red labels are shipped in the same outside package with dangerous articles requiring yellow or white labels, the outside package must be labeled with the red label only. The marking and description must be that of the inflammable liquid present in largest quantity.

(e) When several dangerous articles are placed in one outside package without violating these regulations, the combined quantity of any one group must not exceed the lowest limit prescribed for any one of the articles of that group that is included.

Nitrocellulose, wet with solvent.....	Inf. L	40	Red	10 pounds.
Nitrocellulose or nitro starch, wet with 20 per cent. water.....	Inf. S		Yellow	10 pounds net.
*Oil gas.....	Inf. L	0-80	Red	1 gallon (see par. 37).
Paint, aluminum, bronzing or gold.....	Inf. L	0-70	Red	12 gallons (see par. 38).
*Paint.....	Inf. L	0-80	Red	12 gallons (see par. 38).
Pentane.....	Inf. L	+ 0	Red	1 gallon.
Perchlorate of ammonium.....	Oxi. M		Yellow	25 pounds.
Perchlorate of potash.....	Oxi. M		Yellow	25 pounds.
Permanganate of potash.....	Oxi. M		Yellow	25 pounds.
*Petroleum, crude.....	Inf. L	0-80	Red	5 gallons (see par. 37).
*Petroleum distillate.....	Inf. L	0-80	Red	1 gallon (see par. 37).
Petroleum ether.....	Inf. L	+ 0	Red	1 gallon.
Petroleum naphtha.....	Inf. L	+ 0	Red	1 gallon.
Petroleum spirits.....	Inf. L	+ 0	Red	1 gallon.
Picric acid, wet with 20 per cent. water.....	Inf. S		Yellow	10 pounds.
*Polish, metal, liquid.....	Inf. L	0-80	Red	1 gallon (see par. 37).
Potash, bromate.....	Oxi. M		Yellow	25 pounds.
Potash, chlorate of.....	Oxi. M		Yellow	25 pounds.
Potash, nitrate of.....	Oxi. M		Yellow	25 pounds.
Potassium, metallic.....	Inf. S		Yellow	1 pound.
Rags, only.....	Inf. S		Yellow	25 pounds.
Saltpeter, in bags.....	Oxi. M		Yellow	25 pounds.
Shellac, liquid.....	Inf. L	40-70	Red	5 gallons.
Soda, chlorate of.....	Oxi. M		Yellow	25 pounds.
Soda, nitrate of.....	Oxi. M		Yellow	25 pounds.
Soda, nitrate of.....	Oxi. M		Yellow	25 pounds.

LIST OF DANGEROUS ARTICLES OTHER THAN EXPLOSIVES.

NAMES OF DANGEROUS ARTICLES.	Group names and flash points: Infl. L.—Inflammable liquid. Infl. S.—Inflammable solid. Oxi. M.—Oxidising material. Cor. L.—Corrosive liquid. Comp. G.—Compressed gas.		Kind of Label Required.	Maximum quantity which may be shipped in one outside package, subject to requirements as to packing (see pars. 35 to 59, inclusive.)
	1	2	3	4
Sodium, metallic.....	Inf. S.....	°F.....	Yellow.....	1 pound.
Sodium, peroxide.....	Oxi. M.....	Yellow.....	1 pound.
Strontia, nitrate of.....	Oxi. M.....	Yellow.....	25 pounds.
Sulphur, chloride of.....	Cor. L.....	White.....	1 quart.
Sulphur dioxide.....	Comp. G.....	Green (gas)...	No limit.
Tri-nitrotoluenol, wet with 20 per cent. water.....	Inf. S.....	Yellow.....	10 pounds.
Toluol (toluene).....	Inf. L.....	55	Red.....	5 gallons.
*Varnish.....	Inf. L.....	0-80	Red.....	12 gallons (see par. 38).
Zinc flue dust.....	Inf. S.....	Yellow.....	10 pounds.

*See par. 34 (c).

†At or below.

RULES FOR PACKING.

35. Dangerous articles for which yellow and white labels are prescribed, respectively, must not be packed in the same outside package, and compressed gases must not be packed with other articles.

36. The construction of boxes, cans or other containers used for shipments of dangerous articles other than explosives must conform to specifications approved by the Interstate Commerce Commission.

Group 3.—Inflammable Liquids—Red Label.

37. Not more than the quantity specified (see par. 34, column 4) may be packed in one outside package.

The maximum quantity of any inflammable liquid not otherwise prescribed placed in one outside package must not exceed 1 gallon when flash point is 20° F. or below, or 5 gallons when flash point is above 20° F. and below 80° F.

38. (a) Except as herein prescribed all inflammable liquids in this group must be placed in well-stoppered glass, earthenware or metal vessels of not exceeding 1 gallon capacity, cushioned in strong wooden barrels or boxes, or in metal cans packed in wooden boxes and conforming to "Shipping container specification No. 2."

(b) Paint or varnish with flash point above 20° F. and below 80° F. may be shipped when placed in metal cans of not exceeding 5 gallons capacity, and in quantities not exceeding 12 gallons in one package, when cans and boxes conform to "shipping container specification No. 2"; or in metal barrels or drums, of not more than 55 gallons capacity when such barrels or drums conform to "shipping container specification No. 5."

(c) Liquefied petroleum gas, blended or unblended, when its vapor tension corresponding to a temperature of 100° F. exceeds 10 pounds per square

inch must not be shipped by express except in steel cylinders conforming to paragraphs 57, 58 and 59.

39. Vessels containing inflammable liquids must not be entirely filled. Sufficient interior space must be left vacant to prevent distortion of containers when heated to a temperature of 120° F. This vacant space must not be less than 2 per cent. of the capacity of the container.

Group 4.—Inflammable Solids—Yellow Label.

40. The maximum quantity of any inflammable solid not otherwise prescribed (see par. 34, column 4) placed in one outside package must not exceed 25 pounds.

41. Inflammable solids for which detailed instructions for packing are not prescribed herein must be packed in tight and strong outside wooden boxes, and the interior packages must be so cushioned and secured that no rupture of either can result from the ordinary shocks incident to transportation.

42. Metallic sodium or potassium, in quantity not greater than 1 pound, must be placed in neutral oil, and this in a well-stoppered bottle protected by a tin container and boxed; or these substances may be packed in hermetically sealed tin cylinders, boxed.

43. Moving picture films must be placed in metal cases, packed in strong and tight wooden boxes or fibreboard pails.

44. Nitrocellulose, nitrostarch, picric acid or tri-nitrotoluol, uniformly wet with not less than 2 pounds of water to 8 pounds of dry material, must be placed in waterproof containers securely packed in a strong and tight box and marked "WET NITROCELLULOSE—20 PER CENT. WATER," or "WET NITROSTARCH—20 PER CENT. WATER," or "WET TRI-NITROTOLUOL—20 PER CENT. WATER."

45. Calcium phosphide must be placed in hermetically sealed metal cans inclosed in metal-lined wooden boxes.

46. "Strike anywhere" (friction) matches must be packed in inside pulpboard, strawboard, wooden or metallic boxes, except that paper wrappings may be used for block or card matches, and these boxes must be placed in a hermetically sealed metal box made of not less than 30 gauge United States standard. This metal box must be placed in a closely fitting box made of sound lumber. When a nailed box is used ends must not be less than 1 inch thick, and the top, bottom and sides not less than $\frac{1}{2}$ inch thick. If box is of lock-corner construction the ends, top, bottom and sides must not be less than $\frac{1}{2}$ inch thick.

47. The gross weight of any package containing "strike anywhere" matches must not exceed 40 pounds, and the outside package must be plainly marked "STRIKE ANYWHERE MATCHES."

"Strike anywhere" matches must not be packed in the same outside package with any other article.

Group 5.—Oxidizing Materials—Yellow Label.

48. Oxidizing materials and acids must not be packed together. The maximum quantity of any oxidizing material not otherwise prescribed (see par. 34, column 4) placed in one outside package must not exceed 25 pounds.

49. **Oxidizing materials** must be placed in strong and tight metal packages packed in strong outside wooden boxes or barrels, or in strong and tight metal-lined wooden boxes.

50. It is important to prevent contact of these materials with combustible substances, such as sawdust, shavings, or sweepings, that may be present in express cars.

Group 6.—Acids and Corrosive Liquids—White Label.

51. The maximum quantity of any corrosive liquid not otherwise prescribed (see par. 34, column 4) placed in one outside package must not exceed 1 quart.

52. **Acids or corrosive liquids** must not be packed in the same compartment of an outside package that contains one or more substances with which the acid might, on rupture of inside packages, combine chemically and cause a dangerous evolution of heat, gas or corrosive materials.

53. **Acid, or strongly corrosive liquids**, must be placed in securely closed glass, earthenware, lead, India rubber or ceresine vessels of not exceeding quart capacity, and these vessels must be placed in a strong wooden box and surrounded and covered by incombustible porous material that will not be attacked chemically by the liquids, and in quantity sufficient to absorb and hold all of the liquid in any such vessel.

54. **Electrolyte or other acid liquids** which contain not more than 30 per cent. of a mineral acid may be placed in glass or earthenware vessels of not to exceed 5 gallons capacity, in strong wooden boxes cushioned with absorbent packing material in quantity sufficient to absorb and hold all of the liquid.

55. The boxes must be made of sound lumber. When a nailed box is used the ends must be not less than 1 inch and sides, top and bottom not less than $\frac{1}{2}$ inch thick. If the box is of lock-corner construction the ends, sides, top and bottom must be not less than $\frac{1}{2}$ inch thick.

Group 7.—Compressed Gases—Red or Light Green (Gas) Label.

57. (a) Gases that may combine chemically must not be shipped in one cylinder. Cylinders purchased hereafter for the shipment of compressed gases must be made in accordance with specifications approved in the Interstate Commerce Commission. (See "Shipping container specification No. 3.")

(b) By water jacket or other suitable tests each cylinder used for shipping liquefied gases must be subjected once in five years to a uniform interior pressure not less than one and one-fourth times the interior pressure that would result from heating the cylinder uniformly in its maximum charged condition to a temperature of 130° F. Each cylinder used for shipping under pressure not exceeding 1,000 pounds per square inch non-liquefied gases or gases in solution must be subjected at least once in five years to a uniform interior pressure not less than twice the charging pressure for such cylinder, corresponding to a temperature of 70° F.; when the charging pressure exceeds 1,000 pounds per square inch the test pressure must not be less than one and one-half times the charging pressure. A cylinder must be condemned when it leaks, when the permanent expansion is due to local weakness, or when it

is uniform and exceeds 5 per cent. of the total expansion. When the charging pressure is less than 300 pounds per square inch it will not be necessary to measure the permanent expansion in quinquennial pressure tests, provided the cylinder in question has previously passed this test.

(c) The weight of gas charged into any cylinder must not at a temperature of 130° F. cause an interior pressure in excess of three-fourths of the elastic limit of the weakest part of the cylinder.

(d) After December 31, 1914, all cylinders must be plainly stamped with the date of last test—for example, 4-09, for April, 1909—or otherwise durably marked to show compliance with this rule.

(e) Cylinders containing acetylene gas must be made of tough steel and must be completely filled with a porous material tested by the Bureau of Explosives and approved by the Interstate Commerce Commission, and this material must be charged with acetone or its equivalent not to exceed 40 per cent. of the interior volume capacity of the cylinder. The pressure in cylinders containing acetylene gas must not exceed 250 pounds per square inch at a temperature of 70° F.

58. After December 31, 1914, each cylinder containing liquefied gases, or gases in solution, or other gases under more than 300 pounds per square inch pressure, must be equipped with a safety device approved by the Interstate Commerce Commission that will prevent explosion of the normally charged cylinder when it is placed in a fire.

59. When cylinders containing inflammable gases are not boxed for shipment the safety device and discharging valve must be made safe from injury during transit by a design and construction of the cylinder or they must be protected by strong metal caps that can not be detached by rolling the cylinder.

LABELS.

60. All packages containing samples of explosives for laboratory examination or dangerous articles other than explosives, for which labels are prescribed herein (see pars. 16 and 18 to 34, inclusive) must be conspicuously labeled by the shipper. Labels should be applied when practicable to that part of the package bearing the consignee's name and address. Shippers must furnish and attach the labels prescribed for their shipments.

Labels must conform to standards as to printing, color, size, and shape, and must be free from advertising or other matter. The prescribed labels must not be printed in with nor form part of any other shipping label or printed matter. Samples will be furnished by the chief inspector of the Bureau of Explosives on request.

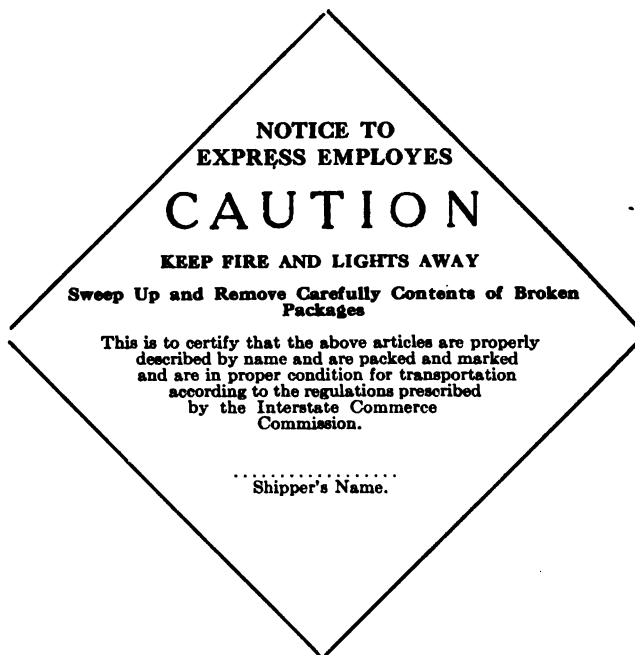

61. Labels for dangerous articles other than explosives must be of diamond shape, with each diagonal (not sides) $5\frac{3}{4}$ inches long. The colors must be red for inflammable liquids and compressed inflammable gases, yellow for inflammable solids and oxidizing materials, light green for compressed non-inflammable gases, and white for corrosive liquids.

The wording must be in black letters and, except as provided in paragraph 62, as follows:

Red label for inflammable liquids (reduced size).

Yellow label for inflammables (reduced size).

White labels for acids and corrosive liquids (reduced size).

NOTICE
HANDLE CAREFULLY

ACID

DO NOT LOAD WITH EXPLOSIVES OR INFLAMMABLES PROTECTED BY YELLOW LABELS

This is to certify that the above articles are properly described by name and are packed and marked and are in proper condition for transportation, according to the regulations prescribed by the Interstate Commerce Commission.

.....
 Shipper's Name

Red label for inflammable gases (reduced size).

CAUTION
TO
EXPRESS EMPLOYEES

Compressed.....
 Name of Substance.

INFLAMMABLE

KEEP COOL AND DO NOT DROP

This is to certify that the above articles are properly described by name and are packed and marked and are in proper condition for transportation according to the regulations prescribed by the Interstate Commerce Commission.

.....
 Shipper's Name.

Light green label for non-inflammable gases (reduced size).

62. Shippers who do not desire to provide themselves with the labels prescribed herein may use the labels prescribed by the regulations for the interstate transportation of dangerous articles other than explosives by freight, provided the shipper stamps or writes near each such prescribed label on each package containing any article covered by these regulations the following certificate:

This is to certify that the above articles are properly described, packed and marked and are in proper condition for transportation, according to the regulations prescribed by the Interstate Commerce Commission.

.....
(Shipper's name.)

or the shipper may apply to each such package a white label measuring not less than 1 1/2 by 3 inches and bearing the above certificate.

RECEIPTS.

63. A receipt upon the form prescribed by the originating express carrier must be issued to the shipper for each shipment accepted for transportation. Before a receipt is issued the shipper must apply the label prescribed herein to each package containing any article covered by these regulations.

RULES FOR EXPRESS CARRIERS.

64. Express carriers must comply with requests from shippers of dangerous articles in their territory for a copy of these regulations.

65. In handling packages containing explosives or other dangerous articles care must be taken to prevent them from falling or from being broken. They must not be thrown, dropped, nor rolled.

66. Packages containing explosives or other dangerous articles when transported in a passenger train must be loaded in the car occupied by an express employe, and in a place that will permit of their ready removal in case of fire. They must not be loaded in cars nor store in stations near steam pipes or other sources of heat. No placards are required on such cars.

67. When an express or baggage car containing any package requiring a label prescribed by these regulations is not occupied by an express employe and is handled in a freight train the proper placards must be attached thereto as required by the regulations for the transportation of explosives by freight and the regulations for the interstate transportation of dangerous articles other than explosives by freight.

68. The originating express carrier must, when a shipment is offered to it that is known to contain dangerous articles as defined by these regulations, see that the packages are marked and labeled and that the certificate is furnished as prescribed herein.

69. Packages of dangerous articles offered for shipment and not properly packed, marked, labeled, described, and certified must not be accepted by the express carrier until these regulations are complied with.

70. Shipments of dangerous articles offered by connecting express or other transportation lines must comply with these regulations.

71. An astray shipment of dangerous articles, or a shipment made in violation of these regulations without the knowledge of the carrier, must be forwarded promptly to destination, if known, provided a careful inspection shows the package to be in proper condition for safe transportation. If the package is unlabeled and the exact nature of the contents is unknown the red label must be applied.

72. Packages containing dangerous articles as defined by these regulations, which are refused by the consignee or which can not be delivered within 48 hours after arrival at destination, must be disposed of by return to the shipper, or by storage in a safe place, or by sale or destruction when it is evident that storage on the carrier's property will be a source of real danger.

73. Violations of these regulations and accidents or fire in connection with the transportation or storage on express or railway property of dangerous articles must be reported by the express carrier to the chief inspector of the Bureau of Explosives, 30 Vesey Street, New York.

SHIPPING CONTAINER SPECIFICATIONS.

SHIPPING CONTAINER SPECIFICATION No. 1. (See par. 36.)

Glass Carboys for Corrosive and Inflammable Liquids.

(Inapplicable to shipments by express.)

SHIPPING CONTAINER SPECIFICATION No. 2. (See par. 36.)

Metal Cans and Boxes for Inflammable Liquids.**CANS.**

1. Cans as provided in paragraph 38 (a), exceeding 1 gallon and not exceeding 10 gallons capacity must be made of metal not lighter than 30 gauge United States standard.

2. Cans as provided in paragraph 38 (a), not exceeding 1 gallon capacity, may be made of metal lighter than 30 gauge United States standard, but it must be such as will provide proper protection against leakage in transit.

3. Each completed can must be tested by its manufacturer and must not leak air when tested under water with interior air pressure of at least 5 pounds per square inch.

BOXES.

4. Packing boxes for cans of any capacity containing inflammable liquids must be made of sound lumber of not less than the following thicknesses and in accordance with the following specifications:

5. Good sound yellow pine, or any wood equal or superior in strength, is acceptable. All lumber used must be dry and well seasoned, no loose knots in any part, nor sound knots on the nailing edges.

Minimum thickness of lumber specified refer to the actual thickness in the finished boxes.

Box for Single 5-gallon Cans.

6. Ends—Grain vertical, of one-piece material not less than $\frac{5}{8}$ -inch thick for nailed uncleated box.

7. Paneled ends may be used with cleats not less than $\frac{5}{8}$ by $1\frac{1}{4}$ inches tenoned; filling not less than $\frac{1}{4}$ inch thick securely fastened to cleats with clinched nails.

8. Single-cleated Ends—Grain vertical, cleats not less than $\frac{5}{8}$ by $2\frac{1}{2}$ inches. Ends proper of two pieces not less than $\frac{5}{8}$ inch thick, cleats securely fastened with clinched nails.

9. Sides—Not less than $\frac{3}{8}$ inch thick, nor more than three pieces unless tongued and grooved.

10. Sides must be nailed with not less than six 5-penny coated nails in each nailing surface, and if the box is deeper than 15 inches the number of nails used must be increased so that nailing centers are approximately 2 inches apart.

11. Tops and Bottoms—Not less than $\frac{3}{8}$ inch thick; no more than two pieces unless tongued and grooved.

Must be nailed to ends with not less than five nails in each nailing surface, and where the receiving portion of the end is with the grain 6-penny coated nails must be used. If the receiving portion is across the grain of the wood 5-penny coated nails are acceptable.

When cleated ends are used at least 40 per cent. of the bottoming nails must be driven into cleats.

12. If boxes are made with locked corners the ends must not be less than 9-16 inch and the sides, tops and bottoms not less than 5-16 inch thick.

Box for Two 5-gallon Cans.

13. **Ends**—Grain vertical, of one-piece material not less than $\frac{3}{4}$ inch thick.

Other styles of ends like single 5-gallon box.

Balances of specifications, including nailing, same as single 5-gallon box except that two nails must be driven through the bottom into the center of the sides.

14. If boxes are made with lock corners the ends must not be less than $\frac{5}{8}$ inch and the sides, top and bottoms not less than $\frac{3}{8}$ inch thick.

Box for Single 10-gallon Can.

15. **Ends**—Must be cleated whether of one or two piece material and not less than $\frac{5}{8}$ inch thick. Cleats not less than $\frac{5}{8}$ by $2\frac{1}{2}$ inches securely fastened with clinched nails.

16. **Sides**—Not less than $\frac{1}{2}$ inch thick. No more than four pieces unless tongued and grooved, securely nailed with 6-penny coated nails at approximately 2-inch nail centers.

17. **Bottoms**—Not less than $\frac{1}{2}$ inch thick. No more than two pieces unless tongued and grooved, securely nailed with 6-penny coated nails at approximately 2-inch nail centers; 50 per cent. of nails must be driven into cleats.

18. **Tops**—Not less than $\frac{3}{8}$ inch thick. No more than two pieces unless tongued and grooved, securely nailed with 5-penny coated nails at approximately 2-inch nail centers.

19. If boxes are made with locked corners the ends must not be less than $\frac{3}{4}$ inch, and the sides, tops and bottoms not less than $\frac{1}{2}$ inch thick, unless made with $\frac{5}{8}$ inch lumber throughout.

Box for Single 1-gallon or 2-gallon Cans.

20. **Ends**—Not less than $\frac{5}{8}$ inch thick.

21. **Sides, Tops and Bottoms**—Not less than 5-16 inch thick, securely nailed with 4-penny coated nails where the grain of the wood is crossed and 5-penny coated nails where the grain of the wood is paralleled in the receiving portion of the end; nails must be placed at approximately 2-inch nail centers.

22. If boxes are made with locked corners the ends must not be less than $\frac{3}{8}$ inch and the sides, tops and bottoms not less than 5-16 inch thick.

Boxes for Assorted Shipments of More than One 1-gallon Can and Up to Six 1-gallon Cans or Equivalent.

23. **Ends**—One piece, not less than $\frac{3}{4}$ inch thick. If more than one piece not less than $\frac{5}{8}$ inch thick, single cleated.

Cleats not less than $\frac{3}{8}$ by 2 inches, securely fastened with clinched nails.

24. **Sides, Tops and Bottoms**—Not less than $\frac{3}{8}$ inch thick, nailed at approximately 2-inch nail centers with 5-penny coated nails where the grain of the wood is crossed and 6-penny coated nails where the grain of the wood is paralleled in the receiving portion.

25. If boxes are made with locked corners, the ends must not be less than 9-16 inch and the sides, tops and bottoms not less than $\frac{3}{8}$ inch thick.

Box for Over Six 1-gallon Cans Up to Twelve 1-gallon Cans, or Equivalent.

26. **Ends**—Not less than $\frac{3}{4}$ inch thick, cleated with $\frac{5}{8}$ by $1\frac{1}{2}$ inch cleats securely fastened with clinched nails.

27. **Sides, Tops and Bottoms**—Not less than $\frac{3}{8}$ inch thick, nailed at approximately 2-inch centers with 6-penny coated nails throughout.

28. If boxes are made with locked corners the ends must not be less than $\frac{3}{4}$ inch and the sides, tops and bottoms not less than $\frac{1}{2}$ inch thick.

Box for Over Twelve 1-gallon Cans Up to Twenty 1-gallon Cans.

29. Must be not less than $\frac{3}{4}$ inch lumber throughout, with single cleated ends, using cleats $\frac{3}{4}$ by 3 inches that are securely fastened with clinched nails.

30. **Sides, Tops and Bottoms**—Must be nailed at approximately 2-inch nail centers with nails not smaller than 7-penny coated.

31. If boxes are made with locked corners the lumber must be $\frac{3}{4}$ inch throughout.

Nailing of Covers and Bottoms.

32. Gauge of nail shall in no instance be less than 4-penny for the smaller boxes, 5-penny and 6-penny for the medium boxes, and 7-penny for the single 10-gallon shipment and for the larger boxes for assorted shipments. Screws of equal efficiency may be used in place of nails.

Nails must be driven approximately 2-inch nail centers.

33. The boxes must cover the cans and the cans must fit tightly in the boxes. The filling hole must be securely closed, and if not entirely covered by the box cover it must be completely protected by it.

WIREBOUND BOXES.

**Used as Containers for Cans of Inflammable Liquids.
Material.**

1. Wirebound Packing Boxes for cans of any capacity containing Inflammable Liquids must be made of sound lumber of not less than the following thicknesses and in accordance with the following specifications:

2. Good sound yellow pine or any wood equal or superior in strength is acceptable. All lumber used must be dry and well seasoned; no loose knots in any part.

Minimum thicknesses of lumber specified refer to the actual thicknesses in the finished boxes.

Construction.

3. There must be four cleats at each end of each case not less than 11-16x15-16 inch.

The binding wire at each end must be firmly stapled to each cleat by staples not less than No. 16 gauge and having legs not less than $1\frac{1}{2}$ inch long, extending over the wire, through each board and into the cleats. The other wire or wires must be firmly stapled to each board by staples not less than No. 18 gauge, extending over the wire, through each board and firmly clinched on

the inside. Staples shall not be more than 3 inches apart. Each wire shall be continuous with the ends tightly twisted at one side.

The distance between the encircling wires on each case shall not exceed 8 inches in any instance.

The ends shall be firmly fastened to the inside of cleats with staples not less than No. 16 gauge, whose legs are not less than 13-16 inch long, placed approximately 3 inches apart, or with nails not less than 1¼ inch long.

Wirebound Box for Single 5-gallon Cans.

4. Binding wires shall not be less than No. 16 gauge.
Lumber shall not be less than 3-16 inch thick.

Wirebound Box for Two 5-gallon cans.

5. Binding wires shall not be less than No. 16 gauge.
Lumber shall not be less than 3-16 inch thick.

Wirebound Box for Single 10-gallon Cans.

6. Binding wires shall not be less than No. 16 gauge.
Lumber shall not be less than 3-16 inch thick.

Wirebound Box for Single 1-gallon or 2-gallon Cans.

7. Binding wires shall not be less than No. 16 gauge.
Lumber shall not be less than 3-16 inch thick.

Wirebound Box for Assorted Shipments of More than One 1-gallon Can and Up to Six 1-gallon Cans or Equivalent.

8. Binding wires shall not be less than No. 16 gauge.
Lumber shall not be less than 3-16 inch thick.

Wirebound Box for Over Six 1-gallon Cans Up to Twelve 1-gallon Cans or Equivalent.

9. Binding wires shall not be less than No. 15 gauge.
Lumber shall not be less than 3-16 inch thick.

Wirebound Box for Over Twelve 1-gallon Cans Up to Twenty 1-gallon Cans.

- 10 Binding wire shall not be less than No. 14 gauge.

Lumber shall not be less than ¼ inch thick. An additional cleat or batten 11-16 by 15-16 inch shall be placed vertically at the center of each end where the end exceeds 10 inches in width. This additional cleat or batten shall fit in between the horizontal cleats and be held by nails through these cleats into their ends.

SHIPPING CONTAINER SPECIFICATION No. 3.

Seamless Steel Cylinders for the Shipment of Carbonic Acid Gas, Nitrous Oxide Gas, Glaugas or Nonliquefied Gases Whose Charging Pressures Exceed 1,000 Pounds and Do Not Exceed 1,800 Pounds Per Square Inch.

1. Cylinders must be made seamless, of steel of uniform quality, to comply in the present state of the art with the following specifications:

Chemical Analysis.

	Per Cent.
Carbon must not exceed	0.55
Phosphorus must not exceed.....	0.04
Sulphur must not exceed.....	0.05

Physical Tests.

2. **Elastic Limit** must not be less than 50,000 pounds nor more than 65,000 pounds per square inch on specimen cut longitudinally from a representative finished cylinder after annealing.

3. **Elongation** must not be less than 10 per cent. on an 8-inch length of longitudinal test specimen cut from a representative finished cylinder after annealing.

Flattening Test.

4. For each lot of 200 a representative finished cylinder, after annealing must withstand, without cracking flattening between rounded knife edges to a thickness of four times the thickness of the wall of the cylinder. The knife edges must be of wedge shape, converging at an angle of 60°, the point being rounded off with a radius of $\frac{1}{2}$ inch. If any one cylinder from any lot fails to pass this test two others from the same lot must be selected, and these must pass it in order to have the lot accepted. If it should appear that failure in the test is due to improper annealing the manufacturer has the privilege of reannealing the lot and repeating the test.

One out of each 200 cylinders must be subjected to the above chemical, physical, and flattening tests.

Annealing.

5. All cylinders after finishing must be uniformly and properly annealed. Dirt and scale must be removed before painting.

Hydrostatic Test.

6. Each finished and annealed cylinder must be subjected to hydrostatic test of not less than 3,000 pounds per square inch in a water jacket or other apparatus of suitable form, to furnish reliable data. The permanent expansion must not exceed 5 per cent. of the whole volumetric expansion at this pressure.

Thickness of Wall.

7. The wall of cylinders of 5½-inch outside diameter must be 3-16 inch to ¼ inch thick, and the wall of cylinders of 8½ inch outside diameter must be not less than ¼ inch thick. This thickness must be verified on each cylinder necking down.

Weight.

8. The standard 5½ inch by 51-inch cylinder, without cap, must weigh not less than 57 pounds. The standard 8½ inch by 51-inch cylinder, without cap, must weigh not less than 105 pounds.

Inspection.

9. The purchaser must provide for inspection at the mills by a competent and disinterested authority who shall be provided with a copy of the order containing all information relating thereto other than price. The inspector shall keep complete records of the various melts from which the steel is taken for the manufacture of the cylinders. Chemical analyses of these melts must be supplied to him by the manufacturer, or, if desired by the purchaser, he must procure samples from which other chemical analyses may be made. The heat number must be stamped on these plates at the steel mill by the inspector, and his stamp on a completely finished cylinder shall be taken as certifying that such cylinder comes within the above physical and chemical specifications.

10. The inspector shall witness the hydrostatic and flattening tests of all cylinders and shall certify to the maker, the purchaser, and the chief inspector of the Bureau of Explosives, No. 30 Vesey Street, New York City, the serial numbers of all cylinders which pass them successfully. He shall stamp his initials on such cylinder immediately beneath the serial number, and the initials of the owner shall be plainly stamped on the cylinder.

11. The hydrostatic and flattening tests must be made by the manufacturer, but under the direction and supervision of the inspector or other representative of the purchaser.

General Construction.

12. All plates or tubes from which cylinders are made must be free from seams, cracks, laminations, or any defects which may prove injurious to the finished cylinder.

13. The manufacturer of the cylinders must be completed with the best appliances and according to the best modern methods. All finished cylinders must show reasonably smooth and uniform surface finish, inspection of inside surface to be made before necking down; the threading of tap and of flange must be even and without checks and the cylinders must show no defects of workmanship or material likely to result in any appreciable weakness of the finished cylinder. A close inspection of each completed cylinder must be made to discover the existence of any defect before acceptance.

14. The purchasers of cylinders may impose additional requirements not inconsistent with these specifications.

SHIPPING CONTAINER SPECIFICATION No. 4.

Lapwelded Steel Cylinders for Anhydrous Ammonia.

1 Table of Details as to Dimensions.

Outside diameter of cylinder.	Overall length of cylinder.	Nominal thickness of cylinder wall.	Test pressure per square inch.	HEAD			MOUTH			Weight of cylinder.	
				Depth.	Low limit.	High limit.	Diameter.	Low limit.	High limit.	Low limit.	High limit.
Inch.	Ft. In.	Inch.	Pounds	Inch.	Inch.	Inch.	Inch.	Inch.	Inch.	Pounds	Pounds
10	3 10	.19	1,000	3 3/4	3 9-16	3 15-16	7 1/2	7 1/2	7 5/8	87	112
10	4 0	.19	1,000	3 3/4	3 9-16	3 15-16	7 1/2	7 1/2	7 5/8	90	115
10	7 0	.19	1,000	3 3/4	3 9-16	3 15-16	7 1/2	7 1/2	7 5/8	150	175
10	3 10	.27	1,500	3 3/4	3 9-16	3 15-16	7 1/2	7 1/2	7 5/8	113	141
10	4 0	.27	1,500	3 3/4	3 9-16	3 15-16	7 1/2	7 1/2	7 5/8	117	145
10	7 0	.27	1,500	3 3/4	3 9-16	3 15-16	7 1/2	7 1/2	7 5/8	203	237
12	7 0	.21	1,000	3 3/4	3 9-16	3 15-16	9	9	9 1/2	220	250

2. Cylinders must be manufactured from lapwelded pipe made of soft steel of the best welding quality, free from blisters, cracks, or other injurious defects.

Inspection and Testing of Material.

3. The pipe intended for these cylinders must be manufactured by the best appliances and according to the best modern practice, each length to be inspected separately for defects inside and outside and then subjected to the following tests:

(a) To each crop end cut from the pipe from which the cylinders are to be made a flattening test must be applied with the weld 45° away from the side which is subject to the greatest bending stress, with knife edges of wedge shape converging at an angle of 60°, the point being rounded off with a radius of one-half inch. In this test the crushing of the walls must be to within four times the thickness of the metal and a crop end must withstand the test without cracking.

(b) An internal hydrostatic test of 600 pounds per square inch must be applied to each length of pipe under which it must not show signs of leaking at the end weld or elsewhere.

4. Each finished cylinder must be tested by internal hydrostatic pressure as specified in above table, paragraph 1, the test to be conducted as follows:

(a) After filling cylinder with water the test pressure specified must be applied for the purpose of detecting leaks and rounding up the cylinder.

(b) The cylinder, if tight, must be placed in a water jacket or other approved apparatus for measuring the expansion and the test pressure again applied. The permanent expansion under this test must not exceed 10 percent. of the whole volumetric expansion at the pressure specified.

General Construction and Inspection.

5. The manufacture of the cylinders must be completed with the best appliances and according to the best modern methods. All finished cylinders must show a reasonably smooth surface, and must have passed the above inspection and tests without showing any defect in workmanship or material likely to result in any appreciable weakness in the finished cylinder. Each completed cylinder must be inspected for such defects at the mill by the purchaser or his representatives before acceptance.

SHIPPING CONTAINER SPECIFICATION No. 5. (See par. 38.)**Iron or Steel Barrels or Drums for Inflammable Liquids (See par. 38)
Mixed (Nitrating) Acids.**

1. The provisions of "Shipping container specification No. 5" apply to all containers specified therein that are hereafter purchased (see par. 38), and each such container shall have plainly stamped thereon the date of manufacture thereof.

2. An iron or steel barrel or drum with a capacity of from 50 to 55 gallons must have a minimum weight in the black, exclusive of the weight of rolling hoops, of 70 pounds, and a minimum thickness of metal in any part of the completed barrel must not be less than that of full No. 16 gauge, United States standard. When the capacity of the drum or barrel is less than 30 gallons the minimum thickness of metal must not be less than No. 18 gauge, United States standard.

3. An iron or steel barrel or drum with a capacity of from 100 to 110 gallons must have a minimum weight in the black, exclusive of the rolling hoops, of not less than 130 pounds, and the minimum thickness of metal in any part of the completed barrel or drum must not be less than that of full No. 14 gauge, United States standard.

4. Each barrel or drum must stand without leaking a manufacturer's test under water by interior compressed air at a pressure of not less than 15 pounds per square inch, sustained for not less than 2 minutes, and the type of barrel or drum must be capable of standing without any serious permanent deformation and without leaking a dyrostatic test pressure of not less than 40 pounds per square inch, sustained for not less than 5 minutes.

5. When filled with water to 98 per cent. of its capacity the type of barrel or drum must also be capable of standing without leaking a test drop on its chine from a height of 4 feet upon a solid concrete foundation.

6. Bungs and other openings must be provided with secure closing devices that will not permit leakage through them. Threaded metal plugs must be close fitting. Gaskets must be made of lead, leather or other suitable material. Wooden plugs must be covered with a suitable coating and must have a driving fit into a tapered hole.

7. The method of manufacturing the barrel or drum and the materials used must be well adapted to producing a uniform product. Leaks in a new

barrel or drum must not be stopped by soldering, but must be repaired by the method used in constructing the barrel or drum.

ROBERT R. PRENTIS,
Chairman.

WM. F. RHEA,
J. RICHARD WINGFIELD,
Commissioners.

Attest:

R. T. WILSON, *Clerk.*

Certified to Superintendent of Public Printing according to law, first insertion to be made Monday, May 27, 1912, by order of the State Corporation Commission.

Virginia Classification

No. 1.

EFFECTIVE OCTOBER 1, 1907
(Revised to December 31, 1913)

Being a Classification of Freight applicable to the Railroad Lines doing
business in Virginia, as ordered

Prepared and Issued by Order of the
State Corporation Commission

R. T. WILSON, Clerk.

VIRGINIA CLASSIFICATION NO. 1—GENERAL RULES.

Rates by cheapest route not to be exceeded.

1. (a) On traffic which may be carried over more than one route the rate afforded by the cheapest route must not be exceeded, regardless of the route over which actually transported whether the rating be over one line only, or according to a joint tariff, or by combination of rates to and beyond a junction or junctions.

Application of Classification.

- (b) The ratings specified in this classification refer to freight tariffs authorized by the Commission, applicable to the various lines within its jurisdiction, and shall apply on property transported in or upon freight trains or vessels of those lines between all points within the State of Virginia.

Release and Valuation.

2. Where the classification provides for a reduced rate, based on a fixed valuation and the rules and regulations pertaining thereto, the reduced rate shall not have the force of altering the general rules of law, any further than would be done by an agreement between the carrier and shipper.

Description of contents of packages.

3. (a) Contents of all packages, as near as practicable, must be stated in shipping receipt. When an article is differently classified, when differently prepared or packed, the actual character of the article must be specified, otherwise it will be charged at the highest class named on each article. No shipment will be accepted when designated on the shipping receipt as Merchandise (or "Mdse."), Sundries or Fancy Goods.

Less than carload shipments to be marked or tagged.

- (b) Each package, bundle or piece of less than carload freight must be plainly and legibly marked by brush, stencil, crayon (not chalk), rubber or metal type, pasted label, or securely fastened durable tag, showing the name of consignee and the name of station, town or city, and the State to which destined. Pasted labels or securely fastened durable tags should be used only when the character of freight prevents marking as above specified.

The marks on packages, bundles or pieces must be compared with the shipping order and bill of lading, and corrections, if necessary, made by consignor or his representative before receipt is signed; old marks must be removed or effaced before packages, bundles or pieces will be accepted for transportation.

Freight consigned to a place of which there are two or more of the same name in the same State must have the name of the county marked on each package, bundle or piece and also shown in the shipping receipt.

When freight is consigned to a place not located on the line of a railroad, each package, bundle or piece must be marked with the name of the station at which the consignee will accept delivery, or, if destined to a place reached by a water line, the name of the railroad station at which delivery is to be made to such water line must be marked on each package, bundle or piece.

Freight not marked in accordance with the foregoing rules will not be accepted for transportation.

Note.—This rule does not apply to a shipment moving all-rail at rates published for "L. C. L." or "any quantity" from one consignor to one consignee and destination, when separate car or cars are used for the transportation thereof.

Shipments in paste-board or other similar packages.

(c) Property presented to carriers, packed in so-called boxes or cases made from strawboard, leather board, wood pulp, fibre, wired splint wood, or other analogous materials, inclosed in wooden frames, will be charged ten (10) per cent. higher than the classification provided for such property in boxes or cases, subject to a minimum increase of one (1) cent per hundred pounds; provided, however, that when a rating is shown on an article in bales, the same rating will apply on such articles when packed in boxes or cases as above described. (See Note.)

Note.—In computing the rate to be charged under this rule, fractions of one-half cent or less shall be dropped, and those of more than one-half cent shall be considered as one cent; for example, if the class rate applicable upon the property in boxes or cases is 75 cents per 100 pounds, the rate to be charged when shipped in the package described will be 82 cents per 100 pounds, the fraction of one-half cent being dropped; if the class rate is 36 cents per 100 pounds, the higher rate to be charged will be 40 cents per 100 pounds; if the class rate is 8 cents per 100 pounds, the increase would be eight-tenths of one cent, and the minimum increase being one cent per 100 pounds, the higher rate to be charged will be 9 cents per 100 pounds.

Minimum charge on single shipments.

4. (a) The minimum charge on a single shipment of one class classified first-class or higher or lower, shall be for the actual weight at the class or commodity rate to which it belongs, subject to a minimum charge of 25 cents.

VIRGINIA CLASSIFICATION No. 1—CONTINUED.

(b) The minimum charge on a shipment of two or more articles packed separately, taking different classes, shipped at one time, by one shipper to one consignee, shall be at the actual weight of each article at the class or commodity rate to which it belongs, but should the weight in the aggregate, at the several rates, produce less than 25 cents, the minimum charge shall be 25 cents for the entire consignment.

Packages containing articles of more than one class.

5. (a) The rate for the highest classed article must be charged on any package containing articles of more than one class. This rule is not intended to prohibit the shipment of printed advertising matter in package goods; provided, that the printed advertising does not exceed two per cent. of the total weight; nor of shipments described in paragraph (b) of this rule.

(b) When premiums, prizes or other articles for advertising purposes are shipped in the package with the commodity that they advertise, the following will govern:

An article for advertising purposes may be shipped in the package with the commodity it advertises, provided only one such complete advertising article is contained in each package; the commodity shipped to be charged at actual weight, plus weight of the package (subject to the established minimum carload weight when in carloads) and at the rating applicable on such commodity; the advertising article to be charged at actual weight plus twenty (20) per cent. at the less than carload rate on such articles as per established tariffs.

In no case, however, shall the advertising article be charged at less than ten (10) per cent. of the gross weight of the package in which it is contained.

Carriers may require shippers to state in print or writing the character and actual weight of advertising articles contained in each shipment.

Separate charge to be made on each separate shipment.

6. On shipments consisting of more than one consignment, whether from one shipper to two or more consignees, or from two or more shippers to one consignee, charge for each consignment as a separate shipment.

Parts or pieces constituting one or more complete articles.

7. When parts or pieces constituting one or more complete articles are offered to carriers for transportation at one time by one shipper to one consignee and destination they will be rated at the classification provided for the complete article, whether S. U. or K. D. as specified in the classification; provided, however, that where the separate parts or pieces are rated separately in the classification, such separate ratings may be applied.

Classification of articles not specifically provided for.

8. When articles not specifically provided for, nor embraced in the classification as articles "Not Otherwise Specified," are offered for transportation, the classification applying on analogous articles may be used, and in such cases, carriers must report the facts to the Commission in order that, if necessary, the proper classification may be regularly established.

Gross and estimated weights.

9. Charges must be assessed on all articles at gross weight, except that where estimated weight is specified in the classification, such estimated weight shall apply. When the actual weight of the articles named below can not be ascertained at point of shipment, or in transit, or at destination, the following estimated weights shall govern:

ARTICLES.	WEIGHT.
Clay, per cubic yard.....	3,000 pounds.
Coal, per bushel.....	80 "
Coke, per bushel.....	40 "
Gravel, per cubic yard.....	3,200 "
Laths, green, per 1,000.....	530 "
Laths, seasoned, per 1,000.....	450 "
Lime (Rockland), per barrel.....	230 "
Lime (other than Rockland), per barrel.....	220 "
Lime, per bushel.....	80 "
Lumber, Ash or Black Walnut, green, per 1,000 feet.....	4,500 "
Lumber, Ash or Black Walnut, seasoned, per 1,000 feet.....	4,000 "

VIRGINIA CLASSIFICATION No. 1—CONTINUED.

Lumber, Elm, Hickory or Oak, green, per 1,000 feet.....	6,000 pounds.
Lumber, Elm, Hickory or Oak, seasoned, per 1,000 feet.....	4,500 "
Lumber, White Pine or Poplar, green, per 1,000 feet.....	4,000 "
Lumber, White Pine or Poplar, seasoned, per 1,000 feet.....	3,000 "
Lumber, Yellow Pine, green, per 1,000 feet.....	4,500 "
Lumber, Yellow Pine, seasoned, per 1,000 feet.....	4,000 "
Lumber, N. O. S., green, per 1,000 feet.....	6,000 "
Lumber, N. O. S., seasoned, per 1,000 feet.....	4,000 "
Sand, per cubic yard.....	3,000 "
Staves, Heading or Hoop-poles, green, car loaded to depth of forty-three inches per car.....	30,000 "
Staves, Headings or Hoop-poles, seasoned, car loaded to depth of fifty inches per car.....	30,000 "
Stone, not dressed, per cubic foot.....	160 "
Tan Bark, green, per cord.....	2,600 "
Tan Bark, seasoned, per cord.....	2,000 "
Telegraph Poles, Fence Posts or Rails, per cord.....	3,500 "
Wood, green, per cord.....	3,500 "
Wood, seasoned, per cord.....	3,000 "

Bulk freight, L. C. L.

Reduced rates on return
shipments.

10. Carriers are not required to take bulk freight L. C. L., unless so specified in the Classification.

11. Shipments of freight which are not delivered at destination, shall be returned to original shipper and point of shipment at one-half the rate applying in the reverse direction, provided that the original shipper shall file written request for such return, within thirty days after notice from carrier of failure to make delivery and guarantee or pay the freight charges in both directions, and any other legal charges which may have accrued. Billing for shipments returned under this rule must show proper reference to the original billing. Provided, however, that the above rule shall not operate to reduce the minimum charge on single shipments, as per Rule No. 4.

- Articles racked or crated must be properly protected.
- 12 Articles offered to carriers for transportation at the rating provided for same in the Classification when racked or crated, must be enclosed to an extent sufficient to hold the framework together, and protect the property during the process of transportation. Nailing strips on or to the articles, forming partial protection only, will not be sufficient to entitle the property to the rating provided therefor when racked or crated.
- Articles classified "in the rough,"
13. (a) The classification of articles "in the rough" applies to such articles when sawed, hewn, planed or bent, and before any further manufacturing process has begun.
- Articles classified "in the white,"
- (b) The classification of articles "in the white" applies after the manufacturing process has begun (and may include one coat of priming), but when the article has not been painted or varnished.
- Articles classified "finished,"
- (c) The classification of articles "finished" applies to the article after it has passed the stage of manufacture covered by sections a and b of this rule.
- Articles classified "nested,"
- (d) The term "nested" as used in this Classification covers a series of three or more like articles fitting closely, one within another.
- Articles "packed,"
- (e) The term "packed" as used in this Classification is intended to apply only when the article is protected by a crate, box, barrel or similar carrier.
- Articles in slatted boxes.
- (f) Unless otherwise specified in the Classification, the ratings on articles shipped in slatted boxes shall be the same as when in boxes.
- Where a lower rating is shown on an article, when in slatted boxes, than when in boxes, the boxes must be slatted on two opposite sides in the same manner as a crate, and so as to permit of easy inspection of the contents.
- Heavy and bulky articles.
14. Owners shall load and unload L. C. L. shipments of heavy and bulky freight, such as can not be conveniently handled by station employees.
- Tonweight.
15. A ton is 2,000 pounds, unless otherwise specified.
- Commodity rates.
16. Authorized commodity rates shall govern only where lower than the class rates specified herein.

VIRGINIA CLASSIFICATION NO. 1—CONTINUED.

Rates on exhibits for fairs or expositions.

17. Rates on shipments intended for fairs or expositions shall not exceed tariff rates from point of shipment to point of destination, being returned free via the same route, provided the re-shipper files with the agent of the transportation line, at re-shipping point, a certificate of some authorized official of the fair or exposition, that the shipment has been exhibited at said fair or exposition, and has not changed ownership. The above will not apply on horses.

RULES GOVERNING CARLOAD SHIPMENTS.

Application of carload rates.

18. (a) Carload rates shall apply only when a carload of freight is shipped from one station, in one day, by one shipper to one consignee and destination. The minimum carload weight provided for on any article has reference to the minimum weight on which the carload rating will apply, when loaded in or upon one car (subject to rule 18b) although actual weight may be less.

Minimum carload weights.

- (b) Unless otherwise specified in the Classification, the minimum carload weight of all articles shall be 24,000 pounds or twelve tons where the rate applies per net or gross ton, except that classes N, O, and P apply per car of 20,000 pounds, excess loaded in same car to be charged for in proportion. When a minimum carload weight of more than 20,000 pounds is specified, such minimum will apply regardless of the length of the car used.

When a minimum carload weight of 20,000 pounds or less is specified, such minimum will apply when cars of thirty-six feet in length or less are used; but when cars exceeding thirty-six feet in length are used, the minimum carload weight shall be increased in accordance with the following table:

LENGTH OF CARS.	When the minimum weight provided in the Classification for the article shipped is									
	20,000 lbs. charge not less than	18,000 lbs. charge not less than	16,000 lbs. charge not less than	15,000 lbs. charge not less than	14,000 lbs. charge not less than	12,000 lbs. charge not less than	10,000 lbs. charge not less than	8,000 lbs. charge not less than	Percentage Increase.	
	Lbs.	Lbs.	Lbs.	Lbs.	Lbs.	Lbs.	Lbs.	Lbs.	Lbs.	
Over 36 and not over 38 ft.	22,000	19,800	17,600	16,500	15,400	13,200	11,000	8,800	10	
" 38 "	40 "	25,000	20,000	18,750	17,500	15,000	12,500	10,000	25	
" 40 "	42 "	28,000	25,200	22,400	21,000	19,600	14,000	11,200	40	
" 42 "	44 "	31,000	27,900	24,800	23,250	21,700	18,600	15,500	55	
" 44 "	46 "	33,000	29,700	26,400	24,750	23,100	19,800	16,500	65	
" 46 "	48 "	34,000	30,600	27,200	25,500	23,800	20,400	17,000	70	
" 48 "	50 "	36,000	32,400	28,800	27,000	25,200	21,600	18,000	80	
" 50 feet in length....	50,000	45,000	40,000	37,500	35,000	30,000	25,000	20,000	150	

Actual weight must be charged for when in excess of the minimum weight.

The length of cars referred to in this Rule is based on the platform measurement of flat cars and inside measurement of all other cars.

Charge to be made on the excess over a full carload.

(c) When a lot of freight (not in bulk and not including Live Stock), the standard minimum carload weight of which is 20,000 pounds or more, is offered for shipment on one day by one consignor, for one consignee and destination, in quantities in excess of the amount that can be loaded into one box, flat or gondola car, the following rules will apply in assessing the charges:

The first car and all succeeding cars, except the last must be fully loaded and charged for on basis of carload rate and at actual weight, but at not less than the established minimum weight per car.

The remainder of the consignment, if loaded in one box car, shall be charged for at actual weight and at the carload rate; but if the remainder require a flat or gondola car, it shall be charged for at actual weight, and at the carload rate, subject to a minimum weight of 5,000 pounds.

VIRGINIA CLASSIFICATION No. 1—CONTINUED.

In all cases the way-bill for the car containing the part lot must give reference to the billing covering the full car or cars.

The above rules will not apply on articles on which the standard minimum carload weight is less than 20,000 pounds; but such articles, when shipped in excess of one full carload, or carloads, shall be charged for, so far as the excess is concerned, as though the excess were a separate shipment.

19. (a) The charge for less than a carload shall not exceed the established minimum charge for a carload of the same freight; nor shall the charge for a car fully loaded exceed the charge for the same property if taken as a less than carload shipment.

(b) When no carload rate is specified for an article, the L. C. L. rate shall be charged for any quantity of the article; and no two or more articles, each of which has a carload rate, shall be shipped in mixed carloads at the carload rate, unless so provided for in the Classification.

20. (a) Unless otherwise provided in the Classification, when articles on account of length require two or more cars to transport them, the minimum charge for each series or lot over which the loading extends (not to exceed four cars in any one lot or series in one shipment), shall be as follows: For the first car, the minimum weight provided for such articles in carloads; fifty (50) per cent. of such minimum weight for each additional car. In no case, however, shall the charge be less than 36,000 pounds for two cars, 48,000 pounds for three cars, or 60,000 pounds for four cars (actual weight to be charged for when the aggregate actual weight exceeds the specified minimum weights) at the carload rate. But when same consignor furnishes other freight for same consignee at same destination, loaded on same cars, making the actual weight of shipment equal to or in excess of the minimum weights above provided for, the several articles shall be charged at their class rate in carloads, and at actual weight. (See Note).

Note.—When more than four cars are used, the additional car or cars will be considered as a new series.

When articles on account of length require two or more cars to transport them, and the cars are loaded to full or safe-carrying capacity, the minimum weights as per Rule (18b) should govern, actual weight to be charged for when the aggregate actual weight exceeds the specified minimum weights.

Charge for less than a carload not to exceed the charge for a carload.

Mixed carloads and articles for which no carload ratings are shown.

Articles requiring two or more cars for transportation.

Articles too long and bulky to be loaded in box cars.

Loading and unloading freight in C. L.

Allowance in weight for racks or standards on flat or gondola cars.

Loading cars in excess of safe carrying capacity.

Examination of contents of packages and application of proper classification.

Prepayment of freight charges.

Articles of less value than freight or other charges to be prepaid or guaranteed. Guarantee of charges.

Icing charges.

(b) Unless otherwise specified, articles too long or bulky to be loaded in box cars, but not requiring two or more open cars, shall be charged at actual weight; provided, that in no case shall the charge on a single consignment be less than for 4,000 pounds at the first-class rate.

21. Owner shall load and unload all freight in carloads, unless carriers elect to do so for their own convenience.

22. An allowance of 500 pounds weight will be made for racks, standards or stakes and strips on flat or gondola cars, if loaded with freight requiring their use; provided, that in no case shall less than the specified minimum carload weights be charged for the property for which either racks, standards or stakes and strips are furnished.

23. Cars must not be loaded in excess of their safe carrying capacity, as prescribed by the rules of the various carriers. Where cars are so overloaded, the carriers are left free to charge for the excess a rate that will effectually stop a practice fraught with so much danger to life and property.

24. (a) If agents at points of shipment have reason to suspect that an attempt is being made to deceive the carrier, or avoid proper classification, they may require an examination of contents, or other sufficient evidence that such freight is correctly described before or after receipting for same. Should freight be incorrectly described and escape detection at shipping point, if the real character of the goods is discovered before delivery to consignee or to connecting road, charges will be collected according to proper classification.

(b) Prepayment of freight charges may be declined at the receiving station upon any shipment, where the agent is not satisfied that the article upon which prepayment is tendered is correctly described in the shipping receipt.

25. (a) Any shipment which, in the judgment of the forwarding agent, would not bring at forced sale the amount of the freight charges at destination, must be prepaid, or charges guaranteed.

(b) Articles on which prepayment is required may, on the approval of the General Freight Department of the road on which the freight originates, be forwarded on the guarantee of the shipper that freight and charges will be paid at destination. Full explanation to be made on way-bills or manifests and transfer slips.

26. Carriers will be permitted to make such rules and regulations regarding icing shipments of property requiring icing as may be just and reasonable, subject to review by the Commission on complaint.

VIRGINIA CLASSIFICATION No. 1—CONTINUED.

EXPLANATION OF CHARACTERS.

The Class is Given Opposite Each Article.

- 1, 2, 3, 4, 5 and 6, stand for First, Second, Third, Fourth, Fifth and Sixth Classes, respectively. $1\frac{1}{4}$ for $1\frac{1}{4}$ Times First-Class. D1 for Double First-Class. 3T1 for Three Times First-Class. 4T1 for Four Times First-Class. A, B, C, D, E, F, H, J, K, L, M, N, O and P, stand for Classes A, B, C, D, E, F, H, J, K, L, M, N, O and P respectively.
- L. C. L. stands for Less than Car Load.
C. L. stands for Car Load.
N. O. S. stands for Not Otherwise Specified in this Classification.
S. U. stands for Set Up.
K. D. stands for Knocked Down.

ARTICLES NOT ENUMERATED WILL BE CLASSIFIED WITH ANALOGOUS ARTICLES.

A	CLASS		A	CLASS	
	L C L	C L		L C L	C L

Boxes of Cans, with or without metal tops or bottoms; see Bales, paper.

Kapok, in bales.

Palm leaf, in boxes or pressed in bales (C. L., min. wt. 20,000 lbs.).

Pine, Excelsior rates.

Rafia, in bales.

Ramie, in bales.

Tampico, in uncompressed bales.

Same, in compressed bales.

Vulcanized, packed.

Fifth Wheels; see Vehicle Materials.

Figs; see Fruit.

Files or Rasps, iron or steel, boxed.

Filing Cabinets; see Furniture.

Fillers, egg case, metal, packed.

Fillers, strawboard or wood (including Egg Case Fillers), for packing purposes, K. D. flat, in crates or bundles.

Filters, viz.:—

Cast iron.

Water, earthen or stoneware, in crates, barrels, casks, tierces or hogsheds.

N. O. S., packed.

Findings, shoe.

Firearms, packed.

Fire Bricks and Fire-Place Linings, iron, loose.

Same, iron or steel, crated or boxed.

Fire Brick; see Brick, fire.

Firecrackers and Fireworks, packed and so marked on packages (ship's option).

Fire Department Apparatus, Water Towers; see Towers.

[illegible]

Gas, for dental purposes or for calcium lights, in cylinders or tubes.....	3	Plate Glass, boxed, viz.: Loaded in boxes (see Notes 1 and 3): Exceeding seven and one-half feet in width or with a united outside measurement exceeding nineteen feet.....	3T1
Gas, liquid carbonic acid, in iron or steel drums, cylinders or tubes.....	5	Exceeding eighty inches in united outside measurement, but not exceeding seven and one-half feet in width or with a united outside measurement not exceeding nineteen feet.....	1	3
Gas Trays; see Trays.....	Not exceeding eighty inches in united outside measurement.....	2	4
Gasoline; see Oil, coal.....	Requiring flat gondola cars (see Note 2): Minimum weight, 5,000 pounds, actual weight to be charged for in excess of the minimum.....	1	3
Gauges, steam; see Machinery.....	2	Carload.....
Gears, street car; see Machinery, N. O. S.....	3	NOTE 1.—Mirrors or Plate Glass, boxed, when loaded in box cars by shippers, must be set upright in the car on full flat edge or end of box. When L. C. L. shipments, on account of height or width of boxes, cannot be loaded in box cars without leaning, carriers may decline to accept the same for transportation in box cars.
Gelatine, in paper boxes, packed in boxes or in bulk in barrels.....	3	NOTE 2.—Mirrors or Plate Glass, boxed, requiring flat or gondola cars, must be securely braced by suitable frame-work firmly attached to cars by consignor. For the lumber and timber so used on each car, an allowance in weight of 500 pounds will be made; but in no case is less than the specified minimum weight to be charged for.
Gelatine Desserts, prepared, powdered, packed.....	1	NOTE 3.—"United outside measurement" means the length and width of package added together.	1
Generators, acetylene gas; see Machinery and Machines.....	3	5	Prism Glass, framed, wired or leaded, in packages (C. L., min. wt. 30,000 lbs.).....	3	5
Generators, gas, N. O. S.; see Machinery and Machines.....	Rough or Ribbed Glass, including Rolled, Mazed, Florentine and Wired Glass (not glazed sash), for vaults, skylights, roofs, floors or pavements.....	3	5
Geographical Globes and Fixtures, packed in boxes.....	1	Signs, packed, prepaid.....	1
Geographic Vehicles.....	Tiling, sidewalk, combined glass and iron; see Tiling.....
Gigs; see in bags or boxes.....	2	Tumblers; see Glassware, N. O. S.....	3
Ginger Ale; see Ale.....	Window Glass, colored, enameled or ground.....	4
Ginger Beer; see Beer Packages.....	Window Glass, common.....
Ginseng; see Machinery and Machines.....	1	Window Glass, common, colored, enameled or ground.....
Ginseng, in boxes, kegs or barrels.....	3	5
Same, not packed in boxes, kegs or barrels; not taken.....
Glaze and Glassware, viz.:.....
Battery Jars, in packages (C. L., min. wt. 20,000 lbs.).....	3	5
Bottles, viz.:.....
Ale, beer and porter, empty, returned; see Ale and Beer Packages.....
Common, packed.....
Common, in bulk, packed in excelsior, straw or similar material.....
With metal jackets; see Glassware, N. O. S.....	6	6
Soda water, mineral or aerated water (glass or earthenware), empty, returned to original shipper and point of shipment, packed either in packing cases or otherwise (C. L., min. wt. 20,000 lbs.).....	4	4
Bottles, Carboys and Demi-johns, mixed.....
Carboys, viz.:.....	2	4
Empty (C. L., min. wt. 16,000 lbs.).....	4
Empty, returned.....	1
Cathedral or Ornamental Glass, framed or leaded, in packages.....	3	5
Cathedral Glass, rolled, comprising all varieties of cast or rolled colored glass, not framed or leaded.....	2	4
Chimneys, packed (C. L., min. wt. 14,000 lbs.).....	3
Chipped or Crystalline Glass.....
Cut Glassware, consisting of pressed or blown articles, with cut necks, cut stems, cut stoppers, cut star bottoms, cut flutes or miters, extending not more than halfway up the article, packed.....	1
Cut Glassware, N. O. S., in boxes or barrels.....	D1
Decorated, Embossed or Etched Glass, packed.....	1	3

	CLASS		O	CLASS	
	LCL	CL		LCL	CL
Oil, viz.:— Castor, viz.: In glass, packed..... In cans, boxed..... In wood..... Coal or its products (ship's option), governed by the following rules, viz.: Oil, crude and fuel, Crude Naphtha, Crude and Refined Petroleum, Products of Petroleum, such as Lubricating Oils, Benzine, Naphtha, Gasoline and Paraffine, when in barrels or cases, min. C. L. wt. 24,000 lbs. When in tank cars, min. C. L. wt. will be the full capacity of the tank, the contents of the tank to be computed at six and four-tenths pounds per gallon, subject to a min. wt. of 24,000 lbs. When in barrels or half-barrels, C. L. or L. C. L., weight will be computed at 400 pounds per barrel and 235 pounds per half-barrel. When in square cans, completely cased, each case containing two five-gallon cans, C. L. or L. C. L., at 80 pounds per case. Mixed carloads of Oil in barrels or cases will be taken at authorized C. L. rates, based on the foregoing weights. When less than the aforesaid minimum carloads are shipped, L. C. L. rates will be charged. In no case, however, will less than a carload from one consignee to one consignee and destination on same day be charged more than for a full carload. Transportation companies do not furnish tank cars. When they are furnished by shippers, transportation companies will pay three-fourths cent per mile run each way, and will return the empty tank to the point of shipment without charge. Shipments of above articles at rates authorized are entirely at owner's risk of leakage and loss or damage by fire. Petroleum and its products in tank cars will be delivered only when consigned to parties at points at which they have proper unloading and storage facilities; and when shipments in tank cars are consigned to parties who have not such facilities, the shipments will be returned to the shippers at their own risk and expense. In cans (without jackets), unpacked.....	1 3 3	5 5			
Oil, viz.:— Cotton Seed, in tank cars (see Note).—Con. In tank cars..... Creosote, pine, pine tar and rosin, in barrels..... Same, in tank cars, minimum weight capacity of tank..... Dead, or coal tar, in barrels..... Same, in barrels or tank cars..... Japan, in barrels..... Kerosene, see Oil, coal..... Lard and lardseed, in barrels..... Lard and lardseed, in barrels or tank cars (see Note).....				4 4 4 3 4	A 6 6 6 5 5
<p>NOTE.—The minimum carload weight of Lardseed Oil in tank cars, will be the shell capacity of the tank, computed at seven and one-half pounds per gallon.</p> <p>Lubricating, the product of coal oil; see Oil, coal. Miners' Petroleum Hard Oil; see Coal Oil. Palm, crude, in wood..... Peanut, in barrels..... Peanut, in tank cars..... Rice, in barrels (C. L., min. wt. 30,000 lbs.)..... In tank cars, to be charged for at shell capacity of tank computed at seven and one-half pounds per gallon. Sassafras, in glass or earthenware, packed, or in tin, packed in boxes or barrels..... Sassafras, in iron drums..... Tallow, in glass or cans, packed..... Same, in barrels..... Tanner's, in wood..... Same, in tank cars..... Transit; see Coal Oil. N. O. S., in glass or cans, packed..... N. O. S., in barrels..... Oil Cabinets and Tanks, combined, crated, with pumps detached and crated..... Oilcloth, floor, wrapped, crated or boxed, viz.: Sixteen feet or over in length..... Under sixteen feet in length..... Table, oil or enameled..... Not boxed or enameled..... Oilers or Oiling Cans, tin; see Tinware.</p>

Onaburge; see Dry Goods.					
Outfits, viz.:					
Artesian well diggers' (min. wt. 20,000 lbs.).		N			
Bridge builders' erection, consisting of frame, boom, rigging, engine, tanks, tools and coal, minimum weight 70,000 pounds (shippers to furnish car with fixtures attached) (see Note below)		6			
NOTE.—Car, to which is attached propelling device, cab, tool boxes and counter weights, to be furnished by shipper and carried free; no mileage allowance on the car to be made.					
Cobbler's, in boxes	3				
Contractors' or graders' such as carts, wheelbarrows, tackle, tools, etc., mixed carloads, with or without live stock (attendant accompanying shipment will be charged regular passenger fare), min. wt. 20,000 lbs.	2				
Contractors', on their own wheels; Special Rates.					
Shooting gallery, K. D. (C. L., min. wt. 20,000 lbs.)					
Ovens, viz.:					
Bakers', sectional steel, K. D.					
Sand Ovens; see Stoves and Ranges.					
N. O. S. U., not packed.	1	N			
N. O. S. U., packed.	3	3			
N. O. S. K. D., packed.	D1	5			
Ox Bows and Yokes	2				
Oysters and Clams, viz.:	3				
In glass, packed.					
In cans or kegs	1				
Shell, in sacks or barrels	3	5			
Shell	4	6			
Packing, viz.:					
Asbestos; see Asbestos Products.					
Hemp, jute, metallic or rubber.					
Packing Drums, wooden; see Drums.					
Padlocks; see Locks.					
Pads, sweat; see Saddlery.					
Pulls and Disks, paper, folded or packed flat in bundles (C. L., min. wt. 20,000 lbs.)	3	5			
P					
Paper, viz. (see Notes 1 and 2):—Con.					
Ply (C. L., min. wt. 30,000 lbs.)					
Newspapers (patent insides)	1				
Printing Paper, N. O. S.; same as Paper, N. O. S.	2				
Sand, flint or emery	3				
Toilet, packed or in rolls or bundles	5				
Same, C. L., or in mixed carloads with other paper taking Class A, C. L., rating					
Wall, packed or in bundles	2	A			
Waste or scrap, in sacks or bundles	3	4			
Same, in barrels or longheads	4				
Same, pressed in bales	A				
Wrapping, printed	3	5			
N. O. S. ruled	4				
N. O. S. unrulod					
Same, C. L., or in mixed C. L., with paper taking Class A, C. L., rating					
Paper Bags; see Bags.					
Paper Barrels; see Barrels.					
Paper Bottle Covers; see Covers.					
Paper Boxes; see Boxes.					
Paper Box Blanks; see Boxes, empty, paper, folding.					
Paper Card Fornos, unprinted; same as Paper, N. O. S.					
Paper Cartridge Shells; see Cartridge Shells.	1				
Paper Collars, packed	2				
Paper Confetti, in packages					
Paper Dishes; see Pails.					
Paper Hangings, in boxes, crates or bundles	2				
Paper Holders and Cutters (for holding and cutting paper in rolls), in crates or boxes	2				
Paper Labels; see Labels.	3				
Same, K. D. flat, in crates or boxes					
Paper Pails; see Pails.					
Paper Pads or Tablets and Blank Books, with flexible paper backs, in bundles, crates or boxes	3	5			
Paper Roofing, Asphaltum, Pitch, Tar and Roofing Gravel, in mixed C. L. (min. wt. 30,000 lbs.)					
Paper Washers, in boxes or barrels	3	A			
Paper Wrappers, printed	5				
Paper Wrappers, N. O. S.	1				
Paperware, N. O. S.	5				
Paper Machine, boxed	1				
Paper Machine (min. wt. 20,000 lbs.)					
Parachute and Balloon Outfit; see Balloon Outfit.					

Pails, Dishes and Plates, paper, nested solid, packed or in bundles (C. L., min. wt. 20,000 lbs.)	3	5	Paris Green; see Paints.		
Paints, N. O. S.; see Tubes.			Paris White; see Paints.		
Paintings, Pictures and Chromos, boxed (valuation to be expressed in bill of lading), viz.:			Partitions, rolling or folding, wood or wood and iron combined, packed	3	5
When consignor's valuation is not expressed or when expressed exceeding \$50 per box	D1		Paste, carpet cleaning; see Washing Compounds.	3	
Valuation \$50 per box or less	1		Paste, chicle, in tube, kegs, half-barrels or barrels	3	
Paints, Putty, Red and White Lead and Carrara, viz.:	1		Paste, flour, in glass cans or flexible tubes, packed or in buckets or tubs	3	
In pails or in tin cans (without jackets), unpacked	3		Paste, flour, in barrels	6	
In tin cans (jacketed), wooden buckets or galvanized iron drums, unpacked	3		Paste, wall cleaning; see Compounds, wall cleaning.	1	3
In cans, pails, buckets, or galvanized iron drums, boxed, crated or packed in barrels	4		Patterns, wood or metallic (C. L., min. wt. 20,000 lbs.)		
Bulk, dry, in boxes	3		Paving Blocks; see Blocks.		
Bulk, liquid, in kegs (wooden or pressed steel), kits, barrels or casks, or in tin kegs with flat tops, enclosed in veneer or sheet metal jacket	4		Paving Composition, composed of Sand, Tar, Asphaltum or Cement; Asphalt rates.		
Straight or mixed			Peaches; see Fruit.		
Earth or metallic, dry, in sacks, barrels or casks (C. L., min. wt. 20,000 lbs.)	5	5	Peaches, powdered (Tobacco Flavoring), packed in cans or drums, value limited to 15 cents per pound	3	
Palmetto Tanning; see Extracts, tanning.			Peanut Butter; see Butter.		
Palmetto or Palm Leaves, viz.:			Peanut Cribble, Flour, Grits, Bran and Hulls	D	
In bundles or boxes (C. L., min. wt. 20,000 lbs.)	4	6	Peanut Meal; see Meal.		
Pressed in bales (C. L., min. wt. 20,000 lbs.)	5		Peanuts; see Nuts.	5	
Paneling; see Woodwork.			Pearl Ash		
Panoramic Outfit; see Scenery.			Pears; see Fruit.		
Pans, sheet iron or dripping; see Hollowware.					
Paper, viz. (see Notes 1 and 2):			Peas, viz.:		
NOTE 1.—Unless otherwise specified, all printed forms and all unprinted forms cut to size and ready for immediate use, will be rated as Stationery, N. O. S.			Dried or split, N. O. S., in boxes, sacks or barrels	4	5
NOTE 2.—Roofing Paper, in rolls, each roll containing liquid cement, tin roofing caps or nails, sufficient to lay the Paper, may be carried at the ratings applying on the Paper.			Cow, clay and field	D	A
Book Paper, machine finished, super calendered, coated or enameled; same as Paper, N. O. S.			Past or Peat Moss in sacks, bales, barrels or casks	4	
Bristol Board, Cardboard, Tag Board and Binders' Board; same as Paper, N. O. S.			Peas; see Cast Hooks.		
Blotting, building, carpet lining, news print (not machine finished, super calendered, coated or enameled book paper), pasteboard, pulpboard, strawboard, roofing and paper wrappers (unprinted); also wrapping (unprinted), in rolls or folded flat			Pebbles, grinding (used in pulverizing mills); Cement rates.		
Same, straight or mixed			Pecans; see Nuts.		
Cardboard; same as Paper, N. O. S.			Peeling, orange and lemon, packed	2	
Cigarette, in boxes	5		Pegs, shoe, in boxes	2	
Crepe	1		Same, in bags or barrels	2	
			Peltries; see Hides.	2	
			Pencils, slate, boxed	2	
			Pepper and Spices, in bags, boxes or barrels	2	
			Perfumery	1	
			Petroleum; see Oil, coal.		
			Petrolene or Petrolatum; see Vaseline.		
			Photographs and Graphophones, in crates or boxes	1	
			Phonograph or Graphophone Disks or Cylinders, packed	1 1/2	
			Phonograph or Graphophone Horns, not nested, packed	1 1/2	
			Same, nested, packed	1	
			Phosphate of Lime; see Lime.		
			Phosphate, sodium, in boxes	3	
			Phosphate, sodium, in kegs, barrels or casks	4	
			Phosphated Beverages (not Extracts) and Fruit Phosphates (not Extracts), ready for use; see Water, aerated, carbonated and mineral.		

VIRGINIA CLASSIFICATION No. 1—CONTINUED.

P	CLASS		P	CLASS	
	LCL	CL		LCL	CL
Phosphorus, taken only in hermetically sealed tin cans, packed in cases.....	1½	Plants; see Agricultural Implements.		
Photographic Dry Plates, boxed.....	1	Plants; see Trees and Shrubby.		
Same, old (second-hand), boxed.....	3	Plaster, viz.:.....		
Photographic Material, N. O. S., boxed.....	1½	Calceined, wall, stucco, building, moulding, finishing and decorating, C. L., min. wt. 30,000 lbs.; same as Cement, C. L.		
Same, value not to exceed fifty (50) cents per pound, to be limited by written agreement.....	1	Same, L. C. L.; same as Cement, L. C. L.		
Pianos; see Musical Instruments.			Land; same as Agricultural Lime.		
Piano Playing Attachments.....			Plaster of Paris, in bags or barrels (C. L., minimum weight 30,000 lbs.).....	[20 per cent. higher than Class K]	
Piano Stools; see Furniture.				4	
Picker Sticks; see Machinery.				1	
Pickers, cotton, raw hide.....	2	Plaster Boards.....		
Pickers, leather loom; see Machinery and Machines, N. O. S.			Plaster Castings.....		
Pickles, viz.:.....	2	Plaster Images and Figures; see Images and Figures.		K
In glass.....	3	Plaster Work, architectural or ornamental; same as Stucco and Cement Work.....		
In buckets or pails.....	4	Plated Ware, silver (solid silverware not taken), and White Ware.....		
In kegs, barrels or casks.....		6	Plates, battery, lead, in crates, boxes or barrels.....	1
In kegs or in wood, straight or mixed C. L.....			Plates, bronze, packed or in bundles.....	3
In mixed C. L. with Vinegar, Sauerkraut, Mustard (prepared), Horse Radish, Catsup, Table Sauces and Pickles; see Iron and Steel Articles.			Plates, engraving, boxed.....	3
Olives, in glass or earthenware, packed or in wood.....			Plates, paper; see Palls, paper.		
Picks; see Iron and Steel Articles.	4	Plates, wooden; see Woodware.		
Picture Backing, packed or in bundles.....			Platform street car; see Vehicle Materials and Parts.		
Picture Frames; see Furniture.			Plow and Plow Material; see Agricultural Implements.		
Pictures; see Paintings.			Plow Iron, Plow Steel and Iron Plow Parts, etc.; see Iron and Steel Articles.		
Pie or Pie Preparation, in boxes, or in glass or stoneware, packed.....	2	Plugs, tie, wooden.....	4
Same, in cans, boxed, or in pails, kegs or barrels.....	3	Plumbago, Black Lead or Graphite (ship's option), in boxes, barrels or sacks.....		
Pigeons, clay; see Targets.			Plumbers' Material, N. O. S., in boxes or casks.....	4
Pigeon (clay) Traps; see Traps.			Points, glaziers', zinc, in boxes.....	2
Pig, Iron; see Iron and Steel Articles.			Points, in kegs or barrels.....	3
Pig, Piglet; see Mats.			Sanno, in kegs or barrels.....	4
Pile Driven, on their own wheels; same as Shovels, steam.			Poles, animal.....	1
Pillows and Bolsters, N. O. S.....			Poles, exceeding twelve feet in length, in bundles (C. L., min. wt. 10,000 lbs.).....		
Pilots, locomotive.....	D1	Same, not exceeding twelve feet in length, in bundles (C. L., min. wt. 10,000 lbs.).....	D1	3
Pianos, street car; see Machinery, N. O. S.	1½	Curtain, see Furniture.		
Pineapples; see Fruit, green.	1	Fishing; see Fishing Rods.		
Pin, viz.:.....			Hoop; see Barrel Material.		
Coupling, iron or steel; see Iron and Steel Articles.					
Dowel, iron or steel; see Iron and Steel Articles.					
Dowel, wooden; see Woodware.					
Insulator; see Telegraph Insulator Pins.

Soapstone, crude (min. wt. 40,000 lbs.).....	5		Stair Treads, zinc or brass.....	2	
Soapstone Foot Warmers and Griddles.....	5		Stairways, slate; see Slate.		
Soda, viz.:.....			Stairwork, wooden; see Woodwork.		
Bicarbonate of, in sacks, boxes, kegs, barrels or casks.....	5		Stairwork, iron; see Iron and Steel Articles.		
Bi-sulphite of, in boxes, kegs, barrels or casks.....	4	6	Stalls, horse or cattle, iron and wood, K. D. (C. L., min. wt. 20,000 lbs.).....	3	5
Caustic, in iron cans or drums.....	6		Stanchions, cattle.....	4	
Caustic, in tin cans, boxed.....	4		Stand Pipes; see Iron and Steel Articles.		
Caustic, in wooden barrels.....	4	6			
Hypo-sulphite of, in boxes, barrels or casks.....	4		Stands, viz.:.....		
Nitrate of.....			Baggage.....	3	
When for fertilizer or fertilizer material, L. C. L.; see Fertilizers.			Barrel; see Racks.		
N. O. S.;.....			Bicycle; see Bicycle Stands.		
In boxes.....	4		Copying press.....	1	
In sacks, kegs or barrels.....	6		Display; see Furniture.		
Carload; see Fertilizers.			Hall; see Furniture.		
Silicate of, in barrels, kegs or drums.....	6		Music; see Furniture.		
Same, in tank cars (C. L., min. wt. 30,000 lbs.); Fertilizer rates.....			Staples; see Iron and Steel Articles.		
Soda Ash, in sacks, barrels or casks.....	6		Starch, N. O. S., in bags, boxes or barrels.....	4	6
Same, in sacks, barrels or casks, or in bulk (min. wt. 30,000 lbs.).....		A	Starch, liquid or Starch Polish, in glass, boxed.....	1	
N. O. S.....	4		Same, in wood.....	2	
			Stationery, N. O. S.....	1	

Stoves and Ranges, viz.:

Alcohol, gas, gasoline, oil or vapor, viz.:
Skeleton frame or with frames partially enclosed with thin sheet iron or steel, crated or boxed
Other than skeleton frame or other than with frames partially enclosed with thin sheet iron or steel, crated or boxed
Boxed, crated or loose (min. wt. 16,000 lbs.)
Same in mixed C. L., with Stoves and Ranges, N. O. S. (min. wt. 20,000 lbs.)
Sand Ovens, boxed or crated
Sheet iron or sheet steel, N. O. S.
Stoves and Ranges, N. O. S., cast iron (including Sheet Steel or Sheet Iron Ranges), or with cast iron bases and tops, Stove Plates, Stove Furniture (cast or sheet iron or steel), and Stove Hollowware (not Enameled, Agate or Granite ware and not including Stove Pipe and Stove Pipe Elbows), loose or packed, shipped with Stoves.
Stoves and Ranges, N. O. S., sheet iron or sheet steel, cast iron (including Sheet Steel or Sheet Iron Ranges), or with cast iron bases and tops; Stove Plates, Stove Furniture (cast or sheet iron or steel), and Stove Hollowware, not enameled, agate or granite ware and not including Stove Pipe and Stove Pipe Elbows), straight or mixed (min. wt. 20,000 lbs.)

NOTE.—Carload shipments of Stoves and Ranges, N. O. S., not crated or boxed, must be so braced in the car as to prevent shifting of the load and to insure safe transportation.

Hollowware and other Stove Furniture, shipped separately from Stoves; see Hollowware.

Straw; see Hay.
Straw Lemonade.
Straw Bottle Covers; see Covers.
Straw Braid, for the manufacture of straw hats, in bales.
Same, in cases.
Straw Goods.
Street Sprinklers; see Vehicles.
Stretchers, artists'; see Artists' Stretchers.
Stretchers, fences, packed or in bundles.
Stretchers, curtain and leather, wooden or metal, K. D., packed or in bundles.
Stripes, domestic; see Dry Goods.
Stucco and Plaster Work, combination and Plastic or Stereo-Relief Work (for interior decoration), in bundles, boxes or crates (C. L., min. wt. 20,000 lbs.)
Stucco powder, C. L. and L. C. L.; see Plaster.

T

Tables; see Furniture.
Tackle, fishing; see Fishing Tackle.
Tacks, iron; see Iron and Steel Articles.
Tacks, glaziers', in boxes or barrels.
Tacks, wire, in kegs or barrels.
Tacks, N. O. S.
Tags, iron or tin, representing a money value as premiums, not taken except by special contract.
Tags, iron or tin, in boxes.
Same, in kegs or barrels.
Tags, paper, packed (C. L., min. wt. 20,000 lbs.)
Tails, cattle.
Talc, in sacks, kegs, barrels or casks.
Tallow, in barrels or casks.
Tallow, N. O. S.
Tamarinds, in boxes or kegs.
Tanbark, stick, C. L.; same as Lumber, common, C. L.
Tankage; see Fertilizers.
Tank Material, wooden, unpacked (C. L., min. wt. 30,000 lbs.)
Tanks, viz.:
Cement or stone, K. D., crated or boxed.
Iron or steel, sheet or galvanized, with pump, hood and measure inside of tank, boxed or crated.
Tin, oil or syrup, cellar or store.
Tin, iron or steel, sheet or galvanized, N. O. S., S. U.
Same, K. D., boxed or crated.
Same, S. U. or K. D. (min. wt. 15,000 lbs.)
Iron or steel, N. O. S., S. U. (C. L., min. wt. 20,000 lbs.)
Iron or steel, N. O. S., entirely taken apart and K. D.
Same, C. L.; see Special Iron.
Oil Tanks and Cabinets, combined; see Oil Cabinets.
Oil Tank Wagons; see Vehicles.
Water closet; see Water Closet Tanks.
Wooden, loaded in box cars, boxed or crated, S. U.
Wooden, N. O. S., S. U.
Wooden, S. U. (min. wt. 10,000 lbs.)
Wooden, K. D. (C. L., min. wt. 30,000 lbs.)
N. O. S.
Tapioca, in bags, boxes or barrels.
Tar, coal, in barrels or casks.
Tar, coal, in tank cars, min. C. L. wt. capacity of tank, to be charged for at an estimated weight of nine and one-half pounds per gallon.
Tar, pine, crude or refined, in barrels.
Tar, in cans, boxed or crated.
Tar, Asphaltum, Roofing Paper, Pitch and Roofing Gravel, in mixed C. L., min. wt. 30,000 lbs.
Targets, sportsmen's, flying, packed.
Tarpaulins.

NOTE 1.—When shipments of Live Stock are offered in carloads, should there be an excess of stock over one or more full carloads, the excess must be charged for at the L. C. L. rate at the established estimated weights for L. C. L. shipments, observing the carload rate as the maximum.

NOTE 2.—These ratings include passage one way of attendants in charge of carload shipments; no more than one attendant to be carried without additional charge for each three cars of Horses and Mules, or each fifteen cars of other kinds of Live Stock from one shipper to one consignee.

APPLICABLE TO

The Baltimore and Ohio Railroad Company Valley Railroad Company of Virginia Southern Railway Company

Exception Sheet No. 2 to Virginia Classification No. 1.

APPLYING BETWEEN STATIONS IN VIRGINIA, AS FOLLOWS:

On B. & O. R. R.—Local and to Valley Railroad of Virginia and Southern Railway (Harrisonburg Extension).
On Valley Railroad of Virginia—Local and to B. & O. R. R. and Southern Railway (Harrisonburg Extension).
On Southern Railway (Harrisonburg Extension)—When to points on B. & O. R. R. or Valley Railroad of Virginia.

EFFECTIVE OCTOBER 1, 1907.

(Revised to December 31, 1913).

RULES AND SPECIAL INSTRUCTIONS.

Minimum Cartload Weight.

1. The minimum weight upon all property in carloads when loaded on flat or in gondola, stock or box cars shall be 30,000 pounds (actual weight to be charged for when in excess of the minimum), unless the marked capacity of the car is less, in which case the minimum weight will be the marked capacity of the car, unless otherwise specified in the Classification.

RULES AND SPECIAL INSTRUCTIONS.

Minimum Carload Weight.

1. The minimum weight upon all property in carloads when loaded on flat or in gondola, stock or box cars shall be 30,000 pounds (actual weight to be charged for when in excess of the minimum), unless the marked capacity of the car is less, in which case the minimum weight will be the marked capacity of the car, unless otherwise specified in the Classification.

EXCEPTION SHEET No. 2 TO VIRGINIA CLASSIFICATION No. 1—CONTINUED.

RULES AND SPECIAL INSTRUCTIONS.—CONTINUED.

1—Cont'd. When a minimum carload weight of 24,000 pounds or less is specified, such minimum will apply when cars of 36 feet 6 inches in length or less are used, but when cars exceeding 36 feet 6 inches in length are used the minimum carload weight shall be increased in accordance with the following table (actual weight to be charged when in excess of the minimum weight):

		When the Minimum Carload Weight Provided in the Classification for the Article Shipped is:				Percentage Increase.
		24,000 lbs.	20,000 lbs.	18,000 lbs.	16,000 lbs.	
		charge not less than	charge not less than	charge not less than	charge not less than

" 46 " 6 "	48 " 6 "	25,500	23,800	20,400	17,000	13,600	70
" 48 " 6 "	50 " 6 "	27,000	25,200	21,600	18,000	14,400	80
" 50 " 6 inches in length.....		37,500	35,000	30,000	25,000	20,000	150

Note.—The length of cars referred to in this Rule is based on the platform measurement of flat cars and inside measurement of all other cars, except that on refrigerator cars having ice-boxes constructed in ends thereof extending from top of car partially to floor thereof the length shall be computed from the inward side of the ice-box.

Part Carloads. Issuance of receipts therefor.

2. Railroad agents at forwarding points will not sign shipping receipts bearing the notation "part carload lot" until shipping receipts for the whole carload have been presented and the freight received, in order that bill of lading may be obtained at the carload rate. Only one original bill of lading for the whole carload shall be issued.

EXCEPTION SHEET No. 2 TO VIRGINIA CLASSIFICATION No. 1—CONTINUED.

Distribution of carload shipments.

3. Railroad agents at forwarding points will not receive property in carloads for distribution by railroad agents to two or more parties. Delivering agents will deliver property only to consignees thereof or to party presenting consignee's written order. Railroad agents at delivering points shall not in any way act as the representative of the consignor or consignee for the distribution of carload shipments.

Rule for Charging Freight on Mixed Carloads.

4. When a number of different articles of the same class in carloads are shipped at one time by one consignor to one consignee and destination, in mixed carloads, they are to be taken at the rate per 100 pounds for such class, and at the highest minimum carload weight provided for any of the articles; actual weight to be charged for if, in the aggregate, it is in excess of the minimum weight.

If the articles are of more than one class when in straight carloads, the carload rate and the minimum weight attaching to such rate for the highest classed article, or articles, that make up the mixed carload is to be charged; the actual weight to be charged for if the actual aggregate weight of all the articles is in excess of the minimum weight, excepting as provided in Rule 20-a of the Classification.

Allowance in Weight for Linings in Cars with Perishable Freight.

5. On potatoes and other property perishable from frost when cars are lined by shippers, allowances for such linings will be made as follows:

1,000 pounds for shipments in box, ventilated or refrigerator cars.

Freight charges will be computed upon total gross weights of the shipments and linings, less the foregoing allowance, but subject to the minimum carload weight provided by the tariff of the initial line.

The linings, if attached to the car and not removed therefrom, will be returned with the car to consignor without charge, when consignor so requests.

Minimum Charge for Iron Articles too long or too wide to be loaded through side doors of box cars.

6. The following Iron Articles, viz.:

Angle,	Crossings, girder, railroad,	Shafting,
Bar,	Girders,	Sucker Rods,
Beams,	Pipe, wrought iron (not riveted or in coils),	Tank (not Tanks).
Boiler (not Boilers),	Plate,	Telegraph Poles,
Bolts,	Poles, electric light or railway,	Trucks, turn-table, railroad,
Bridge,	Rails,	Tubing, seamless (U. S. Standard Gauge No. 15 or lower),
Columns,	Rods,	Turn-Tables, railroad,
Crossings, frog, railroad,		

when exceeding twenty-two (22) feet in length or too wide to be loaded in a standard thirty-six (36) foot box car through the side door thereof, and if all the articles are loaded together in one car, shall be charged at actual weight and class rate for each article, except that the minimum charge for each shipment shall be 1,000 pounds at first-class rate, and this minimum shall apply whether the articles are loaded in a box, stock, gondola or other car. If the shipment is loaded in two or more cars, the portion loaded in each car shall be treated as a separate shipment. If the shipment is of such length as to require two or more cars for transportation, Rule 20-a will apply.

EXPLANATION OF CHARACTERS.

The class as given opposite each article, 1, 2, 3, 4, 5 and 6 stands for First, Second, Third, Fourth, Fifth and Sixth Classes, respectively: 1 1-4 for Once and a quarter First Class. 1 1-2 for Once and a half First Class. D 1 for Double First Class. 2 1-2 for Twice and a half First Class. 3T1 for Three Times First Class. 4T1 for Four Times First Class (being the progression of classes above First Class). C. L., for Carloads. L. C. L., for Less Carloads. S. U., for Set Up. K. D., for Knocked Down. P. P., for prepaid. N. O. S., for Not Otherwise Specified. The Term "Nested" refers to a series of similar articles nested, or enclosed one within the other.

APPLICABLE TO

The Chesapeake and Ohio Railway Company Nelson and Albemarle Railway Company

Exception Sheet No. 3 to Virginia Classification No. 1

EFFECTIVE OCTOBER 1, 1907.

(Revised to December 31, 1913).

Minimum Carload Weights.

The minimum weight upon all property in carloads when loaded on flat or in gondola, stock or box cars shall be 30,000 pounds (actual weight to be charged for when in excess of the minimum weight), unless the marked capacity of the car is less, in which case the minimum weight will be the marked capacity of the car, unless otherwise specified in the Classification, with the following exceptions:

ARTICLES	MINIMUM WEIGHT
Blocks, cement, or Artificial Stone	40,000 lbs.
Brick, fire, paving and pressed.	40,000 "
Cement: In bags, straight carload.	38,000 "
In barrels, straight carload; or in barrels and bags, mixed carload.	40,000 "
Cinders.	40,000 "
Clay, fire and common.	40,000 "
Feldspar.	40,000 "

Unless the marked capacity of the car is less, in which case the minimum weight will be the marked capacity of the car.

Forest Products, as follows:

Lumber, Logs, Lath, Shingles, Shingle Bolts, Timber, Staves, Heading, Hoops, Hoop Poles, Billets, Blocks, Picture Backing, Basket Material, Piles, Fence Posts, Pickets, Telegraph Poles and Cross-Arms, Shooks, Box Stuff, Spokes, sawed or split, in the rough, Railroad Ties, Barrel Shooks, Cedar Posts, Stave Bolts, Timber, Hubs and Blocks, not trimmed, turned or boxed, Spoke and Handle Wood, Bolts, Wagon Material in the rough.....	34,000 lbs.
Lumber, dressed.....	
Logs and Unsawed Stock and Material in the rough, shipped to mills or manufacturers on line of this road, to be sawed or worked into finished stock for reshipment via this line.....	
Mine Timber, for furnaces and ore mines, Mine Props for coal mines and Lumber for coke car doors.....	
Chestnut Wood.....	
Pulp Wood or Billets.....	
Staves and Heading, common, to be used in making lime barrels.....	40,000 "
Gravel.....	36,000 "
Iron and Steel Articles, named in Virginia Classification under head of "Special Iron".....	25 gross tons
Iron, pig.....	40,000 lbs.
Plaster, calcined and wall.....	40,000 "
Sand.....	40,000 "
Slag, furnace.....	40,000 "
Slate roofing.....	36,000 "
Soapstone.....	
Stone, sawed, Flagging and Paving Blocks, rough building, rubble and crushed.....	40,000 "
Tar, coal and gas.....	36,000 "

		When the Minimum Carload Weight Provided in the Classification for the Article Shipped is:					Percentage Increase.
		15,000 lbs.,	14,000 lbs.,	12,000 lbs.,	10,000 lbs.,	8,000 lbs.,	
		charge not less than	charge not less than	charge not less than	charge not less than	charge not less than	
		lbs.	lbs.	lbs.	lbs.	lbs.	
Cars over 36 ft. 6 in. and not over 38 ft. 6 in. long		16,500	15,400	13,200	11,000	8,800	10
" 38 " 6 " " 40 " 6 " "		18,750	17,500	15,000	12,500	10,000	25
" 40 " 6 " " 42 " 6 " "		21,000	19,600	16,800	14,000	11,200	40
" 42 " 6 " " 44 " 6 " "		23,250	21,700	18,600	15,500	12,400	55

" 50 " 6 inches in length.....		37,500	35,000	30,000	25,000	20,000	150

Note.—The length of cars referred to in this Rule is based on the platform measurement of flat cars and inside measurement of all other cars, except that on refrigerator cars having ice boxes constructed in ends thereof extending from top of car partially to floor thereof the length shall be computed from the inward side of the ice box.

Part. Carloads. Issuance
of Receipts therefor.

Railroad agents at forwarding points will not sign shipping receipts bearing the notation "part carload lot" until shipping receipts for the whole carload have been presented and the freight received, in order that bill of lading may be obtained at the carload rate. Only one original bill of lading for the whole carload shall be issued.

EXCEPTION SHEET No. 3 TO VIRGINIA CLASSIFICATION No. 1—CONTINUED.

The following will govern, in place of Rule 18-b of the Classification:

When articles made subject in the body of the Classification to the provisions of this Rule are loaded in or on cars 36 feet 6 inches or less in length, they shall be charged at the minimum carload weights specified therefor in the Classification (actual weight to be charged for when in excess of the minimum weights). If such articles are loaded in or on cars exceeding 36 feet 6 inches in length, the minimum carload weights to be charged shall be in accordance with the following table (actual weight to be charged for when in excess of the minimum weights) (see Note.)

The platform measurement of flat cars and the inside measurement of other cars must be shown on manifests and transfer slips to connecting lines.

In no case will it be permissible to furnish a longer car and charge the minimum provided for a shorter car.

	When the Minimum Carload Weight Provided in the Classification for the Article Shipped is:					Percentage Increase.

Note.—The length of cars referred to in this Rule is based on the platform measurement of flat cars and inside measurement of all other cars, except that on refrigerator cars having ice boxes constructed in ends thereof extending from top of car partially to floor thereof the length shall be computed from the inward side of the ice box.

Part. Carloads. Issuance of Receipts therefor.

Railroad agents at forwarding points will not sign shipping receipts bearing the notation "part carload lot" until shipping receipts for the whole carload have been presented and the freight received, in order that bill of lading may be obtained at the carload rate. Only one original bill of lading for the whole carload shall be issued.

EXCEPTION SHEET No. 3 TO VIRGINIA CLASSIFICATION No. 1—CONTINUED.

Railroad agents at forwarding points will not receive property in carloads for distribution by railroad agents to two or more parties. Delivering agents will deliver property only to consignees thereof or to party presenting consignee's written order. Railroad agents at delivering points shall not in any way act as the representative of the consignor or consignee for the distribution of carload shipments.

The following Iron Articles, viz.:

Angle,	Crossings, girder, railroad,	Shafting,
Bar,	Girders,	Sucker Rods,
Beams,	Pipe, wrought iron (not riveted	Tank (not Tanks),
Boiler (not Boilers),	or in coils),	Telegraph Poles,

Bridge,	Poles, electric light or railway,	Tubing, seamless (U. S. Standard
Columns,	Rails,	Guage No. 15 or lower),
Crossings, frog, railroad,	Rods,	Turn-Tables, railroad,

when exceeding twenty-two (22) feet in length or too wide to be loaded in a standard thirty-six (36) foot box car through the side door thereof, and if all the articles are loaded together in one car, shall be charged at actual weight and class rate for each article, except that the minimum charge for each shipment shall be 1,000 pounds at first-class rate, and this minimum shall apply whether the articles are loaded in a box, stock, gondola or other car. If the shipment is loaded in two or more cars, the portion loaded in each car shall be treated as a separate shipment. If the shipment is of such length as to require two or more cars for transportation, Rule 20-a will apply.

On potatoes and other property perishable from frost where cars are lined by shippers, allowance for such linings will be made as follows:

1,000 pounds for shipments in box, ventilated or refrigerator cars.

Freight charges will be computed upon total gross weights of the shipments and linings, less the foregoing allowance, but subject to the minimum carload weight provided by the tariff of the initial line.

The linings, if attached to the car and not removed therefrom, will be returned with the car to consignor without charge, when consignor so requests.

Distribution of carload shipments.

Minimum Charge on Iron Articles too long or too wide to be loaded through side doors of box cars.

Allowance in Weight for Linings in Cars with Perishable Freight.

APPLICABLE TO
Norfolk and Western Railway Company
Virginia-Carolina Railway Company
The Virginian Railway Company

Exception Sheet No. 4 to Virginia Classification No. 1

EFFECTIVE OCTOBER 1, 1907.
 (Revised to December 31, 1913).

Exceptions to Rules 18-b, 19-b and 22 of Virginia Classification No. 1

Rules 18-b, 19-b and 22 of Virginia Classification No. 1 are hereby changed to read as follows, applicable to all class and commodity rates named in tariffs governed by this Exception Sheet:

Minimum carload weights.

18. (b) Unless otherwise specified in the Classification or in this Exception Sheet, the minimum carload weight of all articles shall be 30,000 pounds or fifteen tons where the rate applies per net or gross ton, except that classes N, O and P apply per car of 20,000 pounds, excess loaded in same car to be charged for in proportion.

The minimum carload weights of the articles named below will be:

Blocks, building or paving, cement or concrete.....	40,000 lbs.
Brick, fire, paving and pressed.....	40,000 "
Cinders.....	40,000 "
Clay, common and fire.....	40,000 "
Feldspar.....	40,000 "
Iron and Steel articles named in Virginia Classification under head of "Special Iron".....	36,000 "
Iron, pig.....	25 gross tons.
Lumber and articles taking lumber rates.....	34,000 lbs.

Slag, furnace.....	40,000 lbs.
Slate, roofing.....	40,000 "
Soapstone.....	40,000 "
Tar, coal and gas.....	40,000 "

When a minimum carload weight of more than 24,000 pounds is specified, such minimum will apply regardless of the length of the car used.

When a minimum carload weight of 24,000 pounds or less is specified, such minimum will apply when cars of 36 feet 6 inches in length or less are used; but when cars exceeding 36 feet 6 inches in length are used, the minimum carload weight shall be increased in accordance with the following table:

LENGTH OF CARS.	When the minimum carload weight provided in the Classification for the article shipped is:										Percentage Increase.
	24,000 lbs.,	20,000 lbs.,	18,000 lbs.,	16,000 lbs.,	15,000 lbs.,	14,000 lbs.,	12,000 lbs.,	10,000 lbs.,	8,000 lbs.,		
	charge not less than	charge not less than	charge not less than	charge not less than	charge not less than	charge not less than	charge not less than	charge not less than	charge not less than		
Over 36 ft. 6 in. and not over 38 ft. 6 in.	Lbs. 26,400	Lbs. 22,000	Lbs. 19,800	Lbs. 17,600	Lbs. 16,500	Lbs. 15,400	Lbs. 13,200	Lbs. 11,000	Lbs. 8,800	10

" 44 " 6 "	39,600	33,000	29,700	26,400	24,750	23,100	19,800	16,500	13,200	65	
" 46 " 6 "	40,800	34,000	30,600	27,200	25,500	23,800	20,400	17,000	13,600	70	
" 48 " 6 "	43,200	36,000	32,400	28,800	27,000	25,200	21,600	18,000	14,400	80	
" 50 " 6 in. in length.....	60,000	50,000	45,000	40,000	37,500	35,000	30,000	25,000	20,000	150	

Actual weight must be charged for when in excess of the minimum weight.

The length of cars referred to in this Rule is based on the platform measurement of flat cars and inside measurement of all other cars.

Railroad agents at forwarding points will not sign shipping receipts bearing the notation "part carload lot" until shipping receipts for the whole carload have been presented and the freight received, in order that bill of lading may be obtained at the carload rate. Only one original bill of lading for the whole carload shall be issued.

Part carloads. Issuance of Receipts therefor.

EXCEPTION SHEET No. 4 TO VIRGINIA CLASSIFICATION No. 1—CONTINUED.

Distribution of carload shipments.

Railroad agents at forwarding points will not receive property in carloads for distribution by railroad agents to two or more parties. Delivering agents will deliver property only to consignee thereof or to the party presenting consignee's written order. Railroad agents at delivering points shall not in any way act as the representative of the consignor or consignee for the distribution of carload shipments.

Mixed carloads and articles for which no carload ratings are shown.

19. (b) When no carload rate is specified for an article, the L. C. L. rate shall be charged for any quantity of the articles.

When a number of different articles of the same class in carloads are shipped at one time by one consignor to one consignee and destination, in mixed carloads, they are to be taken at the rate per 100 pounds for such class, and at the highest minimum carload weight provided for any one of the articles; actual weight to be charged for if, in the aggregate, it is in excess of the minimum weight.

If the articles are of more than one class when in straight carloads, the carload rate and the minimum weight attaching to such rate for the highest classed article, or articles, that make up the mixed carload is to be charged; the actual weight to be charged for if the actual aggregate weight of all the articles is in excess of the minimum weight; excepting as provided in Rule 20 (a) of the Classification.

22. An allowance of 500 pounds weight will be made for Racks, Standards, Strips and Supports on flat or gondola cars, if loaded with freight requiring their use, In box, ventilated or refrigerator cars, loaded with perishable property, 1,000 pounds weight will be allowed for linings when placed in cars by consignors, provided that in no case shall less than the specified minimum carload weights be charged for the property for which either racks or linings are furnished. At carrier's option, the racks or linings, if attached to the car and not removed, may be returned to consignor with the car without charge; if removed and returned to consignor, they shall be charged fourth-class rates. In case consignor does not wish to have linings returned, the following notation should be made on way-bills: "Linings to be delivered to consignee." Consignors must indicate to agent at forwarding station whether they desire linings returned to them or not, and if to be returned, the agent at forwarding station will note on the way-bill: "Return linings to (give name and address). Return charges guaranteed by consignors on linings removed from car."

Allowance in weight for racks, etc., on flat cars and linings in box cars loaded with perishable property.

Live Stock L. C. L., (applicable only on shipments to or from stations on Norfolk & Western Railway or the The Virginian Railway):		
Sheep, Lambs and Hogs, L. C. L., loose; not taken.		
Lumber:		
Loose, under one inch in thickness	2	
Loose, one inch or over in thickness	J	
In bundles, crates or boxes, any thickness	J	
Lye, concentrated:		
Applicable to shipments from Saltville, Va., only		6

Hand Furniture and signed by same: "The consignor of this property has the option of shipping same at a higher rate without limitation as to value in case of loss or damage from causes which would make the carrier liable, but agrees to the specified valuation named in case of loss or damage from causes which would make the carrier liable, because of the lower rate thereby accorded for transportation."

NOTE 2.—When Live Stock is shipped with carloads of Household Goods, etc., all stock in excess of five head will be treated as a separate shipment and charged for at the L. C. L. rates provided for same in the Virginia Classification. When a car contains Horses, Mules or Cattle, one man in charge will be carried free, and in such case agents will use the Uniform Live Stock Contract. No free return passage to be given. Extra attendants (more than one) will be charged the regular passenger fare.

NOTE 3.—Paintings, Silverware, Bric-a-Brac, etc., of value, will not be accepted by carriers for transportation at the classification for Household Goods and Emigrants' Movables; such articles being properly subject to the classification specifically provided therefor.

Husks; see Hay.

I

Iron and Steel Articles (see Notes 1 and 2):

NOTE 1.—Shipping receipts for L. C. L. must have noted thereon the number of pieces and packages comprising the shipments.

NOTE 2.—The following articles, viz.:

Angle	Plate
Bar	Poles, electric light or railway
Beams	Rails
Boiler (not Boilers)	Rods
Bolts	Shafting
Bridge	Sucker Rods
Columns	Tank (not Tanks)
Crossing, frog, rail-road	Telegraph Poles
Crossings, girder, rail-road	Trucks, turn-table, railroad
Girders	Tubing, seamless (U. S. Standard Gauge No. 15 or lower)
Pipe, wrought iron (not riveted or in coils)	Turn-tables, railroad

Exception Sheet No. 5 to Virginia Classification No. 1

EFFECTIVE OCTOBER 1, 1907

(Revised to December 31, 1913)

RULES AND SPECIAL INSTRUCTIONS.

Minimum carload weight.

1. The minimum weight upon all property in carloads when loaded on flat or in gondola, stock or box cars shall be 30,000 pounds (actual weight to be charged for when in excess of the minimum), unless the marked capacity of the car is less, in which case the minimum weight will be the marked capacity of the car, unless otherwise specified in the Classification.

EXCEPTION SHEET No. 5 TO VIRGINIA CLASSIFICATION No. 1—CONTINUED.

When a minimum carload weight of 24,000 pounds or less is specified, such minimum will apply when cars of 36 feet 6 inches in length or less are used, but when cars exceeding 36 feet 6 inches in length are used the minimum carload weight shall be increased in accordance with the following table (actual weight to be charged when in excess of the minimum weight):

		When the Minimum Carload Weight Provided in the Classification for the Article Shipped is:				Percentage Increase.
		24,000 lbs.,	20,000 lbs.,	18,000 lbs.,	16,000 lbs.,	
		charge not less than	charge not less than	charge not less than	charge not less than	
		lbs.	lbs.	lbs.	lbs.	
Cars over 36 ft. 6 in. and not over 38 ft. 6 in. long.....		26,400	22,000	19,800	17,600	10
" 38 " 6 " 40 " 6 "		30,000	25,000	22,500	20,000	25
" 40 " 6 " 42 " 6 "		33,600	28,000	25,200	22,400	40
" 42 " 6 " 44 " 6 "		37,200	31,000	27,900	24,800	55
" 44 " 6 " 46 " 6 "		39,600	33,000	29,700	26,400	65

" 50 " 6 inches in length.....		60,000	50,000	45,000	40,000	150

		When the Minimum Carload Weight Provided in the Classification for the Article Shipped is:					Increase.
		15,000 lbs.,	14,000 lbs.,	12,000 lbs.,	10,000 lbs.,	8,000 lbs.,	
		charge not less than	charge not less than	charge not less than	charge not less than	charge not less than	percentage
		lbs.	lbs.	lbs.	lbs.	lbs.	
Cars over 36 ft. 6 in. and not over 38 ft. 6 in. long.		16,500	15,400	13,200	11,000	8,800	10
" 38 " 6 "	40 " 6 "	18,750	17,500	15,000	12,500	10,000	25
" 40 " 6 "	42 " 6 "	21,000	19,600	16,800	14,000	11,200	40
" 42 " 6 "	44 " 6 "	23,250	21,700	18,600	15,500	12,400	55
" 44 " 6 "	46 " 6 "	24,750	23,100	19,800	16,500	13,200	65
" 46 " 6 "	48 " 6 "	25,500	23,800	20,400	17,000	13,600	70
" 48 " 6 "	50 " 6 "	27,000	25,200	21,600	18,000	14,400	80
" 50 " 6 inches in length.		37,500	35,000	30,000	25,000	20,000	150

Note.—The length of cars referred to in this Rule is based on the platform measurement of flat cars and inside measurement of all other cars, except that on refrigerator cars having ice-boxes constructed in ends thereof extending from top of car partially to floor thereof the length shall be computed from the inward side of the ice-box.

2. Railroad agents at forwarding points will not sign shipping receipts bearing the notation "part carload lot" until shipping receipts for the whole carload have been presented and the freight received, in order that bill of lading may be obtained at the carload rate. Only one original bill of lading for the whole carload shall be issued.

3. Railroad agents at forwarding points will not receive property in carloads for distribution by railroad agents to two or more parties. Delivering agents will deliver property only to consignees thereof or to party presenting consignee's written order. Railroad agents at delivering points shall not in any way act as the representative of the consignor or consignee for the distribution of carload shipments.

Part. Carloads. Insurance
of Receipts therefor.

Distribution of carload
shipments.

EXCEPTION SHEET No. 5 TO VIRGINIA CLASSIFICATION No. 1—CONTINUED.

Rule for charging freight on mixed carloads.

4. When a number of different articles of the same class in carloads are shipped at one time by one consignor to one consignee and destination, in mixed carloads, they are to be taken at the rate per 100 pounds for such class, and at the highest minimum carload weight provided for any of the articles; actual weight to be charged for if, in the aggregate, it is in excess of the minimum weight.

If the articles are of more than one class when in straight carloads, the carload rate and the minimum weight attaching to such rate for the highest classed article, or articles, that make up the mixed carload is to be charged; the actual weight to be charged for if the actual aggregate weight of all the articles is in excess of the minimum weight, excepting as provided in Rule 20-a of the Classification.

Allowance in weight for linings in cars with perishable freight.

5. On potatoes and other property perishable from frost when cars are lined by shippers, allowance for such linings will be made as follows:

1000 pounds for shipments in box, ventilated or refrigerator cars.

Freight charges will be computed upon total gross weights of the shipments and linings, less the foregoing allowance, but subject to the minimum carload weight provided by the tariff of the initial line.

The linings, if attached to the car and not removed therefrom, will be returned with the car to consignor without charge, when consignor so requests.

Minimum charge on Iron Articles too long or too wide to be loaded through side doors of box cars.

6. The following Iron Articles, viz.:

Angle,	Crossings, girder, railroad,	Shafting,
Bar,	Girders,	Sucker Rods,
Beams,	Pipe, wrought iron (not riveted	Tank (not Tanks),
Boiler (not Boilers),	or in coils),	Telegraph Poles,
Bolts,	Plate,	Trucks, turn-table, railroad
Bridge,	Poles, electric light or railway,	Tubing, seamless (U. S. Standard
Columns,	Rails,	Guage No. 15 or lower),
Crossings, frog, railroad,	Rods,	Turn-Tables, railroad,

when exceeding twenty-two (22) feet in length or too wide to be loaded in a standard thirty-six (36)

foot box car through the side door thereof, and if all the articles are loaded together in one car, shall be charged at actual weight and class rate for each article, except that the minimum charge for each shipment shall be 1,000 pounds at first-class rate, and this minimum shall apply whether the articles are loaded in a box, stock, gondola or other car. If the shipment is loaded in two or more cars, the portion loaded in each car shall be treated as a separate shipment. If the shipment is of such length as to require two or more cars for transportation, Rule 20-a will apply.

Same, C. L.....	5		
Outlery, not plated, packed.....	1		

Notes 1.—When shipments of Live Stock are in carloads, should there be an excess of stock over one or more full carloads, the excess must be charged for at the L. C. L. rate at the established estimated weight for L. C. L. shipments, observing the carload rate as the maximum.

Notes 2.—These ratings include passage one way of attendants in charge of carload shipments, no more than one

APPLICABLE TO

Richmond, Fredericksburg and Potomac Railroad Co. Washington Southern Railway Co.

Exception Sheet No. 9 to Virginia Classification No. 1

EFFECTIVE OCTOBER 1, 1907

(Revised to December 31, 1913)

RULES.

Distribution of carload shipments.

Railroad agents at forwarding points will not receive property in carloads for distribution by railroad agents to two or more parties. Delivering agents will deliver property only to consignee thereof or to the party presenting consignee's written order. Railroad agents at delivering points shall not in any way act as the representative of the consignor or consignee for the distribution of carload shipments.

Rule for charging freight on mixed carloads.

When a number of different articles of the same class in carloads are shipped at one time by one consignor to one consignee and destination, in mixed carloads, they are to be taken at the rate per 100 pounds for such class, and at the highest minimum carload weight provided for any one of the articles; actual weight to be charged for if, in the aggregate, it is in excess of the minimum weight.

If the articles are of more than one class when in straight carloads, the carload rate and the minimum weight attaching to such rate for the highest classed article, or articles, that make up the mixed carload is to be charged; the actual weight to be charged for if the actual aggregate weight of all the articles is in excess of the minimum weight, excepting as provided in Rule 20-a of the Classification.

Allowance in weight for linings in cars with perishable freight.

On potatoes and other property perishable from frost, where cars are lined by shippers, allowance for such linings will be made as follows: 1,000 pounds for shipments in box, ventilated or refrigerator cars.

Freight charges will be computed upon total gross weights of the shipments and linings, less the foregoing allowance, but subject to the minimum carload weight provided by the tariff of the initial line.

The linings, if attached to the car and not removed therefrom, will be returned with the car to the consignor without charge, when consignor so requests:

Minimum charge for Iron Articles too long or too wide to be loaded through side doors of box cars.

The following Iron Articles, viz.:

Angle,	Crossings, girder, railroad,	Shafting,
Bar,	Girders,	Sucker Rods,
Beams,	Pipe, wrought iron (not riveted	Tank (not Tanks),
Boiler(not Boilers),	or in coils),	Telegraph Poles,
Bolts,	Plate,	Trucks, turn-table, railroad,
Bridge,	Poles, electric light or railway,	Tubing, seamless (U. S. Standard
Channels,	Rails,	Guage No. 15 or lower),
Columns,	Rods,	Turn-Tables, railroad,
Crossings, frog, railroad,		

when exceeding twenty-two (22) feet in length or too wide to be loaded in a standard thirty-six (36) foot box car through the side door thereof, and if all the articles are loaded together in one car, shall be charged at actual weight and class rate for each article, except that the minimum charge for each shipment shall be 1,000 pounds at first-class rate, and this minimum shall apply whether the articles are loaded in a box, stock, gondola or other car. If the shipment is loaded in two or more cars, the portion loaded in each car shall be treated as a separate shipment. If the shipment is of such length as to require two or more cars for transportation, Rule 20-a will apply.

EXCEPTION SHEET No. 9 TO VIRGINIA CLASSIFICATION No. 1—CONTINUED.

ARTICLES	CLASS
Animals, wild:	
The rating shown in Virginia Classification will not apply to, from or between points on the Richmond, Fredericksburg and Potomac Railroad and the Washington Southern Railway, nor on such shipments passing over these lines. Wild Animals will be handled thereon only under special contract.	
Barrels, empty, old, viz.:	
Apple, cement, fish, flour, vegetable and sugar, actual weight, L. C. L.	3
Baskets, berry and truck, nested or crated, L. C. L.	2
Building Material, C. L.:	
Rating of Virginia Classification applies also on mixed carloads that include Brick, loose or packed. Explosives:	
The minimum charge on any shipment of High Explosives will be \$2.00.	
See Rules governing the transportation of High Explosives.	
Hay, Straw and Shucks, pressed in bales, L. C. L.	J
Same, C. L., minimum weight 20,000 pounds.	K
Hogsheads, tobacco, empty, returned at estimated weight 150 pounds each, L. C. L.	2
Household Goods, L. C. L.	1
Live Stock, C. L., viz.:	
Horses and Mules, minimum weight 20,000 pounds.	3
Cattle and Calves, " 20,000 "	5
Hogs, single deck, " 16,000 "	4
Hogs, double deck, " 22,000 "	4
Sheep, single deck, " 14,000 "	3
Sheep, double deck, " 18,000 "	3
Poultry, live, in coops or crates, minimum weight per package 50 pounds; no charge less than 25 cents.	D1
Sumac Leaves, in bags or bales, L. C. L.	2
Same, C. L., minimum weight 16,000 pounds.	D

NOTE 1.—Live Stock, carloads.

Rates on Live Stock, carloads, are subject to the following minimum weights, viz.:

Horses, Mules and Cattle.....	20,000 pounds.
Hogs, single deck.....	16,000 pounds.
Hogs, double deck.....	22,000 pounds.
Sheep, single deck.....	14,000 pounds.
Sheep, double deck.....	18,000 pounds.

NOTE 2.—Articles taking Lumber rates:

Box Materials or Shooks, wooden, for the manufacture of packing cases or crates (not including cigar box material).	Heading Bolts, Hoops, wooden, Hoop Poles, Hop Poles, Kindling (manufactured of sawdust, pitch etc.).	Posts (wooden), fence, Shingles and Shingle Bolts, Siding.
Building Material (wooden), consisting of—	Kindling (wooden), Laths (wooden), Logs (except woods of value),	Shooks, barrel, box, cask or hoghead.
Base Boards, Casings, Ceiling, Siding, Flooring, Moulding, Wainscoting, Cooperage Stock, Heading.	Lumber (except woods of value, cigar box material or other decorative lum- ber), Paving Blocks (wooden), Pickets, Piles,	Spoke Timber, in the rough Slabs (wooden), Staves and Stave Bolts, Telegraph Cross Arms (without pins), Telegraph and Telephone Poles.
		Ties (wooden), cross, Timber, N. O. S., Wagon Material, in the rough.

NOTE 3.—Carload minimum on Wood:

When loaded in cars with marked carrying capacity of 50,000 pounds or less, 11 cords.

When loaded in cars with marked carrying capacity of over 50,000 pounds, 12 cords.

When cars contain more than above minima, excess will be charged for in proportion

List of Commodities on which Table of Rates No. 3 applies.

(Rule 16 of Virginia Classification not to apply.)

SPECIAL CLASSIFICATION TO BE USED IN CONNECTION WITH TABLE OF RATES No. 3.

The minimum carload weights named in this Table of Rates will govern, unless the marked capacity of the car is less, in which case the minimum weight will be the marked capacity of the car.

Carload minimum weight 30,000 pounds, except where otherwise shown herein.

ARTICLES	CLASS	NOTE	ARTICLES	CLASS	NOTE
Ashes, wood or coal.	DD	1	Forest Products as follows.—Con.	AA	4
Asphaltum.	CC	2	Lumber, dressed, C. L. minimum weight 34,000 pounds.	HH	1-3
Barytes.	CC	2	Loops, and Crashed Stock and Materials in the rough, shipped to mills of manufacturers on this road, to be sawed or worked into finished stock for re-shipment via this line, C. L. minimum weight 34,000 pounds.	HH	1-3
Blocks, building or paving, cement or concrete, C. L. minimum weight 40,000 pounds (L. C. L. rates apply when shipped loose in quantities of 10,000 pounds or more).	CC	2	Mine Timber for furnaces and ore mines, Mine Props for coal mines, and Lumber for coke car doors, C. L. minimum weight 34,000 pounds.	HH	1-3
Bones.	BB	2	Stick Bark, consigned to manufacturing plants along this line, from which the manufactured product is shipped out over this line, carload minimum weight 24,000 pounds (see Note).	EE	1-3
Bone Dust.	BB	2	Note.—When the cars furnished to shippers are so small that, when fully loaded with Stick Bark, the weight of such lading is less than 24,000 pounds, freight is to be charged on the actual weight, subject in such cases to the minimum weight of 20,000 pounds.	FF	1
Brick, building, common clay (see Note), C. L.: Minimum—When loaded in cars of— Capacity 60,000 pounds or less, 10,000 brick. Capacity 80,000 pounds and over 60,000 pounds, 14,000 brick. Capacity 100,000 pounds and over 80,000 pounds, 16,000 brick.	JJ		Stick Bark, other than described above, will be charged 20 per cent. higher than "Class EE". Fire Wood, per cord, 128 cubic feet.		
Note.—When a car of certain capacity is ordered for loading and the railway company for its own convenience furnishes a car of greater capacity, the carload minimum applicable to car of capacity ordered will be charged, unless the number of brick is greater than the prescribed carload minimum for car ordered, in which event charge will be made for actual number of brick loaded in car.			Agents will be governed by the following instructions in loading and way-billing fire wood: When marked capacity of box car is 60,000 pounds (old series) or less, charge freight on a minimum of 10 cords; 60,000 pounds (new series, Nos. 7,000 to 9,999), 11 cords.		
Brick, common clay, L. C. L. (C. L. rates apply on Common Clay Building Brick when shipped loose in quantities of 10,000 pounds or more).	CC	2	When marked capacity of gondola car is 40,000 lbs.		
Brick, fire, C. L. minimum weight 40,000 pounds.	CC	2			
Brick, paving, C. L. minimum as follows: For cars less than 60,000 pounds marked capacity, 6,000 bricks.	NN				

FREIGHT TARIFF.

499

For cars of 80,000 pounds marked capacity, 7,000 brick.	BB	2	charges freight on a minimum of 10 cords; 50,000 pounds or 60,000 pounds, 11 cords; 80,000 pounds, 13 cords.
For cars of 90,000 pounds marked capacity, 9,000 brick.	BB	2	All stock cars, 10 cords; all flats, 12 cords.
For cars of 100,000 pounds marked capacity, 10,000 brick.	BB	2	The measurements of a cord of wood referred to are as follows: 4 feet high, 4 feet wide, and 8 feet long, viz.: 128 cubic feet per cord. Forwarding agents should measure the wood after it is loaded on cars and bill shipments accordingly, and not to the above measurements.
Building Material, in mixed carload (see Note), consisting only of	II		Chert, Flint, Wood, C. L. minimum 34,000 pounds.
Brick, common or pressed, and the following wooden articles:			Pulp Wood, Logs or Billets, C. L. minimum weight 34,000 pounds.
Lath.			Shavings and Heading, common, to be used in making lime barrels; C. L. minimum weight 34,000 pounds (supplies only on shipments destined to Eagle Mountain, Indian Rock, Lexington, Natural Bridge and Staunton).
Bases,			Flour Sifts.
Mantels, plain,			Grain and Grain Products, C. L. viz.:
Mouldings,			Bran, in bulk.
Blinds,			Buckwheat Flour,
Newel Posts,			Corn Flour,
Capitals,			Corn Meal,
Castings,			Cracked Corn,
Scroll Work,			Cracked Wheat,
Shingles,			Flour,
Frames, window and			Grits,
Stair Work,			Groats,
Wainscoting,			Ground Corn,
Carload minimum weight 17,000 pounds.			Hominy.
Note.—This rating will not apply on straight or mixed carloads of Sash, Doors and Blinds only.			Gravel, C. L. minimum weight 40,000 pounds.
Cake Salt.	BB	2	Gypsum.
Cement, building and not otherwise specified, C. L. minimum weight 40,000 pounds.	QQ	2	Hay in bales, C. L. minimum 20,000 pounds.
Charcoal, C. L. minimum weight 20,000 pounds.	CC	2	Ice, C. L. minimum 24,000 pounds.
Cinders, brick, pyrites or mill per gross ton 2,240 pounds, same as 2,000 pounds, C. L. minimum weight 40,000 pounds.	DD	1	Iron—Scrap Iron, Scrap Steel and Scrap Tin, C. L. minimum weight 36,000 pounds.
Clay, C. L. minimum weight 40,000 pounds.	CC	2	Old Car Wheels and Axles and Old Rails, C. L. minimum weight 36,000 pounds.
Coal, anthracite or bituminous.	CC	2	Mixed carloads Rags, Bones and Scrap Iron.
Coal Tar.	CC	2	Knoelin.
Coppers.	CC	2	Lime, agricultural, C. L. minimum weight 24,000 pounds.
Crocks, in wood.	CC	2	Lime, building (when in barrels, estimated weight 185 pounds per barrel), C. L. minimum 24,000 pounds.
Drain Tile, Earthen Chimney or Flue Trough, Pipe Bonnets, or Flue Crocks, C. L. minimum weight 40,000 pounds.	BB	2	Lime, chemical, C. L. minimum 24,000 pounds.
Feldspar, C. L. minimum weight 40,000 pounds.	BB	2	Limestone; see Rock and Stone.
Fertilizer.	LL	2	Live Stock, C. L., see Table of Rates No. 2.
Fertilizer Material.	LL	2	Manure, C. L. minimum 40,000 pounds.
Fodder, in bales, C. L. minimum weight 20,000 pounds.	AA	4	Marl.
Forest Products as follows:			Paving Blocks, street.
Lumber, Logs, Lath, Shingles, Shingle Bolts, Timber, Staves, Heading, Hoops, Hoop Poles, Billets, Blocks, Picture Backing, Basket Material, Piles, Fence Posts, Pickets, Telegraph Poles and Cross-arms, Shooks, Box Stuff, Spokes, shooks or split in the rough, Railroad Ties, Barrel Shooks, Cedar Posts, Stave Bolts, Timber, Hubs and Blocks, not trimmed, turned or boxed, Spoke and Handle Wood, Bolts, Wagon Material in the rough, C. L. minimum weight 34,000 pounds.			Phosphates.
			Pitch, in barrels.
			Plaster of Paris, stucco or adamant.
			Plaster, wall, C. L. minimum weight 40,000 pounds.

Slate, roofing, C. L. minimum weight 40,000 pounds.	CC	2			
Soda Ash.	CC	2			
Soda, caustic, in iron casks.	CC	2			

Note 1.—Taken only in carloads.

Note 2.—When in less than carloads, in packages.

Note 3.—Agents at shipping points must not quote these rates in bills of lading or way-bills, but if product is to be reshipped, agent at destination after satisfying himself of same, may issue correction to Auditor only, based on Class HH for the Logs and Unswed Stock and Material, and Class EE for the Stick Bark. Minimum charge \$5.00 per car. Classes EE and HH will not apply on shipments destined to points on connecting lines.

Note 4.—Apply Class Rates on less than carload shipments.

Roofing Slate, loose, in quantities of 5,000 pounds or more, will be accepted at the current Class CC rates. Less than the above quantity, if shipped loose, the rates to be 20 per cent. higher than Class CC.

Carload rates apply on shipments in barrels or in bulk; less than carload rates apply on shipments in barrels.

Class AA rates shown in this Tariff will also apply on Walnut and Cherry Logs and Walnut and Cherry Lumber, but will not apply on Woods of value, Cigar Lumber or Decorative Lumber.

NEW RIVER, HOLSTON AND WESTERN RAILROAD COMPANY—
COMMODITY RATES—CONTINUED.

NOTE 2.—Carload Minima for Firewood, Coke Slabs, Mine Props, Extract Wood and Pulp Wood:

Cars of 60,000 pounds capacity and under	12 cords.
Cars of 70,000 pounds capacity	13 cords.
Cars of 80,000 pounds capacity	14 cords.
Cars of 90,000 pounds capacity	15 cords.
Cars of 100,000 pounds capacity	16 cords.

RULES FOR HANDLING LIVE STOCK.

1. This company will not receive for transportation, Live Stock, in mixed carloads, without separation by strong partition, to be erected at the expense and risk of the shipper, under the direction of the Agent, and without damage to or alteration of the design of car.

2. Carloads of Live Stock, except as specifically stated in Paragraph 3, below, will be accepted in single deck cars only.

3. Only Sheep, Goats, Hogs or Calves (and only Calves small enough to stand erect in either deck free from contact with framing above), may be loaded in both decks of double deck cars. In loading mixed carloads of these animals, the Hogs must be kept separate from the other animals by loading on different deck. Partitions will not be allowed in double deck cars.

4. Bulls, when accompanying mixed cars of Cattle, must be securely tied with a rope not less than $\frac{3}{4}$ inch in diameter.

5. Shippers must carefully examine all cars furnished for the transportation of Live Stock, and particular care must be exercised to see that the inside of the car is free from protruding nails or spikes and that the body, floor, and doors, are in proper condition for the safe transportation of the consignment, in accordance with the provisions of the Uniform Live Stock Contract.

6. In loading sheep or lambs one hundred and twenty to a deck is considered a full load, but in order that no hardship may be worked on a shipper by leaving three, four or a half-dozen lambs or sheep at a station behind the individual shipment, agents are authorized to accept sheep or lambs loaded in excess of one hundred and twenty per deck, but not exceeding one hundred and thirty per deck in any case. Where more than one hundred and twenty sheep or lambs are loaded to a deck the agent will, in every case, call the shipper's attention to these regulations, and after doing so place notation on Live Stock Contract, as well as the revenue way-bill, as follows: "Animals Overcrowded by Shipper—Agent's protest disregarded."

This regulation is adopted solely for the purpose of preventing the crowding of animals into cars so as to cause suffering, injury and loss of life to the animals, and has no connection with the tariff minimum weight. It is the desire of the Railway Company that shipper fully load cars; but Live Stock must not be crowded to such an extent as may result in cruelty, suffering and injury to the animals thereby causing a violation of the law.

7. There are only a limited number of double-decked cars, and they cannot always be supplied when wanted by shippers. In such cases shippers may use single-deck cars, or put in "declining" at their own risk and expense.

8. Live Stock will only be taken at the released rates fixed in this tariff when the Company's form of Live Stock Contract for the shipment has been executed by the shipper and Station Agent at the point from which shipped. If shippers decline to execute the Live Stock Contract and release, the current first-class rate must be charged, and value limited to \$1,200 per car.

9. In compliance with United States and State Statutes, in matter of care of Live Stock in transit, the date and hour of loading Live Stock must be noted by agents on contract or bills of lading, and on manifest; and whenever the time involved in transportation exceeds that fixed by law as the maximum interval between feeding and watering, viz.: 28 consecutive hours, note "the right to feed and water the stock, in conformity with law, at owner's expense, is reserved by the Company," if this duty remains unperformed by the attendant, or if said stock is unaccompanied by attendant.

10. One attendant is entitled to free passage with each car of Live Stock on the New River, Holston and Western Railroad.

NEW YORK, PHILADELPHIA AND NORFOLK RAILROAD COMPANY.

Freight Tariff, revised to December 31, 1913.

Iron and Steel Articles on which Rates as per Groups "C C" and
"D D" apply.

Minimum carload weight 36,000 pounds, except where otherwise shown in
Notes F, G, H, and I below.

Angle.	Chain Iron (not iron chain), in coils, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Annealing Boxes, tops and bottoms, cast iron or steel, in the rough, C. L.	Chain or Chain Cable, made of $\frac{1}{2}$ inch iron or over, loose.
Annealing Pots (iron or steel), C. L.	Chain or Chain Cable, in packages.
Arch Bars.	Chain or Chain Cable, loose, C. L.
Arches, floor, corrugated, in sections, nested.	Chain or Link Belting (iron or steel) in barrels.
Axe Polls, in the rough.	Chain or Link Belting, when shipped in bundles, wired together, weighing 15 pounds or more, C. L.
Axles, new.	Chairs, railroad.
Axles, car, old, carloads, per gross ton 2,240 pounds same as 2,000 pounds (Note F.)	Channels.
Band.	Cinder, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Bar (Note A).	Columns.
Beams.	Conduit Pipe, wrought iron.
Billets, N. O. S.	Corner Irons, car.
*Billets, L. C. L.	Cotton Ties.
*Billets, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).	Cotton Tie Buckles, in barrels or boxes, L. C. L.
Black Plate.	Cotton Tie Buckles, C. L.
Blooms, N. O. S.	Crop Ends, in packages, L. C. L.
*Blooms, L. C. L.	Crop Ends, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
*Blooms, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).	Culverts, cast or wrought.
Boiler.	Culverts, corrugated or plain, knocked down; nested.
Boiler Flues, welded.	Drawbars.
Bolts, bridge or barge, 12 inches or over in length, loose.	Drawheads.
Bolts, in boxes, kegs, or in bulk in gunny bags.	Ferro-Manganese, L. C. L.
Bolts, lag, in boxes, kegs, or in bulk in gunny bags.	Ferro-Manganese, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Boring, iron or steel, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).	Ferro Silicon, L. C. L.
Box Straps, in packages.	Ferro Silicon, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Brake Beams.	Fish Plates, railroad.
Brake Jaws, wrought iron.	Fittings, pipe—(Note B).
Brake Shafts or Rods.	Railway car (or parts) N. O. S., stamped, pressed or forged; not put together, fitted, painted, japanned, bronzed, coppered, acid-coppered, plated, tinned or galvanized: In boxes, barrels, or in bulk in gunny bags; Loose, each weighing 15 pounds or over; securely wired together in bundles, weighing 15 pounds or over per bundle (Note B).
Brake Shoes.	Flumes, corrugated or plain, knocked down; nested.
Brick Bonds or Wall Ties, in boxes or barrels.	Forgings, same as Castings.
Bridge.	Frogs, railroad.
Bumpers.	Frog Fillers.
Car Bolsters.	Galvanizing Pots and Pans (iron or steel), C. L.
Car Bolster Bearings, in packages.	Girders.
Car Bolster Caps.	Grate Bars.
Car Couplers.	Hay Bands, in bundles.
Car Couplers Knuckles.	Hoop.
Car Sides, Ends, Floors and Carlines (car roof supports), pressed steel.	Hoops, wire, in bundles.
Car Sills (pressed steel), riveted together in underframes.	Horse, Mule or Ox Shoes, in boxes or kegs, actual weight.
Car Stakes, pressed steel.	Ingot Moulds (Note G).
Car Stakes (tubular steel).	Ingots, L. C. L.
Car Truck Frames.	Ingots, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Car Wheel Tires (iron or steel).	Journal Boxes and Covers, car.
Castings, C. L. (Note B).	Leaded Sheet Iron or Steel.
Castings, each weighing 15 pounds or over L. C. L. (Note B).	Links and Pins.
Castings, securely wired together, in bundles weighing 15 pounds or over, per bundle L. C. L. (Note B).	Locomotive Wheels and Tires.
Castings, in barrels or boxes, L. C. L. (Note B).	
Castings, in bulk in gunny bags, L. C. L. (Note B).	
Castings, malleable, same as Castings.	
Castings, stove, in barrels, boxes, or in bulk in gunny bags (Note C).	
Cattle Guards.	
Center Plates, car.	
Chain Iron (not iron chain), in coils, L. C. L.

Minimum carload weight 36,000 pounds, except where otherwise shown in
Notes F, G, H, and I, below.

Locks, car coupler.	†Slabs, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Muck or Puddle Bars, L. C. L.	†Not Rails, old; same as Rails, old.
Muck or Puddle Bars, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).	Spiegel Iron or Spiegeleisen, L. C. L.
Nail Plates.	Spiegel Iron or Spiegeleisen, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Nails, in bulk in gunny bags.	Spikes, in boxes or kegs, actual weight.
Nails, in boxes or kegs, actual weight.	Spikes, harrow (or Teeth straight), in boxes, barrels, or in bulk in gunny bags.
Nails, horseshoe or finishing, in boxes.	Splices, railroad.
Nuts, in boxes, kegs, or in bulk in gunny bags.	Spring Plates, car.
Nut Locks, in packages.	Stake Pockets, car.
Pig Iron, L. C. L.	Staples, in boxes or kegs, L. C. L.
Piling, steel.	Staples, in boxes, kegs, or in bulk in gunny bags, C. L.
Pipe, cast, plain or porcelain lined (Note I).	Switches, Switch Points and Switch Stands, railroad.
Pipe, sheet-iron, cement lined, C. L.	Tack Plate.
Pipe, steel, riveted, not exceeding 4 feet in diameter, C. L.	Tank.
Pipe, wrought, not in coils.	Telegraph Poles.
Pipe Balls, in packages, L. C. L.	Telegraph Pole Steps, in boxes, kegs, or in bulk in gunny bags.
Pipe Balls, C. L.	Tie Plates, railroad.
Pipe Fittings.	Ties, railroad, L. C. L.
Plate, not including Armor Plate and Deck Plate for war vessels.	Ties, railroad, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Poles, Pole Irons and Mast Arms, electric light or railway.	Timber Dogs, C. L.
Rail Braces.	Timber Dogs, in packages, L. C. L.
Rail Joints.	Tinning Pots (iron or steel), C. L.
Rails, new or old, L. C. L.	Tin Plate Bars, L. C. L.
Rails, old, regardless of the purpose for which they are used, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).	Tin Plate Bars, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Railroad Crossings, iron or steel.	Tin Plate, or Terne Plate Scraps or Clippings, pressed in bales or bundles, or packed in barrels, C. L., per gross ton 2,240 pounds, same as 2,000 pounds; minimum weight 15 tons.
Rings (for protecting thread of iron pipe), in boxes, barrels or bundles, L. C. L.	Toe Calks, in boxes or kegs.
Rings (for protecting thread of iron pipe), C. L.	Trusses, roof, iron or steel.
Rivets, in boxes, kegs, or in bulk in gunny bags.	Tubing, in the rough.
Rods, tie (iron or steel).	Tubing, seamless, iron or steel.
Rods, Iron Sucker, C. L.	Turn Buckles, wrought iron truss.
Roofing.	Turnings, iron or steel, per gross ton 2,240 pounds, same as 2,000 pounds, C. L.
Sash Weights, in bundles, L. C. L.	Turn Tables.
Sash Weights, C. L.	Tuyeres.
Scale, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).	Washers, in boxes, kegs, or in bulk in gunny bags.
Scrap, in barrels or casks, L. C. L.	Wedges.
Scrap, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note H).	Wedges, tie plate, C. L.
Scrap Iron or Scrap Steel, L. C. L., shipped loose, when in pieces too large to be packed in barrels or casks.	Weights, elevator, in boxes or barrels, L. C. L.
Scrap Tin, C. L., per gross ton 2,240 pounds, same as 2,000 pounds; pressed in bales, minimum weight 15 tons. Loose, loaded in box, or stock cars only, minimum weight 20 tons.	Weights, elevator, loose, each weighing 15 pounds or over, L. C. L.
Shafting (not including Crank Shafts), unfinished, not key-seated or key-leaved, N. O. S.	Weights, elevator, securely wired together in bundles, weighing 15 pounds or over, per bundle, L. C. L.
Sheet, U. S. Standard Gauge No. 20 or higher (Note E).	Weights, elevator, C. L.
Sheet, corrugated.	Weights for folding beds, in crates or boxes.
Sheet, galvanized.	Wheels (car), old, loose or attached to axles, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Sheet Bars, L. C. L.	Wheels (car), new, attached to axles.
Sheet Bars, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).	Wheels (car), not attached to axles.
Shingle Bands, in bundles or barrels.	Wire, barb or fence.
Shovel Blanks.	Wire, binding, or Wire Ties.
Skelp.	Wire Box Straps, in packages.
†Slabs, L. C. L.

Wire Rods, in coils, unfinished, not drawn through a die, L. C. L.

Wire Rods, in coils, unfinished, not drawn through a die, C. L., per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Wire, telegraph (not coppered, insulated or covered).
Wire, in bundles or coils (not coppered, insulated or covered). (Note D.)

*The rates on Billets and Blooms will apply only upon such unfinished materials as are intended to be re-rolled, and can be transported in open cars without damage from exposure to weather, and which are covered by the following description: Billets and Blooms, the combined measurement of the width of the four sides of each being not less than fourteen (14) inches; also Billets, in less sizes than the above named, provided they are square (not round, flat, or oval), the minimum size to be not less than one and one-quarter ($1\frac{1}{4}$) inches square, and the weight of each being not less than 150 pounds.

†The rates on Slabs will apply only upon such unfinished materials as are intended to be re-rolled, and can be transported in open cars without damage from exposure to weather, and which are covered by the following description: Slabs, rough, and unfinished, the combined measurement of the width of the four sides of each being not less than fourteen (14) inches and each slab to be not less than one and one-half ($1\frac{1}{2}$) inches in thickness.

NOTE A.—Will not apply on Bars, either square, round or otherwise shaped, on which any work has been done, except that of galvanizing, drawing, grinding, hammering or rolling.

NOTE B.—Applies only on articles not otherwise specified in the Classification and Exception Sheet governing, and when shipped in the rough and not fitted, painted, japanned, bronzed, coppered, acid coppered, plated, tinned or galvanized.

NOTE C.—Applies only on articles shipped in the rough and not fitted, painted, japanned, bronzed, coppered, acid coppered, plated, tinned or galvanized.

NOTE D.—Does not include Mattress Wire, woven, in rolls, crates, or casks.

NOTE E.—Will not apply upon crystallized, decorated, enameled, japanned, marbled, nickel-plated, or planished Sheet Iron or Steel.

NOTE F.—Articles bearing reference to Note F will be subject to minimum carload weight of 25 gross tons, except when the marked capacity of the car is less, in which case the marked capacity of the car will be the minimum weight; but in no case is the minimum weight to be less than 15 gross tons.

NOTE G.—The minimum carload weight on Ingot Moulds will be 25 net tons, except when the marked capacity of car is less, in which case the marked capacity of car will be the minimum weight; but in no case is the minimum weight to be less than 15 net tons.

NOTE H.—Articles bearing reference to Note H, will be subject to minimum carload weight of 20 gross tons.

NOTE I.—When cars are loaded wholly with pipe, 18 inches or more in diameter, 24,000 pounds minimum; when cars are loaded wholly or in part with pipe less than 18 inches in diameter, 30,000 pounds minimum.

RULES AND REGULATIONS GOVERNING ALL ARTICLES IN IRON AND STEEL LIST.

Unless otherwise specified, the rates established in connection with the Special Iron List are not to apply on the articles specified above in L. C. L. quantities, when shipped loose, weighing less than 10 pounds each, or in bundles weighing less than 10 pounds per bundle. Such shipments will be subject to rating of Classification and Exception Sheet governing.

The only articles entitled to the Special Iron List rates are those specifically mentioned above and shipped as herein provided, and such articles will not be taken at the Special Iron List rates when the same are not packed or put up for shipment as specifically provided herein.

Shippers will be required to specify in their shipping orders the number of pieces and packages in less than carload shipments of Iron and Steel Articles.

RATES ON MIXED CARLOADS OF LIVE STOCK.

Cattle and Calves in partially double-decked cars; ten per cent. higher than Cattle.

Cattle and Sheep in partially double-deck cars (sheep to be separated from cattle by partition); 10 per cent. higher than Cattle.

Cattle and Hogs, Sheep or Calves, in single-deck cars (hogs or sheep to be separated from cattle by partition); same as Cattle.

Cattle and Hogs, in partially double-deck cars (hogs to be separated from cattle by partition); same as Hogs, double-deck.

Horses and Cattle (horses to be separated from cattle by partition); same as Horses.

Horses and Hogs or Sheep, in single-deck or partially double-deck cars (hogs or sheep to be separated from horses by partition); same as Horses.

Hogs and Calves, or Hogs and Sheep, or Hogs, Sheep and Calves (see Note below); same as Hogs.

NOTE:—Only Sheep, Hogs or Calves (and only Calves small enough to stand erect on either deck free from contact with framing above) may be loaded in double deck cars. In loading mixed carloads of these animals, the Hogs must be kept separate from other animals by loading on different deck. Partitions will not be allowed in double deck cars.

**RICHMOND, FREDERICKSBURG AND POTOMAC RAILROAD COMPANY
AND WASHINGTON SOUTHERN RAILWAY COMPANY—CONTINUED.**

CORD WOOD, CARLOAD.

For fuel and the manufacture of baskets, excelsior and handles.

MILES.	Carloads of 10 cords minimum, excess in proportion, per cord.
1 to 4, inclusive.....	70
5 to 14, inclusive.....	80
15 to 24, inclusive.....	90
25 to 34, inclusive.....	95
35 to 49, inclusive.....	1 00
50 to 59, inclusive.....	1 05
60 to 69, inclusive.....	1 10
70 to 79, inclusive.....	1 20
80 to 89, inclusive.....	1 30
90 to 99, inclusive.....	1 40
100 to 109, inclusive.....	1 60
110 to 116, inclusive.....	1 70

When cars containing cord wood are weighed, the number of cords will be ascertained on basis of following estimated weights:

Pine Wood.....	3,250 lbs. per cord
Oak Wood.....	4,250 lbs. per cord
Pine and Oak Wood, mixed.....	3,750 lbs. per cord

If not weighed, the number of cords will be determined as follows:

When practicable, ascertain cubic measurement of load and allow 128 cubic feet to the cord.

When cars are loaded to physical capacity, making it impracticable to measure the load, use the inside dimensions of the car less 15 per cent.

EXAMPLE 1.—If load measures 8 feet wide, 6 feet high and 32 feet long, the cubic measurement will be 8x6x32, or 1,536 cubic feet, which, divided by 128 cubic feet per cord, makes shipment of 12 cords.

EXAMPLE 2.—Car loaded to physical capacity, inside dimensions stenciled on car, length 32 feet, width 8 feet, height 8 feet, making inside cubic measurement 32x8x8, or 2,048 cubic feet, which, divided by 128 cubic feet per cord, makes 16 cords, and deducting 15 per cent. makes estimated load 13 1-2 cords.

SPECIAL TRAIN SERVICE.

The minimum charge on cord wood, lumber and other bulk freight, when special train service is performed, will be the tariff rate on ten (10) cars of the articles shipped for fifty (50) miles.

Special freight service will be arranged, upon application, only at the convenience of these companies.

**LIMESTONE, GROUND, FOR ACID SOIL TREATMENT, CARLOAD,
MINIMUM WEIGHT 60,000 POUNDS.**

Proportional rates from Richmond, Doswell and Potomac Yard to stations on Richmond, Fredericksburg and Potomac Railroad and Washington Southern Railway on shipments originating on connecting lines within the State of Virginia.

DISTANCES.	Rates per ton of 2,000 pounds.

NOTE 1.—When loaded in cars of:

60,000 pounds capacity or less, minimum 10,000 brick.

80,000 pounds capacity and over 80,000 pounds capacity, minimum 14,000 brick.

100,000 pounds capacity and over 100,000 pounds capacity, minimum 18,000 brick.

If the carrier for its own convenience furnishes a car of greater capacity than required to transport shipment, charge will be assessed upon basis of actual quantity, but not less than minimum for the size of car required.

NOTE 2.—Rates on Canned Goods shown above apply on following articles only:

Condensed Milk,
Cove Oysters,
Evaporated Cream,
Fish.

Fruits,
Fruit Butter,
Jellies and Preserves,
Meats.

Pork and Beans,
Shell Fish,
Soups and Broths,
Vegetables.

SOUTHERN RAILWAY COMPANY—COMMODITY RATES—CONTINUED.

Rate Table No. 12.—Continued.

NOTE 1.—Rule applicable to commodity rates on Firewood.

Cars to be loaded and unloaded by owners; if by the Railway Company, an additional charge of 20 cents per cord for loading and 20 cents per cord for unloading will be made.

NOTE 2.—Transfer charge at Emporia, Va., on carload shipments.

Between standard gauge and narrow gauge cars on carload shipments of Lumber and Forest Products, \$2.00 per standard gauge car; on Brick, Coal and Stone, \$3.00 per standard gauge car; to be added to the regular freight rate. Shipments of bulk freight, such as bulk grain, etc., with the exception of brick, coal and stone, cannot be handled nor can carload shipments of Live Stock be handled on the Claremont Branch of the Southern Railway.

NOTE 3.—Where reference is made to this Note the commodity rates on Stick Bark will apply only to points on the Southern Railway from which the manufactured products are shipped out over the Southern Railway.

SURRY, SUSSEX AND SOUTHAMPTON RAILWAY.

Freight Tariff, revised to December 31, 1913.

THE VIRGINIAN RAILWAY COMPANY—COMMODITY RATES—LIST OF ARTICLES TAKING RATES SHOWN IN
COMMODITY RATE TABLE No. 1.—CONTINUED.

List of Iron and Steel Articles taking rates shown in Rate Bases "CC" and "DD".

Carload minimum weight 36,000 pounds, except where otherwise shown in Notes F, G, H and I, below.

Angle.	Car Coupler Knuckles.
Annealing Boxes, tops and bottoms, cast iron or steel, in the rough, carloads.	Car Sides, Ends, Floors and Carlines (Car Roof Supports), pressed steel.
Annealing Pots (iron or steel), carloads.	Car Sills (pressed steel), riveted together in underframes.
Arch Bars.	Car Stakes, pressed steel.
Arches, floor, corrugated, in sections, nested.	Car Stakes, tubular steel.
Axe Poles, in the rough.	Car Truck Frames.
Axes, new.	Car Wheel Tires, iron or steel.
Axes, car, old, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F.)	Castings, carload (Note B).
Band.	Castings, each weighing 15 pounds or over, less than carloads (Note B).
Bar (Note A).	Castings securely wired together, in bundles weighing 15 pounds or over per bundle, less than carloads (Note B).
Beams.	Castings, in barrels or boxes, less than carloads (Note B).
Billets, not otherwise specified.	Castings, in bulk in gunny bags, less than carloads (Note B).
Billets, less than carloads (Note J).	Castings, malleable; same as Castings.
Billets, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Notes F and J).	Castings, stove, in barrels, boxes or in bulk in gunny bags (Note C).
Black Plate.	Cattle Guards.
Blooms, not otherwise specified.	Centre Plates, car.
Blooms, less than carloads (Note J).	Chain Iron (not iron chain), in coils, less than carloads.
Blooms, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Notes F and J).	Chain Iron (not iron chain), in coils, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Boiler.	Chain or Chain Cable, made of 5-8 inch iron or over, loose.
Boiler Flues, welded.	Chain or Chain Cable, in packages.
Bolts, bridge or barge, 12 inches or over in length, loose.	Chain or Chain Cable, loose, carloads.
Bolts, in boxes, kegs or in bulk in gunny bags.	Chain or Chain Cable, iron or steel, in barrels.
Bolts, lag, in boxes, kegs or in bulk in gunny bags.	Chain or Link Belting, when shipped in bundles, wired together, weighing 15 pounds or more, carloads.
Boring iron or steel, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).	Chairs, railroad.
Box Straps, in packages.	Channels.
Brake Beams.	Chinder, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Brake Jaws, wrought iron.	Columns.
Brake Shafts or Rods.	Conduit Pipe, wrought iron.
Brake Shoes.	Corner Irons, car.
Brick Bonds or Wall Ties, in boxes or barrels.	Cotton Ties.
Bridges.	Cotton Tie Buckles, in barrels or boxes, less than carloads.
Bumpers.	Cotton Tie Buckles, carloads.
Car Bolsters.	Crop Ends, in packages, less than carloads.
Car Bolster Bearings, in packages.	Crop Ends, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Car Bolster Caps.	Culverts, cast or wrought.
Car Couplers.	Culverts, corrugated or plain, knocked down, nested.

THE VIRGINIAN RAILWAY COMPANY—LIST OF ARTICLES TAKING RATES SHOWN IN COMMODITY
RATE TABLE No. 1—CONTINUED.

List of Iron and Steel Articles taking rates shown in Rate Bases "CC" and "DD"—Continued.

Carload minimum weight 36,000 pounds, except where otherwise shown in Notes F, G, H and I, below.

Drawbars.	Shafting (not including Crank Shafts), unfinished, not key-seated or key-leaved, not otherwise specified.
Drawheads.	Sheet, U. S. Standard Gauge No. 20 or higher (Note E).
Ferro-Manganese, less than carloads.	Sheet, corrugated.
Ferro-Manganese, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).	Sheet, galvanized.
Ferro Silicon, less than carloads.	Sheet Bars, less than carloads.
Ferro Silicon, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).	Steel Bars, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Fish Plates, railroad.	Shingle Bands, in bundles or barrels.
Fittings, pipe (Note B):	Shovel Blanks.
Railway car (or parts) not otherwise specified, stamped, pressed or forged; not put together, fitted, painted, lapped, brazed, coppered, acid coppered, plated, tinned or galvanized: in boxes, barrels or in bulk in gunny bags; Loose, each weighing 15 pounds or over; securely wired together in bundles, weighing 15 pounds or over, per bundle (Note B).	Skelp.
Flumes, corrugated or plain, knocked down, nested.	Slabs, less than carloads (Note K).
Forgings: same as Castings.	Slabs, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Notes F and K).
Frog Fillers.	Slot Rails, old: same as Rails, old.
Frogs, railroad.	Spiegel Iron or Spiegeleisen, less than carloads.
Galvanizing Pots or Pans, iron or steel, carloads.	Spiegel Iron or Spiegeleisen, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Girders.	Spikes, in boxes or kegs, actual weight.
Grate Bars.	Spikes, barrow (or Teeth, straight), in boxes, barrels or in bulk in gunny sacks.
Hay Bands, in bundles.	Splices, railroad.
Hoops, wire in bundles.	Spring Plates, car.
Horse, Mule or Ox Shoes.	Staples, in boxes or kegs, less than carloads.
Ingot Moulds (Note G).	Staples, in boxes, kegs or in bulk in gunny bags, carloads.
Ingot, less than carload.	Switches, Switch Points and Switch Stands, railroad.
Ingot, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).	Tack Plate.
Journal Boxes and Covers.	Teak.
Lined Sheet Iron or Steel.	Telegraph Poles.
Links and Pins.	Telegraph Pole Steps, in boxes, kegs, or in bulk in gunny bags.
Locks, cast steel.	Tie Plates.
Locomotive Wheels and Tires.	Ties, railroad, less than carload.
Mach or Puddle Bars, less than carload.	Ties, railroad, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Mach or Puddle Bars, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).	Timber Dogs, carloads.
Nail Plate.	Timber Dogs, in packages, less than carloads.
Nails, in bulk in gunny bags.	Tinning Pot, iron or steel, carloads.
Nails, in boxes or kegs, actual weight.	Tin Plate Bars, less than carloads.
Nails, horseshoe or finishing, in boxes.	Tin Plate Bars, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
	Tin Plate or Terne Plate Scraps or Clippings, pressed in bales or bundles, or packed in barrels, carloads, per gross ton 2,240 pounds same as 2,000 pounds,

Nuts, in boxes, kegs or in bulk in gunny bags.	minimum weight 15 tons.
Nut Locks, in packages.	Toe Calks, in boxes or kegs.
Pig Iron, less than carloads.	Trusses, roof, iron or steel.
Piling, steel.	Tubing, in the rough.
Pipe, cast, plain or porcelain-lined (Note I).	Tubing, seamless, iron or steel.
Pipe, sheet-iron, cement-lined, carloads.	Turn Buckles, wrought iron truss.
Pipe, steel, riveted, not exceeding 4 feet in diameter, carloads.	Turnings, iron or steel, per gross ton 2,240 pounds, same as 2,000 pounds, C. L.
Pipe, wrought, not in coils.	Turn Tables.
Pipe Balls, in packages, less than carloads.	Tuyeres.
Pipe Balls, carloads.	Washers, in boxes, kegs or in bulk in gunny bags.
Pipe Fittings.	Wedges.
Plate, not including Armor Plate and Deck Plate for war vessels.	Weights, tie plate, carload.
Poles, Pole Irons and Mast Arms, electric light or railway.	Weights, elevator, in boxes or barrels, less than carload.
Rail Braces.	Weights, loose, each weighing 15 pounds or over, less than carload.
Rail Joints.	Weights, elevator, securely wired together in bundles, weighing 15 pounds or over, per bundle, less than carload.
Rails, new or old, less than carload.	Weights, elevator, carload.
Rails, old, regardless of the purpose for which they are used, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).	Weights for folding beds, in crates or boxes
Railroad Crossings, iron or steel.	Wheels, car, old, loose or attached to axles, carload, per gross ton 2,240 pounds same as 2,000 pounds (Note F).
Rings (for protecting thread of iron pipe), in boxes, barrels or bundles, less than carloads.	Wheels, car, new, attached to axles.
Rings (for protecting thread of iron pipe), carloads.	Wheels, car, not attached to axles.
Rivets, in boxes, kegs or in bulk in gunny bags.	Wire, barb or fence.
Rods, tie, iron or steel.	Wire Binding, or Wire Ties.
Rods, iron sucker, carloads.	Wire Box Straps, in packages.
Roofing.	Wire, galvanized or steel (not insulated or covered).
Sash Weights, in bundles, less than carloads.	Wire (not coppered), in boxes, kegs, barrels or casks (Note D).
Scale, carloads.	Wire, iron or steel, coppered.
Scrap, in barrels or casks, less than carloads.	Wire Hay Bands, in bundles.
Scrap, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note H).	Wire Rods, in coils, unfinished, not drawn through a die, less than carloads.
Scrap Iron or Scrap Steel, less than carload, shipped loose, when in pieces too large to be packed in barrels or casks.	Wire Rods, in coils, unfinished, not drawn through a die, carloads, per gross ton 2,240 pounds, same as 2,000 pounds (Note F).
Scrap Tin, carloads, per gross ton 2,240 pounds, same as 2,000 pounds, pressed in bales, minimum weight 15 tons.	Wire, telegraph (not coppered, insulated or covered).
Loose, loaded in box or stock cars only, minimum weight 20 tons.	Wire, in bundles or coils (not coppered, insulated or covered) (Note D).

NOTES.

- NOTE A.—Will not apply on Bars, either square, round, or otherwise shaped, on which any work has been done, except that of galvanizing, drawing, grinding, hammering or rolling.
- NOTE B.—Applies only on articles not otherwise specified in the Classification and Exception Sheet governing, and when shipped in the rough and not fitted, painted, japanned, bronzed, acid coppered, plated, tinned or galvanized.
- NOTE C.—Applies only on articles shipped in the rough and not fitted, painted, japanned, bronzed, acid coppered, plated, tinned or galvanized.
- NOTE D.—Does not include Mattress Wire, woven, in rolls, crates or casks.
- NOTE E.—Will not apply upon crystallized, decorated, enameled, japanned, marbled, nickel-plated or planished sheet iron or steel.
- NOTE F.—Articles bearing reference to Note F will be subject to minimum carload weight of 25 gross tons, except when the marked capacity of the car is less, in which case the marked capacity of the car will be the minimum weight; but in no case is the minimum weight to be less than 15 gross tons.
- NOTE G.—The minimum carload weight on Ingot Moulds will be 25 net tons, except when the marked capacity of the car is less, in which case the marked capacity of car will be the minimum weight; but in no case is the minimum weight to be less than 15 net tons.

THE VIRGINIAN RAILWAY COMPANY—LIST OF ARTICLES TAKING RATES SHOWN IN COMMODITY
RATE TABLE No. 1—CONTINUED.

List of Iron and Steel Articles taking rates shown in Rate Bases "CC" and "DD"—Continued.

NOTES—Continued.

NOTE H.—Articles bearing reference to Note H will be subject to minimum carload weight of 20 gross tons.
NOTE I.—When cars are loaded wholly with pipe 18 inches or more in diameter, 24,000 pounds minimum; when cars are loaded wholly or in part with pipe less than 18 inches in diameter 30,000 pounds minimum.

NOTE J.—The rates on Billets and Blooms will apply only upon such unfinished materials as are intended to be re-rolled and can be transported in open cars without damage from exposure to weather, and which are covered by the following description: Billets and Blooms, the combined measurement of the width of the four sides of each being not less than fourteen (14) inches; also Billets in less sizes than the above named, provided they are square (not round, flat or oval), the minimum size to be not less than one and one-quarter (1 1/4) inches square, and the weight of each being not less than 150 pounds.

NOTE K.—The rates on Slabs will apply only upon such unfinished materials as are intended to be re-rolled and can be transported in open cars without damage from exposure to weather, and which are covered by the following description: Slabs, rough and unfinished, the combined measurement of the width of the four sides of each being not less than fourteen (14) inches, and each slab to be not less than one and one-half (1 1/2) inches in thickness.

Unless otherwise specified, the rates established in connection with the Special Iron List are not to apply on the articles specified above in L. C. L. quantities, when shipped loose, weighing less than 10 pounds each, or in bundles weighing less than 10 pounds per bundle. Such shipments will be subject to rating of Classification and Exception Sheet governing.

The only articles entitled to the Special Iron List rates are those specifically mentioned above and shipped as herein provided, and such articles will not be taken at the Special Iron List rates when the same are not packed or put up for shipment as specifically provided herein.

Shippers will be required to specify in their shipping orders the number of pieces and packages in less than carload shipments of Iron and Steel Articles.

RULES.

1. Agent at shipping point must not insert these rates in bills of lading nor on waybills, but must waybill the shipments at regular tariff rates.

2. Rates named herein will not apply on shipments destined to points located on connecting lines beyond switching limits of the junction point with those lines. Where the raw material is consigned to a plant or industry located at a point on a connecting line within switching limits, the switching charge of that line will be in addition to the rates shown in this tariff; also where the material originates at a point on a connecting line within switching limits destined to a point on The Virginian Railway, switching charge of the connecting line will be in addition to these rates. Plants or industries located on the Norfolk & Portsmouth Belt Line Railroad will be accorded Norfolk rates.

3. Within twelve months after date of shipment of the finished stock or manufactured product, the miller or manufacturer must surrender to the agent at milling or manufacturing point the original paid freight bills covering shipments of raw material, together with statement of shipments of finished stock or product, showing dates of same and points of destination.

4. Agent at milling or manufacturing point will then attach copy of billing covering shipments of finished stock or product from his station to points of destination and forward all papers to the General Claim Agent at Norfolk, Va.

5. The General Claim Agent will then refund to the miller or manufacturer the difference between:

The local rate charged to the } and } the raw material rate shown herein,
milling or manufacturing point. } on basis of the inbound weight.

provided a formal declaration (or affidavit when required) is made by claimant that the outbound weight represents a fair and just equivalent of the inbound weight after making due allowance for waste or refuse occurring in the milling or manufacturing process.

6. Twelve months' time from date of original expense bill will be allowed for milling or manufacturing.

Plants or industries located on the Norfolk & Portsmouth Belt Line Railroad will be accorded Norfolk rates.

3. Within twelve months after date of shipment of the finished stock or manufactured product, the miller or manufacturer must surrender to the agent at milling or manufacturing point the original paid freight bills covering shipments of raw material, together with statement of shipments of finished stock or product, showing dates of same and points of destination.

4. Agent at milling or manufacturing point will then attach copy of billing covering shipments of finished stock or product from his station to points of destination and forward all papers to the General Claim Agent at Norfolk, Va.

5. The General Claim Agent will then refund to the miller or manufacturer the difference between:

The local rate charged to the } and { the raw material rate shown herein,
 milling or manufacturing point } on basis of the inbound weight,

provided a formal declaration (or affidavit when required) is made by claimant that the outbound weight represents a fair and just equivalent of the inbound weight after making due allowance for wastage or refuse occurring in the milling or manufacturing process.

6. Twelve months' time from date of original expense bill will be allowed for milling or manufacturing

NOTE 1.—Grain, Hay, Straw, Shucks and Fodder, C. L., minimum weight as follows: Grain, straight or mixed with Hay, Straw, Shucks, or Fodder, 30,000 pounds. Hay, Straw, Shucks and Fodder, straight or mixed, 20,000 pounds.

NOTE 2.—Live stock, C. L., subject to following minimum weights: Horses, Mules and Cattle, 20,000 pounds; Hogs, single-deck, 16,000 pounds; Hogs, double-deck, 22,000 pounds; Sheep, single-deck, 14,000 pounds; Sheep, double-deck, 18,000 pounds.

NOTE 3.—Rates on Lumber will apply also on following articles, in straight or mixed carloads:

Bases,	Heading Blocks,	Sheeting,
Baseboards,	Hoops,	Siding,
Belusters,	Hoop Poles,	Stairwork, knocked down,
Carpenters' Moulding,	Joist Timbers,	unpainted,
Casing,	Laths,	Sills,
Ceiling,	Logs,	Staves,
Columns, not painted,	Lumber, rough or dressed,	Stave Bolts,
Cooperage Stock,	Piles,	Studding,
Cross Arms, telegraph or telephone,	Poles,	Ties, cross,
Flooring,	Posts,	Wainscoting,
Frames, knocked down, unpainted,	Shingles,	Weatherboarding,
Framing,	Shooks,	
Heading,		

NOTE 4.—If shippers desire the privilege of peddling carload shipments of Melons, Bananas, Green Fruit and Green Vegetables in transit, between points governed by this Tariff, the following arrangement will apply.

The privilege of disposing of or selling en route will be granted, provided sales are made during the usual stoppage of trains, but under no circumstances is a train to be stopped for that purpose. In every case the car should continue in the train to final destination, and the man in charge of the shipment must sign a release, V. & S. W. Ry. Train Permit Form No. 190, indemnifying the company against loss or bodily injury to himself from any cause whatever while in charge of such shipment. The attendant must purchase a ticket from billing point to final destination of the car. The billing agent will note on waybill the number of said ticket and to what point, also number of Freight Train Permit.

NOTE 5.—Loading may be finished at intermediate stations without additional charge, at the rate from point of origin to final destination.

On an article taking higher than "Merchandise" rate, such as "One and one-half Merchandise," "Double Merchandise," etc., the graduate charge will be correspondingly increased to one and one-half times, double, etc., the amount shown in above scale, as the case may be.

A railway line, which is owned, operated or controlled by another railway line on account of ownership of a majority of its stocks, leases or otherwise, shall, when there are points of connection between them, be regarded as a part of the line owning or so controlling the same; and continuous mileage is to be used in arriving at the express rates as over one system of railway.

EXPRESS TARIFF No. 1.

(Applicable to all express companies.)

MERCHANDISE MILEAGE RATES.

Prescribed by the State Corporation Commission of Virginia for use by Express Companies in the State of Virginia over One System of Railway.

(Charges for packages weighing less than 100 pounds are shown in Graduated Scale on page 589.)

Distances.....	1 to 30 miles	31 to 60 miles	61 to 80 miles	81 to 100 miles	101 to 150 miles	151 to 175 miles	176 to 200 miles	201 to 250 miles	251 to 300 miles	301 to 350 miles	351 to 400 miles	Over 400 miles
Rates per 100 pounds...	40	50	60	70	75	90	1 00	1 10	1 20	1 30	1 35	1 40

Governed by Express Classification as published herein, and the following

RULES:

1. On a shipment moving from a point within this State to another point within this State, between which there is more than one route, the lowest mileage rating shall not be exceeded, regardless of the route by which such shipment shall actually travel.

2. For packages weighing 24 ounces and less, the rate of one cent per ounce, to be prepaid, minimum charge 15 cents, applies on shipments of Merchandise or Samples thereof, value of package limited to \$10.00, but not to include the following articles, namely:

Jewelry or Imitations of Jewelry.

Watch Cases.

Watch Movements.

Silverware or Sealed Packages (except sealed packages of Cigars).

Cut Flowers.

Tobacco Tags or Premium Certificates.

Live Animals or Live Birds.

Written Matter, either by pen or typewriter (except invoices accompanying packages sent C. O. D.).

3. When the charge according to the State Corporation Commission's "Graduate Scale for Packages weighing less than 100 pounds" is lower than any of the minimum charges shown in Express Classification, or Sections "A" and "B" thereof, the former shall apply.

4. Commodity or Special Rates, where in effect, shall always have precedence over the regular mileage tariffs.

EXPRESS TARIFF No. 2.

(Applicable to all express companies.)

Over 200 and not over 250 miles.....	55 "
Over 250 and not over 300 miles.....	60 "
Over 300 miles.....	70 "

RULES.

1. These rates apply as *pound rates, with a **minimum charge of 30 cents**; but the charges of one express company must not exceed 25 cents on a package weighing 5 pounds or less.

2. On shipments handled by one express company over two or more railways not under the same control, the rate charged must not exceed the combination of mileage rates over each railway less 10 per cent.

3. On shipments handled by two or more express companies, the rate charged by each express company must not exceed the regular rate on mileage basis to and from point of interchange less 10 per cent.; the minimum charge for each express company in such cases being 25 cents. Commodity rates are to be applied to or from such junction points, as the case may be, when in effect, in connection with the proper rate for the remainder of the distance traveled; provided that where through commodity or special rates lower than those made on the above basis are in effect, such lower rates shall apply.

4. On articles appearing in Express Classification as "General Special," which are not named above, the rates will be 80 per cent. of the "Merchandise" rates, *pound rates, governed by the above rules, except that the minimum charges will be as follows:

When carried by one express company, 35 cents, but not to exceed the Merchandise Graduate under the rate used.

When carried by more than one express company, 25 cents for each express company.

*For explanation of "pound rates," see Rule 6 (d) of Express Classification.

EXPRESS TARIFF No. 2—CONTINUED.

These articles are:

Branches of P e p p e r Trees.	Fish, live, in water for food	Mushroom Spawn. Olives.
Bread.	Fish Roe.	Oysters, in bulk.
Calves, dressed,	Fruit, N. O. S., green or dried.	Pigeons, dead.
Celery or Celery Plants.		Poultry, dressed.
Clams, shelled.	Greens, decorative (except when enclosed in baskets).	Rabbits, dead.
Crackers.		Sausage.
Cream, not condensed or otherwise manufactured or prepared.	Horse Radish, not grated or prepared.	Scallops, in bulk.
Egg Juice, or Liquid Eggs.	Maple Sugar and Maple Syrup.	Scrapple.
Eggs, dried.	Meat, cured and fresh.	Shrimp.
Fish, fresh, frozen or not frozen.	Mince Meat.	Squabs, dressed.
		Turtles, fresh water.
		Yeast, all kinds.
		Zwieback.

5. Where this tariff makes the rate or charges higher on any shipment, including interline traffic of one express company and business handled by two or more express companies, than "Merchandise" Express Tariff No. 1 or Express Tariff No. 3 and "Graduated Scale for Packages weighing less than 100 pounds," the "Merchandise" rate or charges will apply.

6. On a shipment moving from a point within this State to another point within this State, between which there is more than one route, the lowest mileage rating shall not be exceeded, regardless of the route by which such shipment may actually travel.

7. On traffic between Richmond and points on the Norfolk and Western Railway west of Burkeville, excepting the Shenandoah Division north of Roanoke, the through rates by any route will be the same as between Petersburg and such points. The Petersburg mileage is to be employed in arriving at these rates, which shall be regarded as applying on one railway. The rates between Richmond and any point on the Norfolk and Western Railway, between Burkeville and Petersburg, are not to exceed the rates between Richmond and Rice, Va., on similar traffic.

8. Commodity or Special Rates where in effect shall always have precedence over the regular mileage tariffs.

EXPRESS TARIFF No. 3.

(Applicable to all express companies.)

PROPORTIONAL MERCHANDISE MILEAGE RATES.

Prescribed by the State Corporation Commission of Virginia for Use by Express Companies in the State of Virginia, as follows:

In the construction of through rates over two or more railways not under the same control, but operated by one express company, on mileage basis for each railway over which rates are made. (For packages weighing less than 100 pounds, charge on basis of the through rate according to the Commission's Graduated Scale, shown on page 589).

In the construction of through rates on traffic handled by two or more express companies by combining rates made according to this tariff to and beyond points of interchange between express companies. (For packages weighing less than 100 pounds, charge according to Rule 4 of this tariff.)

Distances.....	1 to 30 m iles	31 to 60 m iles	61 to 80 m iles	81 to 100 m iles	101 to 150 m iles	151 to 175 m iles	176 to 200 m iles	201 to 250 m iles	251 to 300 m iles	301 to 350 m iles	351 to 400 m iles	Over 400 m iles
Rates per 100 pounds..	25	35	50	60	70	80	90	1 00	1 10	1 15	1 20	1 25

Governed by Express Classification as published herein, and the following

RULES:

1. On a shipment moving from a point within this State to another point within this State, between which there is more than one route, the lowest mileage rating shall not be exceeded, regardless of the route by which such shipment may actually travel.

2. For packages weighing 24 ounces and less, the rate of one cent per ounce, to be prepaid, minimum charge 15 cents, applies between any two points in the State of Virginia on shipments of Merchandise or Samples thereof, value of package limited to \$10.00, whether handled by one or more express companies, but not to include the following articles, namely:

Jewelry or Imitations of Jewelry.

Watch Cases.

Watch Movements.

Silverware or Sealed Packages (except sealed packages of Cigars.)

Cut Flowers.

Tobacco Tags or Premium Certificates.

Live Animals or Live Birds.

Written Matter either by pen or typewriter (except invoices accompanying packages sent C. O. D.)

3. On a package weighing more than 1½ pounds and not more than 5 pounds and valued at \$50.00 or less, the total charge shall not exceed 25 cents between any two points in the State of Virginia, whether handled by one or more express companies.

EXPRESS TARIFF No. 3—CONTINUED.

4. When carried by more than one express company, the total charge on packages rated as "Merchandise," weighing more than 5 pounds and not over 100 pounds, valued at \$50.00 or less, will be the sum of the State Corporation Commission's graduate charges (page 589) for the proportional rates to and from junction points, respectively, with the one graduate charge for the through rate by Express Classification Graduated Scale (page 627), as the maximum; and provided further, that on such packages weighing not more than 50 pounds the revenue of each express company shall be subject to a maximum of 40 cents; or, in the case of the participation by three express companies, the total charge shall not exceed 80 cents.

5. On traffic between Richmond and points on the Norfolk and Western Railway west of Burkeville, excepting the Shenandoah Division north of Roanoke, the through rates by any route will be the same as to or from Petersburg and such points, as per Express Tariff No. 1. The Petersburg mileage is to be employed in arriving at these rates, which shall be regarded as applying on one railway. The rates between Richmond and any point on the Norfolk and Western Railway, between Burkeville and Petersburg, is not to exceed the rate between Richmond and Rice, Va., on similar traffic.

6. When the charge for one express company, according to the State Corporation Commission's "Graduated Scale for Packages weighing less than 100 pounds" is lower than any of the minimum charges shown in Express Classification, or Sections "A" and "B" thereof, the former shall apply.

7. Commodity or Special Rates where in effect shall always have precedence over the regular mileage tariffs.

Rates for the Adams Express Company

Applicable also to and from ports where interchange with the Southern Express Company and the United States Express Company over railway lines according to Express nation via any available route to apply over the route used. (On the General rates of the Southern Express Company and the United States Express shown in Express Tariff No. 3).

Routes in Virginia—Continued.**

RATES ON "GENERAL SPECIAL" ARTICLES.

On all articles appearing in Express Classification as "G. S.," moving by boat between any two of the above-named points where the Merchandise rate is shown, the rate per 100 pounds will be 80 per cent. of the Merchandise rate; to be charged at *pound rate, subject to a minimum charge of 35 cents; but the charge on a shipment weighing 5 pounds or less shall not exceed 25 cents.

To arrive at through rates between points on water lines and points on railway lines reached by the Southern Express Company or the United States Express Company, see note under the general heading on pages 596 and 597.

*For explanation of "pound rates," see Rule 6 (d) of Express Classification.

RATES ON "SCALE K" ARTICLES AND ICE.

Scale of Rates on Articles appearing in Express Classification as "Scale K" namely:

Ale, Beer, Bishop's Beer, Cider, Coca Cola, Ginger Ale, Moxie, Pop, Soda, Mineral and Spring Waters (not including water sent for analysis), Vani-Kola, and Ice.

(a) At *Pound Rates—No single shipment less than 30 cents; except that the charge on a shipment weighing 5 pounds or less shall not exceed 25 cents.

(b) These rates apply to Soda Water and Pop only when in cases covered with wood or in closed barrels; in cases not so covered, Merchandise rates apply.

(c) When the rate on Merchandise per 100 lbs. is.....	40	50	60	75	90	1 00	1 10	1 25	1 40	1 50
The "Scale K" rate per 100 lbs. on Ale, Beer, etc., will be.....	30	35	40	50	60	60	65	75	85	90

(d) Bishop's Beer, Cider, Ginger Ale, Moxie, Pop, Soda, Mineral and Spring Waters (not including water sent for analysis) must be charged at actual weights, at rates named above.

(e) Ale and Beer, in cases, kegs or barrels, to be billed and charged for at the following weights:

1/8 barrel.....	50 lbs.	2 doz. quarts in cases.....	85 lbs.
1/4 "	100 "	3 doz. pints in cases.....	80 "
1/2 "	180 "	4 doz. pints in cases.....	105 "
Full size barrel.....	350 "	4 doz. quarts in cases.....	170 "
2 doz. pints in cases.....	55 "	6 doz. quarts in bbls.....	250 "
1 doz. quarts in cases.....	50 "	10 doz. pints in bbls.....	250 "

**Rates for Adams Express Company between Offices on Water
Routes in Virginia—Continued.**

RATES ON "SCALE K" ARTICLES AND ICE—CONTINUED.

(f) Coca Cola or Vani-Kola, estimated weight of cases containing six dozen short pints at 125 pounds.

(g) Should the above scale not show the exact Merchandise rate applicable between two given points, each of which is located on a water line, the next higher Merchandise rate shown therein will be used as a basis for arriving at the rate on "Scale K" articles and ice.

(h) To arrive at through rates between points on water lines and points on railway lines, reached by the Southern Express Company or the United States Express Company, see note under the general heading on pages 596 and 597.

*For explanation of "pound rates" see Rule 6 (d) of Express Classification.

MONEY RATES.

OLD DOMINION STEAMSHIP COMPANY'S LINES.

Following is a list of local offices on the Old Dominion Steamship Company's Lines:

Auburn Wharf, Va.	Dixondale, Va.	Roanes Wharf, Va.

**Rates between Offices of the Adams Express Company on Water
Lines and Offices of the same Company on Rail-
way Lines—Continued.**

RATES ON "GENERAL SPECIAL" ARTICLES.

On all articles appearing in Express Classification as "G. S.," moving between offices of the Adams Express Company on water lines and offices of the same company on railway lines in Virginia, the through rates per 100 pounds will be found by combining the rates over water portions and rail portions of the routes, respectively, as follows:

Over water lines . . . 80 per cent. of the Merchandise rates, as shown on pages 596 and 597 to or from the port where transfer to or from railway line is made.

Over railway lines . . Proportional rates for railway lines, according to Rule 2 or Rule 4 of Express Tariff No. 2. (On the "General Special" articles named in Rule 4 of Express Tariff No. 2, the proportional rate over a railway line is 80 per cent. of the proportional Merchandise rates shown in Express Tariff No. 3.)

The lowest combination by any available routes applies over the route used.

The minimum charge of 35 cents applies through from point of shipment to destination, in connection with the through rates, pound rates (see Rule 6 [d] of Express Classification), made as above, but the charge on a shipment weighing 5 pounds or less shall not exceed 25 cents.

RATES ON "SCALE K" ARTICLES AND ICE.

Scale of Rates on Articles appearing in Express Classification as "Scale K," namely: Ale, Beer, Bishop's Beer, Cider, Coca Cola, Ginger Ale, Moxie, Pop, Soda, Mineral and Spring Waters (not including water sent for analysis) and Vani-Kola; and Ice.

(a) At *Pound Rates—No shipment less than 30 cents (see Rule 12 of Express Classification); except that the charge on a shipment weighing 5 pounds or less shall not exceed 25 cents.

(b) These rates apply to Soda Water and Pop only when in cases covered with wood or in closed barrels; in cases not so covered, Merchandise rates only.

(c) When the rate on Merchandise per 100 pounds is.....	40	50	60	75	90	1 00	1 10	1 25	1 40	1 50	1 75	2 00	2 25
The special rate per 100 lbs. on Ale, Beer, etc., will be.....	30	35	40	50	60	60	65	75	85	90	1 05	1 20	1 35
When the rate on Merchandise per 100 pounds is.....	2 50	2 75	3 00
The "Scale K" rate per 100 lbs. on Ale, Beer, etc., will be.....	1 50	1 65	1 80

*For explanation of "pound rates," see Rule 6 (d) of Express Classification.

**Rates between Offices of the Adams Express Company on Water
Lines and Offices of the same Company on Rail-
way Lines—Continued.**

RATES ON "SCALE K" ARTICLES AND ICE— CONTINUED.

(d) Bishop's Beer, Cider, Ginger Ale, Moxie, Pop, Soda, Mineral and Spring Waters (not including water sent for analysis) must be charged for at actual weights; at the rates named above.

(e) Ale and Beer, in cases, kegs or barrels, to be billed and charged for at the following weights:

$\frac{1}{8}$ barrel.....	50 lbs.	2 doz. quarts in cases.....	85 lbs.
$\frac{1}{4}$ "	100 "	3 doz. pints in cases.....	80 "
$\frac{1}{2}$ "	180 "	4 doz. pints in cases.....	105 "
Full size barrel.....	350 "	4 doz. quarts in cases.....	170 "
2 doz. pints in cases.....	55 "	6 doz. quarts in bbls.....	250 "
1 doz. quarts in cases.....	50 "	10 doz. pints in bbls.....	250 "

(f) Coca Cola or Vani-Kola, estimate weight of cases containing six dozen short pints at 125 pounds.

(g) Should the above scale not show the exact Merchandise rate applicable between a point on water line and a point on railway line, the next higher Merchandise rate shown therein will be used as the basis for arriving at the rate on "Scale K" Articles and Ice.

RATES ON MONEY.

Through rates on Money will be made according to provisions therefor shown with rates on Money between express offices located on water routes, on pages 598 to 599.

COMMODITY RATES.

Commodity rates have precedence over, and where applicable are to be used in lieu of, mileage or regular tariff rates.

For use in State of Virginia by Adams Express Company.

(For Mileage rates on Milk and Cream, and rates on Oysters between certain points, see Tables on second and third following pages, respectively.)

When the rate per 100 lbs. is \$2.00 or more, charge pound rates for 50 lbs. or over; but the charge on a package less than 50 lbs. in weight must not be greater than the charge for 50 lbs. If less than \$2.00 per 100 lbs. graduated charges must be made; but the charge for a shipment at a rate of less than \$2.00 per 100 lbs. shall not be more than the charge on the same shipment when the rate is \$2.00 or more per 100 lbs.

RULES FOR AGENTS OF EXPRESS COMPANIES.

1. (a) Give a receipt of the prescribed form for all matter received. Always ask shippers to declare the value, and when given insert it in the receipt, mark it on the package and enter amount on the way-bill. If shippers refuse to state value, write or stamp on the receipt "Value asked and not given."

2. (a) Require prepayment or guarantee of charges for, and so way-bill, all matter evidently not worth charges. Shipper's name and address must be entered on tags attached to old grips or bags.

(b) *Require prepayment of charges—*

On all matter addressed to persons restrained of their liberty in prisons, penitentiaries and insane asylums.

On passengers' baggage which is to be delivered at railroad stations or steamship piers.

Charges must be prepaid on personal packages for officers or men belonging to the regular Army or Militia when to be delivered in the field or in camp; for officers, sailors and marines in the Navy on sea duty; for cadets at military or naval academies and for students at military schools.

3. (a) All explosives, or dangerous inflammable oils, acids, or materials, including gas cylinders charged at a higher pressure than 500 pounds per square inch., must not be received for transportation, with the exception of small arms ammunition as permitted by the State Corporation Commission.

(b) Men, Women or Children must not be received for transportation.

4. Agents are positively forbidden to make any agreement whatever as to time of delivery of express matter.

5. (a) All matter must be charged for at actual gross weight at time of shipment unless otherwise specially provided for. In calculating charges at the rate 100 pounds (pound rates), the exact amount must be entered on way-bills, and when fractions occur the next higher whole number must be charged.

(b) Estimated weights on shipments usually made with ice are only to be applied when it is necessary to use ice for preservation, and it is used for that purpose only. When no ice is used charge upon gross weight.

(c) Any package containing articles of more than one class will be charged at the rate applicable to the highest classed article contained therein.

6. (a) As to traffic chargeable according to Graduated Scale on two preceding pages, the graduated charges shown therein apply to matter weighing less than 100 pounds when the rate is under \$2.00 per 100 pounds, and to matter weighing less than 50 pounds when the rate is \$2.00 or more per 100 pounds. Examples:—Between points where the rate per 100 pounds is \$1.25, a box weighing 63 pounds must be charged the graduate under \$1.25, which makes the proper charge on "over 60 to 65 pounds" \$1.15.

(b) When the rate between any two points is not given in the table of graduated charges, use the next higher rate for making price, but do not

Rule 6—Continued.

charge more than for 100 pounds at the actual rate. Example:—The correct charge for 75 pounds at 80 cents per 100 pounds would be 80 cents, and not 90 cents according to the graduate on 75 pounds at 90 cents.

(c) *Extra Rate Charges.* On matter subject to extra rate as one and one-half or double rate, find graduated charge according to tariff and then add one-half or double it, as required. Example:—If a package weighs 25 pounds and is chargeable at double rate, and the rate to destination is \$1.00 per 100 pounds, the charge for 20 to 25 pounds is 55 cents, double this—\$1.10 is the proper amount.

(d) *Pound Rates.* A term used to indicate that the rate per 100 pounds specified applies on actual weights, or on authorized estimated weights, of less than 100 pounds without reference to a graduated scale of charges for such weights, but subject to a minimum charge where stated in each case. Where applicable, these rates and minimum charges apply on the aggregate weights of shipments of any number of packages or pieces. Example:—If the rate per 100 pounds is \$1.00, and the weight of a shipment is 30 pounds, the charge at "pound rate" will be 30 cents, provided the minimum charge is not greater than 30 cents.

(e) When the through charge cannot be made correctly to a point within the territory of another company, make price to the transfer point only. When prepaid mark and way-bill the article "paid," with the amount and to what place. If marked or way-billed "paid" it means paid to destination unless otherwise specified. If paid in part, so note on way-bill and on package.

(f) The charge fixed by the issued tariffs and classification does not cover free delivery at points where no free delivery service is maintained, nor at any points beyond established delivery limits.

7. Aggregating Weights:

(a) Two or more packages weighing each 20 pounds or over forwarded by one shipper at the same time to one consignee at one local address, must be charged for on the aggregate weight, if a lower charge is made thereby. (See exception "d.")

(b) Packages weighing less than 20 pounds each, shipped as in the foregoing section, must be aggregated provided they are estimated and charged for as weighing 20 pounds each and a lower charge is made thereby. Actual weight only must be entered on the way-bill. (See exception "d.")

(c) When articles carried at Merchandise pound rates are aggregated in accordance with (a) and (b), the minimum charge applies to the entire shipment (General Special Commodities excepted).

(d) *Exception.* Between points where the rate per 100 pounds is \$1.50 or more, the weights of two or more packages of 20 pounds each, or of less than 20 pounds each if estimated at 20 pounds each, when forwarded from the same point, on the same date, to one consignee, whether from one or more shippers, must be aggregated, if a lower charge is made thereby. Where the rate is less than \$1.50 per 100 pounds, the aggregate charge on shipments from one or more shippers to one consignee forwarded from the same point on the same date, must not be more than where the rate is \$1.50 per 100 pounds.

Rule 7 Aggregating Weights—Continued.

(e) If articles of different classes are aggregated the charge must be made at the rate applying to the highest class.

8. General Specials:

(a) The following commodities are classed as General Specials (G. S.), and will be subject to the rules given below unless specific exception is made for any particular commodity, where listed, viz.:

Beef Fat,	Meat, cured,
Beer Compound,	Meat, fresh,
Beer Tonic,	Milk, N. O. S. (including Con-
"Best" Tonic,	densed Milk),
*Branches of Pepper Trees,	Mince Meat,
*Bread,	*Mistletoe,
*Bulbs,	*Moss,
Butter and Imitations of Butter	Mushroom Spawn,
(including butter made from	Mussels,
nuts).	Nuts, edible, N. O. S.,
Buttermilk,	Olives,
Cactus,	Oysters,
Calves, dressed,	Pigeons, dead,
Cape Jessamines,	*Plants,
Celery or Celery Plants,	Pop Corn,
Cheese,	Poultry, dressed,
Clams,	Poultry Food, prepared,
*Crackers,	Rabbits, dead,
*Cream,	*Roots,
*Cuttings,	Salmon in cans,
Egg Juice or Liquid Eggs,	Sausage,
Eggs for market,	Scallops,
Eggs, dried,	*Scions,
*Ferns, cut,	Scrapple,
Fertilizer,	Seeds,
*Fish,	Shrimp,
Fish Roe,	Shrubs,
*Fruit,	*Smilax,
*Greens, decorative,	Squabs, dressed,
Hides of domestic animals, green,	Stearine,
*Holly,	Stock Food, prepared,
Honey,	Tallow,
*Horse Radish,	Trees,
King Kola,	*Tubers,
Koumiss,	Turtles, fresh water,
Lard or Substitutes for Lard,	*Vegetables,
Malt Cream, Malt Extract, Malt	Water Cress,
Marrow,	Yeast of all kinds,
Malt Nutrine or Malt Vivine,	Zoolack,
Maple Sugar and Maple Syrup,	Zwieback,

*General Special rates apply only when shipped under conditions shown in indexed Classification.

Rule 8 General Specials—Continued.

(b) Charge upon gross weight, except that an allowance of 25 per cent. from gross weight may be made between March 1st and November 30th when it is necessary to use ice for preservation, and it is used for that purpose only.

(c) Shippers must mark the net weight upon packages of any commodity listed as General Special, which is charged for on the net weight, with the addition of a percentage thereof, when it is necessary to use ice for preservation and it is used for that purpose only, unless actual gross weight is less at time of shipment.

When not so marked by shippers, such package must be charged for according to paragraph (b) of this Rule.

(d) When no special rate has been authorized, use the Merchandise rate, but in either case, charge rate per pound (pound rates), with a minimum of 35 cents, unless the graduate under the rate used is less; when carried by more than one company, minimum 25 cents for each company carrying (see Rule 12).

(e) Two or more packages from the same shipper at the same time to the same consignee, may be aggregated and charged for as one.

9. Returned Shipments:

(a) When two or more on-hand shipments are ordered back by the same shippers from the same place, at the same time, such returned packages may be aggregated as provided in Rule 7.

(b) After delivery of a shipment and collection of charges thereon, if it is to be returned to the original shipper, a refund of the charges must not be made except on authority from the original shipper, who becomes the consignee on the return; such authority must not be recognized unless endorsed by the agent at the original shipping point, and the charges thus refunded must be shown as an advance charge on the way-bill covering the returned shipment.

(c) Orders from shippers to return by mail, shipments that were originally forwarded by express, must not be accepted.

(d) Packages originally forwarded by express and remaining "on hand," may, by shipper's orders, be returned by freight; the charge for re-shipping by freight will be 25 cents per 100 pounds, with a minimum charge of 50 cents for each consignment. Two or more packages returned from one place at the same time to the original shipper, may be charged for on the aggregate weight as one consignment. Agents must not endorse shipper's orders to return such packages by freight, unless the outward charge by express, together with the charge for re-shipping by freight, is paid or guaranteed.

10. Valuation Charges on Merchandise:

(a) Merchandise rates are based upon a value of not exceeding \$50.00 per shipment and when the declared value exceeds \$50.00 the following additional charges must be made on the value in excess of \$50.00, viz.: When a value higher than that declared is shown by an invoice accompanying the shipment, the higher value must be charged on. (See section (c) for Paintings, Statuary, Glass, Porcelainware, Pottery, or Chinaware valued at more than \$1,000 per shipment.)

Rule 10 Valuation Charges—Continued.

When Merchandise rate is \$1.00 or less per 100 pounds, 5 cents for each \$100 value, or fraction thereof, minimum 10 cents.

When Merchandise rate exceeds \$1.00 and not more than \$3.00 per 100 pounds, 10 cents for each \$100 value or fraction thereof.

When Merchandise rate exceeds \$3.00, 15 cents for each \$100 value, or fraction thereof.

These charges must not be applied to shipments of Money (except Minor or Base Coin), Bonds, Live Animals, Live Birds or Live Stock, being intended to apply only to packages or shipments of merchandise, jewelry, valuable papers, postage stamps, and Internal Revenue stamps.

(b) When the weights of separate packages are aggregated under Rule 7, the value of each of such separate packages must also be aggregated, and if the gross valuation exceeds \$50.00 an additional charge for valuation must be made.

(c) *Valuation Charges on Paintings, Statuary, etc.*

Shipments of Paintings, Statuary, Glass, Porcelainware, Pottery or Chinaware, valued at more than \$1,000.00 are subject to the following additional charges, on basis of the through Merchandise rate:

On \$1,000.00 of the value, according to section (a)—plus charges according to the following schedule on that part of the value in excess of \$1,000.00:

When the Merchandise rate is not over \$1.00, charge 50 cents per \$100 or fraction thereof.

When the Merchandise rate is over \$1.00, and not over \$3.00, charge 75 cents per \$100, or fraction thereof.

When the Merchandise rate is over \$3.00, charge \$1.00 per \$100, or fraction thereof.

(d) *Valuation Charges on Live Animals, Live Birds or Live Stock:*

The Classification rates on Live Animals, Live Birds or Live Stock apply only when the declared value does not exceed the following:

Horses, Jacks or Mules, \$100.00 each.

Bulls, Burros, Calves, Colts, Cows, Deer, Dogs, Elks, Goats, Hogs, Ponies, Sheep, Steers, or animals not otherwise specified, \$50.00 each.

Birds, Cats, Ferrets, Guinea Pigs, Hares, Mice, Opossums, Prairie Dogs, Rabbits, Squirrels, Fancy Pigeons, or Fancy Fowls, or other Live Fowls (except for market), or Reptiles, \$5.00 each.

When the value declared by the shipper exceeds that given above, an additional charge must be made on the excess value according to the following:

<i>When Merchandise rate per 100 pounds is</i>	<i>The additional charge will be</i>
\$2.00 or less.....	1 per cent. of excess valuation.
Over \$2.00 and not over \$3.00.....	1½ per cent. of excess valuation.
Over \$3.00 and not over \$5.00.....	2 per cent. of excess valuation.

(e) The charges for valuation hereinbefore given must be made on the through rate, whether carried by one or more companies, and in the latter case are to be divided between the companies carrying on the same basis as the through charge for transportation is divided.

(f) The charges for value, as shown above, must in all cases be based on the regular Merchandise rates, and not on the special rates which may have been authorized for particular shipments.

11. C. O. D. Matter:

(a) The letters "C. O. D." and amount to be collected must be plainly marked upon each article with which a bill is sent to be collected on delivery, and a similar entry must be made on the way-bill. If shipper requires collection of charges for return of money, the C. O. D. envelope and package must be plainly marked "C. O. D. \$..... and return charges," and be so way-billed.

(b) Aggregating C. O. D. Matter. When two or more packages are sent to same consignee at the same time, with separate C. O. D.'s, they must not be aggregated; but if one C. O. D. covers two or more packages, they may be aggregated as provided in Rule 7. When a C. O. D. covers two or more packages, the amount of C. O. D. must be marked on each, thus: "C. O. D. \$..... on 2" or "3," as the case may be.

(c) Allow examination or partial delivery of C. O. D. matter only when instructions to do so are written or printed on, or enclosed in, the C. O. D. envelope accompanying the shipment, or upon subsequent written authority from the shipper endorsed by the agent at shipping point. Agents at shipping points will decline to accept C. O. D. shipments with instructions to allow examination or partial delivery, or to subsequently approve shippers' instructions to such effect until shippers execute a release in legal form, exempting an express company and its connections, to which the matter may be transferred to complete transportation, from all loss incident to such examination or partial delivery. The proceeds of each partial delivery must be remitted without delay, subject to the regular charge for paid C. O. D.'s, prepaid or collect, according to instructions on original C. O. D. Wrapper. No partial delivery shall be made until the total amount of freight charges has been paid.

Provided that partial delivery shall not be made when the contents of a package are to be delivered to different parties. When goods are sent on approval, involving but one payment, proceeds for the articles selected must be remitted in the C. O. D. wrapper, the remainder of the goods to be repacked and immediately returned to the shipper.

(d) The amounts of C. O. D. bills for C. O. D. shipments must be collected at the time such shipments are delivered to consignee. Agents are positively prohibited from giving credit on C. O. D. shipments.

(e) All orders to deliver C. O. D. goods without collecting C. O. D. must have the approval of the agent of the company at the shipping point.

(f) When C. O. D. matter is, by order of shipper, through the agent at point of shipment, delivered without collecting, return the C. O. D. bill and envelope with copy of order enclosed, way-billed free, retaining the original order on file.

(g) After a C. O. D. shipment has been forwarded from shipping point if shipper requests that the shipment be delivered to another consignee or that the amount of the C. O. D. be reduced, or that the consignee be relieved of payment of charges, or when the entire amount of the C. O. D. is cut off, the shipping agent will require a fee of 10 cents to be paid before endorsing such instructions; shippers' request must then be way-billed with charge of 10 cents, prepaid; when two or more companies are interested in the transaction, the 10 cents charge will be divided equally, the delivering

Rule 11 (C. O. D. Matter)—Continued.

company being entitled to the odd cent. When a C. O. D. shipment is reforwarded from the original destination no charge will be made for reducing or releasing the amount of the C. O. D.

(h) If C. O. D. matter is refused or cannot be delivered within 24 hours, the shipper must be immediately notified, and if not disposed of within thirty days of such notice, it may be returned subject to charges both ways. If the shipper, after receiving notice of non-delivery from destination agent, requests that the shipment be held for a further period, it may be held for not longer than 60 days after date of arrival of shipment at destination, and forwarding agents are forbidden to make any agreement with shippers to hold the goods for a longer period.

When a C. O. D. shipment is accepted, with instructions from shipper, or subsequently ordered through the agent at shipping point, to be returned in a less period than 30 days, such instructions must be strictly observed. C. O. D. packages that have been forwarded from one point to another on order of shipper, may be held for 30 days from date of reshipment.

Where goods have been shipped by freight and a Bill of Lading for same sent by express C. O. D., the notice of non-payment shall not be given before the arrival of the goods at destination.

(i) C. O. D. matter, and paid C. O. D.'s, returned to shippers, must take the same route and pass through the hands of the same company or companies as when originally forwarded, provided, that when a C. O. D. shipment has been reshipped from the original destination to which it was addressed to another destination, it may be returned to the office at which it originated by the most direct route.

(j) When a C. O. D. is received in transfer and the proceeds are to be returned to an office of the company collecting other than the point of origin such proceeds may be returned direct by the company making the collection.

(k) Each returned shipment C. O. D. must be charged the same amount as was charged for the outward shipment except that when two or more shipments are ordered back by the same shipper, from the same place, at the same time, such returned packages may be aggregated as provided in Rule 7.

12. Minimum Charge:

(a) Unless otherwise provided, a minimum charge applies between points in the State of Virginia on a single shipment, whether carried by one or more express companies.

(b) The minimum charge does not include any charge made for value.

13. Corrugated Paper Shipping Cases and Paper Boxes:

(a) *Shipping Cases of Pulp Corrugated Paper*, containing articles not classified at higher than Merchandise rate, not including glass or other fragile articles, which must be boxed or otherwise packed in accordance with the rules:

(b) When not crated, charge Merchandise rate upon the actual weight,

Rule 13—Continued.

but never less than the following minimum weights based upon exterior measurement, by which is meant the length, width and height added together:

70 to 75 inches, exterior measurement.....	30 lbs.
76 to 80 " " " ".....	40 lbs.
81 to 90 " " " ".....	50 lbs.
Exceeding 90 inches—Refuse	

(c) The weights of such packages may be aggregated in accordance with Rule 7, but each individual package must be estimated at the minimum weight provided above, unless the actual weight is more, in which case the actual weight must be used.

(d) Two or more pulp or corrugated paper shipping cases of uniform size, securely tied together, may be accepted and charged for as one, provided the exterior measurement of the combined package does not exceed 90 inches.

(e) When crated, shipping cases as described above may be charged for at Merchandise rate upon the actual weight, but crates exceeding 110 inches, exterior measurement, must be refused.

(f) *Ordinary Strawboard or Paper Boxes.* Packages consisting of one or more strawboard or paper boxes containing merchandise as specified in paragraph (a) may be accepted without crating when wrapped or securely and compactly tied together with cord, provided that the exterior measurement of such a package does not exceed 50 inches; if the exterior measurement exceeds 50 inches, it must be securely crated, and no such crate exceeding 110 inches in exterior measurement must be accepted for transportation.

The above does not apply to single paper boxes containing Cloaks, Suits or Cloth, which, when wrapped in paper, may be accepted without limit as to size.

(g) *Crates.* The term "crated," as appearing herein, means that all sides and ends of any article so packed must be protected by wooden slats or strips, nailed or screwed together, making a framework strong enough to hold its contents and to permit of its being handled and stowed in wagons or cars on or under other freight without damage to crate or contents. The sides, top and bottom of the crate must be provided with a sufficient number of slats, not more than six inches apart, to hold the contents firmly in place and to protect them from contact with other freight.

Refuse to accept merchandise in strawboard or paper boxes, tendered for shipment in skeleton frames, or in any crate that is not so securely made that it cannot be lifted with its contents and loaded or stowed in wagons or cars with the same safety that a box of the same weight could be loaded or stowed.

14. *Bulky Shipments, Including Machinery:*

(a) Property which, by reason of its great bulk, length or weight, cannot be loaded or carried in the ordinary express car and for which a special car

Rule 14—Continued.

must be provided, must not be accepted for shipment until the dimensions, the weight and a complete description of the property have been reported to the superintendent and arrangements have been made by him for handling and forwarding the shipment, if such arrangements can be made. The charges for a less than carload quantity are not to exceed the charges on the carload minimum weight at the carload rate.

(b) *Carloads.* Unless otherwise provided in the Classification, the charge on a carload of matter classed as Merchandise or at a higher classification shall be computed according to the Classification, but the charge shall not be less than the charge for a shipment of Merchandise weighing 10,000 pounds. Carload rates apply only on carload shipments from one shipper to one consignee.

CLASSIFICATION

Abbreviations and Explanations of words and terms used in the Classification.

Mdse.	stands for Single Merchandise rate.
½ Mdse.	" " One-half Merchandise rate.
1 ½ Mdse.	" " Once and One-half Merchandise.
D. Mdse.	" " Double Merchandise rate.
3 t Mdse.	" " Three times Merchandise rate.
G. S.	" " General Special rate (see Rule 8).
K. D.	" " Knocked Down.
N. O. S.	" " Not Otherwise Specified.

"Boxed" or "Completely Boxed," as appearing in the Classification, means completely enclosed by a wooden box or case with tight sides, ends, top and bottom, dovetailed together or fastened together by nails or screws.

"Crated," as appearing in the Classification, means that all sides and ends of any article or machine so packed must be protected by wooden slats, nailed, screwed or dovetailed together, and of sufficient strength to hold the article so packed, and to prevent it from abrasion or damage when the same is handled and transported with ordinary care.

Unless an article is specifically classified herein at less than Merchandise rate it shall not be charged for at less than Merchandise rate, and if analogous to an article classified at higher than Merchandise rate, it shall be charged for at such higher rate.

Special rules under each heading apply to all articles named thereunder.

This Classification will not apply to shipments of extraordinary size or weight; such shipments, if accepted, will be subject to special contract in each case (See Rule 14)

A	Rate
ACETYLENE GAS (see Note).—In steel cylinders packed with porous asbestos disks, saturated with acetone, each cylinder provided with pressure gauge having fusible plug and charged with gas up to and not more than 240 lbs. per square inch pressure.	Mdse.
Each cylinder or crate in which it is packed must bear a red label reading as follows:	
DANGEROUS.	
<i>This package must be carefully handled.</i>	
It must not be loaded or stored near a radiator, stove or any other source of heat. Lighted lanterns, matches and all other flames must be kept away from it.	
ACETYLENE GAS—Continued.	A
Do not expose to the sun. Fire or other danger or loss may result if these directions are not followed.	
Place label on top of package and load in car with label uppermost.	
Acetylene Gas, liquified, or in any other form than described as above.—Refuse.	
Note.—Acetylene Gas will not be handled over the lines of the Southern Express Company.	
ACIDS.—Dangerous or inflammable.—Refuse.	
ADDRESS TAGS.—Having glass on three sides and a revolving cylinder inside, displaying business cards on cardboard.	Sec A. D.Mdse.

EXPRESS CLASSIFICATION—CONTINUED.

[illegible]

ALMANACS.....	Sec. A Sec. D		
ANIMALS AND BIRDS, live—Not including animals listed under the heading of "Live Stock," after provided, and the number in each box, crate or cage, on the way-bill; the term "caged," when applied to live animals, means that before being placed in the car, the animal must be completely enclosed in a crate of sufficient strength to prevent escape and to insure handling without damage to crate or animal; animals must not be crated after being placed in the car. Food and utensils to be provided by shipper. Charges must be prepaid or guaranteed. Any charge for valuation will be assessed according to Rule 10 (d). Refrigeration upon the execution of the company's Live Stock Contract, except that Birds, Cats, Ferrets, Guinea Pigs, Hares, Mice, Opossums, Prairie Dogs, Rabbits, Squirrels and Pet Stock of similar character, upon which a value not exceeding \$5.00 for each bird or animal has been declared, may be accepted on the ordinary freight receipt. N. O. S. EXCEPTION (not applying to Camels, Dogs or Elephants): Where the Merchandise rate is \$2.00 or more per 100 lbs. Minimum charge \$1.00 (see Rule 12) unless the charge at Double Merchandise is less; in which case assess the latter. The charge between points where the Merchandise rate is less than \$2.00 per 100 lbs. must not be more than the charge at \$2.00 or not crated. CAMELS—Crated or not crated. DOGS: Must be accepted for shipment only upon the execution of the company's Live Stock Contract; without regard to the value placed upon them by the shipper. In crates or kennels. May be taken without being boxed or crated if securely chained and estimated at 100 lbs. each, unless actual weight is more. ELEPHANTS—Crated or not crated. ANIMALS, live—Not including animals listed under heading of "Live Stock," in carloads, estimate at 10,000 lbs., one attendant will be carried free in car with the animals. ANIMALS, live (except Camels and Elephants)—which have been charged the above rates to Fairs or Exhibitions, may be returned to the original point of shipment at one-half the above rates, but not less than single Merchandise rate. This will also apply to Dogs returned from field trials.			
BATTERIES containing, or charged with, liquid solution of acids, not constructed and packed in the manner above described, must be refused.			
NOTE.—Batteries will not be handled over the lines of the Southern Express Company.			
BEEF EXTRACTS—In glass.	Mds.		
BEEF FAT (see Rule 8).	G. S.		
BEER COMPOUND (see Rule 8).	Scale K.

BOOKS: Blank.	Mds.		
Printed, bound or unbound, including Embossed Books for reading by the blind.	Sec. D.		

EXPRESS CLASSIFICATION—CONTINUED.

B-C	Rate	C-D-E	Rate
BOOKS—Continued. From circulating libraries, including Embossed Books for reading by the blind, regular Merchandise graduate on the outward shipment and half the same charge on the return shipment; when returned through two companies the minimum will be 25 cents, equally divided, the delivering company being, entitled to the odd cent.			
BOOK CASES—Same as Furniture.			
BRANCHES OF PEPPER TREES: Completely boxed and packed, so that they may be handled without extra care, prepaid or guaranteed (see Rule 8). Completely enclosed in baskets, and so packed that they may be stowed with other freight, pound rates (see Rule 6d), minimum 35 cents, unless the graduate is less (see Rule 12).	{ Sec. D. G. S.		{ Sec. D. Mds. 3 t Scale K.
BREAD (see Rule 8): Net weight, minimum 25 cents (see Rule 12). Shippers of Bread, in order to avail themselves of charges on net weight, must mark on the outside of the basket, box, or barrel, the actual weight of the same. When received filled for shipment, agents will weigh them, deducting the weight of the empty package from the gross weight, and make charges upon the net. Agents must know that the tare marked on the package is correct. Mixed shipments consisting of Biscuits, Cakes or Pies, when packed with Bread, charge same as for Bread. Bread, unfired.	Mds. G. S.		Mds. 1 1/2 Mds. Sec. D. G. S.
BUGGIES—See Vehicles.			
BRICK, fire—See Fire Brick.			
BULBS: Completely boxed and packed, so that they may be handled without extra care, prepaid or guaranteed (see Rule 8). Completely enclosed in baskets, and so packed that they may be stowed with other freight, pound rates (see Rule 6d), minimum 35 cents, unless the graduate is less (see Rule 12).	Sec. B. Sec. D. G. S.		Scale K. Mds. D. Mds.
BURIAL CASES: Boxed. Not boxed.	Mds. Mds. D. Mds.		
BURLAP—Samples of, used as a wall covering.	Sec. B.		
BUTTER—See Live Stock.			
BUTTER AND IMITATIONS OF BUTTER, including Butter made from nuts (see Rule 8). The rate on Imitations of Butter must not be more than the rate on Butter between the same points.	G. S.		
BUTTERMILK (see Rule 8). In cans estimate at 10 lbs. per gallon.	G. S.		
CHROMOS—See Pictures, also.			
CHRONOMETERS—Must be refused unless boxed.			
CIDER.			
CIGAR BOXES, empty: Boxed. When otherwise packed.			
CIGAR CASES.			
CIRCULARS.			
CLAMS (see Rule 8). Shelled, in bulk, estimated at 10 lbs. per gallon.			
CLOTH—Mackintosh, and woolen samples of; see Mackintosh Cloth and Woolen Cloth, respectively.			
COCA COLA.			
COFFINS—See Burial Cases.			
COLTS—See Live Stock.			
CONFETTI—Prepaid.			
CORN POPPERS ON WHEELS: Boxed or Crated. Not boxed or crated—Refuse.			
CORPSES—Double the lowest regular first-class passenger fare, but never less than \$5.00 for any distance, except that corpses of children under 12 years of age may be carried at single adult passenger fare, but never less than \$2.50. When carried by two or more companies, the charge shall be pro-rated on the basis of the local Merchandise rates, provided that the charge for each company shall not be less than \$3.00 for an adult, or \$2.00 for a child under 12 years. Corpses must be placed in such coffins or cases as will prevent the escape of offensive odors. A certificate of physician or health officer, stating cause of death, and that it was not from infectious or contagious disease, must be attached to way-bill and duplicate pasted on top of case. Corpses must not be sent C. O. D., nor with charges to collect, unless the money to pay the C. O. D. bill, and charges for transportation is deposited with express agent at destination before shipment, and in such cases destination agent shall wire agent at shipping point as to the amount of money placed in his hands to cover the charges or to cover the C. O. D. bill, or both, as the case may be. The cost of telegrams must be paid by the person in whose interest they are sent, and routing be such as to reach destination over the line of the company whose agent has the money on deposit.

	10 feet or less in length..... Over 10 feet to 25 feet, inclusive..... Over 25 feet in length (see Rule 14). LARD OR SUBSTITUTES FOR LARD (see Rule 8)..... LAUNDRY—Packages of..... LETTER FILE CASES—See Furniture. LIQUIDS—In glass, demijohns or jugs; in jugs, Refuse, unless packed in wood or in corrugated paper boxes; not more than one jug must be packed in a corrugated paper box.	Mds. D. Mds. G. 8. Sec. B.	LIQUOR—In kegs, or wooden or corrugated paper boxes, sealed, charges prepaid, may be charged for as follows: Where Merchandise rate is \$3.00 or less per 100 lbs., Merchandise pound rates (see Rule 6d). Where Merchandise rate is over \$3.00 per 100 lbs., 20 per cent. less than Merchandise, pound rates (see Rule 6d), but not less than \$3.00 per 100 lbs. The following minimum charges will apply unless the regular graduate is less: Packages weighing less than 35 lbs., minimum 60 cents when carried by one company, and 50 cents each when carried by more than one company (see Rule 12). Packages weighing 35 lbs., or over, minimum 75 cents when carried by one company, and 50 cents each when carried by more than one company (see Rule 12). On bottles packed in wooden boxes or paper cartons, waybill 4 quart bottles in package at 18 lbs. and for each additional bottle, quart or less, an addition of 4 lbs. must be made. Liquor when shipped under conditions other than those named above..... Liquor in jugs—Refuse, unless packed in wood or in corrugated paper boxes; not more than one jug must be packed in a corrugated paper box.	Mds.	Mds.
	LITHOGRAPHED VIEWS OF CITIES (mounted on cloth). LITHOGRAPHIC STONES—Must be boxed or crated..... LITHOGRAPHS—See Pictures, also	Mds. D. Mds. Sec. D.	HORSES—Estimate single animal at 1,000 lbs., minimum \$25.00 (see Rule 12); the minimum applies to each Horse in the shipment, but the total charge must not exceed the carload rate..... HORSES—Carloads, estimate at 10,000 lbs..... Limit of such animals to be carried as follows: Race Horses, in stalled cars.....16 Horses, other than Race Horses, including Jacks or Mules.....20 In stalled cars.....20 In ordinary cars, not stalled.....28 For each additional animal of either of above classes, assess in addition to the carload charge the Merchandise charge for 1,000 pounds. Carload rate to apply on each special car whether containing one or more Horses, Jacks or Mules not exceeding above limit. When contracting for a carload of Horses to be transported between two points, with the privilege granted to shipper of adding to or unloading from the car at an intermediate point, charge the full carload rate from original point to destination, and in addition thereto for each Horse added or unloaded in transit \$10.00 per head for Horses of the commercial class and \$25.00 per head for Horses of a higher class. If the number of Horses in the car at any time exceeds the Classification limit, assess for each additional animal, in addition to the carload charge and stop-over charge as above, the Merchandise rate for 1,000 lbs. between the points where the additional animals are carried. When the local charge to the point of loading or unloading added to the local charge from that point to destination makes a lower through charge than provided above, the combined local charges will apply. The additional charge for loading and unloading accrues to the company on whose lines it takes place. When the charge provided above for adding to or unloading from carload shipments in transit is assessed, the transaction should be covered by a separate way-bill, and the words "Loading Charge" or "Unloading Charge" (whichever it is), must appear on the way-bill, preceding the amount assessed. Attendants with Horses, Jacks or Mules may be carried subject to the regulations of the railroads, but must not be carried free unless a full car is paid for. When a shipper has contracted for a car to transport a shipment of Horses, he may load therein without extra	3 t Mds. Mds.	Mds.

WATER COLORS

NOTE.—If a shipment of Paintings is valued by shippers at more than \$1,000.00, see provision in Rule 10 (6), for additional charges on account of such valuation.

PIGEONS, live, in coops

Food and utensils must be provided by shipper.

Coops and utensils must not weigh over 150 lbs. each.

Shipper must declare value, and if valued at over \$5.00 each, receive only upon the execution of the company's Live Stock Contract.

If cloth covering is used and forms a necessary part of the coop

Pigeons, fancy, in slatted coops

Between points where the Merchandise rate is less than \$2.00 per cwt.

Between points where the Merchandise rate is \$2.00 or more, per cwt.

The charge between points where the Merchandise rate is less than \$2.00 per cwt. must not be greater than the charge at \$2.00 per cwt.

For Exhibition—When returned from the first place of exhibition to the original point of shipment, if in slatted coops, and 1½ Mds. rate was paid to the exhibition or, if in cloth coops, on which D. Mds. rate was paid, the return charge will be ¼ Mds. rate.

Shipments of above description forwarded from one exhibition to another will be charged full Classification rates, and when returned from the final place of exhibition to the original place of shipment will be charged

	SLEIGH BOBS OR RUNNERS—Without bodies, shafts or poles.	1½ Mdse. Mdse.

less than for 10,000 lbs. The charge on a shipment of vehicles weighing less than ten thousand pounds, from one consignor to one consignee, carried in regular express cars shall not exceed the carload rate provided in the foregoing paragraph. When contracting for a carload of vehicles to be transported between two points, with the privilege granted to shipper of adding to or unloading from the car at an intermediate point, charge the full carload rate from original point of shipment to destination, and in addition thereto for each vehicle added or unloaded in transit charge the Classification rate between the points carried: when the local charge to the point of loading or unloading, added to the local charge from that point to destination, makes a lower through charge than provided above, the combined local charges will apply.

AUTOMOBILES OR MOTOR CYCLES—With tanks containing gasoline—Refuse.

AUTOMOBILES OR ANY SELF-PROPELLED VEHICLES AND PARTS THEREOF:

Automobiles which cannot be loaded in the ordinary baggage car, and for which shipper has not secured special car, must not be accepted for offices of connecting companies until arrangements have been made with them through the superintendent, for delivery at destination.

The term "boxed or crated" when applied to Automobiles or any Self-propelled Vehicles, means that before being placed in the car the vehicle must be completely enclosed in a box or crate of sufficient strength to insure handling without damage to the box, crate or vehicle; such vehicle must not be boxed or crated after being placed in the car.

The term "K. D." means that all of the movable parts, such as the wheels, axles, and top, must be removed. Automobiles shipped with carloads of Horse-drawn Live Stock.

Not boxed or crated, minimum weight for Automobiles 1,000 lbs.

Set up, boxed or crated.....

K. K. D., boxed or crated (a Motor Cycle is considered K. D. when handle bar and pedals are removed).....

The Following Rates Are to Be Used Only on Conditions Named Below:

When graduated charges, or any other rates authorized as applicable to any particular commodity, are less than named for the same commodity below, the lower rate must be charged, provided the rules governing the use of the lower rate are fully complied with. These rates apply also to returned shipments.

Section A.

(1) The following matter may be charged for at the Merchandise rate per 100 pounds for actual weight, pound rates (see Rule 6d), between all offices of the following companies:

ADAMS EXPRESS COMPANY,
SOUTHERN EXPRESS COMPANY,
UNITED STATES EXPRESS COMPANY.

(2) In computing charges, all fractions of a pound to be reckoned and charged for as a full pound.

Section A—Continued.

(3) Charges to be prepaid or guaranteed, minimum 35 cents unless otherwise provided (see Rule 12).

(4) The rates provided by Section A will be applied only on matter which is distributed gratuitously for advertising purposes and must not be applied on any package containing articles which are sold to the consignee.

(5) Packages shipped under this Section may be aggregated in accordance with Rule 7 of the Classification, estimating at 20 pounds each, packages weighing less than 20 pounds. The minimum charge will then apply to the entire shipment so aggregated.

(6) Address Tags, having an advertisement printed thereon, and given away for advertising purposes.

(7) Printed, Engraved or Photographed Advertisements on paper, cloth, cardboard or printed blotters, and which cannot be put to any other use than as an advertisement.

(8) Advertising Signs, flat, on or under glass, completely boxed.

(9) Advertising Signs, flat, or Cards, without glass, boxed or crated, also Metal Signs, flat, not boxed or crated.

(10) Almanacs and Pamphlets of similar form to Almanacs, devoted to advertising medicines.

(11) Fish or Oyster Posters or Signs, flat.

(12) Stereotype or Electrotpe Advertising Plates or Newspaper Illustrating Plates, minimum 50 cents; when carried by two or more companies, minimum 35 cents for each company carrying.

Section B.

(1) The following matter may be charged for at the Merchandise rate per 100 pounds for actual weight, pound rates (see Rule 6d), between all companies named in Section A, charges to be prepaid or guaranteed.

(2) In computing charges, all fractions of a pound to be reckoned and charged for as a full pound.

(3) Packages shipped under this section may be aggregated in accordance with Rule 7 of the Classification, estimating at 20 pounds each, packages weighing less than 20 pounds. The minimum charge will then apply to the entire shipment so aggregated.

(4) Auxiliary Newspapers, patent insides, Newspaper Supplements containing reading matter or illustrations, and Reading Matter Plates, or Plates of Pictures or Drawings illustrating reading matter, minimum 25 cents (see Rule 12).

(5) Laundry, packages of, minimum 35 cents (see Rule 12).

(6) Manufactured Cereal Foods, including Flour and Unfired Bread or other Bread shipped from so-called Natural Food companies, minimum 35 cents; when carried by two or more companies, minimum 30 cents for each company carrying (see Rule 12).

Section B—Continued.

(7) Matrix (paper moulds for casting stereotype plates), minimum 35 cents (see Rule 12).

(8) Music Plates, for use by newspapers, minimum 35 cents (see Rule 12).

(9) Plaster, Samples of, minimum 35 cents (see Rule 12).

(10) Samples of Wall Paper in books (not covering Wall Paper in rolls) and Samples of Burlap or other material used as a Wall Covering, with or without Samples of Moulding, enclosed in the same package, minimum 35 cents (see Rule 12).

Section C—Not applicable between points in Virginia.

Section D—Charges at these rates must be prepaid.

(1) These rates apply solely to articles named in paragraph (8).

(2) These rates must not be applied unless the shipper writes or stamps the value on the receipt and on the package, and such declared value does not exceed \$10.00 per package. Each package must have the name of the contents written, stamped or printed thereon, and be so packed that the description may be readily verified by examination. If the amount of the C. O. D. on any shipment exceed \$10.00 Section D rates do not apply.

(3) The rates named will cover transportation between any two railroad offices within the State of Virginia of the express companies named in Section A.

(4) If destined to a point not reached by some company named in Section A, agent will affix the proper postage stamps at point of shipment, and forward by mail, collecting from shipper the full amount paid for postage.

(5) At Common Points all companies named in Section A may receive such packages without regard to destination, but if they cannot forward them to destination except through some other company represented at point of shipment, the packages must be transferred to that company at point of shipment, with all charges received. The same rule shall apply to the same matter on a through way-bill to destination by second company represented at point of shipment. This rule shall not apply to same matter if charged at rates other than in this section.

(6) These rates will not apply to any printed matter named in paragraph (8), if printed, framed or mounted on anything but paper or cardboard, except Maps, as provided below: nor to packages which contain written matter, either by pen or typewriter, excepting invoices accompanying packages sent C. O. D.

(7) Under the conditions named, charge One Cent for each two ounces or fraction thereof, minimum 10 cents; except that packages weighing 50 ounces or more each will be charged two cents per package less than the charge at the rate of One Cent for each two ounces or fraction thereof, but

Section D—Continued.

the charge on packages weighing less than 50 ounces shall not be more than the charge for 50 ounces; when carried by more than one company, the minimum charge for each company is 10 cents (see Rule 12), excess of this divided equally, the delivering company to be entitled to the odd cent.

(8) List of articles to which these rates apply:

ALMANACS.
BLANKS, printed.
BLOTTERS AND BLOTTING PADS, having an advertisement printed thereon.
BLUE PRINTS.
BOOKS, printed, bound or unbound.
BRANCHES OF PEPPER TREES.
BULBS.
CALENDARS, paper or cardboard, not encased or mounted.
CARDS, printed, except Playing Cards.
CATALOGUES.
CATALOGUES, weighing not less than 50 ounces each, and containing not to exceed 3 pages of samples of cloth or colors; when weighing less than 50 ounces charge the same as for 50 ounces.
CATALOGUES, weighing 40 ounces or more two cents per package less than the charge at the rate of one cent for each two ounces or fraction thereof, but the charge on Catalogues weighing less than 40 ounces shall not be more than the charge on Catalogues weighing 40 ounces.
CHROMOS.
CIRCULARS.
CUTTINGS.
EMBOSSSED BOOKS, for reading by the blind.
ENGRAVINGS.
FERNS, CUT.
GINSENG ROOTS, for planting.
GRAIN, Samples of.
GREENS, decorative.
HAND-BILLS.

HELIOTYPE WORK.
HOLLY.
HOP SAMPLES.
INSURANCE POLICIES, blank.
KINETOSCOPE PICTURES ON PAPER.
LABELS, printed.
LITHOGRAPHS.
MAGAZINES.
MAPS, on paper or cardboard, with or without canvas backing or wooden rollers.
MISTLETOE.
MOSS.
NEWSPAPER HEADS.
ONION SETS.
PAMPHLETS.
PERIODICALS.
PHOTOGRAPHS, not framed.
PLANTS.
POSTERS.
PROGRAMMES.
PROOF SHEETS.
PROSPECTUSES.
PUBLICATIONS.
ROOTS, for planting.
SCIONS.
SEEDS.
SHEET MUSIC.
SHOW CARDS, unmounted.
SIGNS, on paper or cardboard, not framed.
SMILAX.
SOLAR PRINTS, not framed.
STEREOSCOPIC VIEWS.
TUBERS.

(9) The following named articles are not included, and whether enclosed with the above named matter or separately, will subject the shipment to Merchandise tariff: Blotters or Blotting Pads not having an advertisement printed thereon, Books entirely blank, Blank Cards, Cardboard, Flexible or Paper Patterns, Letter Paper, Ornamental Paper, Playing Cards, and Samples of Merchandise, including Cloth, Medicine and Sample Cards.

(10) Undelivered shipments which have been sent out under this Section may be returned to original shippers way-billed to collect at the rates charged on the business when sent out.

When "Currency Rate" is mentioned in the following Articles, it means Scale "R" or "Special Rates on Currency" where issued, and does not mean Scale "T." In making charges on Paid Collections, and Paid C. O. D.'s in lots of less than \$5,000 be governed by Article "G" or "J" and Scale "P"; when in amounts of \$5,000 or more use Scale "R."

A.—(1) Money packages, Bonds and Securities must be delivered at the office by shippers. In the case of shipments of Coin or Bullion too heavy to be carried by hand, agents may permit wagonmen to call therefor, but in such cases a representative of the shipper must accompany and retain custody of the shipment until it has been delivered by him to the company's authorized money receiving clerk within its office.

(2) Packages of Money, Bonds or other Securities in amounts of \$500.00 or over cannot be accepted for shipment unless the person who delivers the package to the company shall, at the time of said delivery, write his name in ink on the package.

(3) Packages offered for shipment by bankers or money brokers must be refused unless value is declared.

B.—(1) Graduate charges apply to shipments of less than \$1,000. When the rate between any two points is not given in Scales "S" and "U," use the next higher rate to ascertain the correct charge, but the charge for less than \$1,000 must not be more than the rate for \$1,000.

MONEY RATES, ETC.—CONTINUED.

(2) In calculating charges where the result is not a multiple of five, the next higher multiple of five must be charged.

(3) On Remittance of less than \$1,000 carried by more than one express company apply single graduate for the through rate made by combining the rates for each company on the kind of money carried, unless otherwise provided.

(4) When the through charge cannot be made correctly to a point within the territory of another company, make price to the transfer point only. When prepaid, mark and way-bill the article Paid, with the amount and to what place. If marked or way-billed Paid, it means Paid to Destination unless otherwise specified. If paid in part, so note on way-bill and on package.

C.—(1) Currency, for rates on, see Scales "R" and "T."

(2) Gold Coin, for rates on, see Scale "Q."

(3) Gold Dust, same as Gold Coin.

(4) Silver Coin.—On amounts of \$1,000 and over the rate per \$1,000 face value, is the same as the rate on Merchandise per 100 pounds to the same point, but never less than 50 cents per \$1,000; on amounts less than \$1,000, charge according to Scale "U," using the same rate as is in effect on Merchandise per 100 pounds, but the charge for less than \$1,000 must not be more than would be charged for \$1,000. Example.—If the Merchandise rate is 40 cents per 100 pounds, the rate on Silver Coin in amounts of \$1,000 and over will be 50 cents per \$1,000, and in amounts less than \$1,000, the charge will be the graduate under the 40 cent rate, as shown in Scale "U."

(5) Mexican or South American Silver Coin, charge on the declared market value as follows: In amounts of \$1,000 or more, the rate per \$1,000 will be the same as the Merchandise rate per 100 pounds, but not less than 50 cents per \$1,000; if the weight exceeds 100 lbs. to the \$1,000 value, charge additionally Merchandise pound rates (see Rule 6d of Express Classification) on the excess weight. For amounts less than \$1,000 charge the same as for a Merchandise package of the same weight and value, but the charge for less than \$1,000 must not be more than would be charged for \$1,000.

(6) Minor or Base Coin, such as Nickles and Cents, charge Merchandise rate on actual weight and in addition charge on value as provided for in Rule 10 of the Express Classification. Two or more packages of Minor Coin or Base Coin, forwarded by one shipper, at the same time, to one consignee, may be charged for on the aggregate weight and value.

(7) On packages containing both Currency and Coin, charge regular rate upon amount of each kind of money, the charge not to be greater than for the same amount in Coin, except that packages containing Currency and Silver, or Gold Coin and Silver when Silver does not exceed \$5.00, may be taken at the same rate as though all Currency or Gold Coin.

D.—Bullion Shipments, charge as follows:

(1) Gold Bullion, Gold Sulphides, Gold Cyanides, or any other form of Uncoinced Gold, and Dore Bullion, Gold Coin rates on value and Merchandise graduate rates on weight in excess of 4 pounds to the \$1,000 value.

MONEY RATES, ETC.—CONTINUED.

(2) Silver Bullion, same as Silver Coin (see Article C.)—allowing a maximum weight of 100 pounds to each \$1,000, and in addition Merchandise rate, pound rates (see Rule 6d of Express Classification), on all excess.

(3) Silver Sulphides, Precipitates, Cyanides or any other form of Un-coined Silver, the rate per \$1,000 value is the same as the rate on Merchandise per 100 pounds to the same point, allowing a maximum weight of 100 pounds to each \$1,000, and in addition Merchandise rate, pound rates (see Rule 6d of Express Classification) on all excess.

E.—(1) United States Bonds and Government Bonds of other Countries payable to bearer; and Coupons of any Bonds, other than for collection, charge Currency rate at their market value.

(2) United States Bonds and Government Bonds of other Countries, registered, one-third Currency rate at their market value, but never less than 15 cents per \$1,000 and no single shipment less than 25 cents.

(3) Subscription Certificates to Bonds or Stocks will be charged the same as for the Bonds or Stocks to be issued in exchange therefor.

(4) Letters of Credit, issued in blank or payable to bearer, charge Currency rate on the declared value.

F.—(1) Railroad, State, County, City, Town, and all other Bonds, or Certificates of Stock, payable to bearer (except United States Bonds and Government Bonds of other Countries payable to bearer) and Warehouse Receipts, charge one-half Currency rate at their market value, but not less than 25 cents per \$1,000, unless otherwise provided minimum charge 25 cents for a single shipment.

(2) The same Payable to Order, on which payment may be stopped if lost, including also Incomplete Bonds, Incomplete Certificates of Stock, and Notes, Checks, Drafts, Acceptances and other paper payable to order, including Pension Vouchers, and not for collection, charge one-third Currency rate at their declared market value, but never less than 15 cents per \$1,000. To find the charge on amounts less than \$1,000, take one-third of the graduated charge on the Currency rate which applies to the shipment.

Minimum charge 25 cents for a single shipment.

(3) If the weight of any shipment of Bonds exceeds one pound, assess additionally the Merchandise graduate charge.

(4) Subscription Certificates to Bonds or Stocks will be charged the same as for the Bonds or Stocks to be issued in exchange therefor.

(5) Incomplete National Bank Notes, charge Currency rates.

(6) Drafts sent for acceptance, way-bill P. O. R. (Pay on Return), and charge Currency rate on the face value of the paper when returned. If returned without acceptance, charge 25 cents; when carried by more than one company, add 15 cents for each additional company.

G.—(1) PAID C. O. D.'s CARRIED BY ONE COMPANY—

\$2.00 or under, in Currency or Coin, 15 cents.

Over \$2.00 and not exceeding \$6.00, in Currency or Coin, 20 cents.

Over \$6.00 and less than \$1,000, in Currency or Gold Coin, Scales P. and S.

MONEY RATES, ETC.—CONTINUED.

\$1,000 and less than \$5,000, in Currency or Gold Coin, Scale P.
 \$5,000 and over, Currency, Scale R; Gold Coin, Scale Q.
 Over \$6.00 in Silver Coin, Article C (4.)

(2) WHEN CARRIED BY MORE THAN ONE COMPANY—

\$6.00 or under, in Currency or Coin, 15 cents to the company collecting and 10 cents to each additional company.
 Over \$6.00 to \$25.00 in Currency or Gold Coin, 25 cents to the company collecting, and 15 cents to each additional company.
 *Over \$25.00 and less than \$1,000, in Currency or Gold Coin. Scales P. and S.
 *\$1,000 and less than \$5,000, in Currency or Gold Coin, Scale P.
 *\$5,000 and over, Currency, Scale R; Gold Coin, Scale Q.
 *Over \$6.00 in Silver Coin, Article C (4.)

*Single graduate under the rate of each company carrying.

(3) In all cases paid C. O. D.'s, Collections, Notes, Contracts, Accounts, Bills and similar matter when returned to shipper must take same route, and pass through the hands of the same company or companies as when originally forwarded, except that when a C. O. D. shipment has been re-shipped from the original destination to which it was addressed, to another destination, the proceeds may be returned to the shipper by the most direct route. When a C. O. D. is received in transfer and the proceeds are to be returned to an office of the company collecting other than the point of origin, such proceeds may be returned direct by the company making the collection.

(4) Paid C. O. D.'s, containing Currency and Silver, or Gold Coin and Silver, when Silver does not exceed \$5.00, may be taken at the same rate as though all Currency or Gold Coin.

(5) Paid C. O. D.'s, containing Currency and Signed Notes, Lease or Mortgage, charge same as if all Currency. When, by shipper's instructions, an affidavit from consignee is accepted as payment of a C. O. D., the same charge must be made as if the money were returned.

(6) Advance of the Purchase Price of Goods, or any amount advanced to the shipper, will be charged the same rates as for paid C. O. D.'s, given above. Money Orders for the purchase price of goods ordered by express may be carried free. Express companies will not be required to advance the purchase price of any shipment to connecting companies.

H.—(1) Deeds and Mortgages which have not been recorded, charge Currency rate on the declared value, and when they are to be delivered to officials for record, require prepayment.

(2) Deeds and Mortgages which have been recorded, charge one-third Currency rate on the declared value, but never less than 15 cents per \$1,000 and no single shipment less than 25 cents.

(3) Deeds and Mortgages for collection, see Article L.

I.—Notes, Endorsed Drafts or other papers requiring protest must not be received for collection.

MONEY RATES, ETC.—CONTINUED.

J.—(1) Notes, Checks, Drafts, Accounts or Bills for Collection, when forwarded, way-bill P. O. R. (Pay on Return):

When returned paid, carried by one company—

\$10.00 or under, in Currency or Coin, 25 cents.

Over \$10.00 and less than \$5,000 in Currency or Gold Coin, once and one-half times the charge under Scale P.

\$5,000 and over in Currency, once and one-half times the charge under Scale R; in Gold Coin, one and one-half times the charge under Scale Q.

Over \$10.00 in Silver, once and one-half times the charge under Article C (4).

(2) When carried by more than one company—When amount is \$10.00 or less, the company collecting will charge 25 cents and each additional company carrying 15 cents. When amount is more than \$10.00 the company collecting will charge according to preceding paragraph, and each additional company will charge single rates under Scale P, Q or R. or Article C (4), according to kind of money and amount, but the through charge must not be less than if carried by one company from transfer point to destination.

(3) Agents receiving paper for collection should call the attention of the senders to the price for returning in Currency, and the price for returning in Silver Coin, to prevent any misunderstanding as to the charge in case the paper should be paid in Silver Coin.

(4) The charge on a Paid Collection carried by two or more companies, between points where the single graduate of one company governs, if 50 cents or less, shall be divided equally, the company making the collection being entitled to the odd cent; and, if such charge exceeds 50 cents, it shall be prorated on the basis of the local Merchandise rates.

(5) Paid Collections containing signed notes and money, charge on notes under Scales P or R, according to the amount; and on the money once and one-half the rate as provided in paragraph (1) or (2).

(6) For collecting Bonds, charge the Bond rate on the outward shipment and for the returned money, if paid in Currency, Gold Coin or Draft, and amount is less than \$5,000, charge according to Scale P; if amount is \$5,000, or more, in Currency, charge according to Scale R; if Gold Coin, charge according to Scale Q; if paid in Silver, charge according to Article C (4); if returned unpaid, charge Bond rates both ways.

(7) For Collecting Coupons, on the outward shipment, charge Currency rate. For the returned money, charge the same rate as fixed by paragraph (6) for Bond Collections. If returned unpaid, make the return charge the same as the outward charge.

(8) A Bank Book or other Deposit Book sent with draft for collection of balance shown thereon is not subject to a separate charge.

K.—(1) Ordinary Bills, Accounts, Drafts or Notes not requiring protest, if returned uncollected, 25 cents. When carried by more than one company, add 15 cents for each additional company.

(2) When instructions are given by shipper to accept a note, check or draft in payment of a collection of any character, charge Currency rate

MONEY RATES, ETC.—CONTINUED.

on the face value of the paper under Scale P or Scale R, according to the amount.

(3) For taking notes in blank from one point, and procuring signature of party or parties at another point, and returning the signed notes to the shipper, charge one way on the face value of the notes under Scale P or Scale R, according to the amount. If returned unsigned, charge 25 cents, same as for unpaid collections.

(4) Notes, Drafts, Accounts or Bills for collection, with instructions to accept partial payment, must not be taken unless instructions are to return the amount paid with the collection at once, and when such partial payments are returned, charge shall be made only on the amount enclosed.

(5) For obtaining from consignees receipts for delivery of packages and returning such receipts to the shipper, a charge of 10 cents for each receipt must be made; when carried by two companies, the charge of 10 cents is to be divided equally.

(6) Agents must not accept collections unless assured of the identity and responsibility of the senders. (See General Instructions.)

L.—Mortgages, Deeds, Legal Papers and other valuable papers for collection must be enclosed in sealed envelopes endorsed with description and value of contents, and treated as a C. O. D. Merchandise package, but must be way-billed on a money way-bill. If consignee is to be permitted to examine the papers before payment, instructions to that effect must be marked on packages by the shippers, who must sign a release from all loss resulting from such examination. Outward charges on the package, unless prepaid, to follow as expense on return of proceeds, or paper, if not collected. If any service is to be performed by the express company in exchanging promissory notes or other obligations, in examination of titles, or any other service beyond the usual C. O. D. service, the business must not be accepted except under special contract authorized by the proper officer.

M.—(1) Collections must not be received more than twenty days before due, unless shipper states in writing that the payor has signified his intention to pay the obligation upon presentation, or within 20 days. Such paper, if unpaid at the expiration of the time indicated, must be returned to shipper. Unless instructed to the contrary, agents will return all other unpaid Notes, Drafts or Collections, within 10 days after having notified shipper of the non-payment of the collection.

(2) After a Collection has been forwarded from shipping point, if the shipper requests that the amount of the Collection be reduced, or when the entire amount of the collection is cut off, the shipping agent will require a fee of 10 cents to be paid before endorsing such instructions. Shippers' request must then be way-billed with charge of 10 cents prepaid. When two or more companies are interested in the transaction the 10 cents will be divided equally.

N.—Require shippers to endorse the contents on all packages of Bonds, Checks, Notes, Drafts, Acceptances or Deeds, and request them to keep a record of the numbers and descriptions to aid in recovery if lost.

MONEY RATES, ETC.—CONTINUED.

O.—(1) Bills of Lading, for matter shipped by freight lines, when enclosed in sealed envelopes and forwarded as C. O. D., with privilege of examination, shall be charged for at Merchandise graduate rates, minimum 30 cents, and 25 cents each when carried by more than one company; and in addition the valuation charge under Rule 10 of Express Classification; the charge for returning the money will be the same as for a paid C. O. D. of like amount; if not collected they may be returned free of charge.

When a Bill of Lading sent by express is exchanged by shipper's orders for a new Bill of Lading, charge additionally for securing the latter and returning it to shipper, the same amount as was charged for the original Bill of Lading.

(2) When not sealed, or when accompanied by instructions requiring agents, before delivering the Bill of Lading, to obtain signatures to notes, or to place mortgages for record, secure insurance, or to render other service than simply collecting the amount of the C. O. D. and returning the papers to the consignee, the outward charge will be \$1.00, prepaid, to be divided equally between the companies carrying; the return charge will be, when the amount of notes or mortgages is \$100 or less, 3 per cent. thereof; when the amount exceeds \$100, one per cent. thereof, with a minimum charge of \$3.00. When carried by two companies, the company executing the commission shall be entitled to two-thirds of the return charge. If the consignee declines to execute the papers and they are returned in original condition to shipper, the Bill of Lading may be returned without additional charge.

P.—Legal and other papers in manuscript may be taken at regular graduate and valuation rates, provided in Rule 10, Express Classification.

Q.—(1) Cancelled Vouchers, value limited to \$10.00, charge 10 cents for packages weighing 5 ounces or less, and 2 cents for each additional ounce or fraction thereof, unless the Merchandise graduate charge is less; charges to be divided equally between the companies carrying, the delivering company to have the odd cent, but not less than 10 cents for each company.

(2) Packages containing Uncancelled Checks, or Drafts, or Cancelled Coupons, charge Currency rate on the declared value, and if weight exceeds one pound assess additionally the Merchandise graduate charge.

R.—(1) Pawn Tickets.—Agents must require parties presenting pawn tickets for redemption of goods to state the value. A memorandum of the value must be attached to the ticket, and the value also stated on the receipt given for same.

(2) The amount necessary for the redemption of the goods, together with the pawn tickets and memorandum of value, must be enclosed in a sealed envelope, with total value of money and memorandum marked thereon, addressed to the agent of the company at the point where articles or goods were pledged and charged for at Currency rates prepaid; tickets from one shipper to be presented to different pawnbrokers for redemption of goods may be enclosed in the same envelope.

(3) The goods, when redeemed, are subject on return to regular rates according to Classification on each lot redeemed; and, in addition, a charge to cover expense of packing or handling of not less than 25 cents in each case.

MONEY RATES, ETC.—CONTINUED.

S.—Agents receiving on order to secure goods at another office, or money in lieu of the goods, will charge Classification rates for the return of the goods, or the Classification rate on a Paid Collection of the same amount for the return of the money; if neither goods nor money should be returned, the order must be returned, way-billed with charges 25 cents Collect. If carried over the lines of two or more companies charges will be divided equally, the collecting company being entitled to the odd cent.

Scales P. Q. and R.

Rates on Currency and Gold Coin.

Scale P: To be used for ascertaining rates on Paid C. O. D.'s and Paid Collections in amounts of less than \$5,000; the charge on less than \$5,000 must never exceed the charge on \$5,000 made by Scale "R." (See also Articles G and J of the Money Classification.)

Scale Q: To be used for ascertaining rates on Gold Coin. In amounts of less than \$1,000 graduate under Scale S. If the rate per \$1,000 is not given in the Scale, use the next higher rate in making price, but do not charge more than for \$1,000 at the actual rate.

Scale R: To be used for ascertaining rates on Currency. In amounts of less than \$1,000 graduate under Scale S. If the rate per \$1,000 is not given in the Scale use the next higher rate in making price, but do not charge more than for \$1,000 at the actual rate.

In making Currency and Gold Coin Rates, the Merchandise rates via Rail lines must be used in preference to Merchandise rates via Boat lines which must not be considered unless there is no Rail line; when specific rates have been issued to points reached only by Boat or Stage lines, they must be used instead of the rates made by this Scale.

For Silver, see Article C of the Money Classification.

WHEN THE MERCHANDISE RATE PER 100 LBS. IS		Make the Rate per \$1,000.

Not applicable on water lines. For money rates on water lines, see Special rates included in tariff between points on water routes.

MONEY RATES ETC.—CONTINUED.

Scale T.

Special Rates for Currency.

(1) Between all points in Virginia, unless the regular graduate charge according to Scale S is less. Paid C. O. D.'s or Collections not included for which see sections G and J of the Money Classification.

For \$ 50 or less.....	\$0.25	Over \$150 to \$175.....	\$0.75
Over 50 to \$ 70.....	.30	" 175 to 200.....	.85
" 70 to 80.....	.40	" 200 to 225.....	.90
" 80 to 100.....	.45	" 225 to 250.....	1.00
" 100 to 125.....	.50	" 250 to 300.....	1.25
" 125 to 150.....	.60		

These rates apply between all express offices on railway lines in Virginia, except as shown below for amounts of \$40.00 and less. When shipments pass over the lines of more than one express company, the charges must be divided equally, the delivering company being entitled to the odd cent, but not less than 10 cents to each company carrying.

(2) On remittances carried between two points, both of which are reached by the same express company, namely:

For \$20.00 or less.....	15 cents.
Over \$20.00 to \$40.00.....	20 cents.

(3) The Scale "T" rates do not apply over water lines, for which rates and minimum charges for carrying Money are specifically given in tariffs.

MONEY RATES ETC.—CONTINUED.

Scale U.

Graduated Charges for Amounts of Silver Coin Less than \$1,000.

If the exact Merchandise rate between any two points is not shown below, use the next higher rate shown in arriving at the charge, which, excepting when the Merchandise rate is 40 cents, must in no case exceed that for \$1,000.

(Two or more packages of Silver Coin, one or more of which contains less than \$1,000 each, forwarded by one shipper, at the same time, to one consignee, will be charged for on the aggregate value.)

RATES FOR TELEGRAPH COMPANIES IN VIRGINIA.**COMMONWEALTH OF VIRGINIA, AT THE RELATION OF THE
STATE CORPORATION COMMISSION**

v.

**WESTERN UNION TELEGRAPH COMPANY and ATLANTIC POSTAL
TELEGRAPH CABLE COMPANY.**

CITY OF RICHMOND, December 18, 1906.

In this proceeding the two defendant companies, Western Union Telegraph Company and Atlantic Postal Telegraph Cable Company, appeared before the Commission on the first day of August, 1906, and filed, respectively, separate written answers. The said answers having been carefully considered by the Commission, the Commission is of opinion that in fixing and prescribing a rate for transmitting intrastate telegraphic messages, the Commission is in the exercise of proper State authority and that such exercise of authority is not in conflict with any of the provisions of statutes of the Federal Congress or of the Constitution of the United States relative to post roads or inter-state commerce, referred to in the said answers. The Commission is of the opinion that the rates now fixed and prescribed are just, reasonable and valid, and it is, therefore, ordered as follows:

In receiving, transmitting and delivering telegraphic messages in Virginia, the Western Union Telegraph Company and Atlantic Postal Telegraph Cable Company shall observe and conform to the following rates and requirements, now fixed, prescribed and ordered by the Commission, viz.:

Except as may be otherwise specifically provided at any time by the State Corporation Commission, neither of the said two telegraph companies shall collect, for the service over its line between any two points within this State, more than 25 cents for transmitting a message of ten words or less, exclusive of date, address and signature, nor more than two cents for each additional word in a day message, nor more than one cent for each additional word in a night message. Whenever a message is transmitted over the lines of both of said companies in order to reach destination, neither of said companies shall charge or collect more than forty (40) cents for the service of itself and the connecting telegraph company in transmitting a message of 10 words or less, exclusive of date, address and signature, between any two points within this State, nor more than three cents for each additional word.

Messages shall be received for transmission, and delivered at destination, as now provided by statute, until other provision is made therefor.

Both of the said companies shall forthwith, by proper directions to their officers and agents in accordance with the course of business of each company, properly provide at once for putting into effect the foregoing rates and requirements, the same to take effect on the first day of January, 1907, after which date any rate or provisions in conflict with the said rates and order now fixed and prescribed by the Commission shall be unlawful and void.

This order shall not be construed to infringe upon any right of the said companies under the Constitution and laws of the State of Virginia, or the Constitution and laws of the United States.
